Notes:

1. Any resubmission by someone other than the original owner shall be deemed a new application. The Director of Development Services & Design, at their discretion, can consider maintaining the existing application with a new owner given the following:
 - a. Written correspondence is provided from the previous owner who initiated the application confirming they agree to allow the current owner to proceed with the application as submitted; and
 - b. if the application generally remains consistent with the previous submission.
2. Except as otherwise provided, the Director of Development Services & Design, may, upon written request, authorize a refund of no greater than 50% of an application fee if the application is withdrawn prior to the Public Meeting required by the Planning Act for the application.
3. The fees in Schedule A shall be adjusted annually, effective January 1, in accordance with the rate of increase of the Consumer Price Index-Toronto from the previous year published by Statistics Canada. In the event that a fee is not adjusted by the Consumer Price Index in any year, the cumulative adjustment for the past years may be made in future years.
4. All lands associated with a specific application shall be contiguous.
5. Per unit/hectare fees noted in Section 2.1 are only to be applied once to a development project through a Zoning By-law Amendment, Plan of Subdivision, or Plan of Condominium application (Site Plans excluded). If a subsequent application has a higher maximum fee, the applicant shall be required to pay the difference between the two fees at the time of the submission of the subsequent application. Please see example below:

Example:

ZBA Application is submitted with a per unit/hectare fee for \$300,000.00. ZBA has a max fee of \$88,821 that will apply. Of this max fee, \$46,219 was a result of the per unit/hectare fees (max fee \$88,821 – base fee \$42,602). A subsequent Draft Plan of Subdivision application is submitted for the same parcel. Max fee for this applications stream is \$139,935. Deducting the base fee from this maximum, an application can incur \$104,585 in per unit/hectare fees.

This means the applicant would be required to pay the difference of the per unit/hectare fee between the two applications. This would be \$58,366 (\$104,585 - \$46,219 (amount paid for at ZBA) = \$58,366) towards the subsequent subdivision application. In this example, the final total for the subdivision will be \$96,215 – inclusive of the subdivision base fee, difference of per unit/hectare fee and sign deposit.

6. For residential mixed-use buildings, non-residential fees apply to the gross floor area of the non-residential use at a rate of \$1.55/sq.m.
7. Pre-Consultation fees will be credited, in their entirety, towards the total fee (including from the Maximum Fee) of the future related full application (Official Plan Amendment, Zoning By-law Amendment, Draft Plan of Subdivision or Condo and Site Plan) for the same address, if such application is submitted within one year from the date of the pre-consultation application. The Director of Development Services & Design, at their discretion, can consider credits beyond the one-year timeframe or in instances where it is clear the limited scope of a project would not require a Pre-Consultation application.
8. For concurrent applications where the Director of Development Services & Design has approved a Pre-Consultation credit, the credit for the first application is to be deducted from the total fee (including the Maximum Fee), and the credit for the additional applications is to be deducted from their base fees.
9. For concurrent applications where the applicant has chosen to not submit a Pre-Consultation and the Director of Development Services & Design has not approved a credit, the applicant shall pay the full base fee for one application and the base fee for all other applications shall be reduced by the amount of a Pre-Consultation application fee.
10. For concurrent applications, per unit/hectare fees are based on the application (ZBA/Subdivision) with the greater maximum fee.
11. For concurrent applications where the Director of Development Services & Design has approved a Pre-Consultation credit, the Pre-Consultation credit shall apply to the total fee prior to the concurrent application fee reduction.

12. Resubmissions/Re-circulations of Applications past 3 submissions/circulations will be subject to a fee of \$5,000 per submission.
