"Ghost Train"
- Ron Baird

Represents the actual size and type of steam engine that plied the rails of the Grand Trunk Railroad to Brampton in the 1800's.

ART PANELS

"Time"
- Ron Baird

Sir Sandord Fleming ("Father Time") was the chairman of the board of the Grand Trunk Railroad. He championed the world-wide acceptance of Standard Time, which by 1929 was accepted by all the major countries of the world. The design honours this historic achievement.

"Trestle Bridge"
- Ron Baird

Echoes the steel railway trestle that traverses the gorge at the Forks of the Credit, just north of Brampton. Remnants of the original wooden trestle are still evident in the existing embankments.

"Tracks"
- Ron Baird

This installation represents the significance of the railway in early 19th century farming settlements.
