Stakeholder Update #21

Dear Stakeholders,

In response to the City's second peer review findings, Brampton Brick has submitted to the City additional information in the form of addenda and responses. This new material is available for public viewing at the Planning Department Counter, on the third floor of City Hall during regular business hours. City staff is assessing this new material to determine which submissions will need to be peer reviewed.

Based on the additional material, the findings of the City's peer reviewers, the social impact review, and public consultation, Planning & Infrastructure Services staff will comprehensively assess the Brampton Brick proposal and prepare a recommendation report to Planning Committee. At this time, the recommendation report is anticipated for the first quarter of 2014.

For more information on the Brampton Brick application please contact Natasha Rea, the planner assigned to this file, or visit the project web page at:
