The council of The Corporation of the City of Brampton ENACTS

(2) by adding thereto, the following as section 10.14:

"10.14 Satellite Dish Antennae

Satellite dish antennae erected in a
residential zone shall be subject to the
following requirements and restrictions:

- (a) shall not be erected in a front yard,
exterior or interior side yard;
- (b) In the instance of a corner lot within
a residential zone where the rear lot
line of the corner lot coincides with
the interior side lot line of an
abutting lot with frontage on the same
street which forms the flankage lot
line of the corner lot, a satellite
dish antennae shall not be permitted
in an area delineated by the exterior

side yard, the rear lot line and a line projected from the rear corner of the dwelling situated on the corner lot, closest to the flankage lot line, and the front corner of the dwelling situated on the abutting lot described above, closest to the corner lot, provided a habitable room is situated on the ground storey level at the front corner of the dwelling situated on the abutting lot.

If the front or interior side yard of the abutting lot which abuts the rear yard area of the corner lot is occupied by an attached or detached garage or carport which effectively separates the rear corner of the dwelling situated on the corner lot and the applicable front corner of the dwelling situated on the abutting lot, then the restriction imposed by this subsection shall not apply to the corner lot.

If one of the two dwellings referred to above is not constructed, then the minimum yard setbacks will be used to establish the rear or front corner of the dwelling which is not constructed.

- (c) Satellite dish antennae shall be located no closer than 1.2 metres to the nearest lot line; and,
