# PROCLAMATION

## EARTH MONTH

**WHEREAS:** Earth Day and its extension Earth Month, are annual global events, aimed at promoting environmental awareness and supporting efforts towards environmental conservation and preservation.

The City of Brampton is a community that strives to conserve, enhance, and balance our natural and built environments to create a healthy, resilient, and sustainable city. Earth Month serves as an opportunity to unite the community to encourage collective responsibility over the Earth's natural resources.

The City of Brampton will celebrate Earth Day on Tuesday April 22, 2025, and Earth Month during the entire month of April. During Earth Month the City will host numerous environmental initiatives including organized and self-directed park clean-ups, community plantings and the City Nature Challenge.

Earth Month facilitates a space for the Brampton community to learn about various City-led and community-led sustainability programs and initiatives and ways they can get involved.

**THEREFORE:** I, Mayor Patrick Brown, on behalf of Brampton City Council, do hereby proclaim April 2025 as “Earth Month” in the City of Brampton.

Mayor Patrick Brown, City of Brampton
