

Fire/Life Safety Education Centre Home of Stephanie's Place

The Fire/Life Safety Education Centre is a hands-on learning facility. Upstairs, Stephanie's Place has been designed to model an average home with a kitchen, living room, bedroom, and bathroom. Fire/Life Safety Education Officers use this special classroom to teach people about typical home dangers, smoke alarms, and home escape plans.

Tours for Grade 1 and Grade 4 students are held on Tuesday, Wednesday, and Thursday. Evening groups are welcome.

All tours are free of charge, the bussing is free, and the building has an elevator for accessibility.
