

CITY OF BRAMPTON TORONTO GORE DENSITY POLICY REVIEW

The City of Brampton takes COVID-19 seriously and continues to follow the advice of Peel Public Health. The City has made significant changes to services and programming to help protect the health and wellbeing of our community. In consideration of the current COVID-19 public health orders prohibiting public gatherings of more than 10 people, and requirements for physical distancing between persons, the City of Brampton will not be holding a public open house meeting. In lieu of a public open house meeting, an online presentation that provides an update on the Toronto Gore Density Policy Review Study can be found on the City's webpage: <https://www.brampton.ca/TorontoGore>

First Open House Meeting:

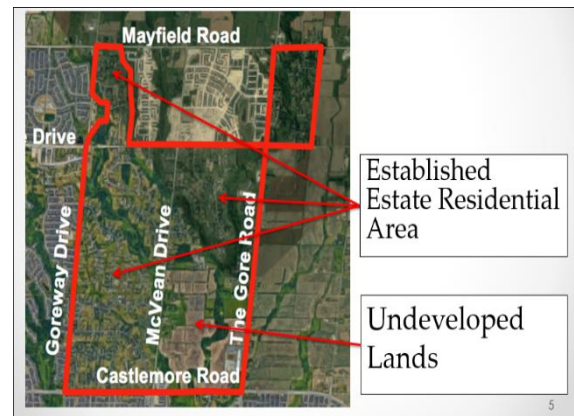

The first public open house meeting for the Toronto Gore Density Policy Review Study was held on March 20, 2019. The notices for the first public open house can be found on the webpage: www.brampton.ca/TorontoGore

The Study Area:

The draft Phases 1, 2 & 3 Report prepared by SGL has identified the following two distinct areas as part of the Toronto Gore community:

1. The established estate residential community; and,
2. The undeveloped lands in the southeastern quadrant.

Separate policy recommendations are proposed for each area and are outlined in the presentation.

**Presentation on City's Webpage:**

Please review the presentation on the City's webpage (www.brampton.ca/TorontoGore) to learn more about the City's Toronto Gore Density Policy Review Study and the proposed draft policy recommendations. A summary of the comments received from the first open house meeting are provided in the presentation slides and an explanation on how the draft policy recommendations have changed since the first open house meeting is also provided. We want to hear from you, so please provide your comments by **August 21, 2020**.

Next Steps:

- Statutory public meeting in Fall 2020 to present the draft policy recommendations.
- Present final report and implementing document (Official Plan Amendment) to Council for approval.

Stay Informed:

We invite and encourage you to stay informed about opportunities to participate in the Toronto Gore Density Policy Review Study. To be added to our mailing list, or for any other inquiries or comments related to the Toronto Gore Density Policy Review Study, please contact:
