

BRAMPTON URBAN DESIGN AWARDS 2018

CELEBRATING DESIGN EXCELLENCE

Great urban design, planning, landscape design, and architecture are more than just great aesthetics. They serve users and residents in remarkable ways, and define the fabric and character of a city. In 10 years, Brampton's urban design program has fostered awareness of the public realm and the importance of safe, accessible spaces that contribute positively to the image and goals of the City. Our partners in the design, development, and construction industries have responded with high quality buildings and public spaces that represent excellent design solutions, which enhance the quality of life for our citizens.

The 2018 Brampton Urban Design Awards celebrate the best in urban design and planning. These awards acknowledge the creativity and excellence of the individuals, organizations, and firms that strive to make Brampton a great place to live, work and play.
