

IMPORTANT NOTICE TO BUILDERS

New Home Purchaser's Guide

The Building Division has produced a **New Home Purchaser's Guide** with the participation of various City departments. The purpose of this guide is to provide important information for new home purchasers regarding the construction of new subdivisions and homes in the City of Brampton. This guide addresses such issues as developer and builder responsibilities, Ontario Building Code compliance, civic addressing and important contact numbers.

We will be providing our Builders with copies of the Guide and are asking that they be placed in a prominent location in your Brampton Sales Office(s). If you are currently selling and will not be in for permits in the near future, please contact Anthony Magnone at 905-874-2415 to arrange to pick up copies for your Sales Office.

You can preview the **New Home Purchaser's Guide** on the City's website at <http://www.brampton.ca/en/residents/Building-Permits/Documents/home-buyers-guide.pdf>
