

**Notice of Passing Official Plan Amendment OP93-288
and OP2006-009 and Zoning By-Law 327-2007
Waste Management Land Uses in the City**

TAKE NOTICE that Brampton City Council on October 10, 2007, passed By-law 326-2007 to adopt Official Plan Amendment OP93-288 and OP2006-009, and By-law 327-2007 to amend Comprehensive Zoning By-law 270-2004, under sections 17 and 34, respectively of the *Planning Act*, RSO 1990 c.P.13, to address waste management land uses in the City resulting from the City's Incineration and Waste Processing Transfer and Disposal Study.

An explanation of the purpose and effect is provided below. A key map is not provided as the amendment applies to all lands within the City's municipal boundary. The official plan amendment is exempt from approval by the Region of Peel and the decision of Council is final if a notice of appeal is not received on or before the last day for filing such notice. The complete by-laws and the background material are available at the City Clerk's Office, at the address below during regular business hours.

Only individuals, corporations and public bodies may appeal a zoning by-law or an official plan amendment to the Ontario Municipal Board. A notice of appeal may not be made by an unincorporated association or group. However, a notice of appeal may be made in the name of an individual who is a member of the association or the group on its behalf.

To appeal this official plan amendment or the zoning by-law a **notice of appeal** must be filed with the City Clerk at the address noted below, **no later than 4:30 pm on November 8, 2007**. A copy of an appeal form is available from the OMB website at www.omb.gov.on.ca or by contacting the City Clerk.

The Notice of Appeal must:

- (1) be in writing; and,
- (2) set out the reasons for the appeal, and for the official plan amendment, the specific part of the proposed official plan amendment to which the appeal applies; and,
- (3) be accompanied by the fee prescribed under the Ontario Municipal Board Act in the amount of \$125.00 payable by certified cheque or money order to the Minister of Finance, Province of Ontario.

No person or public body shall be added as a party to the hearing of the appeal unless, before the by-law was passed, the person or public body made oral submissions at a public meeting or written submissions to the Council or, in the opinion of the Ontario Municipal Board, there were reasonable grounds to add the person or public body as a party.

Dated October 19, 2007

K. Zammit, City Clerk
2 Wellington St. W., Brampton, ON L6Y 4R2
905 874-2116 (voice), 905 874-2119 (fax) 904 874-2130 (TTY)
cityclerksoffice@brampton.ca
www.brampton.ca TTY 905-874-2130

Explanatory Note:

Purpose and Effect of OP93-288 and OP2006-009: to add new policies to the Official Plan to direct the development of thermal degradation, waste processing, transfer and disposal uses and power generation uses in the City of Brampton.

The amendments introduce hazardous waste policies and amend the waste management policies to reflect new use classifications and add new definitions. The policies outline the appropriate criteria to be addressed by an applicant where an Official Plan Amendment is required and provide a formalized framework to guide the City's role in reviewing Certificate of Approval applications made to the Ministry of the Environment. The policies also identify and define permitted uses as well as establish minimum separation distances from Sensitive Land Uses.

The amendment also implements the recommendations of the Incineration and Waste Processing, Transfer and Disposal Study that was prepared in response to the City's Interim Control By-law 312-2005 (ICB) on October 12, 2005, to prohibit new and expanded incinerators and waste processing, transfer and disposal facilities (except as is necessarily incidental to any permitted industrial or manufacturing use.).

Purpose and Effect of By-law 327-2007: to amend comprehensive Zoning By-law 270-2004, in accordance with the findings of the Incineration and Waste Processing, Transfer and Disposal Study, in order to amend certain existing industrial zones to identify waste management uses that are permitted in each zone and to reflect new definitions and clarify new terminology and processes.

Location of the Lands Affected: all lands within the City's municipal boundary, but specifically affects those lands designated or zoned Industrial.

Further enquiries or questions should be directed to:

Mr. David Waters (905 874-2074)

Ms. Pam Cooper (905 874-2068)

Planning, Design and Development Department

THE CORPORATION OF THE CITY OF BRAMPTON

BY-LAW

Number 326-2007

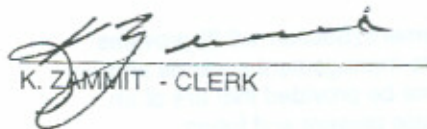

To adopt Amendment Number OP93-~~288~~ and OP2006-~~009~~
to the Official Plan of the
City of Brampton Planning Area

The Council of the Corporation of the City of Brampton, in accordance with the provisions of the Planning Act, R.S.O. 1990, c.P.13, hereby ENACTS as follows:

1. Amendment Number OP93 - ~~288~~ to the Official Plan of the City of Brampton Planning Area is hereby adopted and made part of this by-law.
2. Amendment Number OP2006 - ~~009~~ to the Official Plan of the City of Brampton Planning Area is hereby adopted and made part of this by-law.

READ a FIRST, SECOND AND THIRD TIME, and PASSED, in OPEN COUNCIL, this 10 day of October, 2007.

SUSAN FENNEL - MAYOR

K. ZAMMIT - CLERK

Approved as to Content:

Director, Planning and Land
Development Services.

APPROVED AS TO FORM LAW DEPT. BRAMPTON
<u>C6</u>
DATE <u>24</u> <u>10</u> <u>07</u>

AMENDMENT NUMBER OP93 - 288
TO THE OFFICIAL PLAN OF THE
CITY OF BRAMPTON PLANNING AREA

1.0 Purpose:

The purpose of this amendment is to revise the City of Brampton Official Plan to include policies to direct the development of thermal degradation, waste processing, transfer and disposal uses in the City of Brampton.

2.0 Basis:

This Amendment implements the recommendations of the Incineration, Waste Processing, Transfer and Disposal Study that was prepared in response to the City's Interim Control By-law 312-2005 (ICB) on October 12, 2005, to prohibit new and expanded incinerators and waste processing, transfer and disposal facilities (except as is necessarily incidental to any permitted industrial or manufacturing use).

The purpose of the Study was to develop appropriate land use policies to regulate the development of incineration as well as waste transfer, processing and disposal uses.

While there are established Provincial and Federal regulatory processes for the approval of waste management and energy facilities, there is a parallel municipal responsibility arising from the *Planning Act* and the Provincial Policy Statement to plan for the orderly distribution of land uses, and address matters of land use compatibility. The City addresses these matters through its Official Plan and Zoning By-law.

The *Planning Act* identifies matters of provincial interest that municipalities shall have regard for in carrying out their responsibilities, such that Section 2.0 provides for:

- (f) the adequate provision and efficient use of waste management systems;
- (h) the orderly development of safe and healthy communities; and
- (o) the protection of public health and safety.

Furthermore, the Provincial Policy Statement (Section 1.6.8) provides guidance with respect to municipal waste management systems and requires that waste management systems be provided that are of an appropriate size and type to accommodate present and future requirements, and facilitate, encourage and promote reduction, reuse and recycling objectives. Waste management systems are to be located and designed in accordance with provincial legislation and standards. The Provincial Policy Statement (Section 1.8.2) also promotes increased energy supply by providing opportunities for energy generation facilities to accommodate current and projected needs, and the use of renewable energy systems and alternative energy systems, where feasible.

Consequently, there is a municipal interest in providing direction for the appropriate location of waste and power generation facilities within the City. This includes:

- Waste management infrastructure and energy supply need to be considered as part of the broader municipal planning framework as essential infrastructure to be included in municipal plans;
- The City has a responsibility for orderly distribution of land uses;
- The City has to ensure compatibility with adjacent land uses;

- The City has a responsibility to ensure the orderly development of individual sites; and
- The City has a responsibility for public health and safety (e.g., fire prevention and emergency response).

The Amendment recognizes the different attributes, characteristics and land use impacts of different forms of waste management and power generation uses.

3.0 Location:

This amendment applies to all lands within the City of Brampton, but specifically affects lands designated Industrial.

4.0 Amendments and Policies Relative Thereto:

- 4.1 The document known as the Official Plan for the City of Brampton Planning Area is hereby amended, by adding new Section 4.6.4.7 through to 4.6.4.13 inclusive, as follows:

Power Generation (Fuel Combustion) Use

- 4.6.4.7 A Power Generation (Fuel Combustion) Use may only be permitted as a primary use on lands designated Industrial by way of a Site-Specific Zoning By-law Amendment, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been addressed to the satisfaction of the City:
- (i) the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - (ii) the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - (iii) the applicant shall provide appropriate urban design measures including visual screening of the operation;
 - (iv) the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - (v) the applicant shall provide a Fire Safety Consultant Report.
- 4.6.4.8 Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:
- (i) Air Quality Impact Report; and
 - (ii) Noise Study.
- 4.6.4.9 Where the City requires a technical report from an applicant, the City may, at its sole discretion, require a Peer Review of that technical report and may require the costs of such Peer Review to be borne by the applicant.
- 4.6.4.10 Where a proposed use requires a Zoning By-law Amendment as provided for in the foregoing policies, the City may place a holding symbol on the zone that prevents the development from occurring until the City is satisfied that appropriate environmental approvals from the Province of Ontario or the Government of Canada have been granted. Specific actions or requirements for the lifting of the holding provision shall be set out in the City's Zoning By-law or the amendment thereto. Once

the required conditions are satisfied, a by-law removing the holding symbol will be passed.

- 4.6.4.11 Through the Zoning By-law and Site Plan Control process, the City will manage outside storage associated with a Power Generation (Fuel Combustion) Use to address the visual and aesthetic mitigation, which may include the use of enclosed bins, containers, screening walls and/or landscaping, as well as pest and vermin control.
- 4.6.4.12 Nothing in this section shall affect the continuance of any legally existing Power Generation (Fuel Combustion) Use that existed legally on or before the date of passing of the Zoning By-Law. The City may recognize the existing use in the Zoning By-law. However, the City, in co-operation with the affected businesses, shall attempt to reduce the number of non-conforming uses wherever possible according to the policies of this Plan.
- 4.6.4.13 An application for the enlargement or extension of an existing legal non-conforming Power Generation (Fuel Combustion) Use shall be considered by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment permission, depending upon the nature of the proposal. Consideration of such applications shall be given based on the following:
- a) the proposed expansion does not significantly increase the size of the existing use;
 - b) the proposed expansion does not further deteriorate the non-compliance with the minimum separation distances required in this Section of the Plan;
 - c) the proposed expansion does not significantly increase its incompatibility with the surrounding area; and
 - d) conditions that may minimize any potential nuisances can be imposed, including but not limited to: landscaping, screening, and setbacks."
- 4.6.4.14 Sensitive land uses shall only be permitted in proximity to a Power Generation (Fuel Combustion) Use provided that they do not intrude into established separation distances described in policy 4.6.4.7
- 4.2 The document known as the Official Plan for the City of Brampton Planning Area is hereby amended, by deleting Sections 4.6.5.6 through to 4.6.5.11 inclusive and renumbering Sections 4.6.5.12 through to 4.6.5.17 inclusive as 4.6.5.6 through 4.6.5.11, respectively.
- 4.3 The document known as the Official Plan for the City of Brampton Planning Area is hereby amended, by adding Section 4.6.5.12 through to 4.6.5.14, inclusive, as follows:

"Waste Management Uses

- 4.6.5.12 The direction of waste management uses including thermal degradation, waste processing, transfer and disposal shall be guided by the policies of this Plan and the provisions of the Zoning By-law. In particular, the City shall ensure:

- i) the compatibility between existing and proposed land uses (may vary by extent/intensity of the potential hazard);
- ii) the adequate provision and efficient use of waste management systems;
- iii) the protection of public health and safety;
- iv) the protection of the natural environment;
- v) the provision of adequate transportation system, which directs truck traffic away from residential neighbourhoods; and,
- vi) appropriate site design, through such matters as access, aesthetics, safety, fire protection, protection of natural heritage.

In this regard, the City shall:

- i) encourage and promote efforts to reduce, reuse, recycle and recover energy;
- ii) promote sustainable local energy production and alternative energy sources that adhere to the foregoing; and
- iii) promote extended producer responsibilities such as material recovery operations.

Waste Disposal Uses

- 4.6.5.13 "Waste Disposal Uses may only be permitted on lands designated Industrial, subject to the specific policies for the following types of Waste Disposal Uses as outlined in Section 4.6.5.13 of this Plan.

Through the Zoning By-law and Site Plan Control process, the City will manage outside storage associated with Waste Disposal Uses to address the visual and aesthetic mitigation, which may include the use of enclosed bins, containers, screening walls and/or landscaping, as well as pest and vermin control.

Sensitive Land Uses shall only be permitted in proximity to a Waste Disposal Use provided that they do not intrude into established minimum separation distances described in policy 4.6.5.13

Non-hazardous Solid Waste Transfer Use or Non-hazardous Solid Waste Processing Use

- (i) Non-hazardous Solid Waste Transfer Use or Non-hazardous Solid Waste Processing Use, may only be permitted on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact

Study;

- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

(ii) Notwithstanding Section 4.6.5.13 (i), Non-hazardous Solid Waste Transfer Use or Non-hazardous Solid Waste Processing Use, may be permitted by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment Permission, subject to meeting the four tests of the Planning Act, on lands designated Industrial, provided the use is located a minimum of 70 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
- the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the

City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Thermal Degradation (Non-Energy Producing) Use or Thermal Degradation (Energy from Waste) Use

- (iii) Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use may only be permitted as a primary use on lands designated Industrial, provided the use is located a minimum of 1,000 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide appropriate visual screening of the operation;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

- (iv) Notwithstanding Section 4.6.5.13 (iii), Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use may only be permitted as a primary use by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
 - the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact

Study;

- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
 - Noise Study.
- (v) Thermal Degradation (Energy from Waste) Use may only be permitted as an accessory use in the Industrial designation, provided that the source of waste input to the energy generation is a by-product of the principal use of the site.

Hazardous Waste Transfer Use or Mechanical Sterilization

- (vi) Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Mechanical Sterilization of Waste may only be permitted on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
 - Noise Study.
- (vii) Notwithstanding Section 4.6.5.13 (vi), Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Mechanical Sterilization of Waste may only be permitted by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 70 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
 - the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide appropriate visual screening of the operation;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Hazardous Waste Processing Use or Thermal Degradation (Hazardous Waste) Use

- (viii) Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste may only be permitted on lands designated Industrial, provided the use is located a minimum of 1,000 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
 - Noise Study.
- (ix) Notwithstanding Section 4.6.5.13 (viii), Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste may only be permitted by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
 - the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide appropriate visual screening of the operation;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Hazardous Waste Transfer Use or Hazardous Waste Processing Use

- (x) To address the protection of public health and safety, Hazardous Waste Transfer Use or Hazardous Waste Processing Use for Severely Toxic Waste; Radioactive Waste; and PCB Waste may only be permitted on lands designated Industrial by way of Site-Specific Official Plan and Zoning By-law Amendments, wherein the City will review the characteristics of the proposed land use. At a minimum, the following matters shall be demonstrated to the satisfaction of the City:
- the appropriateness of the land use in the context of surrounding land uses;
 - that adverse impacts to the natural environment, including the natural heritage system, can be avoided or mitigated;
 - that appropriate mitigation and public safety measures can be implemented and secured through Site Plan approvals and/or Certificates of Approval, as required under the Ontario *Environmental Protection Act*;
 - the appropriate environmental approvals from the Province of Ontario or the Government of Canada have been or will be granted; and
 - that the application conforms to the intent and policies of the City of Brampton Official Plan.

Thermal Degradation (Hazardous Waste) Use

- (xi) To address the protection of public health and safety, Thermal Degradation (Hazardous Waste) Use of Severely Toxic Waste; Hazardous Waste Chemicals or Manufacturing Intermediaries; Radioactive Waste; and PCB Waste may only be permitted on lands designated Industrial by way of Site-Specific Official Plan and Zoning By-law Amendments, wherein the City will review the characteristics of the proposed land use. At a minimum, the following matters shall be demonstrated to the satisfaction of the City:
- the appropriate separation distance to ensure that a Sensitive Land Use, and the general public health and safety, are protected against adverse impacts from odour or emissions, which shall in no instance be less than 1,000 metres from a Sensitive Land Use;
 - the appropriateness of the land use in the context of surrounding land uses;
 - that adverse impacts to the natural environment, including the natural heritage system, can be avoided or mitigated;

- an analysis of the potential public health and safety risks in an accident or malfunction scenario and a description of the measures to prevent such accidents or malfunctions, contingency measures, and proposed means to protect public health and safety in the event of an accident or malfunction;
- that appropriate mitigation and public safety measures can be implemented and secured through Site Plan approvals and/or Certificates of Approval, as required under the Ontario *Environmental Protection Act*;
- the appropriate environmental approvals from the Province of Ontario or the Government of Canada have been or will be granted; and
- that the application conforms to the intent and policies of the City of Brampton Official Plan and the relevant Secondary Plan.

Mechanical Sterilization as an Accessory Use

- (xii) Notwithstanding Sections 4.6.5.13 (vi) and 4.6.5.13 (vii), Mechanical Sterilization shall be permitted as an accessory use to hospitals, clinics, veterinary clinics and laboratories, wherever those uses are permitted by this Plan.

New Sanitary Landfill Site

- (xiii) New Sanitary Landfill Sites are not contemplated in the City of Brampton.

Peer Review

- (xiv) Where the City requires a technical report from an applicant, the City may, at its sole discretion, require a Peer Review of that technical report and may require the costs of such Peer Review to be borne by the applicant.

Holding Symbol

- (xv) Where a proposed use requires a Zoning By-law Amendment as provided for in the foregoing policies, the City may place a holding symbol on the zone that prevents the development from occurring until the City is satisfied that appropriate environmental approvals from the Province of Ontario or the Government of Canada have been granted. Specific actions or requirements for the lifting of the holding provision shall be set out in the City's Zoning By-law or the amendment thereto. Once the required conditions are satisfied, a by-law removing the holding symbol shall be passed.

Legally Existing Waste Disposal Use

- (xvi) Nothing in this section shall affect the continuance of any legally existing Waste Disposal Use that existed legally on or before the date of passing of the Zoning By-Law. The City may recognize the existing use in the Zoning By-law. However, the City, in co-operation with the affected businesses, shall attempt to reduce the number of non-conforming uses wherever possible according to the policies of this Plan.

Legally Existing Non-Conforming Waste Disposal Use

- (xvii) An application for the enlargement or extension of an existing legal non-conforming Waste Disposal Use shall be considered by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment permission, depending upon the nature of the proposal. Consideration of such applications shall be given based on the following:
- a) the proposed expansion does not significantly increase the size of the existing use;
 - b) the proposed expansion does not further deteriorate the non-compliance with the minimum separation distances required in this Section of the Plan;
 - c) the proposed expansion does not significantly increase its incompatibility with the surrounding area; and
 - d) conditions that may minimize any potential nuisances can be imposed, including but not limited to: landscaping, screening, and setbacks.

Municipally Administered Waste Disposal Uses

- (xviii) Waste Disposal Uses, including those involving hazardous waste, owned, operated or managed by or used for the purposes of a waste program administered by the City of Brampton or the Regional Municipality of Peel are permitted on lands designated Industrial, in accordance with the provisions of the Zoning By-law.

Certificates of Approval and Approvals from Other Jurisdictions

- 4.6.5.14 The City will provide comments to the Ministry of the Environment on applications for Certificates of Approval, as required under the Ontario *Environmental Protection Act* or the *Ontario Water Resources Act*, for waste management uses in the City of Brampton. In addition, when the City is circled by adjacent municipalities with applications for planning approval in the vicinity of the City boundary, the City will encourage the applicable approval authority to request appropriate technical studies to support the applications. The City may request that it be provided those studies to assist the City's review and commenting process."
- 4.4 The document known as the Official Plan for the City of Brampton Planning Area is hereby amended by deleting the definitions of "Waste Processing Plant", "Transfer Station" and "Sensitive Land Use" in Section 5.2, and by adding the following definitions to Section 5.2:

"Fire Safety Consultant Report" means a report that provides a fire safety analysis of a facility and intended uses within the facility and on-site, including building construction and facility operations, among other matters, in order to address fire safety concerns and make recommendations as to how the fire safety concerns may be minimized or mitigated."

"Hazardous Waste" means wastes that include:

- i) "Severely Toxic Waste" means commercial chemical products or manufacturing intermediates defined as Severely Toxic Waste under O.Reg. 347 of the *Environmental Protection Act*, however, it shall not include Pharmaceutical Waste.
- ii) "Hazardous Waste Chemicals or Manufacturing Intermediaries" means hazardous wastes that include: Hazardous Industrial Waste, Acute Hazardous Waste Chemicals, Hazardous Waste Chemicals, Ignitable Waste, Corrosive Waste, Reactive Waste and Leachate Toxic Waste; but does not include: Medical, Veterinary or Pathological Waste, Severely Toxic Waste, Radioactive Waste and PCB Waste as defined by O.Reg. 347 of the *Environmental Protection Act*.
- iii) "Medical, Veterinary or Pathological Waste" means any waste items generated through medical treatment, such as parts of the human body, including tissues and bodily fluids, or any part of the carcass of an animal, and includes Pharmaceutical Waste.
- iv) "PCB Waste" means PCB Waste as defined by O.Reg. 362 of the *Environmental Protection Act*, such as PCB equipment, PCB liquid or PCB material but excluding decontaminated PCB material or equipment, or equipment with PCB at levels below the definition of PCB waste in Provincial regulations."
- v) "Radioactive Waste" means waste that is required to be licensed to permit handling under the federal *Nuclear Safety and Control Act*."

"Mechanical Sterilization" means the destruction of microbes in medical, veterinary and pathological waste through the use of high pressure steam."

"Pharmaceutical Waste" means a waste that is derived from medicines, pharmaceuticals and instruments used to administer medicines or pharmaceuticals."

"Operational Management Plan" means a report that describes the features and measures that will be incorporated at the facility to mitigate nuisance effects of its operations. At a minimum, the Operational Management Plan shall describe: i) the facility and its operations; ii) design features to mitigate nuisance effects associated with airborne particulate, noise, odours, litter, vermin and vectors, fire, and site-related traffic; iii) operational procedures to further mitigate the aforementioned effects; iv) contingency measures available in the event that residual effects (after mitigation) remain unacceptable; and v) the protocol for receiving, documenting, and responding to complaints from the public."

"Peer Review" means an independent assessment of a technical support study undertaken by (an) expert(s) in the same field as the author(s) of the technical support study received by the City of other jurisdiction."

"Power Generation (Fuel Combustion) Use" means a facility that, by means of combustion of a fuel, converts thermal energy to electricity through a series of turbines and generators. This excludes centralized heating plants and localized district energy facilities that do not sell power to the provincial electrical distribution system."

"Sensitive Land Use" means a use which may be subject to adverse impacts (such as odours, contamination, noise, and vibration), generated by a nearby facility or feature and typically includes residential, institutional or outdoor recreational uses, which may include, but shall not be limited to

a residence, nursing home, hospital, trailer park, camping ground, school and/or community centre."

"Non-hazardous Solid Waste Processing Use" means a Waste Disposal Use that manages or prepares waste for subsequent reuse or disposal. Non-hazardous Solid Waste Processing Use typically include material recovery facilities (MRFs) and compost facilities (i.e., for municipal waste). The waste handled at a Non-hazardous Solid Waste Processing Use is not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Non-hazardous Solid Waste Transfer Use" means a Waste Disposal Use used for the purpose of transferring waste from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g., compaction) of the waste may take place at a Non-hazardous Solid Waste Transfer Use. The waste handled at a Non-hazardous Solid Waste Transfer Use is not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Thermal Degradation" shall mean a Waste Disposal Use that treats non-hazardous waste and Hazardous Waste by thermal means, including incineration, gasification, pyrolysis or plasma arc treatment, and includes:

- i) "Thermal Degradation (Energy from Waste) Use" means a Waste Disposal Use that treats non-hazardous waste by Thermal Degradation and is accompanied by the generation of electricity, in which case the waste is used as a fuel source for the production of energy and/or heat. It shall not include the thermal degradation of hazardous wastes.
- ii) "Thermal Degradation (Non-Energy Producing) Use" means a Waste Disposal Use designed and operated for the degradation or destruction of non-hazardous waste by Thermal Degradation. For the purposes of this category, Thermal Degradation of waste shall not include the generation of electricity. It shall not include the Thermal Degradation of Hazardous Wastes.
- iii) "Thermal Degradation (Hazardous Waste) Use" means a Waste Disposal Use that treats hazardous waste by Thermal Degradation. Thermal Degradation shall not include mechanical sterilization."

"Waste Disposal Use" means:

- (a) any land upon, into, in or through which, or building or structure in which, waste is deposited, disposed of, handled, stored, transferred, treated or processed; and,
- (b) any operation carried out or machinery or equipment used in connection with the depositing, disposal, handling, storage, transfer, treatment or processing referred to in clause (a); and,
- (c) notwithstanding clause (a) and (b), it does not include any product, returned to a manufacturer or supplier of the product for reprocessing, repackaging or resale for any reason, including that the product, substance or organism is:
 - (i) defective or otherwise not usable for its original purpose, or
 - (ii) in surplus quantities but still usable for its original purpose.
- (d) notwithstanding clause (c), it does not apply to Severely Toxic Waste, Hazardous Waste Chemicals or Manufacturing Intermediaries, Radioactive Waste, or PCB Waste; and,
- (e) notwithstanding clause (a) and (b), it does not include the temporary storage of spent or surplus material inputs or by-products of a manufacturing use that are temporarily stored at a

manufacturing facility until such time as they are removed from the facility for disposal."

"Hazardous Waste Transfer Use" means a Waste Disposal Use used for the purpose of transferring hazardous waste as defined by O.Reg. 347 of the *Environmental Protection Act*, from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g., compaction) of the waste may take place at a Hazardous Waste Transfer Use."

"Waste (Hazardous Waste) Processing Use" means a Waste Disposal Use that manages or prepares hazardous waste for subsequent reuse or disposal, that handles hazardous waste, either solid or liquid, that is defined as hazardous waste by O.Reg. 347 of the *Environmental Protection Act*, but shall not include the thermal degradation of hazardous waste, nor shall it include mechanical sterilization."

4.5 The document known as the City of Brampton Official Plan is hereby amended, by adding the following to Section 5.9.1:

"(v) Where regulatory approvals are required from another level of government, as provided for in the policies of this Official Plan."

Approved as to Content:

Adrian Smith, MCIP, RPP
Director, Planning & Land
Development Services

AMENDMENT NUMBER OP2006 - 009
TO THE OFFICIAL PLAN OF THE
CITY OF BRAMPTON PLANNING AREA

1.0 Purpose:

The purpose of this amendment is to revise the City of Brampton Official Plan to include policies to direct the development of thermal degradation, waste processing, transfer and disposal uses in the City of Brampton.

2.0 Basis:

This Amendment implements the recommendations of the Incineration, Waste Processing, Transfer and Disposal Study that was prepared in response to the City's Interim Control By-law 312-2005 (ICB) on October 12, 2005, to prohibit new and expanded incinerators and waste processing, transfer and disposal facilities (except as is necessarily incidental to any permitted industrial or manufacturing use).

The purpose of the Study was to develop appropriate land use policies to regulate the development of incineration as well as waste transfer, processing and disposal uses.

While there are established Provincial and Federal regulatory processes for the approval of waste management and energy facilities, there is a parallel municipal responsibility arising from the *Planning Act* and the Provincial Policy Statement to plan for the orderly distribution of land uses, and address matters of land use compatibility. The City addresses these matters through its Official Plan and Zoning By-law.

The *Planning Act* identifies matters of provincial interest that municipalities shall have regard for in carrying out their responsibilities, such that Section 2.0 provides for:

- (f) the adequate provision and efficient use of waste management systems;
- (h) the orderly development of safe and healthy communities; and
- (o) the protection of public health and safety.

Furthermore, the Provincial Policy Statement (Section 1.6.8) provides guidance with respect to municipal waste management systems and requires that waste management systems be provided that are of an appropriate size and type to accommodate present and future requirements, and facilitate, encourage and promote reduction, reuse and recycling objectives. Waste management systems are to be located and designed in accordance with provincial legislation and standards. The Provincial Policy Statement (Section 1.8.2) also promotes increased energy supply by providing opportunities for energy generation facilities to accommodate current and projected needs, and the use of renewable energy systems and alternative energy systems, where feasible.

Consequently, there is a municipal interest in providing direction for the appropriate location of waste and power generation facilities within the City. This includes:

- Waste management infrastructure and energy supply need to be considered as part of the broader municipal planning framework as essential infrastructure to be included in municipal plans;
- The City has a responsibility for orderly distribution of land uses;

- The City has to ensure compatibility with adjacent land uses;
- The City has a responsibility to ensure the orderly development of individual sites; and
- The City has a responsibility for public health and safety (e.g., fire prevention and emergency response).

The Amendment recognizes the different attributes, characteristics and land use impacts of different forms of waste management and power generation uses.

3.0 Location:

This amendment applies to all lands within the City of Brampton, but specifically affects lands designated Industrial.

4.0 Amendments and Policies Relative Thereto:

- 4.1 The document known as the City of Brampton Official Plan is hereby amended, by adding a new Section 4.7.4.10 as follows:

Power Generation (Fuel Combustion) Use

- "(i) A Power Generation (Fuel Combustion) Use may only be permitted as a primary use on lands designated Industrial by way of a Site-Specific Zoning By-law Amendment, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide appropriate urban design measures including visual screening of the operation;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.
- (ii) Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:
- Air Quality Impact Report; and
 - Noise Study.
- (iii) Where the City requires a technical report from an applicant, as described in the foregoing, the City may, at its sole discretion, require a Peer Review of that technical report and may require the costs of such Peer Review to be borne by the applicant.
- (iv) Where a proposed use requires a Zoning By-law Amendment as provided for in the foregoing policies, the City may place a holding symbol on the zone that prevents the development from occurring until the City is satisfied that appropriate environmental approvals from the Province of Ontario or the Government of Canada have been granted. Specific actions or requirements for the lifting of the holding provision shall be set out in the City's Zoning By-law or the amendment thereto. Once the required conditions are satisfied, a by-law removing the holding symbol will be passed.

- (v) Through the Zoning By-law and Site Plan Control process, the City will manage outside storage associated with a Power Generation (Fuel Combustion) Use to address the visual and aesthetic mitigation, which may include the use of enclosed bins, containers, screening walls and/or landscaping, as well as pest and vermin control.
- (vi) Nothing in this section shall affect the continuance of any legally existing Power Generation (Fuel Combustion) Use that existed legally on or before the date of passing of the Zoning By-law. The City may recognize the existing use in the Zoning By-law. However, the City, in co-operation with the affected businesses, shall attempt to reduce the number of non-conforming uses wherever possible according to the policies of this Plan.
- (vii) An application for the enlargement or extension of an existing legal non-conforming Power Generation (Fuel Combustion) Use shall be considered by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment permission, depending upon the nature of the proposal. Consideration of such applications shall be given based on the following:
 - a) the proposed expansion does not significantly increase the size of the existing use;
 - b) the proposed expansion does not further deteriorate the non-compliance with the minimum separation distances required in this Section of the Plan;
 - c) the proposed expansion does not significantly increase its incompatibility with the surrounding area; and
 - d) conditions that may minimize any potential nuisances can be imposed, including but not limited to: landscaping, screening, and setbacks.
- (viii) Sensitive Land Uses shall only be permitted in proximity to a Power Generation (Fuel Combustion) Use provided that they comply with policy 4.5.15.3 and they do not intrude into established separation distances described in policy 4.7.4.10 i).

4.2 The document known as the City of Brampton Official Plan is hereby amended, by deleting Section 4.7.5.1, and replacing it with the following:

"The direction of waste management uses including thermal degradation, waste processing, transfer and disposal shall be guided by the policies of this Plan and the provisions of the Zoning By-law. In particular, the City shall ensure:

- i) the compatibility between existing and proposed land uses (may vary by extent/intensity of the potential hazard);
- ii) the adequate provision and efficient use of waste management systems;
- iii) the protection of public health and safety;
- iv) the protection of the natural heritage system;

- v) the provision of adequate transportation system, which directs truck traffic away from residential neighbourhoods; and
- vi) appropriate site design, through such matters as access, aesthetics, safety, fire protection, protection of various natural heritage features.

In this regard, the City shall:

- i) encourage and promote efforts to reduce, reuse, recycle and recover energy;
- ii) promote sustainable local energy production and alternative energy sources that adhere to the foregoing; and
- iii) promote extended producer responsibilities such as material recovery operations."

- 4.3 The document known as the City of Brampton Official Plan is hereby amended, by deleting Section 4.7.5.7, and replacing it with the following:

Waste Disposal Uses

Waste Disposal Uses may only be permitted on lands designated Industrial on Schedule "A", subject to the specific policies for the following types of Waste Disposal Uses as outlined in Section 4.7.5.8 of this Plan.

Through the Zoning By-law and Site Plan Control process, the City will manage outside storage associated with Waste Disposal Uses to address the visual and aesthetic mitigation, which may include the use of enclosed bins, containers, screening walls and/or landscaping, as well as pest and vermin control.

Sensitive Land Uses shall only be permitted in proximity to a Waste Disposal Use provided that they comply with policy 4.5.15.3 and they do not intrude into established minimum separation distances described in policy 4.7.5.8.

- 4.4 The document known as the City of Brampton Official Plan is hereby amended, by deleting Section 4.7.5.8, and replacing it with the following:

Non-Hazardous Solid Waste Transfer Use or Non-Hazardous Solid Waste Processing Use

- (i) Non-Hazardous Solid Waste Transfer Use or Non-Hazardous Solid Waste Processing Use, may only be permitted on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
 - Noise Study.
- (ii) Notwithstanding Section 4.7.5.8 (i), Non-Hazardous Solid Waste Transfer Use or Non-Hazardous Solid Waste Processing Use may only be permitted by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment Permission, subject to meeting the four tests of the Planning Act, on lands designated Industrial, provided the use is located a minimum of 70 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
 - the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
 - the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and stormwater management measures;
 - the applicant shall provide appropriate visual screening of the operation;
 - the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
 - the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Thermal Degradation (Non-Energy Producing) Use or Thermal Degradation (Energy from Waste) Use

- (iii) Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use may only be permitted as a primary use on lands designated Industrial, provided the use is located a minimum of 1,000 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
 - the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
 - the applicant shall demonstrate appropriate wastewater and

stormwater management measures;

- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

- (iv) Notwithstanding Section 4.7.5.8 (iii), Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use may only be permitted as a primary use by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
- the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and,
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

- (v) Thermal Degradation (Energy from Waste) Use may only be permitted as an accessory use in the Industrial designation, provided that the source of waste input to the energy generation is a by-product of the principal use of the site.

Hazardous Waste Transfer Use or Mechanical Sterilization

(vi) Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Mechanical Sterilization of Waste may only be permitted on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

(vii) Notwithstanding Section 4.7.5.8 (vi), Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Mechanical Sterilization of Waste may only be permitted by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 70 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
- the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Hazardous Waste Processing Use or Thermal Degradation (Hazardous Waste) Use

(viii) Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste may only be permitted on lands designated Industrial, provided the use is located a minimum of 1,000 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;
- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

(ix) Notwithstanding Section 4.7.5.8 (viii), Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries, or Medical, Veterinary or Pathological Waste, and Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste may only be permitted by way of a Site-Specific Zoning By-law Amendment on lands designated Industrial, provided the use is located a minimum of 300 metres from a Sensitive Land Use, and where the following matters have been demonstrated to the satisfaction of the City:

- the applicant shall conduct a review of surrounding land uses to demonstrate the compatibility of the proposed facility with land uses in the potential influence area of the application;
- the applicant shall demonstrate that appropriate mitigation and/or buffering measures can be implemented to address any potential adverse impacts from the operation including, but not limited to noise, odour, vibration, dust, traffic and the impacts of an operational upset or accident;
- the applicant shall demonstrate the appropriate traffic management measures through a Traffic Impact Study;
- the applicant shall provide an Operational Management Plan to demonstrate how they will manage litter, vermin and odour;

- the applicant shall demonstrate appropriate wastewater and stormwater management measures;
- the applicant shall provide appropriate visual screening of the operation;
- the applicant shall provide sufficient development setbacks and/or buffers to protect, preserve and enhance the natural heritage system; and,
- the applicant shall provide a Fire Safety Consultant Report.

Where it is required to provide the following information to support an application for a Certificate of Approval, as required under the Ontario *Environmental Protection Act*, the applicant shall provide the following information to the City:

- Air Quality (including odour) Impact Report; and
- Noise Study.

Hazardous Waste Transfer Use or Hazardous Waste Processing Use

- (x) To address the protection of public health and safety, Hazardous Waste Transfer Use or Hazardous Waste Processing Use for Severely Toxic Waste; Radioactive Waste; and PCB Waste may only be permitted on lands designated Industrial by way of Site-Specific Official Plan and Zoning By-law Amendments, wherein the City will review the characteristics of the proposed land use. At a minimum, the following matters shall be demonstrated to the satisfaction of the City:

- the appropriateness of the land use in the context of surrounding land uses;
- that adverse impacts to the natural environment, including the natural heritage system, can be avoided or mitigated;
- that appropriate mitigation and public safety measures can be implemented and secured through Site Plan approvals and/or Certificates of Approval, as required under the Ontario *Environmental Protection Act*;
- the appropriate environmental approvals from the Province of Ontario or the Government of Canada have been or will be granted; and
- that the application conforms to the intent and policies of the City of Brampton Official Plan.

Thermal Degradation (Hazardous Waste) Use

- (xi) To address the protection of public health and safety, Thermal Degradation (Hazardous Waste) Use of Severely Toxic Waste; Hazardous Waste Chemicals or Manufacturing Intermediaries; Radioactive Waste, and PCB Waste may only be permitted on lands designated Industrial by way of Site-Specific Official Plan and Zoning By-law Amendments, wherein the City will review the characteristics of the proposed land use. At a minimum, the following matters shall be demonstrated to the satisfaction of the City:

- the appropriate separation distance to ensure that a Sensitive Land Use, and the general public health and safety, are protected against adverse impacts from odour or emissions, which shall in no instance be less than 1,000 metres from a Sensitive Land Use;
- the appropriateness of the land use in the context of surrounding land uses;
- that adverse impacts to the natural environment, including the

- natural heritage system, can be avoided or mitigated;
- an analysis of the potential public health and safety risks in an accident or malfunction scenario and a description of the measures to prevent such accidents or malfunctions, contingency measures, and proposed means to protect public health and safety in the event of an accident or malfunction;
 - that appropriate mitigation and public safety measures can be implemented and secured through Site Plan approvals and/or Certificates of Approval, as required under the Ontario *Environmental Protection Act*;
 - the appropriate environmental approvals from the Province of Ontario or the Government of Canada have been or will be granted; and
 - that the application conforms to the intent and policies of the City of Brampton Official Plan and the relevant Secondary Plan.

Mechanical Sterilization as an Accessory Use

- (xii) Notwithstanding Sections 4.7.5.8 (vi) and 4.7.5.8 (vii), Mechanical Sterilization shall be permitted as an accessory use to hospitals, clinics, veterinary clinics and laboratories, wherever those uses are permitted by this Plan.

New Sanitary Landfill Site

- (xiii) New Sanitary Landfill Sites are not contemplated in the City of Brampton.

Peer Review

- (xiv) Where the City requires a technical report from an applicant, the City may, at its sole discretion, require a Peer Review of that technical report and may require the costs of such Peer Review to be borne by the applicant.

Holding Symbol

- (xv) Where a proposed use requires a Zoning By-law Amendment as provided for in the foregoing policies, the City may place a holding symbol on the zone that prevents the development from occurring until the City is satisfied that appropriate environmental approvals from the Province of Ontario or the Government of Canada have been granted. Specific actions or requirements for the lifting of the holding provision shall be set out in the City's Zoning By-law or the amendment thereto. Once the required conditions are satisfied, a by-law removing the holding symbol will be passed.

Legally Existing Waste Disposal Use

- (xvi) Nothing in this section shall affect the continuance of any legally existing Waste Disposal Use that existed legally on or before the passing of the Zoning By-law. The City may recognize the existing use in the Zoning By-law. However, the City, in co-operation with the affected businesses, shall attempt to reduce the number of non-conforming uses wherever possible according to the policies of this Plan.

Legally Existing Non-Conforming Waste Disposal Use

- (xvii) An application for the enlargement or extension of an existing legal non-conforming Waste Disposal Use shall be considered by way of a Site-Specific Zoning By-law Amendment or Committee of Adjustment permission, depending upon the nature of the proposal.

Consideration of such applications shall be given based on the following:

- a) the proposed expansion does not significantly increase the size of the existing use;
- b) the proposed expansion does not further deteriorate the non-compliance with the minimum separation distances required in this Section of the Plan;
- c) the proposed expansion does not significantly increase its incompatibility with the surrounding area; and
- d) conditions that may minimize any potential nuisances can be imposed, including but not limited to: landscaping, screening, and setbacks.

Municipally Administered Waste Disposal Uses

(xviii) Waste Disposal Uses, including those involving hazardous waste, owned, operated or managed by or used for the purposes of a waste program administered by the City of Brampton or the Regional Municipality of Peel are permitted on lands designated Industrial, in accordance with the provisions of the Zoning By-law."

Certificates of Approval and Approvals from Other Jurisdictions

- 4.5 The document known as the City of Brampton Official Plan is hereby amended, by adding a new Section 4.7.5.10, as follows:

"The City will provide comments to the Ministry of the Environment on applications for Certificates of Approval, as required under the *Ontario Environmental Protection Act* or the *Ontario Water Resources Act*, for waste management uses in the City of Brampton. In addition, the City is circulated by adjacent municipalities when there are applications for planning approval in the vicinity of the City boundary. The City will encourage the applicable approval authority to request appropriate technical studies to support the applications. The City may request that it be provided those studies to assist the City's review and commenting process."

- 4.6 The document known as the City of Brampton Official Plan is hereby amended by deleting the definitions of "Waste Processing Plant", "Transfer Station" and "Sensitive Land Use" in Section 5.2, and by adding the following definitions to Section 5.2:

"Fire Safety Consultant Report" means a report that provides a fire safety analysis of a facility and intended uses within the facility and on-site, including building construction and facility operations, among other matters, in order to address fire safety concerns and make recommendations as to how the fire safety concerns may be minimized or mitigated."

"Hazardous Waste" means wastes that include:

- i) "Severely Toxic Waste" means commercial chemical products or manufacturing intermediates defined as Severely Toxic Waste under O.Reg. 347 of the *Environmental Protection Act*, however, it shall not include Pharmaceutical Waste.
- ii) "Hazardous Waste Chemicals or Manufacturing Intermediaries" means hazardous wastes that include: Hazardous Industrial Waste, Acute Hazardous Waste Chemicals, Hazardous Waste

Chemicals, Ignitable Waste, Corrosive Waste, Reactive Waste and Leachate Toxic Waste; but does not include: Medical, Veterinary or Pathological Waste, Severely Toxic Waste, Radioactive Waste, and PCB Waste as defined by O.Reg. 347 of the *Environmental Protection Act*.

- iii) "Medical, Veterinary or Pathological Waste" means any waste items generated through medical treatment, such as parts of the human body, including tissues and bodily fluids, or any part of the carcass of an animal and includes Pharmaceutical Waste.
- iv) "PCB Waste" means PCB Waste as defined by O.Reg. 362 of the *Environmental Protection Act*, such as PCB equipment, PCB liquid or PCB material but excluding decontaminated PCB material or equipment, or equipment with PCB at levels below the definition of PCB waste in Provincial regulations."
- v) "Radioactive Waste" means waste that is required to be licensed to permit handling under the federal *Nuclear Safety and Control Act*."

"Mechanical Sterilization" means the destruction of microbes in medical, veterinary and pathological waste through the use of high pressure steam."

"Pharmaceutical Waste" means a waste that is derived from medicines, pharmaceuticals and instruments used to administer medicines or pharmaceuticals."

"Operational Management Plan" means a report that describes the features and measures that will be incorporated at the facility to mitigate nuisance effects of its operations. At a minimum, the Operational Management Plan shall describe: i) the facility and its operations; ii) design features to mitigate nuisance effects associated with airborne particulate, noise, odours, litter, vermin and vectors, fire, and site-related traffic; iii) operational procedures to further mitigate the aforementioned effects; iv) contingency measures available in the event that residual effects (after mitigation) remain unacceptable; and v) the protocol for receiving, documenting, and responding to complaints from the public."

"Peer Review" means an independent assessment of a technical support study undertaken by (an) expert(s) in the same field as the author(s) of the technical support study received by the City of other jurisdiction."

"Power Generation (Fuel Combustion) Use" means a facility that, by means of combustion of a fuel, converts thermal energy to electricity through a series of turbines and generators. This excludes centralized heating plants and localized district energy facilities that do not sell power to the provincial electrical distribution system."

"Sensitive Land Use" means a use which may be subject to adverse impacts (such as odours, contamination, noise, and vibration), generated by a nearby facility or feature and typically includes residential, institutional or outdoor recreational uses, which may include, but shall not be limited to a residence, nursing home, hospital, trailer park, camping ground, school and/or community centre."

"Non-hazardous Solid Waste Processing Use" means a Waste Disposal Use that manages or prepares waste for subsequent reuse or disposal. Non-hazardous Solid Waste Processing Use typically include material recovery facilities (MRFs) and compost facilities (i.e., for municipal waste). The waste handled at a Non-hazardous Solid Waste Processing Use is

not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Non-hazardous Solid Waste Transfer Use" means a Waste Disposal Use used for the purpose of transferring waste from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g., compaction) of the waste may take place at a Non-hazardous Solid Waste Transfer Use. The waste handled at a Non-hazardous Solid Waste Transfer Use is not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Thermal Degradation" means a Waste Disposal Use that treats non-hazardous waste and Hazardous Waste by thermal means, including incineration, gasification, pyrolysis or plasma arc treatment, and includes:

- i) "Thermal Degradation (Energy from Waste) Use" means a Waste Disposal Use that treats non-hazardous waste by Thermal Degradation and is accompanied by the generation of electricity, in which case the waste is used as a fuel source for the production of energy and/or heat. It shall not include the thermal degradation of hazardous wastes.
- ii) "Thermal Degradation (Non-Energy Producing) Use" means a Waste Disposal Use designed and operated for the degradation or destruction of non-hazardous waste by Thermal Degradation. For the purposes of this category, Thermal Degradation of waste shall not include the generation of electricity. It shall not include the Thermal Degradation of Hazardous Wastes.
- iii) "Thermal Degradation (Hazardous Waste) Use" means a Waste Disposal Use that treats hazardous waste by Thermal Degradation. Thermal Degradation shall not include mechanical sterilization."

"Waste Disposal Use" means:

- (a) any land upon, into, in or through which, or building or structure in which, waste is deposited, disposed of, handled, stored, transferred, treated or processed; and,
- (b) any operation carried out or machinery or equipment used in connection with the depositing, disposal, handling, storage, transfer, treatment or processing referred to in clause (a); and,
- (c) notwithstanding clause (a) and (b), it does not include any product, returned to a manufacturer or supplier of the product for reprocessing, repackaging or resale for any reason, including that the product, substance or organism is:
 - (i) defective or otherwise not usable for its original purpose, or
 - (ii) in surplus quantities but still usable for its original purpose.
- (d) notwithstanding clause (c), it does not apply to Severely Toxic Waste, Hazardous Waste Chemicals or Manufacturing Intermediaries, Radioactive Waste, or PCB Waste; and,
- (e) notwithstanding clause (a) and (b), it does not include the temporary storage of spent or surplus material inputs or by-products of a manufacturing use that are temporarily stored at a manufacturing facility until such time as they are removed from the facility for disposal."

"Hazardous Waste Transfer Use" means a Waste Disposal Use used for the purpose of transferring hazardous waste as defined by O.Reg. 347 of the *Environmental Protection Act*, from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g.,

compaction) of the waste may take place at a Hazardous Waste Transfer Use."

"Hazardous Waste Processing Use" means a Waste Disposal Use that manages or prepares hazardous waste for subsequent reuse or disposal, that handles hazardous waste, either solid or liquid, that is defined as "hazardous waste" by O.Reg. 347 of the *Environmental Protection Act*, but shall not include the thermal degradation of hazardous waste, nor shall it include mechanical sterilization."

4.7 The document known as the City of Brampton Official Plan is hereby amended, by adding the following to Section 5.9.1:

"(v) Where regulatory approvals are required from another level of government, as provided for in the policies of this Official Plan."

THE CORPORATION OF THE CITY OF BRAMPTON

BY-LAW

Number 327 - 2007

To Amend Zoning By-law 270-2004, as amended, to implement the Incineration and Waste Processing, Transfer and Disposal Study.

The Council of the Corporation of the City of Brampton ENACTS as follows:

1. By-law 270-2004, as amended, is hereby further amended:
 - 1) Section 5.0 Definitions is amended by adding the following definitions:

"Hazardous Waste" shall mean wastes that include:

 - i) "Severely Toxic Waste" shall mean commercial chemical products or manufacturing intermediates defined as Severely Toxic Waste under O.Reg. 347 of the *Environmental Protection Act*, however it shall not include Pharmaceutical Waste.
 - ii) "Hazardous Waste Chemicals or Manufacturing Intermediaries" shall mean hazardous wastes that include: Hazardous Industrial Waste, Acute Hazardous Waste Chemicals, Hazardous Waste Chemicals, Ignitable Waste, Corrosive Waste, Reactive Waste and Leachate Toxic Waste; but does not include: Medical, Veterinary or Pathological Waste, Severely Toxic Waste, Radioactive Waste and PCB Waste as defined by O.Reg. 347 of the *Environmental Protection Act*.
 - iii) "Medical, Veterinary or Pathological Waste" shall mean any waste items generated through medical treatment, such as parts of the human body, including tissues and bodily fluids, or any part of the carcass of an animal, and includes Pharmaceutical Waste.
 - iv) "PCB Waste" shall mean PCB Waste as defined by O.Reg. 362 of the *Environmental Protection Act*, such as PCB equipment, PCB liquid or PCB material but excluding decontaminated PCB material or equipment, or equipment with PCB at levels below the definition of PCB waste in Provincial regulations.
 - v) "Radioactive Waste" shall mean waste is required to be licensed to permit handling under the federal *Nuclear Safety and Control Act*.

"Mechanical Sterilization" shall mean the destruction of microbes in medical, veterinary and pathological waste through the use of high pressure steam."

"Pharmaceutical Waste" shall mean a waste that is derived from medicines, pharmaceuticals and instruments used to administer medicines or pharmaceuticals."

"Power Generation (Fuel Combustion) Use" shall mean a facility that, by means of combustion of a fuel, converts thermal energy to electricity through a series of turbines and generators. This excludes centralized heating plants and localized district energy facilities that do not sell power to the provincial electrical distribution system."

"Sanitary Landfill Site" shall mean a waste disposal use used for the disposal of waste by deposit, under controlled conditions, on land or on land covered by water, including compaction of waste into a cell and covering the waste with cover materials at regular intervals."

"Non-hazardous Solid Waste Processing Use" shall mean a Waste Disposal Use that manages or prepares waste for subsequent reuse or disposal. Non-hazardous Solid Waste Processing Use typically include material recovery facilities (MRFs) and compost facilities (i.e., for municipal waste). The waste handled at a Non-hazardous Waste Solid Processing Use is not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Non-hazardous Solid Waste Transfer Use" shall mean a Waste Disposal Use used for the purpose of transferring waste from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g., compaction) of the waste may take place at a Non-hazardous Solid Waste Transfer Use. The waste handled at a Non-hazardous Solid Waste Transfer Use is not liquid industrial waste and is not hazardous waste, both as defined by O.Reg. 347 of the *Environmental Protection Act*."

"Thermal Degradation" shall mean a Waste Disposal Use that treats non-hazardous waste and Hazardous Waste by thermal means, including incineration, gasification, pyrolysis or plasma arc treatment, and includes:

- i) "Thermal Degradation (Energy from Waste) Use" shall mean a Waste Disposal Use that treats non-hazardous waste by Thermal Degradation and is accompanied by the generation of electricity, in which case the waste is used as a fuel source for the production of energy and/or heat. It shall not include the thermal degradation of hazardous wastes.
- ii) "Thermal Degradation (Non-Energy Producing) Use" shall mean a Waste Disposal Use designed and operated for the degradation or destruction of non-hazardous waste by Thermal Degradation. For the purposes of this category, Thermal Degradation of waste shall not include the generation of electricity. It shall not include the Thermal Degradation of Hazardous Wastes.
- iii) "Thermal Degradation (Hazardous Waste) Use" shall mean a Waste Disposal Use that treats hazardous waste by Thermal

Degradation. Thermal Degradation shall not include mechanical sterilization."

"Waste Disposal Use" shall mean:

- (a) any land upon, into, in or through which, or building or structure in which, waste is deposited, disposed of, handled, stored, transferred, treated or processed, and,
- (b) any operation carried out or machinery or equipment used in connection with the depositing, disposal, handling, storage, transfer, treatment or processing referred to in clause (a); and,
- (c) notwithstanding clause (a) and (b), it does not include any product, returned to a manufacturer or supplier of the product for reprocessing, repackaging or resale for any reason, including that the product, substance or organism is:
 - (i) defective or otherwise not usable for its original purpose, or
 - (ii) in surplus quantities but still usable for its original purpose.
- (d) notwithstanding clause (c), it does not apply to Severely Toxic Waste, Hazardous Waste Chemicals or Manufacturing Intermediaries, Radioactive Waste, or PCB Waste; and,
- (e) notwithstanding clause (a) and (b), it does not include the temporary storage of spent or surplus material inputs or by-products of a manufacturing use that are temporarily stored at a manufacturing facility until such time as they are removed from the facility for disposal."

"Hazardous Waste Transfer Use" shall mean a Waste Disposal Use used for the purpose of transferring hazardous waste as defined by O.Reg. 347 of the *Environmental Protection Act*, from one vehicle to another for transport to another Waste Disposal Use. Some limited degree of processing (e.g., compaction) of the waste may take place at a Hazardous Waste Transfer Use."

"Hazardous Waste Processing Use" shall mean a Waste Disposal Use that manages or prepares hazardous waste for subsequent reuse or disposal, that handles hazardous waste, either solid or liquid, that is defined as hazardous waste by O.Reg. 347 of the *Environmental Protection Act*, but shall not include the thermal degradation of hazardous waste, nor shall it include mechanical sterilization."

- 2) Section 5.0 Definitions is amended by adding the following to the definition of "Waste Processing Station", between the words "shall mean" and "a facility":

"for the purposes of Sections 948, 1228, 1794, 1795 and 2719,"

- 3) Section 5.0 Definitions is amended by adding the following to the definition of "Waste Transfer Station", between the words "shall mean" and "a facility":

"for the purposes of Sections 948, 1228, 1794, 1795 and 2719,"

- 4) Section 5.0 Definitions is amended by adding the following to the definition of "Public Use", between the words "health care, protection," and "utility":

"waste disposal,"

2. By-law 270-2004, as amended, is hereby further amended by deleting Section 30.9 and replacing it with the following:

"(30.9) Waste Disposal Use

A Waste Disposal Use shall only be permitted in Industrial Two – M2, Industrial Three – M3 and Industrial Three A – M3A zones in accordance with Sections 32.1, 33.1 and 33.2 respectively. Notwithstanding the Industrial Two – M2, Industrial Three – M3 and Industrial Three A – M3A zone provisions to the contrary, no outside storage associated with a Waste Disposal Use shall be permitted, unless such storage is located within enclosed bins or containers and conforms to all the provisions of the zone respecting outside storage.

Waste Disposal Uses, including those involving hazardous waste, owned, operated or managed by or used for the purposes of a waste program administered by the City of Brampton or the Regional Municipality of Peel are permitted in Industrial Two – M2, Industrial Three – M3 and Industrial Three A – M3A zones, provided that yard, outside storage, parking, and coverage regulations required for the zone where the lands are located are complied with."

3. By-law 270-2004, as amended, is hereby further amended by adding the following uses as permitted uses in Section 32.1 Industrial Two – M2 as Section 32.1.1 (a) (7), (8), (9) and (10):

- "(7) Non-hazardous Solid Waste Processing Use, Non-hazardous Solid Waste Transfer Use, Power Generation (Fuel Combustion) Use, or Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, or Mechanical Sterilization, provided such uses are located a minimum of 300 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone – I1 and Institutional Two Zone – I2.
- (8) Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, provided such uses are located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone – I1 and Institutional Two Zone – I2.
- (9) Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone – I1 and Institutional Two Zone – I2."
- (10) Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone – I1 and Institutional Two Zone – I2."

4. By-law 270-2004, as amended, is hereby further amended by adding the following uses as a permitted accessory use in Section 32.1 Industrial Two -M2 as Section 32.1.1 (c) (5):
- "(5) Thermal Degradation (Energy from Waste) Use provided that the source of waste input into the energy generation is a by-product of the primary use of the site and is not a Hazardous Waste."
5. By-law 270-2004, as amended, is hereby further amended by adding the following uses as permitted uses in Section 33.1 Industrial Three - M3 as Section 33.1.1 (a) (6), (7) (8) and (9):
- "(6) Non-hazardous Solid Waste Processing Use, Non-hazardous Solid Waste Transfer Use, Power Generation (Fuel Combustion) Use, or Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, or Mechanical Sterilization, provided such uses are located a minimum of 300 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2.
- (7) Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, provided such uses are located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2.
- (8) Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2."
- (9) Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2."
6. By-law 270-2004, as amended, is hereby further amended by adding the following uses as a permitted accessory use in Section 33.1 Industrial Three -M3 as Section 33.1.1 (c) (5):
- "(5) Thermal Degradation (Energy from Waste) Use provided that the source of waste input into the energy generation is a by-product of the primary use of the site and is not a Hazardous Waste."
7. By-law 270-2004, as amended, is hereby further amended by adding the following uses as permitted uses in Section 33.2 Industrial Three A - M3A as Section 33.2.1 (a) (6), (7), (8) and (9):
- "(6) Non-hazardous Solid Waste Processing Use, Non-hazardous Solid Waste Transfer Use, Power Generation (Fuel Combustion) Use, or Hazardous Waste Transfer Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, or Mechanical Sterilization, provided such uses are located a minimum of 300

metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2.

- (7) Hazardous Waste Processing Use for Hazardous Waste Chemicals or Manufacturing Intermediaries or Medical, Veterinary or Pathological Waste, provided such uses are located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2.
 - (8) Thermal Degradation (Non-Energy Producing) Use and Thermal Degradation (Energy from Waste) Use, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2."
 - (9) Thermal Degradation (Hazardous Waste) Use for Medical, Veterinary or Pathological Waste, provided such use is located a minimum of 1,000 metres from all Residential Zones, Open Space Zone - OS, Institutional One Zone - I1 and Institutional Two Zone - I2."
8. By-law 270-2004, as amended, is hereby further amended by adding the following uses as a permitted accessory use in Section 33.2 Industrial Three A - M3A as Section 33.2.1 (c) (5):
- "(5) Thermal Degradation (Energy from Waste) Use, provided that the source of waste input into the energy generation is a by-product of the primary use of the site and is not a Hazardous Waste."
9. By-law 270-2004, as amended, is hereby further amended by adding the following to Section 30.0 General Provisions for Industrial Zones, as Section 30.16:
- "30.16 Mechanical Sterilization
- Mechanical Sterilization shall be permitted as an accessory use to Animal Hospitals, Private or Public Hospitals, Institutional Uses, Nursing Homes, and Public Uses wherever those uses are permitted in this By-law."
10. By-law 270-2004, as amended, is hereby further amended by adding the following to M3-Section 1678, Section 1678.2, before the word "shall":
- "notwithstanding the provisions of Section 33.1.1 (a) (6), the lands"
11. By-law 270-2004, as amended, is hereby further amended by adding the following to M1-Section 2554, Section 2554.2, before the word "shall":
- "notwithstanding the provisions of Section 30.9, the lands"
12. By-law 270-2004, as amended, is hereby further amended by amending Schedule "A" of By-law 270-2004 to zone the lands known municipally as 8 Bramwin Court, and described as Part of Lot 2, Concession 6, E.H.S, as M3A-Section 1396 as shown on Schedule "A" attached to this By-law.
13. By-law 270-2004, as amended, is hereby further amended by adding the following as M3A-Section 1396:

"1396 The lands designated M3A-Section 1396 on Schedule A to this by-law:

1396.1 notwithstanding the provisions of 33.2.1 (a) (6), in addition to the uses permitted in the M3A Zone, the lands may be used for a Non-Hazardous Waste Solid Waste Processing Use with no outdoor storage."

14. This By-law shall not come into effect until Official Plan Amendment OP ~~93~~ - ~~288~~ comes into force and effect.

READ a FIRST, SECOND and THIRD TIME, and PASSED in OPEN COUNCIL, this 10 day of October, 2007.
