

# NOTICE OF CONSTRUCTION

DATE  
Street Name,  
From and To

The City of Brampton's Road Resurfacing Contractor will be repairing your street in the near future. These repairs will include: **Road Asphalt, Curbs (as marked), Sidewalks (as marked), Catchbasins and Sewer Access Covers**. Some additional project information you will need to know:

## 1. Driveway Access and Repairs

Driveway access may be interrupted due to curb and/or sidewalk removal; however, this inconvenience will be kept to a minimum. Residents unable to enter their driveways due to construction must park their vehicles on adjacent side streets or elsewhere to accommodate construction activities. Repairs to homeowner's driveways due to construction will be made following the curb and sidewalk repairs. **Please note only the driveway area impacted by the construction will be repaired.** The work will take place Monday to Friday from 7:00 a.m. to 6:00 p.m. and occasionally on Saturdays.

## 2. Parking

All parking signs and regulations must be complied with when parking on adjacent streets. The *Parking 2:00 a.m. to 6:00 a.m. Prohibited By-law* and the *Parking in Excess of 3 hours By-law* will be waived to those unable to access their driveway. Vehicles impeding the construction will be tagged and towed by the City's Parking Enforcement. **Please contact Parking Enforcement at (905) 874-2404, 8:30 a.m. to 4:30 p.m., Monday to Friday or 311, 24 hrs. daily, regarding the waiving of the above By-laws to ensure that your vehicle is not tagged.**

## 3. Encroachment

Construction may also affect any private lawn features within the city boulevard. **Items such as gardens, lawn sprinklers, hedges, driveway timber/concrete edges etc. are the homeowner's responsibility to remove or identify to avoid unintentional damage due to the construction.** For further clarification on property limits, please contact us.

## 4. Sod

Repairs to grass boulevards due to construction will be made following the curb and sidewalk repairs. **Please note only the boulevard area impacted by the construction will be repaired as the City does not provide full boulevard or beyond replacement.** In an effort to keep the City "Clean and Green", we appreciate your efforts to water and maintain the new sod.

## 5. Contact

We look forward to working with you in having our Contractor complete this project in a professional and timely manner. Should you require further information regarding this project, please contact the **Planning and Infrastructure Services Department** at **(905) 874-2500** or visit our website at **www.brampton.ca/roadworks** for up to date construction information or to make an online request for permission to park on City Streets. You can also follow us on **Twitter @BramptonRoads** or like **BramptonRoads** on **Facebook**.

***Thank you in advance for your co-operation and patience.***
