Tour the Tastes of the World in Our City

Brampton is home to Canada's ninth largest population featuring a vibrant and multicultural community. It comes as no surprise then that this diversity is reflected in the cuisines available throughout the City.

Brampton's diverse multicultural population is proud to share their unique tastes from around the globe. Not only are there many local hidden gems that focus on delivering the tastes of home, there is also a significant number of young talented chefs, drawing on their cultural roots to create innovative dishes.

Many first generation Canadians grew up with home-cooked meals as parents longed for tastes of back home, alongside the new flavours that could be found all around them. The flavours of these two palates is something up and coming chefs have drawn inspiration from and is present in the incredible fusion dishes available within the city.

Brampton residents certainly enjoy the abundance of diverse foods served in the city and we hope you enjoy these offerings too.
