

Neighbourhood Traffic Calming Study

Fletchers Creek Boulevard has been selected as a candidate for traffic calming measures in accordance with the City of Brampton Neighbourhood Traffic Management Guide. We are inviting you to come out, get informed and get involved with the process that could lead to changes in your neighbourhood.

What is traffic calming?

Traffic calming is aimed at slowing the speed of cars on the road and helping to change driver behavior. We want to ensure that neighbourhood roads are safe for residents both young and old. Traffic calming measures may include increased enforcement, driver education and the addition of features like reduced lane widths or textured roadways.

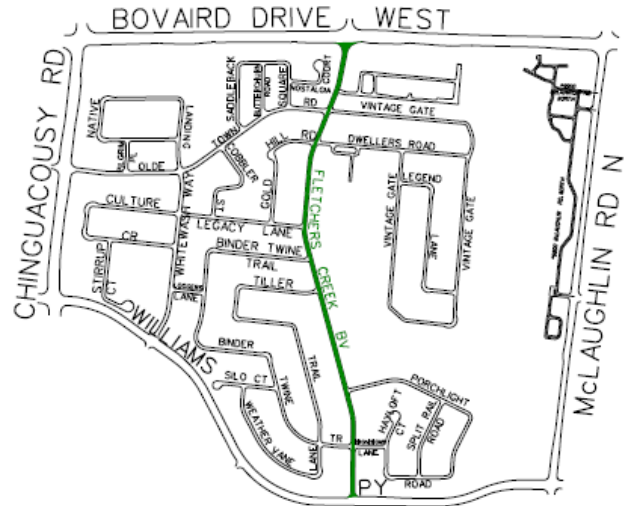

How could traffic calming affect me?

As a resident of the neighbourhood, these measures would slow traffic and discourage people from using your neighbourhood roads as a shortcut. As a driver, it may increase your vehicle travel time within your neighbourhood

What are the next steps?

The City of Brampton is holding a kick-off public meeting to get you involved from the start. Please join us to learn more about the project and find out how you can get involved in shaping your neighbourhood.

Date: Wednesday, February 8, 2012
Time: 6:30 pm – 9:00 pm
Location: Cassie Campbell Community Centre – Multi-purpose Room #3
 1050 Sandalwood Parkway – northwest corner of Chingaucousy and Sandalwood

If you cannot attend the meeting, you still have a chance to comment. Please fill out the attached comment form and return it to the City's project manager. The comment form can also be found at www.brampton.ca/roadworks. Your continued participation is critical to the success of this project. Make your voice heard!
