Dear Stakeholders,

Re: Stakeholder Update #2

When we last provided an update, the City had prepared draft Terms of Reference (TORs) documents to provide direction for peer reviews on the technical reports related to Brampton Brick's rezoning planning application. In mid-March, the City circulated the TORs to other City departments, the JART (Joint Aggregate Review Team, made up of affected agencies) and stakeholders.

The City is currently reviewing the comments received from the circulation of the draft TORs, including comments from external stakeholders. The revised final TORs are expected to be ready in the next few weeks. This will be followed by consultant selection in accordance with the City's Purchasing requirements for retaining peer review consultants.

Following consultant selection, the proposals of the retained consultants will be made available for public review. At this point, staff will prepare a status report to the Planning Design & Development Committee to provide an update on where the City is in the planning process and next steps. Staff will again report to Planning Committee when the peer review exercise is complete in order to report on the findings and to seek direction to undertake public consultation with area residents and landowners.

For more information on the rezoning application, please contact the City's planner, Natasha D'Souza.
