<b>Pole Type</b>			<b>Pole Height</b>
<b>Luminaire Type</b>			<b>Product Number</b>

The developer will ensure the following street light works have been completed prior to requesting inspection from City of Brampton.

The developer has inspected and confirmed the following:

- Street Light poles installed as per subdivision electrical drawing
- Street Light poles are numbered
- Street Light poles are plumb and perpendicular to roadway
- Street Light hand hole connections as per City Standard (Fill in)
- Re-Lamp Complete (**Final Only**) | Date of Re-Lamp (mm/dd/yyyy)
- Lamps have been labeled with Re-Lamp Date (**Final Only**)
- Street Light lenses clean
- Utility temporary overhead wire removed (if any)
- Underground faults repaired (if any)
- Boulevard Restoration
- Street Light System Energized | Date of Energization (mm/dd/yyyy)

I certify that the above street light works have been inspected and completed to the best of my knowledge, and are ready for City inspection.
