- Norval Farm Supply Special Policy Area
- Area Subject To This Amendment

NOTES:

- The land use designations are conceptual only, and will be further refined through the completion of the secondary plan studies, block plan and environmental assessment processes.
- The detailed design/alignment of the collector roads, and the Transit Spine Collector Road, are to be determined through the integrated EA process as part of the block plan and subdivision approval.
- The Natural Heritage and Environmental Management features and system are conceptual only, and will be further refined through the subwatershed study, and studies associated with block plan and subdivision process.
- The Heritage Resource Designations on this schedule may be relocated or removed without the need for an amendment.
