Stakeholder Update #14

Dear Stakeholders,

The City is still waiting on information from the Ontario Municipal Board with regard to Brampton Brick's appeal on its rezoning amendment. Once received, these details will be communicated through another Stakeholder Update. In the meantime, City staff continues to work with the peer reviewers and plans to report their findings to Council this Spring.

To help assess the impacts to the community from the proposed quarry operation, the City has retained Hardy Stevenson and Associates to undertake an independent social impact assessment study (SIA) on behalf of the City. Residents and community stakeholders may be contacted to provide their perspectives on how the proposed quarry may impact them. The results of the SIA will be reported to Planning Committee and will be used to inform the City's review of the proposal.

For more information on the rezoning application, ongoing peer reviews and the forthcoming social impact assessment, please contact the planner assigned to this file, Natasha D'Souza.
