

TELL US WHAT YOU THINK ABOUT TRANSPORTATION IN BRAMPTON

NOTICE OF STUDY COMMENCEMENT

Study Purpose:

To update the City of Brampton's Transportation Master Plan, the City's blueprint for strategic transportation planning and direction for the future. The study will address existing challenges and continue to provide sustainable transportation solutions to manage the transportation impacts and address travel demand associated with anticipated growth. The master plan update will provide the City with creative and realistic solutions based on input from the public, private sector and government agencies. The updated Master Plan will establish a transportation system to better serve residents, employers, employees and visitors while accommodating all modes of transportation (e.g. public transit, commuter travel, commercial vehicles and active transportation). The Transportation Master Plan Update will provide input into the transportation components of the City's Development Charges Background Study/By-Laws Review (2014) which is currently ongoing.

The study is being conducted in accordance with the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment, which is an approved process under the Environmental Assessment Act.

YOUR INVOLVEMENT IS IMPORTANT!

- Visit the Study Webpage (<http://www.brampton.ca/tmp2014>) to access the Virtual Public Input Hub and provide your input on the current state of transportation in the City of Brampton and make suggestions for future improvements (or scan QR code to access)
- Visit the City's Planning, Design and Development Twitter Page for Study Updates & links to key study information
- Attend the Public Information Centre (PIC) scheduled to occur in Spring 2014. Additional details on the PIC's time and location to be posted on the Project webpage.
- Provide your comments to study team members listed to the right.
