BC015-2020 That the presentation from Z. Majid, Senior Manager, Accounting Services and Deputy Treasurer, Corporate Services, to the Budget Committee Meeting of February 18, 19, 20, 24 and 25, 2020, re: **Financial Assistance to the Downtown Brampton BIA (RM 15/2020)** be received; and

Whereas properties purchased by the City that are within the geographic area comprising the Downtown Brampton Business Improvement Area and have no commercial tenants become tax-exempt; and

Whereas as a result of becoming tax-exempt, those properties no longer have the BIA levy applied to them.

Therefore be it resolved that on a go-forward basis:

The City absorbs the BIA levy impact for properties purchased by the City, that are within the geographic area comprising the Downtown, and have no commercial tenants thereby becoming tax-exempt;

The City tracks the total assessment value of properties within the geographic area comprising the Downtown and once this total assessment returns back to the 2018 assessment value (indexed) in future years, the City stops any further financial assistance to the BIA; and

City Staff track the actual BIA levy impact and report back to Council for approval as part of budget deliberations on an annual basis.

BC016-2020 That the report titled: **2019 Third Quarter Operating Budget and Reserve Report (R321/2019)**, to the Budget Committee Meeting of February 18, 19, 20, 24 and 25, 2020, be received.

6. Adele Rochon, Brampton resident, dated February 23, 2020

**Minutes
City Council**

An amendment, moved by Regional Councillor Palleschi and seconded by City Councillor Bowman, was made to Clause 5 (last sentence) of Recommendation BC018-2020. The amendment was voted on and carried, with the amended recommendation as follows.

BC018-2020 That the 2020 Operating Budget submissions be amended to incorporate the following:

1. That the number of grass cuttings be maintained at 12 per season rather than the proposed 10 cuts per season, at a value of \$480,000;

That cutting to fence lines be provided three times per season where practical, at an approximate value of \$100,000; and

That the park enhancement program be continued for the 2020 budget year at a value of \$1.25 million, to be provided for by a one-time allocation from reserves to be determined by staff.

2. That the savings related to energy efficiency retrofits and other energy efficiency related programs be allocated to a reserve account to be re-invested toward further energy efficiency related initiatives; and

That a minimum of 25 per cent of the annual surplus also be allocated to this account.

3. Whereas through the Forum Community Research Program, residents mentioned that investments in commuting infrastructure, including transit, improves their quality of life;

Whereas the City of Brampton has declared a climate emergency and improving transit services is a priority in responding to climate issues;

Whereas the current transit operating budget does not provision for any additional service and does not account for any additional revenue through ridership growth;

Whereas Pearson Airport is an important employment area for Brampton residents with more than 10,000 workers already choosing Pearson as a place of employment;

**Minutes
City Council**

Whereas Brampton Transit ridership growth in the last half of 2019 averaged 4.7 per cent per month and was over 15 per cent in January 2020;

Whereas, if strong ridership growth continues through 2020, Transit could expect to collect additional operating revenue of approximately \$1.5 million;

Therefore be it resolved that:

1. The net Transit Operating Budget for 2020 be increased by \$900,000, from surplus, to extend Züm transit service to Pearson Airport; and
2. The net Transit Operating Budget for 2020 be increased by \$1.5 million to help address critical ridership needs, to be offset with additional base revenue growth of \$1.5 million; and
3. Staff continue to monitor ridership increase through 2020 and should ridership growth not be realized, then adjust 2021 operating budget to reflect the change in demand.
4. Whereas the City has a current total reserve balance of approximately \$480 million;

Whereas the City has approx. \$300 million in deferred revenue;

Whereas reserve contributions in the 2020 proposed budget is \$116 million which exceeds 2019 contributions by \$34 million;

Therefore be it resolved:

That Council reduce the 2020 over 2019 increase to the reserves from \$34 million to \$29 million;

That staff make the necessary adjustments within the reserve funds to accommodate; and

This saves the City \$5 million (or approximately 1 percent) from 2020 operating budget while still contributing more to reserves this year than last year.

**Minutes
City Council**

5. That \$2 million be removed from the 2020 budget as allocated for Core Data and Voice, and leaving approximately \$1.85 million;

That the \$35,000 be removed from the 2020 budget for the Communications Master Plan, and be shifted to 2021 in due course;

That the \$40,000 allocated for the rebranding of the City be removed from the 2020 Communications budget; and

That the capital budget be reduced from \$700,000 to \$450,000, for a temporary parkette.

**Minutes

A motion, moved by City Councillor Williams and seconded by Mayor Brown, regarding international medical graduates was introduced, with the operative clauses as follows:

Therefore be it resolved that Brampton City Council endorse the letters written by Mayor Brown and Councillor Williams;

And further direct the City Clerk to forward this motion to the Mayor and Councillors of all cities and towns in Ontario with a request that they consider endorsing this motion and writing the same or similar letters to the Ontario Minister of Health and the Premier of Ontario.

Mayor Brown and Councillor Williams outlined the purpose of the motion, and provided information on measures taken by the Province with respect to international medical graduates.

Council Members expressed varying opinions in support of and opposition to the actions outlined in the motion.

An amendment was proposed by Regional Councillor Fortini to remove the reference to doctors per capita in Italy. The mover and seconder of the motion accepted the amendment, and indicated this reference would be replaced with doctors per capita in Germany.

The motion, as amended, was considered as follows.

C099-2020 Moved by City Councillor Williams
Seconded by Mayor Brown

Whereas, the world-wide COVID-19 Pandemic has been declared by the World Health Organization, and

Whereas, the City of Brampton declared a healthcare emergency in 2019, and

Whereas, Ontario and Canada have thousands of foreign-trained, Canadian qualified, doctors who have been denied the right to practice medicine here. It is estimated that there are 7,000 foreign trained doctors in Ontario, and

Whereas, Canada lags behind other industrialized nations when it comes to the number of doctors per capita including, Germany which has 4.1 doctors per 1,000, Norway which has 4.8 doctors per 1,000 and Canada only has 2.7 for 1000 people, and

**Minutes
City Council**

Whereas, we need all qualified foreign trained doctors on the front lines, not on the side lines, and

Whereas, the College of Physicians and Surgeons of Ontario has announced the opportunity for International Medical Graduates (IMGs) to be licensed for a period of only 30 days, and

Whereas, IMGs have informed us that the 30-day license is impractical and the process still blocks the path for Canadian qualified, foreign-trained, doctors from seeking a license, and

Whereas, over 1700 qualified doctors applied for a job and only 350 of them were given hospital residencies for no other reason than they graduated from a provincially recognized medical school outside of Canada, and

Whereas, Brampton Mayor Patrick Brown and City Councillor Charmaine Williams have written letters to the Ontario Minister of Health and the Premier of Ontario asking for immediate changes to the licensing regulations:

Therefore be it resolved that Brampton City Council endorse the letters written by Mayor Brown and Councillor Williams;

And further direct the City Clerk to forward this motion to the Mayor and Councillors of all cities and towns in Ontario with a request that they consider endorsing this motion and writing the same or similar letters to the Ontario Minister of Health and the Premier of Ontario.

encourages cycling as a viable means of transportation for both recreational and utilitarian purposes for people of all ages and abilities; and

WHEREAS the City's proposed 2041 active transportation network which has been costed at a value of approximately \$126.6M is not yet fully funded, and that funding through an economic stimulus package would provide the necessary impetus to help deliver the network; and

WHEREAS the City has already invested in enhancing the existing AT network by completing critical gaps with proper pedestrian and cycling crossings, and commencing implementation of the first phase of a priority cycling network (including an East-West Cycling Corridor along Vodden Street and Howden Boulevard); and

WHEREAS effective April 18, 2020, the City of Brampton fast-tracked the implementation of bike lanes along the Vodden Street corridor through an interim installation, providing an alternative cycling option to recreational trails, and allowing cyclists to maintain physical distancing due to COVID-19; and

WHEREAS when the country begins its recovery from the COVID-19 pandemic, government stimulus spending will play a critical role in helping the economy recover; and

WHEREAS urban cycling infrastructure such as (but not limited to) on-road infrastructure holds a distinct advantage in terms of stimulus spending because projects can commence with shorter lead times and typically are not overly complex, which opens up bidding to the largest number of contractors; and

WHEREAS construction of some urban cycling infrastructure involves the modification of existing roads, such projects can continue later into the typical construction season, allowing Canadians to keep working for as long as possible; and

WHEREAS the City of Brampton is the 9th largest city in Canada and can lead by example by being a role model and champion for supporting active transportation as a key element in building sustainable and livable communities; and

WHEREAS the City of Brampton should actively continue to explore all funding opportunities that support the implementation of active transportation infrastructure and programs in support of the 2040 Vision.

**Minutes

Carried

A motion, moved by Regional Councillor Fortini, and seconded by Mayor Brown and Councillors Vicente and Bowman, was introduced, with the operative clauses as follows:

Councillors Medeiros and Santos were subsequently added as seconders.

Therefore be it resolved:

That, as part of the recovery roll out, the City of Brampton allow restaurants operating in the City of Brampton to use private parking areas for additional outdoor tables and obtain sidewalk-use permits free of charge for the same while they operate under the City's Safe Re-opening plan;

That the City of Brampton waive outdoor patio fees for 2020 to help local restaurants and small businesses get through these difficult times;

That the City of Brampton work closely with restaurants and businesses to identify creative ways to expand low-risk operations, like allowing more outdoor seating than zoning and parking restrictions would normally allow; and

That the City of Brampton develop a plan that will provide options to expand outdoor patios on private and public property to ensure businesses can operate safely while respecting physical distancing between their customers and employees.

Councillor Fortini provided an overview of the motion and responded to questions from Council.

Council consideration of the motion included:

- need for:
 - clear messaging to business owners regarding expanding outdoor patios

**Minutes

- consultation with Enforcement and By-law Services staff in the development of a plan
- simplified application process

C202-2020 Moved by Regional Councillor Fortini
Seconded by Mayor Brown, Regional Councillor Vicente, City Councillor Bowman, Regional Councillor Medeiros, Regional Councillor Santos

Whereas restaurants and bars in the City of Brampton have been closed for dine-in service since mid-March due to the COVID-19 pandemic;

Whereas the Ontario government is moving forward with a Regional approach of reopening the province from the current Covid-19 Pandemic lockdown;

Whereas the Province has announced that effective Friday, June 12, 2020, businesses and services will be permitted to reopen with proper health and safety measures in place;

Whereas the businesses that will be allowed to open will include outdoor dine-in services at restaurants, bars and other establishments, including patios, curbside, parking lots and adjacent properties; and

Whereas evidence shows that COVID-19 is less contractable outside while maintaining six feet of distance from others indicating a lower risk from socially distant outdoor dining than from restaurant dining rooms;

Therefore be it resolved:

That, as part of the recovery roll out, the City of Brampton allow restaurants operating in the City of Brampton to use private parking areas for additional outdoor tables and obtain sidewalk-use permits free of charge for the same while they operate under the City's Safe Re-opening plan;

Whereas the Mayor's Re-opening and Recovery Working Group have received a number of requests from the public with suggestions for safe resumption of City Services; and

Whereas there is a need for City of Brampton services to be available in person, by phone, and online in order to better serve the community; and

Whereas, a “No Wrong Door approach” encompasses a framework of integrated and coordinated, streamlined service delivery on the premise that every door (service) whether in-person, phone or internet should be able to provide similar outcome or result; and

Whereas Council continue to prioritize the health and safety of our staff and residents;

Therefore, Be It Resolved that staff adopt a ‘no wrong door’ approach upon re-opening services and consider enhancing or providing alternative service delivery methods in light of challenges encountered as a result of the COVID-19 pandemic;

Be It Further Resolved that staff report back to Council on enhancements and improvements made to service delivery and recommendations where such improvements may be adopted with the ‘no wrong door’ approach.

CW126-2020

2. That the correspondence from Sylvia Menezes Roberts, Brampton resident, dated June 2, 2020, to the Committee of Council Meeting of June 3, 2020, re: **Item 10.2.1 – New Transit Facility Update (I 57/2020)** be received.

CW128-2020

Whereas the City of Brampton is presently in the process of conducting environmental assessment work and undertaking preparations for the design-build delivery of the City of Brampton's Third Transit Facility, with construction anticipated through 2021 to 2024 (subject to favourable assignment of the City's ICIP funding request);

Whereas one of the biggest challenges with electrification of transit fleets is the supporting infrastructure,

Whereas based on status of this project the City of Brampton has a unique opportunity to build that infrastructure into a brand new facility;

Whereas through the Ministerial Mandate Letters issued in December 2019, the Government of Canada wishes to help municipalities purchase 5,000 zero-emission transit buses in the next five years and, that beginning in 2023 any new federal investments in public transit are used to support zero-emission buses and work with municipalities to address any exceptional circumstances;

Whereas the City of Brampton has declared a Climate Emergency to support the Government of Canada's emission reduction targets;

Whereas without an infusion of incremental funding (currently estimated at upwards of \$150M) to support full electrification of the new 3rd Transit Facility, it will not be possible for the City of Brampton to fund electrification of this facility;

Therefore Be It Resolved:

1. That Brampton City Council request to the Government of Canada, an incremental funding grant of approximately \$150M (to be confirmed), to provide the required investment to consider full electrification of the third transit facility in the City of Brampton; and

**Minutes
City Council**

CW133-2020

A motion, moved by City Councillor Williams and seconded by City Council Singh, was introduced, with the operative clause as follows:

Therefore be it resolved that Council direct the Mayor of Brampton to write a letter to the Minister of Education on behalf of City Council, to express Council's grave concerns with the findings in the investigator's reports and that such letter express the concern with the lack of swift action taken to address the findings to make the PDSB a safe, healthy and equitable learning environment for all students.

Councillor Williams provided an overview of the motion and, along with Councillor Singh, responded to questions from Council.

An amendment was proposed by Councillor Singh, and accepted by the mover, to add the following additional operative clause:

That this resolution be forwarded to the PDSB, Region of Peel, City of Mississauga, and the Town of Caledon.

Council consideration of the motion included:

- lack of action by the PDSB in addressing the directions in the investigator reports and the resulting impact on students
- role of PDSB Trustees as it relates to addressing the report directions and ensuring Board staff are accountable

The motion, as amended, was considered as follows.

**Minutes
City Council**

C207-2020 Moved by City Councillor Williams
Seconded by City Councillor Singh

Whereas the Peel District School Board (PDSB) is responsible for managing 257 primary, elementary and secondary schools in Brampton, Mississauga and Caledon, and

Whereas over 155,000 students are enrolled in the PDSB, and

Whereas the 155,000 students come from a diverse background of racial, ethnic, linguistic, creeds, and religious backgrounds, and

Whereas a growing chorus of community expressed grave concerns and frustration with the way the PDSB has managed racism, particularly anti-black racism and discrimination complaints, and

Whereas, the complaints prompted the Ministry of Education to launch a thorough investigation into the PDSB governance and administrative practices, and

Whereas the initial PDSB investigators report called for the leadership at the PDSB to do a thorough rigorous assessment of its own strengths and weaknesses, demonstrate the capacity to face the evidence of systemic inequity and to grasp the complexity of the issues facing those less able to advocate for themselves, and

Whereas the Minister of Education issued 27 binding directions to the PDSB Board on March 13, 2020, with specific timelines and deliverables to address systemic discrimination, particularly anti-Black racism, as well as dysfunctional governance, leadership and human resources practices within the PDSB, and

Whereas the Minister of Education reported that the Director and the Board failed to meet the directives in the allotted time and appointed a second investigator, and

Whereas the report authored by the second investigator found that the PDSB lacked the capacity to provide good governance in the interest of all students of the board and to effectively carry out its responsibilities to oversee and ensure proper compliance with the Minister's directions, and

Whereas several Black community groups came together to co author a letter calling for the immediate action on the Directions in the report, but have yet to receive public consultation and acknowledgement from the Director of Education or Trustees of the Board;

**Minutes
City Council**

Therefore be it resolved that Council direct the Mayor of Brampton to write a letter to the Minister of Education on behalf of City Council, to express Council's grave concerns with the findings in the investigator's reports and that such letter express the concern with the lack of swift action taken to address the findings to make the PDSB a safe, healthy and equitable learning environment for all students; and

Whereas the Black community and Black youth in particular in Peel face systemic racism resulting in disproportionately higher rates of unemployment, income inequality, barriers to housing, social and cultural programming and representation in the political system judicial system and policing encounters,

Whereas the short-term impact of anti-Black racism is the impoverishment and social exclusion of Blacks in Canadian society,

Whereas the long-term impact is the build-up of rage and sadness in the psyche of the Black population and their feelings of alienation and estrangement from mainstream Canadian society as outlined in THE BLACK COMMUNITY IN PEEL Summary: Research Findings from Four Reports F.A.C.E.S. of Peel Collaborative, Prepared by the Social Planning Council of Peel,

Regional Councillor Vicente referenced discussion at the Committee of Council meeting of June 17, 2020 and associated Recommendation CW140-2020 (clause 2) regarding transit fare capping.

Councillor Vicente introduced a motion, seconded by Regional Councillor Medeiros, with the operative clause as follows:

Therefore be it resolved that Brampton Transit implement a PRESTO customer loyalty program whereby once a customer pays for 12 single rides on Brampton Transit during any one-week (Monday to Sunday) period using their PRESTO card, each subsequent ride on Brampton Transit is free for the remainder of that week and that Transit staff periodically review the impacts on revenue and adjust the loyalty program as required, to ensure those impacts are not significant.

Council Vicente and Alex Milojevic, General Manager, Transit, provided an overview of the motion, and responded to questions from Council with respect to the proposed customer loyalty program.

The motion was considered as follows.

C226-2020 Moved by Regional Councillor Vicente
Seconded by Regional Councillor Medeiros

Whereas physical distancing measures amidst the COVID-19 pandemic has currently reduced the number of people who can be safely be accommodated on a Brampton Transit bus;

Whereas, Brampton Transit currently offers a two hour transfer window for riders after having paid their fare;

Whereas, due to the reduced capacity on Brampton Transit buses, more buses are full and unable to accommodate riders and more people are having to wait longer to board a bus to a point where they may have to pay another fare to finish their journey;

Whereas the introduction of fare capping for PRESTO users will help limit the number of extra fares that a resident might pay if their journeys take longer;

**Minutes
City Council**

Therefore be it resolved that Brampton Transit implement a PRESTO customer loyalty program whereby once a customer pays for 12 single rides on Brampton Transit during any one-week (Monday to Sunday) period using their PRESTO card, each subsequent ride on Brampton Transit is free for the remainder of that week and that Transit staff periodically review the impacts on revenue and adjust the loyalty program as required, to ensure those impacts are not significant.

13.1. Discussion at the Request of Councillor Vicente re. **Right-of-Way Widening in the Village of Churchville Conservation District.**

The following motion was considered.

C235-2020 Moved by Regional Councillor Vicente
Seconded by Mayor Brown

WHEREAS City Council enacted by-laws 218-90 and 219-90 on October 10, 1990 in accordance with section 41 of the *Ontario Heritage Act* to designate the Village of Churchville as a Heritage Conservation District (the "Churchville Heritage District") and adopt the Village of Churchville Heritage Conservation District Plan (the "District Plan").

AND WHEREAS City Council enacted by-laws 221-2002 and 243-2007 to amend the boundary of the Churchville Heritage District and amend the District Plan.

AND WHEREAS the City's Official Plan includes policies and schedules identifying the ultimate widths of rights-of-way for roads within the city and several rights-of-way within the Churchville Heritage District are identified as being subject to road widening.

AND WHEREAS one of the objectives of the City through implementation of the District Plan is to encourage the maintenance and protection of the historic and rural character of the Churchville Heritage District, including private properties and the existing roads and streetscapes within the District.

**Minutes
City Council**

AND WHEREAS in accordance with the Official Plan, as a standard procedure City staff recommend to the Committee of Adjustment and Council that land dedications be gratuitously conveyed as a condition of approval in association with development applications, as is permitted by the *Planning Act*, in order to achieve the ultimate rights-of-way as per the Official Plan and facilitate the maintenance, repair, improvement, expansion and installation of municipal, utility and other service infrastructure while minimizing the costs of necessary land acquisitions to the City's taxpayers.

AND WHEREAS notwithstanding the road width schedule of the Official Plan and the City's standard practice, there are currently no public works projects planned and the City is not presently aware of any other utility or service infrastructure works that would require a widening of the rights-of-way within the Churchville Heritage District.

AND WHEREAS, in the event that the City requires additional lands in the future for a municipal purpose, the City could receive or acquire such lands pursuant to conditions of development approval requiring that lands be conveyed at a later date (as referred below), negotiated purchase agreement(s) or by expropriation at the City's cost.

NOW THEREFORE the Council of The Corporation of the City of Brampton **HEREBY RESOLVES** as follows:

1. The City shall not require the immediate conveyance of lands for widening rights-of way as a condition of development approval within the Churchville Heritage District, unless the conveyance is required:
 - (a) to satisfy daylight or sightline requirements;
 - (b) to provide for signage at intersections; or
 - (c) by the Regional Municipality of Peel or other agency responding to the development application.
2. Notwithstanding paragraph 1 hereof, the City shall include conditions of development approval for applications within the Churchville Heritage District to be incorporated into appropriate development agreements and registered on title, that would require the future gratuitous conveyance of rights-of-way shown in the Official Plan to the City in the event and at such time as the City's Council may in the future determine the conveyance is required for future municipal, utility or service infrastructure needs or requirements,

- 4.1. Delegation from Dr. Lawrence Loh, Medical Officer of Health, Region of Peel – Public Health, re. **Mandatory Mask Policy**.

Dr. Lawrence Loh, Medical Officer of Health, Region of Peel – Public Health, outlined Peel Public Health's recommendation as it relates to a mandatory mask policy for Peel and evidence in support of the recommendation.

Dr. Loh provided some of the reasons for the recommendation, particularly now that the Region has moved to stage 2, including:

1. non-medical masks are a means of source control;
2. in certain public places, non-medical masks help reduce the risk of transmission to others; and,
3. a mandatory policy for non-medical masks would bring consistent clarity to what was already a strong recommendation.

Dr. Loh responded to questions of clarification from Council, and highlighted that masks are one part of the Region's Core Four Actions to help prevent the spread of COVID-19, as follows:

Core Four Actions:

1. **Stay apart**
Maintain 2-metres distance from everyone outside your safe social circle.
2. **Lather up**
Wash your hands often with soap and water or use hand sanitizer.
3. **Mask up**
Wear a non-medical mask where maintaining physical distancing is difficult and where masks are mandatory. Protect the supply of medical grade masks for health care workers.
4. **Get tested**
If you think you might have COVID-19 or have been exposed to it you should get tested. While waiting for test results, stay home, self-isolate and prevent potential spread.

Whereas a *Key Principle* in the City of Brampton Council Code of Conduct is that "Members of Council shall perform official duties and

arrange their public affairs in a manner that promotes public confidence and respect and will bear close public scrutiny”;

Whereas the commentary to Rule No. 15 (Discreditable Conduct) of the of the Council Code of Conduct states that “As leaders in the community, members are held to a higher standard of behaviour and conduct, and accordingly their behaviour should be exemplary”;

Whereas the purpose of appointing an Independent Integrity Commissioner is to ensure that an elected official is held accountable to any Discreditable Conduct through a thorough investigation;

Whereas in recent years we have witnessed the emergence of the #MeToo movement recognizing that it is our responsibility to support the women that speak up;

Whereas it is our responsibility to provide a safe space for the women that come forward to share the details of a traumatizing experience of sexual assault;

Whereas it is our responsibility to stand behind victims that have come forward and shared the details of the harassment they experienced;

Whereas it is our responsibilities, regardless of any political pressure, to support victims that have come forward;

Whereas it is our duty as elected officials to lead by example and show our community true leadership and support during times of adversity;

Whereas the Integrity Commissioner has reported her findings following a thorough investigation and concluded that Councillor Dhillon’s behaviour violates the City of Brampton’s Council Code of Conduct;

Therefore be it resolved that Councillor Dhillon recognize that his conduct as a leader in our community has been contrary to the Council Code of Conduct and that this Council requests that he resign.

Whereas the City of Brampton, including its lands, peoples, cultures and heritage, has a rich and diverse history worthy of celebration and recognition; and

Whereas recognizing our City's diversity through possible naming opportunities for City assets such as streets, facilities and parks is an appropriate way to celebrate our collective cultural heritage from all over the world; and

Whereas City Council has approved an Asset Naming Policy to facilitate commemorative recognition to honour events and individuals' outstanding achievements, distinctive service, or significant community contributions, including recognition of the City's rich cultural heritage; and

Whereas a revitalized multi-use park with basketball courts and spectator stands would provide a space where youth who cannot afford to play sports at private gyms can pursue their interests in a safe, public space in Brampton; and

Whereas Marc Eversley is the new General Manager of the NBA's Chicago Bulls and an alumni of Brampton's Cardinal Leger high school; and

Whereas Marc Eversley is an excellent role model for Brampton's youth, highlighted in the Black and Caribbean communities and it is appropriate to recognize and commemorate Brampton's cultural community heroes and significant individuals whose ideals and beliefs contribute to the cultural mosaic that makes Brampton a special and inclusive place;

4. Delegations

- 4.1 Delegations re: Hearing under the Development Charges Act – Development Charges Complaint, s. 20 *Development Charges Act* – Dancor Construction Limited – 21 Coventry Road, Brampton

Mayor Brown noted that this statutory hearing is being held by Council pursuant to Section 20 of the *Development Charges Act, 1997*, and will be conducted in accordance with the rules established by the *Statutory Powers Procedure Act (SPPA)*.

The Mayor summarized the procedures under the SPPA and outlined the rules of evidence.

Tom Halinski, Aird Berlis, legal counsel for Dancor Construction Limited, presented the case for Dancor Construction as follows:

- Dancor is requesting that a full refund be paid in connection with this project, which was a change of use as well as an expansion to accommodate a gymnasium
- the facts of the case are outlined in detail in their appeal letter and chronology, which was included with the staff report (Item 5.1) appended to the agenda for this meeting
- there were undue delays in the processing of the planning applications, causing severe economic harm and putting into question the project's economic viability
- the charges are not tied to an increased need for services resulting from growth; the charges pertain to a change of use of comparable intensity within an existing building, and do not pertain to the addition
- Dancor would not have gone ahead with the project had they been told in discussions with planning and technical staff that development charges would be payable
- the Region of Peel does not charge development charges for this change of use and provided a full credit for the gross floor area
- Dancor is in disagreement with staff's conclusion in the report that there is no authority to grant the relief that it is seeking, and in their view, this was an artificial constraint that staff imposed and is not found anywhere in the Act
- Council has broad discretion under section 20 of the Act to determine there was an error in the application of the Development Charges By-law
- if Council is willing and finds the case is meritorious, then the Act provides a lawful way to address the situation
- the situation has become dramatically worse this year for both the owner and tenant (Frederick Banting International School) because of the pandemic
- the school is an important contributor to the City, and is valuable to the community as it provides not only a school function but also a community function
- the refund of development charges would allow Dancor to continue to facilitate the school operating, notwithstanding the hard times it is currently undergoing
- Dancor submits that the City incorrectly calculated the development charges on

the addition, in that the charges for the gymnasium addition were calculated based on 623 square metres of gross floor area, and while this may be physically correct, the charges ought to have been calculated instead on the basis of the gross floor area net of the mechanical equipment and the washrooms, which amount to 405 square meters, and Dancor understood staff were in agreement with the calculation of charges on this basis

- in the alternative, if Council does not find favour with Dancor's main request, then Dancor requests that Council provide an opportunity for Dancor to finalize calculations with staff so that the amount can at least be corrected.

Andrea Wilson Peebles, Legal Counsel, Corporate Support Services, presented the case for the City, as follows:

- the grounds for a charge under Section 20 of the *Development Charges Act* are:

1. that the amount of the development charge was incorrectly determined,
2. that the credit was incorrectly given or incorrectly applied, and
- 3 that there was an error in the application of the Development Charges By-law

- Council is not able to make any decision or take broad authority on these appeals

- Council's powers are outlined in subsection 6 of Section 20 of the Act and allows Council to dismiss the complaint or rectify an incorrect determination or error that was the subject of the complaint

- neither in their written materials nor in their submissions today, has the applicant provided any evidence of a Section error

- the grounds outlined by Mr. Halinski, including the change of use to comparable intensity, the fact that the Region does not charge in this case, and the undue delays and the economic harms are not grounds under the Section 20 criteria for granting a complaint

- for some of these claims, the applicant should have appealed the by-law itself if they didn't agree with how it was applied or if they had concerns about charges not being properly based on increased needs

- the by-law is not under appeal and the purpose today is not to determine whether the City should or shouldn't charge in accordance with the by-law, the by-law was duly approved and is in force

- the concerns regarding the delays that were experienced generally speaking are not concerns for the purposes of granting approval of a complaint under the *Development Charges Act*

- it is Council's role on a Section 20 complaint to review the evidence to show that one of the three grounds were met

- the applicant has provided no evidence that there was any error, they have simply objected to the application of any charges

- in terms of the alternative argument that the development charges were incorrectly calculated, staff have been and continue to be willing to refund any amount that was incorrectly charged based on revised plans
- it is not possible for staff to give a refund without having the appropriate architectural plans, and staff would continue to support a resolution to provide that refund, subject to receipt of the appropriate plans
- the delays the applicant has described in objections to the application of the by-law do not relate to Council's authority under Section 20, which requires Council to find that there was an error before granting a refund, and staff would be supportive of the alternative grounds.

Mr. Halinski provided a closing submission on behalf of Dancor, as follows:

- in terms of the facts, they are uncontroverted before Council
- if Council finds it has the statutory authority to grant his client's request, he thinks the facts not only support this request, but are not in question between Dancor and staff
- under Section 20 of the *Development Charges Act*, as City's Counsel has indicated, there are three grounds for relief:
 1. the amount was incorrectly determined and this is part of Dancor's request as far as the expansion goes
 2. deals with credit and does not apply to this complaint, and
 3. subsection c of Section 20 deals with an error in the application of the Development Charges by-law, and does not just refer to the amount but whether the charge ought to have been levied in the first place; there is nothing in the Act or any of the case law he is aware of (Ontario Municipal Board or the Local Planning Appeal Tribunal) that would restrict Council's discretion to provide a refund, particularly in the situation where there is no increase in the level of services required by the development through the change of use
- reiterated his client's request that Council direct a refund of the charges levied in this case

During Council discussion on this matter, staff and Mr. Halinski responded to questions and provided the following:

- confirmation of staff's willingness to provide any refund that is owing upon receipt of revised plans, and an indication that staff has tried to reach a resolution since the complaint was initially filed, but has not been successful so far
- indication from Mr. Halinski that Dancor is prepared to continue working with staff on alternative relief and to provide the requested information
- details from Mr. Halinski regarding the portion of the City's development charges for the expansion relative to charges for the overall project, and

differences between the charges applied by the City and those applied by the Region

- advisory from staff that the reason for a full credit on the Region's portion is because the Region's by-law differentiates the rates by industrial or not industrial, and this project was for a change of use from an office building to a commercial building, these two employment types fall under what the Region considers non-industrial and therefore no change of use was applied through the Region's by-law
- staff would be willing to undertake research to determine if there are other upper-tier and lower-tier municipalities, such as York Region, Halton Region, that have different Development Charges By-laws

Ms. Wilson-Peebles noted that Council's discussion on this matter demonstrates that the City's Development Charges By-law was correctly applied, as there are no provisions in the by-law for a full credit for change of use.

Ms. Wilson-Peebles provided a closing submission on behalf of the City, as follows:

- normally she would review the evidence and take Council through the key pieces, but Council's discussion on this matter clarifies staff's position
- in order to determine that the Development Charges By-law was incorrectly applied, Council would need to go back and reopen the by-law, but the by-law is not what is before Council as it was not appealed and it was duly applied
- the differences in the Region's and City's charges are reflected in the language of those respective by-laws
- pursuant to Section 20 the *Development Charges Act*, the power of Council to issue a refund is based on discrepancy or error of which there were none, and absent of revised plans to demonstrate that a refund is due with respect to any errors in the plans the applicant has submitted, staff requests that Council dismisses the complaint

Whereas the City of Brampton's Building and Enforcement staff have received a number of complaints regarding property owners who may be converting a house from a single family dwelling to a multi-unit dwelling, without a permit, but have experienced difficulty obtaining entry to carry out inspections;

Whereas these conversions and renovation projects are potentially putting occupants at risk due to poor construction or contravention of the fire code;

Whereas there is a prevalence in illegal construction activities across the City of Brampton in recent years;

Whereas according to section 12 of the *Ontario Building Code Act* (the "Act"), an inspector may enter upon land and into buildings at any reasonable time without a warrant for the purpose of inspecting the building or site to determine whether or not the *Act* and the *Building Code* have been complied with and, if contraventions are found, may make orders directing compliance;

Whereas according to section 16 of the *Act*, an inspector shall not enter or remain in any room or place actually being used as a dwelling without consent of the occupier, notwithstanding the section 12 right of entry;

Whereas there are instances where Building and Enforcement staff require access into a dwelling to determine whether the *Act* and *Building Code* are being complied with;

Whereas the City's Building and Enforcement staff are mindful of the privacy rights of residents related to dwellings but also understand that there are examples where access into dwellings is justified as set out in the exemptions described in section 16 of the *Act*; and

Whereas City Councillor Jeff Bowman has written and spoken to the Premier of Ontario, the Minister of Municipal Affairs and Housing and to the Solicitor General over the past two years, with no response or commitment to action from the Province;

Therefore Be It Resolved That the Mayor of the City of Brampton send a letter on behalf of Council with a copy of this resolution to the Hon. Steve Clark (Minister of Municipal Affairs and Housing), requesting that section 16 of the *Ontario*

Building Code Act be amended to allow inspectors to enter into dwellings to ensure compliance with the *Act* where the inspector has reasonable grounds to believe that construction has or is taking place within the dwelling for the purpose of creating an additional rentable occupancy space, without a permit; and

Further, a copy of the letter be sent to the Premier of Ontario, the Solicitor General of Ontario and Members of Peel Regional Council.

CW233-2020

Whereas the Peel Islamic Cultural Center is a non-profit, non-political, charitable, and religious organization dedicated to the education and welfare of the Muslim community and;

Whereas the Peel Islamic Cultural Center is in the process of building a mosque which will include youth and recreational programs and;

Whereas the Peel Islamic Cultural Centre cannot proceed with a City building permit until they satisfy the Regional Development Charge component, in order to satisfy this component a payment or deferral agreement is required and;

Whereas the Region of Peel requires a Letter of Credit from The Peel Islamic Cultural Center in order to enter into a deferral agreement for the payment of the regional development charges, as per the Regional Development Charge bylaw and;

A motion, moved by Regional Councillor Dhillon and seconded by Regional Councillor Medeiros, was introduced, with the operative clause as follows. The motion was subsequently also seconded by City Councillor Singh.

Therefore, be it resolved that the City of Brampton stand in solidarity with those Brampton residents and their families who have been directly affected by the farming bills passed in India.

Councillor Dhillon and Councillor Medeiros outlined the purpose of the motion.

The motion was considered as follows.

C387-2020

Moved by Regional Councillor Dhillon

Seconded by Regional Councillor Medeiros

Whereas the City of Brampton remains a proud farming community;

Whereas the City of Brampton understands and respects the contributions of farmers in feeding nations;

Whereas the City of Brampton is home to thousands of farmers who still own farmland in their ancestral countries;

Whereas numerous rallies have recently taken place across the City of Brampton protesting three farming bills that were passed in India in September 2020;

Whereas the passing of the bills will result in the privatization of farmers' markets in India and will adversely affect the financial situation of many Bramptonians and their families back home;

Whereas India's agriculture sector contributes nearly 15 per cent of India's \$2.9-trillion economy but employs nearly half of the country's 1.3 billion people,

Minutes – City Council – Regular Meeting – October 14, 2020

Whereas 86 per cent of Indian farmers only own two or less acres of farmland with an average income of \$1400 per year, and do not have the means to bargain with large, private corporations;

Whereas anti-farmer policies, debt, and a deteriorating financial status have led to 363,726 farmers and farm labourers committing suicide between 1995 and 2019;

Whereas Brampton City Council has recently recognized and stood with its Black, Tamil, Vietnamese, and other communities whose families have faced hardship abroad;

Therefore, be it resolved that the City of Brampton stand in solidarity with those Brampton residents and their families who have been directly affected by the farming bills passed in India.

4. **Delegations**

4.1 Delegations from:

Dr. Lawrence Loh, Peel Medical Office of Health

Dr. Naveed Mohammad, William Osler Health System

Mayor Brown provided a brief overview of the situation, and introduced Drs Loh and Mohammad, who provided details of the pandemic response locally and measures to be taken, which included information on the following topics:

Dr. Mohammad:

- Ongoing issue of resources – thanks to Mayor Brown for his advocacy.
- Number of cases continues to rise – have seen corresponding number of patients seeking care at our health system.
- Space requirements for patient isolation.
- Number of positive and suspected cases at Brampton Civic.
- Impacts from ongoing flu season, managing a few outbreaks on the wards.
- Increase in other patients for other illnesses – ambulance volumes up at both sites.
- As an interim measure made proactive decision to partner with other hospitals in GTA and beyond - to date 25 patients have been transferred.
- Have had to postpone non urgent surgeries – will be rescheduled as soon as possible - urgent and time sensitive surgeries will continue.
- If need emergency care continue to call 911 or come to the nearest emergency department and care will be provided.
- The measures indicated by Dr. Loh are critical in slowing the spread of the virus, and must be followed.

Dr. Loh:

- Thank you to the entire Osler System for the support provided.
- Support a tailored approach to ensuring the pandemic is brought under control.
- Understand there are potential well-being health hazards and harms, but there are also hazards and harms to letting the virus spread out of control.
- Mixing and interaction is what drives the infection.
- Currently in situation of increasing cases and a definite second wave, essentially a Thanksgiving and Halloween surge.
- Likely to get worse before it gets better.
- Situation now one of increasing cases, but also about tracing and hospital capacity, both of which are continually challenged - need to continue to be able to trace.
- There are those deciding between getting tested and working.
- Supporting workplaces to continue in safe manner.
- Life celebrations – social gatherings continue to drive infection.
- Faith and religious observance is important to life – asking to consider virtual worship, and attendance caps in places of worship.
- Banquet halls to be closed as their sole purpose is bringing people together.

- Need to limit close contact to our households, and focus on minimizing interaction to only the most essential.
- If the whole community can come together and do their part, we can reach goal of bringing this back to something manageable.
- If this gets out of control, have the example of western Europe to look to.
- Currently at the threshold – if it gets out of control, will need to consider further closures.

Council discussion on this matter included the following:

- Hospital triage systems and shortage of rooms for single occupants.
- Transmission in schools - beyond a cohort is declared a school outbreak.
- Current situation compared to first wave - more targeted measures.
- Need to exercise control in household mixing - choices matter - move responsibly.
- Discrepancy between Peel Public Health website numbers and those on the Ontario epidemiology site - provincial numbers not being reported in real time (drawn from 8:00 a.m. to 8:00 a.m. on the same day versus 3:00 p.m. to 3:00 p.m. of the previous two days) - should match, leads to COVID-19 fatigue and raises the question of who to listen to and who has the right numbers.
- Targeted approach, also need targeted communications.
- Celebrate but don't congregate - for next two to four weeks limit to only essential contacts, discretionary contact is a choice.
- Also a need to ensure employers are taking precautions.

The following motion was considered.

Whereas, the Brampton Economic Support Task Force hosted a webinar for the restaurant sector to provide updates from industry experts and learned of issues facing the industry during the COVID-19 pandemic.

Whereas, the industry has been hard hit during the COVID pandemic resulting in closures and lockdowns.

Whereas, on November 23rd, Brampton moved into the Grey Phase of the Province's new lockdown level with wide scale measures and restrictions including the closure of indoor and outdoor restaurant service. Take out and delivery are permitted.

Whereas, the delivery services provided by various companies can cost a restaurant as much as 30% of the cost of the meal for each delivery. For many restaurants this isn't affordable or sustainable.

Whereas the cost of doing business has escalated with the cost of Personal Protection Equipment for employees and Commercial Insurance.

Therefore be it resolved that Brampton City Council:

- Urges service delivery companies to help restaurants stay in business by lowering delivery fees.

13.2 Governance and Council Operations Committee Recommendation GC018-2020

Council reviewed Committee's purpose for deferral of a portion of Recommendation GC018-2020 to give time for the Council Member to provide additional information on the agreement with the consultant. Staff confirmed that no additional information was received from the Member.

A question was raised by a Member of Council with respect to the need to provide a reason for further deferral of the portion of the recommendation. Peter Fay, City Clerk, responded that a reason is not required, but that a specific date would need to be identified.

The City Clerk also noted that deferral motions are not debatable and, as the Member had spoken to the matter, the Member could not place the motion for deferral at this time. Mayor Brown suggested that the Member get back on the list of speakers.

A Point of Order was raised by Regional Councillor Palleschi. The Mayor gave leave for the Point of Order.

Councillor Palleschi challenged the advice from the City Clerk, noting that the Member was not speaking to the matter, rather was asking a question about a potential deferral. Allowance was provided by the Mayor, and the City Clerk provided a response to Councillor Palleschi's challenge.

A motion, moved by Regional Councillor Dhillon, was introduced to defer the portion of the recommendation to a Council Meeting in 2021. As the motion was procedural in nature, a seconder was not required.

The deferral motion was voted on and lost as outlined in Resolution C469-2020 below.

Whereas the City of Brampton's outdoor skating rinks have remained opened to allow opportunity for residents to be physically active for exercise, but with limited capacity and pre-registration requirements to control use and contact tracing;

Whereas the two metre physical distancing rule has been encouraged since the beginning of this pandemic and throughout, as a measure to prevent the spread of COVID-19;

Whereas scientific evidence has indicated that repeated, cumulative exposure to an individual or individuals with COVID-19 can, in certain instances, also lead to inoculation in the same manner as prolonged close contact (reference page 5:

<https://www.publichealthontario.ca/-/media/documents/ncov/main/2020/09/covid-19-contact-tracing-risk-assessment.pdf?la=en>)

Whereas in cases where the two metre physical distancing protocol cannot be maintained, residents are asked to wear a mask to protect themselves and others from the spread of COVID-19;

Whereas the Peel Medical Officer of Health has provided a recommendation that local municipalities consider extending mask and face covering mandates to outdoor activities where transmission risks exist, where more than simply transient passing contact might be occurring;

Whereas limited capacity at outdoor skating rinks operated by the city does not guarantee that residents will maintain the two metre physical distancing rule;

CW002-2021

That the report titled: **Government Relations Matters**, to the Committee of Council Meeting of January 20, 2021, be received.

CW003-2021

Whereas Canada's recovery from the COVID-19 pandemic will depend on municipalities as the order of government closest to the places where people live, work, thrive and struggle;

And whereas, Canada's federal-municipal partnership is supporting Canadians through this pandemic by: delivering rapid housing solutions for vulnerable Canadians, expanding federal funding to bring reliable internet to rural Canadians, and keeping vital municipal services running strong through the Safe Restart Agreement;

And whereas, the pandemic has exposed longstanding inequalities and the need for a recovery that builds on our federal-municipal partnership to create jobs, promote inclusion and increase resilience to the next threat, whether it's a virus or climate change;

Therefore be it resolved, that the City of Brampton endorses the Federation of Canadian Municipalities' recommendations for a green and inclusive economic recovery, Building back better together, which empowers local leaders to deliver results for Canadians on the ground while continuing to protect the frontline services they rely on, including:

- Building an inclusive recovery—where we create jobs and promote equality, by urgently scaling up the new Rapid Housing Initiative to end chronic homelessness in Canada, growing our affordable housing supply to prevent the flow into homelessness, and investing in community, cultural and recreational infrastructure to promote social inclusion;
- Building a green recovery that creates jobs and moves Canada closer to a net-zero emissions economy, by continuing to invest in efficient public transit, scaling up proven local initiatives that reduce GHG emissions and build communities' resilience to climate change; and
- Building a resilient partnership that matches our modern role in supporting Canadians and our economy, by ensuring municipal operating support continues as COVID-19 impacts stretch through 2021, directly empowering rural communities through new investments in rural transportation and housing, and doubling the federal Gas Tax Fund allocation over three years through a new Municipal Economic Recovery Fund;

And further that staff report back and identify opportunities to align, integrate and provide specific examples of how FCMs Building Back Better Together supports advancing Brampton's priorities through the Municipal Economic Recovery Fund; inclusive and green recovery lenses;

And further that staff together with the elected FCM Board Member from Brampton, engage with FCM to ensure that specific examples are highlighted and promoted by FCM through their ongoing advocacy;

And further, that copies of this resolution be sent to Peel-area MPs, MPPs and FCM.

CW004-2021

That the update from Mayor P. Brown re: **COVID-19 Emergency**, to the Committee of Council Meeting of January 20, 2021, be received.

CW005-2021

Whereas, Peel Public Health’s latest Weekly Epidemiological Update states that there are 44,652 confirmed and probable cases of COVID-19 that have been reported in Peel Region

Whereas, there have been 475 deaths among these confirmed cases that reflects the serious nature of this virus.

Whereas, the Provincial Government has declared a 2nd State of Emergency, and implemented related stay-at-home orders due to increasing case counts province-wide.

Whereas, Peel Region’s weekly incidence rate is higher than the ones being reported by all 34 of Ontario’s public health units.

Whereas, Peel area hospitals have already transferred patients hours away for care in a bid to free up capacity to treat people suffering from COVID-19 but remain on the brink of catastrophe.

Therefore be it resolved, that Peel Region, the City of Brampton, the City of Mississauga, and Town of Caledon, partner, in alignment with advice from Peel Public Health, and invest in a significant joint communications campaign to residents of Peel Region, of no less than \$1,000,000 equally shared, and no less than a period of 6 weeks, with the express goals of:

1. Reducing the rapid increase of Peel Region’s case counts
2. Directing Residents to Stay Home based on new Provincial Orders
3. Pivot in messaging with a call to action to NGO’s, local influencers and News agencies.
4. Delivering opportunities and options to engage relevant Town, City, and Regional services, arts/religious/culture/cuisine and engagement opportunities from the safety of home
5. Start a Regional tele-town hall with the heads of the four municipalities, all five Chief’s, medical officer of health, and representatives from Trillium and Osler health units, for the purpose to reach a wider audience with an emphasis on spreading the word not the virus.

CW006-2021

CW007-2021

That the delegation from Charles Finlay, Executive Director, Rogers Cybersecure Catalyst at Ryerson University, to the Committee of Council Meeting of January 20, 2021, re: **Police Cybercrime Training Centre** be received; and

Whereas the Rogers Cybersecure Catalyst at Ryerson University has plans to open a National Police Cybercrime Training Centre, and has interest in establishing the Training Centre in the City of Brampton; and,

Whereas The City of Brampton recognizes the value proposition, that Cyber Security provides in attracting new business’s and investment to the City

Whereas Cybercrime is a rapidly growing threat in Canada affecting corporations, residents, and the public sector, and reported cybercrimes has increased by more than 100% between 2014 and 2018; and,

Whereas the proposed National Police Cybercrime Training Centre in Brampton will expand on the training conducted by the Canadian Police College and allow collaboration between national, regional, and municipal law enforcement agencies to better address cybercrime as a growing threat; and,

Whereas the Police Cybercrime Training Centre will act as a hub for law enforcement agencies allowing for collaboration and sharing of best practices among agencies, will develop advanced courses that will train officers nation wide to address new threats; and,

Whereas opening a Police Cybercrime Training Centre will make Brampton the centre for Cybercrime training and an important addition to Brampton's Innovation District

Therefore Be It Resolved that the City of Brampton staff be directed to begin discussions with Ryerson University for a potential Police Cybercrime Training College within the municipality outlining The City of Brampton's role in a possible partnership, identify what resources would be required, and report back to Council when appropriate.

Secures Oversubscribed Round for New Portfolio Company: Canurta Inc."**, be received.

CW011-2021

That the delegation from Alec Cloke, Ontario Dump Truck Industry Expert, to the Committee of Council Meeting of January 20, 2021, re: **Item 10.3.3 - Provincial Policies Related to Dump Trucks**, be received; and

Whereas, the Ontario Ministry of Transportation's Safe, Productive, Infrastructure Friendly (SPIF) (413/05) regulations that took effect Jan 1, 2021 require dump trucks manufactured prior to 2011 to undergo expensive retrofits (costing up to \$40,000); operate at significantly reduced capacity, or be taken off the road after 15 years of operation.

Whereas, the regulations only apply to four specific categories of trucks, used mainly in the construction industry: concrete trucks, water trucks, fuel trailers, and dump trucks.

Whereas, the average lifespan of a dump truck is 20-25 years, and accommodations have been made to permit other impacted trucks (noted above) to operate for 20 to 25 years i.e their full life span.

Whereas, only dump trucks have not been accommodated to permit operation for their full life span i.e 20-25 years.

Whereas, there is no threat to public safety from older (non-retrofitted) dump trucks, but rather the regulations are mainly designed to reduce wear and tear on roads and infrastructure i.e. promote infrastructure safety and save costs.

Whereas, the announcement of these measures' effect date was made a little over a year ago in the midst of the Covid-19 pandemic, however notifications to operators were only sent by the Ministry of Transportation very recently.

Whereas, requests for meetings and information by drivers, owner/operators and ODTA were delayed and denied by the Ministry of Transportation.

Whereas, the Ministry of Transportation entered into an agreement in 2016 that no policy would move forward without industry consensus.

Whereas, that agreement has not been honoured and no meaningful communication, consultation or industry engagement has taken place.

Whereas, dump truck drivers are essential workers who help build our roads, hospitals, critical infrastructure and housing.

Whereas, workers in this industry have already been hit hard by the pandemic suffering at least a 25% reduction in work and income.

Whereas, it is not feasible for dump truck drivers and operators to invest up to \$40,000 (plus one week off the road) to undergo retrofits on trucks that are only 15 years old.

Whereas, operating at significantly reduced capacity is not economically viable for these small business owner/operators as it will result in approximately a one third reduced capacity.

Whereas, dump trucks that are not able to operate at full capacity will not be able to fulfill their existing contractual obligations, gain future work, or be hired for jobs.

Whereas, dump truck drivers and operators have already invested \$250,000 to \$350,000 in their trucks with the expectation that they will be able to operate them for the full life span of the truck.

Whereas, the dump truck owners and operators that are hardest hit by these regulations, are those with the oldest trucks and are among the most vulnerable in the industry.

Whereas, enforcement actions have commenced and many operators have already been turned away from job sites, unable to fulfill contracts, or have been ticketed up to \$1000.

Whereas, adding additional years of operation time/permits would address this issue and essentially allow the older trucks to be grandfathered/used for their full life span.

Whereas, these regulations will disrupt the industry resulting in delays, longer build times, higher costs that will ultimately be passed down to consumers and taxpayers.

Whereas, many Brampton families rely on this income as small business operators generate jobs for drivers, and create other spin off jobs that also benefit the economy.

Whereas, Brampton is a transportation hub that relies on this vital industry for economic well being of its citizens and businesses.

Whereas, dump truck drivers and operators deserve to be heard, consulted, have their valid concerns addressed and be treated with overall dignity and respect

Whereas, The Ontario Dump Truck Association (ODTA) is calling on the Government of Ontario to review these measures and work to find a solution.

Therefore be it resolved that:

1. The City of Brampton urge the Ontario Ministry of Transportation and the Government of Ontario to work with the ODTA to address issues regarding SPIF-compliant axle legislation and work toward viable solutions; and
2. The Mayor of Brampton write a letter to the Minister of Transportation on behalf of Council.

CW045-2021

That the staff update re: **Government Relations Matters**, to the Committee of Council Meeting of February 3, 2021, be received.

CW046-2021

Whereas the Prime Minister announced Air Canada, WestJet, Sunwing and Air Transat have all agreed to suspend their flights to those popular so-called "sun destinations" until 30 April,

Whereas the new travel restrictions are intended to prevent leisure travel to sun destinations as opposed to those traveling to those regions with direct family ties and responsibilities,

Whereas some Brampton and GTA residents are currently stranded in the Caribbean with cancelled flights and without the means to pay for the additional cost that they did not plan for prior to travelling for essential reasons,

Whereas the labelling of these regions as sun destinations reinforces a narrow stereotypical view that these countries are limited to tourism

Whereas employers are faced with absent employees who have been economically stranded in these countries,

Whereas the residents who cannot get a direct flight from Canada to the Caribbean and Mexico and vice versa are now forced to travel through countries that have a much higher COVID-19 infection rate,

Whereas the Prime Minister stated that the cost of staying in a hotel up to 72 hours while waiting for a negative COVID test result, could cost a single traveler approximately \$2,000,

Whereas the restrictions put undue pressure on those already facing financial demands taking care of a family member abroad or paying funeral costs,

Therefore be it resolved that:

1. The Mayor write a letter on behalf of Council requesting that the federal government clearly identify the difference between leisure and essential travel.

CW047-2021

 - Scenario 5: median BRT lanes (one per direction) along the length of the Queen Street – Highway 7 Corridor as a result of road widening (retaining the current number of traffic lanes), everywhere except Downtown Brampton (Queen Street between McMurchy Avenue and Kennedy Road) where lane conversion is considered.

4. That the Council authorize staff:

A. to continue to work with Metrolinx to advance the Queen St – Highway 7 BRT in-development project to the next stage to develop the preliminary design with the associated business case for the corridor.

16.2 Discussion Item at the Request of Regional Councillor Dhillon re: Brampton Car Insurance Rates

Council agreed to vary the order of business and dealt with this item under Item 16.2. For the purpose of the minutes, Council's consideration is outlined under this item.

Regional Councillor Dhillon outlined the purpose of his motion, outlined comments from residents on this subject, and indicated his interest in the motion being seconded by all Members of Council.

Councillor Dhillon and staff responded to questions from Council with respect to inclusion of this topic in the City's "Fair Deal for Brampton" campaign.

Council consideration included:

- comments in support of the motion
- need to continue encouraging active transportation, while advocating for more equitable insurance rates
- varying opinions about including this topic within the existing Fair Deal for Brampton campaign versus a separate campaign
- proposed amendment to the last operative clause to remove MPs, given this topic is not within their jurisdiction, and adding the Insurance Bureau of Canada
- acceptance of the proposed amendments by the mover

A recorded vote was requested on the motion, as amended, with the results as follows.

C044-2021

Moved by Regional Councillor Dhillon

Seconded by All Members of Council

Whereas the City of Brampton and its residents have not received a fair deal, and have been underserved and discriminated against in regards to auto insurance rates for decades.

Whereas currently there are no standardized rates for auto insurance in Ontario as the rates are dependent on a number of factors, many of which are not in the drivers' control.

Whereas Ontario residents were promised a 15% reduction in 2015 but rather saw a 2% increase.

Whereas a report commissioned by the Provincial government in 2016 found that Ontario had the most expensive auto insurance rates in Canada despite also having one of the lowest levels of accidents and fatalities.

Whereas Ontario's average auto insurance rates cost \$1,505 per year.

Whereas the cost of insuring a vehicle in the City of Brampton is approximately 123% higher than Ontario's average.

Whereas Brampton currently holds the title of the most expensive insurance in Ontario with an approximate average of \$2,698.

Whereas the following postal codes currently pay the highest average rates in Brampton: L6R at \$3301, L6T at \$3068, L7A at \$2980, L6P at \$2792, L6Z at \$2581, L6Y at \$2573, and at L6S \$2540.

Whereas the lowest average rate in Brampton belongs to L6X at \$2066, which is still well above the provincial average.

Whereas other municipalities in Ontario pay significantly lower rates, for example Kingston, Belleville and Napanee average approximately \$1,000 per year.

Whereas rates in Brampton are expected to rise in 2021.

Whereas Bill 42 was introduced in Provincial Parliament in 2019 to prohibit insurance companies from using postal codes or area codes as primary factors in setting insurance rates, and is currently in the process of being reviewed by the Ontario Standing Committee on Finance and Economic Affairs.

Whereas due to Covid-19 there is no identified timeline for when the committee will announce recommendations or what the outcome of the recommendations will be.

Whereas Brampton residents have been suffering and continue to suffer from decades of neglect from the Province, including healthcare in our city that is underfunded and overburdened.

Whereas Brampton has been continuously overlooked by the Provincial government, despite being one of the fastest growing cities in the country.

Whereas this Council has been a staunch supporter for fairness for healthcare through its Fair Deal for Brampton campaign, which has been successful in raising awareness and creating change.

Whereas Brampton residents MUST have their voices heard in regards to their demand for decisive and prompt action relating to auto insurance rates.

Whereas Brampton residents refuse to wait any longer.

Therefore be it resolved that:

1. The Fair Deal for Brampton campaign be expanded to include a section on the reduction of auto insurance rates in Brampton.
2. An online petition be created demanding that the Province must give Brampton residents a Fair Deal by delivering urgently needed reductions in auto insurance rates.
3. All data collected from the petition be sent to the Premier of Ontario along with a letter from Brampton City Council.
4. A copy of the correspondence also be sent to all Brampton MPPs, AMO, and the Insurance Bureau of Canada.

16.4 Discussion Item at the request of Regional Councillor Palleschi re: Procedure for Additions

Council agreed to vary the order of business and dealt with this item before Item 16.3.

Regional Councillor Palleschi highlighted the following:

- need to ensure meeting procedures are followed to provide for more efficient meetings
- importance of meeting preparation and keeping to agenda deadlines to ensure all matters are included on the published agenda to provide for transparency and to give residents the opportunity to provide their input prior to Council making its decision
- other matters that should be part of Council discussions, including e-mail correspondence among Members that could be looked upon as advancing the business of the Corporation

In response to questions, Peter Fay, City Clerk, outlined the provisions of the *Municipal Act* as they relate to what does and what does not constitute a meeting, and reiterated his advice that Members need to ensure their communications are not advancing corporate business.

In response to a question from Regional Councillor Santos about introducing a motion at this meeting and referring it to the Governance and Council Operations Committee meeting of March 1, 2021, the City Clerk confirmed that this would be appropriate and noted that a seconder was required.

The motion was introduced, seconded by Regional Councillor Fortini, and considered as follows.

12.3 Minutes – Committee of Council – February 24, 2021

During Council’s consideration of the subject minutes, discussion took place with respect to Recommendations CW076-2021 (greenhouse gas (GHG) emissions from Ontario’s natural gas-fired power plants) and CW098-2021 (GTA West Transportation Corridor), as follows.

Recommendation CW076-2021:

A motion, moved by City Councillor Whillans and seconded by Regional Councillor Palleschi, was introduced to replace the recommendation with a revised version. Councillor Whillans noted that the revised recommendation does not change the original intent, rather it includes additional information (two additional whereas clauses).

The revised motion was as follows:

That CW076-2021 be replaced with the following revised recommendation:

Whereas a major transportation corridor through the Region of Peel is a significant provincial investment and must be done thoughtfully and with sufficient review and;

Whereas the EA initiated by the previous provincial government was cancelled due to strong objection from experts in rural development, renewable cities, agriculture, environment and efficient transportation and;

Whereas the Province’s proposal to fast-track the environmental assessment process represents key environmental, social and economic risks to the City of Brampton and the Region of Peel and;

Whereas Brampton City Council endorsed a boulevard option through Northwest Brampton as a result of its enhanced social, environmental, economic and city-building benefits and;

Whereas Brampton City Council has requested that MTO include consideration of the boulevard option as part of their current EA process for the major transportation corridor to which they have declined and;

Whereas Environmental Defence has filed a request for designation under Section 9 of the Federal Impact Assessment Act requesting the GTA West proposed project and associated transmission corridor be considered within federal jurisdiction and;

Whereas a federal environmental assessment represents a key opportunity for enhanced oversight of the GTA West Transportation Corridor;

Therefore be it resolved that the City of Brampton request the Government of Canada to conduct an Environmental Impact Assessment of the proposed major transportation corridor, and including the boulevard option and;

That a copy of this motion be sent to Prime Minister Justin Trudeau, Minister of Transportation Caroline Mulroney, Minister of Environment and Climate Change Jonathan Wilkinson, all Brampton MPs and MPPs and Mississauga, Caledon and Peel Councils.

A Point of Order was raised by Regional Councillor Vicente for which the Mayor gave leave. Councillor Vicente requested that the motion be read out at the meeting. Councillor Whillans agreed and read out the motion.

Council consideration of the motion included:

- varying opinions and comments on the motion
- Council's previous consideration of and position on the GTA West Transportation Corridor
- Brampton Council's position on the Corridor versus that of Region of Peel Council
- questions about the motion and details from the mover and seconder in response
- proposed deferrals of the motion:

- to a special meeting of Council to be held in advance of consideration of this matter by Region of Peel Council
- to the regular Council meeting following consideration by the Region of Peel

A Point of Order was raised by Regional Councillor Santos, for which the Mayor gave leave. Councillor Santos noted that the original proposal for deferral of the motion was to have this considered before Region of Peel Council.

During consideration of the motion, staff outlined timelines as they relate to the City's response to the Federal Government with respect to a Federal Environmental Assessment, and noted that Council could have an overall discussion on the Transportation Corridor subsequent to that.

An amendment to the first operative clause of the motion was introduced and accepted by the mover to change "including the boulevard option" to read: "should it proceed that it include the boulevard option, as supported by Brampton Council".

A further amendment to the first operative clause was proposed by Regional Councillor Vicente to include additional comments along the lines of the following: "that the City of Brampton opposes the GTA West Corridor through our City as it has been proposed, and that Brampton Council requests that the Government of Canada conduct an environmental impact assessment of the proposed major transportation corridor and should it succeed, it include a boulevard option as requested by Brampton Council".

Councillor Palleschi, in his role as seconder, noted that the requested amendment would require reopening of Council's decision as Council has already approved support for the boulevard option and environmental protections. Councillor Palleschi provided background on the Corridor, noting that the previous Provincial Government did not cancel the entire project, as this was always going to be a corridor, and the reason for the motion is to provide an environmental defence and to a request a Federal environmental assessment, after which Council's position on the boulevard concept could be put forward to the Province.

A Point of Order was raised by Councillor Palleschi, for which he was given leave. Councillor Palleschi responded to comments from Councillor Vicente and clarified that Brampton Council does not want a major highway, but prefers a transmission corridor, with the boulevard option and environmental protections.

A recorded vote was requested on the motion. During the vote, Mayor Brown and Peter Fay, City Clerk, provided a reminder about the rules as they relate to debate during the taking of votes.

The results of the recorded vote were as follows:

Yea (11): Regional Councillor Dhillon, City Councillor Singh, Regional Councillor Fortini, City Councillor Williams, Regional Councillor Medeiros, City Councillor Bowman, Regional Councillor Palleschi, City Councillor Whillans, Regional Councillor Vicente, Regional Councillor Santos, and Mayor Brown

Carried (11 to 0)

Recommendation CW098-2021:

A request was made for a separate recorded vote on the recommendation, to provide an opportunity for the Mayor to vote since he was absent during the vote at Committee. The results of the recorded vote were as follows:

Yea (11): Regional Councillor Dhillon, City Councillor Singh, Regional Councillor Fortini, City Councillor Williams, Regional Councillor Medeiros, City Councillor Bowman, Regional Councillor Palleschi, City Councillor Whillans, Regional Councillor Vicente, Regional Councillor Santos, and Mayor Brown

- proposed workshop with the Integrity Commissioner to review Council's Code of Conduct
- concerns about the reference in the motion to any changes being retroactive to the start of this term of Council

2. That Recommendation BCS005-2021 be **referred** to staff for consideration and report thereon.

BCS005-2021

Whereas the traffic lights on many major roads are timed such that drivers are rewarded for speeding to make the next green light, and,

Whereas timed traffic lights on major roads in Toronto and other cities have proven to reduce overall speed, traffic accidents, and death, and,

Whereas it has been confirmed that technology exists to time the traffic lights to ensure smooth flow traffic and that the pricing of this technology is less than in previous years, and,

Whereas traffic flows more efficiently when right and left turn lanes exist by decreasing throughway flow obstructions, and,

Whereas pedestrian safety increases as people are queued in a turn lane instead of the throughway, and,

Whereas fewer bus routes obstructions occur where turn lanes exist because buses can use the turn lanes at major intersections for their stops, and,

Whereas road safety is a concern for all Brampton residents, and,

Whereas the Williams Parkway expansion has been cancelled,

Therefore it is the opinion of the Brampton Community Safety Advisory Committee that staff be directed to explore timing the traffic lights on Williams Parkway, as a pilot project, and eventually city-wide, such that a driver heading eastbound or westbound continues to get green lights and that traffic flows smoothly, provided everyone is travelling at the posted speed limit, and,

It is the opinion of the Brampton Community Safety Advisory Committee that staff be directed to explore right and left hand turn lanes, advanced greens, and timed advancement pedestrian cross over signals (e.g. the count down don't walk hand), at all intersections on Williams Parkway, as a pilot project, and eventually city-wide.

- (a) Any 3 member absences (consecutive or not), or
- (b) Any 3 member absences over 4 consecutive meetings, or

C101-2021

Moved by Regional Councillor Santos

Seconded by Regional Councillor Dhillon

That the delegation from Esther Aird, property owner, 2585876 Ontario Inc, re: **Item 13.1 – Building Improvement Grant – 249 Main Street North – Ward 5**, to the Council Meeting of April 7, 2021, be received.

Item 13.1 was brought forward and dealt with at this time.

Regional Councillor Santos, mover of the motion, outlined a proposed amendment to the motion to direct staff to proceed with the second payment of the grant upon conversion to commercial use and the completion of the works for this purpose.

At the request of Councillor Santos, staff commented on the proposed amendment and noted that the work may take several years, at which time the Program may no longer be in place, and suggested additional wording along the lines of “provided that the program is still in place”.

Council consideration included:

- varying opinions about release of the second payment of the grant, given the current conversion to residential
- need to follow the eligibility requirements under the Program

- suggestion that this matter be considered at a future Council meeting after the property has been converted to commercial or mixed use
- an additional proposed amendment to the motion to define a time limit for conversion of the property to commercial/mixed use
- agreement from the mover to add a time limit of one year

In response to questions from Council, staff provided information on the Main Street North Development Permit area, the specific area for which the Building Improvement Program applies.

The motion, as amended, was considered as follows.

C102-2021

Moved by Regional Councillor Santos

Seconded by Regional Councillor Palleschi

WHEREAS Council at its meeting of September 12, 2018 approved a Façade Improvement Grant (File: FA18-003) and a Building Improvement Grant (File: BU18-004) in the amount of \$50,000 each for 249 Main Street North (Resolution PDC 108-2018).

AND WHEREAS, the proposed works involved the restoration and conservation of the building, which is a designated heritage resource and converting it to commercial uses.

AND WHEREAS, following the approval of the grant, the owner decided to use the building for residential purposes rather than commercial uses.

AND WHEREAS, the owner completed the works approved under the Façade Improvement Grant and Council at its meeting of April 8, 2020 directed Staff to pay the Façade Improvement Grant under application FA18-003 (Resolution C107-2020) notwithstanding the building being used for residential purposes because the completed works contribute to revitalizing Downtown Brampton by restoring a designated heritage resource and would benefit the building if it were to be converted to a commercial use in the future.

AND WHEREAS, the owner has since advanced, but not completed, the works for the interior of the building.

AND WHEREAS, the works approved under the Building Improvement Grant would also contribute to the restoration of the designated heritage resource and would benefit the building if it were to be converted to a commercial use in the future.

AND WHEREAS, the Implementation Guidelines require that payment of grants only be made after work approved under a grant is completed to ensure that grant monies are used for the works, and it is important to maintain that intent.

IT IS THEREFORE RESOLVED that Staff be directed to proceed with the payment of the Building Improvement Grant under application BU18-004, subject to continuation of the Building Improvement Grant program, within one year, upon conversion to a commercial use and upon the completion of the works to restore the interior of the building, which can be paid out in two installments with the first being for a maximum of \$30,000 upon completion of the work to the foundation of the building, following the standard requirements contained in the Building Improvement Grant Implementation Guidelines for the submission of invoices, inspections and other matters.

C105-2021

Moved by Regional Councillor Medeiros
Seconded by All Members of Council

WHEREAS COVID-19 variants are attacking younger victims - many of whom are essential workers;

WHEREAS it has been known for months that essential workers in warehouses, manufacturing facilities, logistic companies and packaging companies are a source of spread that is not being addressed by lockdowns or age-related vaccine distribution;

WHEREAS essential employees, working shoulder to shoulder, and multi-contact front-line workers - often those without sick leave which would allow them to self-isolate at the onset of symptoms are contacting infection in their workplaces;

WHEREAS essential workers are spreading COVID variants in multi-generational households - family members who are initially asymptomatic then spread disease in schools and other public places;

WHEREAS vaccinating by age group is methodical but is not stopping the spread of COVID-19 and its variants effectively;

THEREFORE BE IT RESOLVED:

That the City of Brampton Council supports the Region of Peel in outfitting mobile vaccination units to go into high infection workplace sites in Caledon, Brampton and Mississauga to vaccinate all workers wanting to be vaccinated, regardless of age, necessitating only a 20 minute pause in their productivity;

That Brampton Transit reiterates the availability of its busses to support the mobile vaccination strategy; and

Whereas the Ontario's COVID-19 vaccine program goals are to: 1. Prevent deaths 2. Prevent illness, hospitalization and ICU admissions, and 3. Reduce transmission;

Whereas the Region of Peel Public Health Department is set up to vaccinate 70,000 residents a day;

Whereas we need more vaccine as we only vaccinate 8000 residents a day;

Whereas the Region of Peel has been a "hot spot" with a high number of COVID cases;

Whereas the third wave of the pandemic worsens, with COVID-19 cases soaring and critical care admissions reaching record highs;

Whereas the province needs to quicken their vaccine distribution to combat unsustainable pressure facing hospitals and health centres;

Whereas 50 per cent of COVID-19 cases are tied to essential workers and their families;

Therefore be it resolved that:

1. The Ontario Government be requested to prioritize vaccine distribution to public health units within the hardest hit regions and municipalities experiencing COVID-19, including the Region of Peel and in particular the City of Brampton to be prioritized;
2. The Ontario Government and Region of Peel be requested to immediately prioritize vaccinations for the following essential sectors and workers most impacted by COVID-19, within the Region and City:

16.2 Discussion at the request of Regional Councillor Medeiros, re: Ombudsman Investigation

Regional Councillor Medeiros referenced a recent report in a local media outlet with respect to an Ombudsman investigation, and requested clarification about the nature of the investigation and the process for notifying Members of Council about these types of investigations.

Minutes – City Council – April 7, 2021

In response to Councillor Medeiros' inquiry, staff provided the following:

- clarification that this was an Ombudsman's review, rather than an investigation, around hiring practices, as a result of a complaint from a resident
- Indication that no specific details were given to the City with respect to the identify of the resident or date of the complaint
- the City Solicitor and the Director of Human Resources were interviewed by Ombudsman's staff, and the City was given the opportunity to provide the City's hiring policies and respond to questions about the policies
- in March 2021, the Ombudsman's Office notified the City that the review had been completed and that this matter is closed

Staff responded to questions from Council with respect to the following:

- notification to Council about this specific Ombudsman's review
- process by the Ombudsman as it relates to a formal investigation versus a review (for the purpose of determining if a complaint warrants an investigation)
- clarification of the dates referenced by the news outlet related to the current review and a previous Ombudsman investigation

Council consideration included:

- past practice related to notification to Council regarding investigations or inquiries by the Ombudsman
- need to ensure a "best practice" is in place to notify Council about any investigations, inquiries, reviews or audits, even if the notification is just for Council's information
- concern about the provision of information to the local media outlet on this matter, particularly given that the outlet does not disclose information on its proprietor, editors or journalists
- confirmation that staff did not provide information to the media outlet
- information from several Members of Council with respect to inquiries received by the news outlet on this matter, and reiteration of the need for Council to be informed in advance of media inquiries
- concerns about complaints by residents for which no evidence in provided

No motions were considered with respect to this matter.

C118-2021

Moved by Regional Councillor Santos

Whereas in 2019, the City of Brampton declared a climate emergency and on Sept, 23, 2020 unanimously endorsed the Community Energy and Emissions Reduction Plan with a target to reduce green house gas emission targets by 80% by 2050;

And whereas transportation represents 60% of GHG emissions generated in Brampton;

And whereas enabling and encouraging other sustainable modes of transportation and transitioning away from a car based culture will help reduce GHG emissions;

And whereas during the past year, the City and Region has seen an increased demand and use of active transportation infrastructure;

And whereas, investments in the built environments that facilitate active mobility support the health and well-being of residents;

And whereas Council unanimously passed the Active Transportation Master Plan on September 25, 2019 which sets out an implementation framework to deliver a connected city-wide AT network and supporting policies and programs;

And whereas on January 28, 2021 the City of Brampton identified the implementation of active transportation infrastructure as a Term of Council Priority;

And whereas the Region of Peel unanimously passed a motion on April 8, 2021 to advance Sustainable Active Mobility and work collaboratively with lower tier municipalities and community advocates to improve the active transportation network across the region;

And whereas, on February 10, 2021 the Federal government announced \$14.9 billion of funding over the next eight years to support infrastructure projects as part a plan to create one million jobs, fight climate change, and rebuild a more sustainable and resilient economy;

And whereas, on March 12, 2021, the Federal government announced the first federal fund of \$400 million over five years dedicated to building active transportation to help build new and expanded networks of pathways, bike lanes, trails for cycling, walking and pedestrian bridges;

And whereas the City of Brampton is committed to supporting the health and wellbeing of its employees, and has a number of existing benefits and programs in place to support an active lifestyle;

And whereas creating incentives to encourage City employees to learn and use active transportation infrastructure would demonstrate a “lead by example” approach as we all strive to address the climate emergency and live healthier lifestyles;

Therefore be it resolved:

- 1) That the City advise its employees of existing incentives supporting sustainable transportation options and active lifestyles;
- 2) That an awareness campaign be launched this summer, to include but not be limited to education, employee challenges and/or group rides, that promote and encourage sustainable and active transportation among City employees;
- 3) That staff work collaboratively across all departments and report back by Q1 of 2022 (before Earth Day 2022) to Council, with opportunities and recommendations to incentivize and/or further enable, encourage, and support employees in using sustainable and active modes of transportation.

9. Reports from the Head of Council

- 9.1 Update from Mayor Brown re: COVID-19 Emergency

Mayor Brown provided an update on the City's response to the COVID-19 emergency, highlighting the significant numbers of cases in Brampton and Peel, impacts on the William Osler Health System, vaccinations plans, issues and

concerns, advocacy efforts toward the closure of airports to non-essential travel, and concerns about vaccine hesitancy among Brampton residents.

Council consideration included:

- issues with obtaining rapid tests
- acknowledgement of City staff's efforts in closing and then reopening playgrounds in response to Provincial announcements
- continuing advocacy for paid sick days and additional vaccines for "hot spot" areas including Brampton

A motion, moved by Mayor Brown and seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Therefore be it resolved, that the City of Brampton begin a marketing campaign to encourage vaccine use for Brampton residents using local celebrity and medical influencers as soon as possible.

That, the City's long-term economic development Marketing vendor, who has knowledge of the City's processes, BTA Marketing be engaged via direct emergency procurement to immediately embark on this Campaign on an expedited basis.

That staff be directed to proceed with a marketing campaign not exceeding \$250,000, funded from the existing 2021 Operating Budget, which would cover the development and advertisements of this new digital campaign, acknowledging that any year-end Operating variance is funded through the General Rate Stabilization Reserve.

Mayor Brown and Councillor Medeiros outlined the purpose of the motion, and requested that Members provide Strategic Communications with any suggestions for influencers and celebrities to assist with the campaign.

Council consideration of the motion included concerns about direct procurement and costs for the proposed marketing company, other companies, including those in downtown Brampton, that may be able to provide the same service for reduced costs, and the possibility of development and deployment of the campaign in-house.

The motion was considered as follows.

C120-2021

Seconded by Regional Councillor Medeiros

- 12.3 Recommendations – Audit Committee – May 5, 2021

Council consideration of the Audit Committee Recommendations included a review of discussions at the meeting regarding the Internal Audit Charter.

Regional Councillor Medeiros, Committee Chair, expressed an interest in reopening Council's decision with the goal to reverting back to the previous Internal Audit Charter, and outlined his reasons therefor.

Peter Fay, City Clerk, outlined the process for reopening a decision of Council without a Notice of Motion on the agenda, noting there is precedent with this Council to do so. Mr. Fay outlined the three motions required to reopen Council's decision for consideration at this meeting.

The first required motion, moved by Regional Councillor Medeiros (having voted on the prevailing side of the original motion) and seconded by Mayor Brown, was introduced to temporarily suspend the rules of the Procedure By-law.

A recorded vote was requested on the motion, and it carried with the required two-thirds majority vote achieved. The motion is outlined in Resolution C143-2021 below.

The second required motion, moved by Regional Councillor Medeiros and seconded by Mayor Brown, was introduced to reopen Council's decision for consideration at this meeting.

During Council's consideration of the motion, a Point of Order was raised by City Councillor Williams, for which the Mayor gave leave.

Councillor Williams noted that she was on the board to speak prior to the vote being undertaken. The Mayor indicated that Councillor Williams could speak to the matter if the vote to reopen carried.

In response to a question from Councillor Williams, Mr. Fay confirmed that if the vote to reopen this matter does not carry, then Council's original decision stands.

A recorded vote was requested on the motion, and it carried with the required two-thirds majority vote achieved. The motion is outlined in Resolution C144-2021 below.

The third motion, moved by Regional Councillor Medeiros and seconded by Mayor Brown, was introduced, as follows:

That the previous version of the Internal Audit Charter and Terms of Reference from March of 2019 be reinstated; and,

That the City Solicitor be directed to provide comments with regard to clarification of roles and responsibilities, for future consideration by Council.

Councillor Medeiros outlined the purpose of the motion.

Council discussion on the motion included:

- reasons for reverting back to the previous version of the Internal Audit Charter to ensure independence, accountability and oversight
- suggestion from staff to refer the matter back for review and comments on any issues with alignment with the current legislative framework
- clarification that the purpose of the motion is to revert back to the previous Charter immediately, and based on comments from staff at a future meeting, Council could consider any proposed modifications to the Charter for the purpose of clarity and wordsmithing
- information from staff, in response to questions, about the background on the previous Charter and the rationale for the new Charter
- suggestion that all Members of Council second the motion
- varying opinions on the need for the City Solicitor to provide comments, recognizing that if changes are required to the previous Charter, any such changes could be considered by Council at a future meeting

Minutes – City Council – May 5, 2021

- agreement from Councillor Medeiros, mover of the motion, to delete the second clause of the motion

A procedural motion to Call the Question was introduced by City Councillor Bowman, voted on and carried. In accordance with the Procedure By-law, Members who had not spoken on this topic were given the opportunity to do so.

Carried

Council discussion took place with respect to the associated Committee of Council Recommendation CW243-2021.

A proposed revised recommendation, moved by Mayor Brown and seconded by Regional Councillor Santos, was introduced, with the operative clauses as follows:

Therefore Be It Resolved That:

That the Region of Peel be requested to pause the upcoming tender for the interim replacement of the existing watermain in its temporary configuration until such time a path forward has been determined by the City for the downtown streetscape;

That City of Brampton staff prepare a list of options to begin work on components of the previously named “Downtown Reimagined” as the first phase of the immediate implementation of the broader Integrated Downtown Plan process (which includes future plans for the LRT in the downtown) and in coordination with the Region of Peel’s infrastructure work; and

That staff report back within 90 days to include the following elements:

- a. The emerging alignments for a future LRT into Downtown Brampton
- b. Consideration and input from all the utilities
- c. Consideration and input from the Region of Peel
- d. A prioritized list of work for each option which also identifies interim strategies that could advance and/or contribute to the ultimate downtown streetscape design
- e. Consideration of options for public engagement including the DBBIA and the BBOT
- f. Consideration of the impact of the on-going pandemic on the downtown businesses
- g. How improvements in the Garden Square and Ken Whillans Square can be incorporated
- h. A summary of timelines, construction phasing, costs, financing strategies and risks associated with each option considering all of the above; and

That staff consult and obtain direction from Council on a path forward on all of the above.

An amendment to the revised recommendation was introduced by Regional Councillor Vicente to add “an alignment design” to the second operative clause, such that the clause, would read as follows:

That City of Brampton staff prepare a list of options to begin work on components of the previously named “Downtown Reimagined” as the first phase of the immediate implementation of the broader Integrated Downtown Plan process (which includes future plans and alignment design for the LRT

in the downtown) and in coordination with the Region of Peel’s infrastructure work; and

The amendment was subsequently accepted by the mover.

An alternate revised recommendation was introduced by City Councillor Whillans and displayed for Council’s reference.

Peter Fay, City Clerk, noted that if the first revised recommendation did not carry, then the second revised recommendation could be considered, and responded to questions from Council regarding the potential need for a reopening of Council’s decision (C325-2015) should the second recommendation be considered.

Council discussion took place simultaneously on both proposed revised recommendations, and included varying opinions about:

- each revised recommendation
- alignment for an LRT north of Steeles Avenue
- timelines for Council’s decision on an LRT alignment relative to proceeding with the downtown revitalization project

During Council’s consideration of this matter:

- A Point of Order was raised by Councillor Santos for which the Mayor gave leave. Councillor Santos suggested that another Member of Council was incorrectly attributing comments to her.
- The City Clerk subsequently clarified that Councillor Santos’ point was a Point of Privilege.
- A Point of Order was raised by Regional Councillor Palleschi, for which the Mayor gave leave. Councillor Palleschi noted that comments made by another Councillor were opinions and not facts.
- A Point of Privilege was raised by City Councillor Bowman, for which the Mayor gave leave. Councillor Bowman referenced the Brampton 2040 Vision that was developed with input from 17,000 Brampton residents and did not include an LRT.
- A Point of Order was raised by Councillor Santos, for which the Mayor gave leave. Councillor Santos clarified, in response to comments by Members, that the first revised recommendation was moved by Mayor Brown and seconded by her.

- Staff responded to questions regarding background on the downtown revitalization project, current status of the project, timelines for a report on the Environmental Assessment for an LRT, and provisions in the Procedure By-law as they relate to Points of Order and Points of Privilege.

The first revised recommendation was split and clauses b) to h) were voted on separately. A recorded vote was requested and the clauses carried as follows.

CYC009-2021

That the agenda for the Cycling Advisory Committee Meeting of April 20, 2021, be approved, as published and circulated.

CYC010-2021

That the Delegation from Manvir Tatla, Project Manager, Sustainable Transportation, Region of Peel, to the Cycling Advisory Committee of April 20, 2021, re: Region of Peel 2020/2021 Active Transportation Implementation, be received.

CYC011-2021

It is the position of the Cycling Advisory Committee that staff be requested to review the City's current winter maintenance practices relating to cycling facilities and investigate enhancements to existing programs to address the following list of gaps. This review shall include the impact these changes will have on operating budgets, equipment needs and resources.

- AT facilities that accommodate cycling in both directions (i.e. in-boulevard multi-use paths) should be maintained at a minimum width of 2.4 m;
- The ATMP Priority Cycling Network should be maintained at the same level of a Class 1 or 2 road type (ON. Reg. 239/02);
- Collector roads with bike lanes should be maintained to “bare pavement” condition as opposed to “tracked bare” condition and snow should be plowed back to the curb (ensuring a minimum width of 1.0 m is provided in the bike lanes);
- Maintenance programs should be revised to include maintenance of all active transportation infrastructure within the road boulevard (i.e. there are instances where a sidewalk and bicycle boulevard path run adjacent to one another but only the sidewalk is maintained);
- Special attention is required at bridges & underpasses and where maintenance activities of different service providers transition (i.e. where a path/trail meets a road) as these present the most challenges and probability of deficiencies;
- A permanent inspection routine be implemented along the City's major recreational trails, similar to the inspections conducted for the Winter Wonderland program.
- That an approach for maintenance of new types of cycling infrastructure (protected bike lanes along East-West Cycling Corridor) be developed in advance of their implementation to ensure a smooth seasonal transition.

CYC012-2021

Whereas in 2019, the City of Brampton declared a climate emergency and on Sept, 23, 2020 unanimously endorsed the Community Energy and Emissions Reduction Plan with a target to reduce green house gas emission targets by 80% by 2050;

And whereas transportation represents 60% of GHG emissions generated in Brampton;

And whereas enabling and encouraging other sustainable modes of transportation and transitioning away from a car based culture will help reduce GHG emissions;

And whereas during the past year, the City and Region has seen an increased demand and use of active transportation infrastructure;

And whereas, investments in the built environments that facilitate active mobility support the health and well-being of residents;

And whereas Council unanimously passed the Active Transportation Master Plan on September 25, 2019 which sets out an implementation framework to deliver a connected city-wide AT network and supporting policies and programs;

And whereas on January 28, 2021 the City of Brampton identified the implementation of active transportation infrastructure as a Term of Council Priority;

And whereas the Region of Peel unanimously passed a motion on April 8, 2021 to advance Sustainable Active Mobility and work collaboratively with lower tier municipalities and community advocates to improve the active transportation network across the region;

And whereas, on February 10, 2021 the Federal government announced \$14.9 billion of funding over the next eight years to support infrastructure projects as part a plan to create one million jobs, fight climate change, and rebuild a more sustainable and resilient economy;

And whereas, on March 12, 2021, the Federal government announced the first federal fund of \$400 million over five years dedicated to building active transportation to help build new and expanded networks of pathways, bike lanes, trails for cycling, waling and pedestrian bridges;

And whereas the City of Brampton is committed to supporting the health and wellbeing of its employees, and has a number of existing benefits and programs in place to support an active lifestyle;

And whereas creating incentives to encourage City employees to learn and use active transportation infrastructure would demonstrate a “lead by example” approach as we all strive to address the climate emergency and live healthier lifestyles;

Therefore be it resolved:

- 1) That the city advise City employees of existing incentives supporting sustainable transportation options and active lifestyles;
- 2) That an awareness campaign be launched this summer, to include but not be limited to education, employee challenges, and/or group rides, that promote and encourage sustainable and active transportation among City employees;
- 3) That staff work collaboratively across all departments and report back by Q1 of 2022 (before Earth Day 2022) to Council, with opportunities and recommendations to incentivize and/or further enable, encourage, and support employees in using sustainable and active modes of transportation.

CYC013-2021

12.3 Minutes – Committee of Council – May 12, 2021

Note: See Item 8.5 for Council’s consideration of Recommendation 243-2021, which carried as amended and outlined below.

Mayor Brown introduced the subject minutes, and the Section Chairs led Council’s consideration of the minutes.

Under the Public Works and Engineering Section, a motion, moved by City Councillor Bowman and subsequently seconded by Regional Councillor Medeiros, was introduced to Recommendation CW255-2021, as follows:

That Recommendation CW255-2021 be amended to delete Clause 2 and replace with the following:

2. That a by-law be passed to amend Traffic By-law 93-93, as amended, to implement “No Parking, Anytime” restrictions on the east side of Clipper Court between Biscayne Crescent and the southerly limit of the road (including cul-de-sac).

The amendment was voted on and carried.

The following motion to receive the minutes and approve the recommendations outlined within was considered.

C168-2021

Moved by Regional Councillor Santos

Seconded by City Councillor Whillans

1. That the Minutes of the Committee of Council Meeting of May 12, 2021, to the Council Meeting of May 19, 2021, be received;
2. That Recommendations CW235-2021 to CW242-2021, CW254-2021, and CW256-2021 to CW263-2021 be approved as outlined in the subject minutes; and,
3. a) That Recommendation CW243-2021 be deleted and replaced with the following:

Whereas the Region of Peel is planning to undertake a capital works project to replace the water mains on an “interim” basis in the downtown core, including in the “four corners” estimated to cost approximately \$7 million for the immediately needed work, with a total cost of approximately \$20 million, and;

Whereas this is a singular isolated and interim initiative with no other improvements currently planned to occur along with this replacement, such

as other utility upgrades, sidewalk or roadway improvements, streetscaping, landscaping, etc.; and

Whereas this isolated and interim initiative will cause massive disruption to an already heavily burdened business community within the downtown core;

Whereas a broader strategic, integrated downtown plan is currently being developed; and

Whereas a decision in 2018, during the previous term of Council, pushed the Downtown Reimagine project with incomplete utility designs and without proper due diligence related to the underground channels in the downtown; and

Whereas in Dec 2018, a decision by this term of Council to pause the work related to Downtown Reimagine was made due to the tender closing over budget and in order to conduct the necessary risk assessment and due diligence related to the downtown underground channels and other unknowns; and

Whereas it was determined after proper due diligence that risk related to the downtown underground channels was low; and

Whereas the Region of Peel's water main work represents a key opportunity for the City of Brampton to begin its initial subsurface infrastructure and surface work under the previously named "Downtown Reimagined" project as an immediate solution to revitalize the downtown, support Brampton's 5 year Tourism Strategy, and in conjunction with the broader integrated downtown plan and the Region of Peel; and

Whereas past work related to the previous "Downtown Reimagined" project included stakeholder consultations with businesses, organizations, and residents; and

Whereas a decision of the future LRT (surface or underground) along Main Street to the downtown core is a significant transformational project similar to the Riverwalk which will further support the growth, economic future, and other significant plans of the City of Brampton but is separate from the more immediate need to implement a solution to revitalize the downtown core,

Therefore Be It Resolved That:

That the Region of Peel be requested to pause the upcoming tender for the interim replacement of the existing watermain in its temporary configuration

until such time a path forward has been determined by the City for the downtown streetscape;

That City of Brampton staff prepare a list of options to begin work on components of the previously named “Downtown Reimagined” as the first phase of the immediate implementation of the broader Integrated Downtown Plan process (which includes future plans and alignment design for the LRT in the downtown) and in coordination with the Region of Peel’s infrastructure work; and

That staff report back within 90 days to include the following elements:

- a. The emerging alignments for a future LRT into Downtown Brampton
- b. Consideration and input from all the utilities
- c. Consideration and input from the Region of Peel
- d. A prioritized list of work for each option which also identifies interim strategies that could advance and/or contribute to the ultimate downtown streetscape design
- e. Consideration of options for public engagement including the DBBIA and the BBOT
- f. Consideration of the impact of the on-going pandemic on the downtown businesses
- g. How improvements in the Garden Square and Ken Whillans Square can be incorporated
- h. A summary of timelines, construction phasing, costs, financing strategies and risks associated with each option considering all of the above; and

That staff consult and obtain direction from Council on a path forward on all of the above.

b) That Recommendation CW255-2021 be amended to delete Clause 2 and replace with the following:

2. That a by-law be passed to amend Traffic By-law 93-93, as amended, to implement “No Parking, Anytime” restrictions on the east side of Clipper Court between Biscayne Crescent and the southerly limit of the road (including cul-de-sac).

such that the full Recommendation reads as follows:

1. That the report titled: Parking Related Concerns – Clipper Court - Ward 3, to the Committee of Council Meeting of May 12, 2021, be received; and,
2. That a by-law be passed to amend Traffic By-law 93-93, as amended, to implement “No Parking, Anytime” restrictions on the east side of Clipper

Court between Biscayne Crescent and the southerly limit of the road (including cul-de-sac).

Carried

The recommendations were approved, as amended, as follows.

13. Unfinished Business

13.1 Motion re: Taxi Industry Concerns

C169-2021

Moved by Regional Councillor Dhillon

Seconded by Regional Councillor Fortini

Whereas The Mobile Licensing By-law 67-2014, as amended, was enacted on March 26, 2014 to provide for a system of licensing for Mobile businesses; and

Whereas Schedule 4 of By-law 67-2014 provides for licensing requirements related to persons who carry on the business of taxicab owners and drivers and taxicab brokers; and

Whereas Zafar Tariq a member of the taxi industry delegated to Committee of Council on May 12, 2021, regarding concerns for the reduction in taxicab business during the COVID-19 pandemic; and

Whereas Mr. Tariq requested that the period of inactive taxicab owner licences be increased from two (2) years to three (3) years as the taxicab plate holders are finding it difficult to lease the plates at this time; and

Whereas the two-year limit for the use of conditional licence renewal- no vehicle was based on the standard taxicab business with small numbers of taxi plates inactive; and

Whereas the closure of offices and businesses during the COVID-19 pandemic has seen a significant increase of nine (9) applicants, in 2019, to over ninety (90) applicants seeking the option of Conditional Licence Renewal-No Vehicle option in 2020; and

Whereas four (4) applicants for taxicab owner licences will reach the limit of two years using this Conditional Licence renewal- No Vehicle option and will lose

their licence in late August 2021 should there be no amendment to the by-law;
and

Whereas Mr. Tariq indicated that due to the pandemic and the loss of business for the taxicab industry the mileage on vehicles used as taxis in Brampton has been significantly decreased and he suggests that an additional model year be permitted for vehicles with a model year of 2011 to 2015; and

Whereas one of the two approved providers of mandated taxicab security cameras was sold and its operations moved from Ontario to the United States and the taxi industry has been having difficulty with purchasing new cameras or having the existing cameras repaired; and

Whereas the taxi delegation has asked for the use of taxicab security cameras to be optional, similar to the cities of Markham, Vaughan and Mississauga; and

Whereas Mr. Tariq is requesting that the issuance of taxicab driver licences be permitted to be renewed for up to five years similar to the Ontario Provincial Driver Licence for those driver who have not had a criminal record for a number of years; and

Whereas Council believes the suggested amendments would be beneficial for the struggling taxicab industry;

Therefore Be It Resolved:

1. That section 63 of Schedule 4 of the Mobile Licensing By-law, 67-2014, as amended, be further amended by increasing the number of months a Conditional Licence Renewal-No Vehicle may be issued to 36 months.
2. That paragraph 35(7) of Schedule 4 of the Mobile Licensing By-law, as amended, be further amended by increasing the maximum age at which a vehicle may be licensed from six (6) to seven (7) model years.
3. That clause 35(8)(i) of Schedule 4 of the Mobile Licensing By-law, as amended, be further amended by increasing the number of model years an applicant may request an extension of model years from three (3) to four (4) years.
4. That paragraph 35(1)(i) of Schedule 4 of the Mobile Licensing By-law, as amended, be deleted.
5. That section 14 of the Mobile Licensing By-law, as amended, be amended by adding the following clause immediately following section 14:

14.1. Notwithstanding section 14, where an Applicant for a renewal of a Driver Licence has had no Criminal Record and a clean driving record for five (5) or more licence years the Driver's Licence may be valid for up to four (4) years when accompanied by the Licence Fee for the four-year period.

17. Public Question Period

Members of the public were given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made at this meeting.

Peter Fay, City Clerk, outlined questions from the public as follows:

Questions from Chris Drew:

1. "I heard during today's discussion on the water mains a comment about centre lane or curb lane running for the surface LRT option. Can staff please confirm that in PIC No. 2, which ended on May 13th, City staff showed the public centre lane running for the surface LRT option and that this was labelled "Option S3"? Can City staff confirm that the PIC No. 2 display boards showing Option S3 and Option U1 are still available on the City's website?"

Staff confirmed that the information is still available on the City's website.

2. "I heard in today's discussion on water mains a reference to two-way, all-day Kitchener Line GO train service for the Brampton Station in downtown Brampton. Can City staff provide a reminder for who owns the tracks between the Bramalea GO Station and the Georgetown GO Station? Does expanding two-way, all-day GO train service require an agreement between the Province of Ontario through Metrolinx and the rail owner, and that the City of Brampton isn't able to enter an agreement directly and unilaterally with the rail owner for two-way, all-day GO train service?"

Staff confirmed that any agreement for two-way all-day GO train service would be between the Province, Metrolinx and the rail owner.

The following public statement was displayed on behalf of Council with respect to Item 19.6.

The City is pleased with the Court of Appeal's confirmation of the trial judge's findings which absolve the City and its staff of the allegations of wrongdoing made by Inzola and affirm the integrity of the City's procurement process and conduct.

Over \$3.1M in costs have been awarded by the courts against Inzola.

In the more than seven years between the action being commenced and determined at trial, the claims made against the City and associated significantly negative press coverage led to diminished public trust and reputational damage to the organization, as well as the former Mayor Susan Fennell and senior staff.

Recognizing this, the City wishes to acknowledge the excellent service and commitment of its former Mayor and staff that may have been involved, express its thanks to them, and apologize for the negative consequences this matter may have had on their lives.

The Court's findings support the fact that the City's established procurement processes are rigorous and the integrity of these processes are adhered to by staff and elected officials alike.

The City looks forward to moving ahead in supporting Brampton's healthy and sustainable growth and recovery from COVID-19.

The following public statement was displayed on behalf of Council with respect to Item 19.7.

Whereas, according to Section 75 of the Highway Traffic Act (HTA), every motor vehicle shall be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise and excessive smoke and no person shall use a muffler cut-out, straight exhaust, gutted muffler, Hollywood muffler, by-pass or similar device upon a motor vehicle;

Whereas, the act of modifying the exhaust system of a motor vehicle is not currently an offence under the HTA and as a result, muffler and auto-body shops continue to provide such services which allows individuals to modify cars that lead to unsafe vehicles;

Whereas, Peel Regional Police have been actively laying charges pursuant to Section 75 of the HTA against motor vehicle operators whose vehicles make excessive or unusual noise or produce excessive smoke from the muffler systems that have been modified;

Whereas, on October 28, 2019 the Province of Ontario introduced Bill 132, Better for People, Smarter for Business Act, 2019 which in part sought to amend the HTA to include a new section, 75.1, that will make it an offence to tamper with motor vehicles by (a) removing, bypassing, defeating or rendering inoperative all or part of a motor vehicle's emission control system or (b) modifying a motor or

vehicle in any way that results in increased emissions from the level to which it was originally designed or certified by the manufacturer of the motor or vehicle;

Whereas, Section 75.1 of the HTA will also prohibit the sale of tampering devices that can create excessive noise or smoke on our streets and in our neighbourhoods;

Whereas, on December 10, 2019, Bill 132 received royal assent, however the Lieutenant Governor has not yet proclaimed Section 75.1 of the HTA despite more than a year having passed since the bill received was passed and received royal assent;

Whereas, on May 5, 2021 the City of Mississauga passed Resolution 0095-2021 in regard to Provincial action against noisemakers.

That in recognition of the continuous problem in Brampton and neighboring municipalities related to modified mufflers that can create excessive or unusual noise and excessive smoke, that Council make an urgent request to the Province of Ontario to have Section 75.1 of the Highway Traffic Act proclaimed and brought into force immediately; and

16.5 Discussion at the request of Regional Councillor Fortini re: 311 Call Centre

Regional Councillor Fortini outlined concerns relating to calls he has placed to the 311 Call Centre on behalf of residents, and cited examples of issues he has encountered.

Several Members of Council expressed similar and other concerns about the service, and provided examples.

Staff confirmed that they would undertake a review of these concerns.

16.6 Discussion at the Request of Regional Councillor Dhillon re: In-camera Meeting Protocol

A motion, moved by Regional Councillor Dhillon and subsequently seconded by Regional Councillor Medeiros, was introduced with the operative clause as follows:

Any discussions and decisions related to the third-party investigation pertaining to process, timelines, criteria, scope and outcome be discussed and voted on in open public session to ensure transparency, accountability, ethical good governance and fairness to Brampton residents.

Councillor Dhillon outlined the purpose of the motion, and agreed to amendments to remove an identifiable individual in the first Whereas clause, and to remove “Any” from the operative clause.

Peter Fay, City Clerk, requested that the motion be stood down until after Closed Session, and outlined his reasons for this request. Sameer Akhtar, City Solicitor, noted that the motion could be considered in Closed Session, after which Council may choose to consider a motion in Open Session, and requested the opportunity to provide advice to Council in Closed Session.

Council Members expressed varying views on the motion, on dealing with the motion in Open versus Closed Session, about standing down the motion until after Closed Session, and noted the need to balance the public’s right to know and confidential matters.

In response to questions from Council, Mr. Akhtar reaffirmed his position that discussions on the motion take place in Closed Session, and suggested that these discussions include input on the motion from the investigator to ensure that the intent of the motion does not hinder the investigation.

The mover of the motion did not agree to consideration after Closed Session and requested a recorded vote on the motion in Open Session, prior to Council moving into Closed.

During Council's consideration of the motion:

- the City Solicitor and City Clerk provided advice regarding dealing with the motion in Open versus Closed Session, and responded to questions about the investigation process, information that has been released to date about the process, and procedural matters
- a Point of Privilege was raised by Regional Councillor Dhillon, for which the Mayor gave leave. Councillor Dhillon referenced comments by other Members of Council and clarified his position on voting on the motion in Open Session
- a Point of Order was raised by Regional Councillor Palleschi, for which the Mayor gave leave. Councillor Palleschi clarified comments made by another Member of Council

A motion, moved by City Councillor Singh, was introduced to defer further consideration of the motion until after Closed Session. As the motion was procedural in nature, a seconder was not required.

A recorded vote was requested on the deferral motion, with the results as follows.

C185-2021

Moved by City Councillor Singh

That the following motion be deferred to the point of the meeting being reconvened following a closed session deliberation.

Whereas the allegations made of misconduct by senior officials have been widely reported in the media and are a matter of public interest;

Whereas members of Council have been contacted by numerous Brampton residents indicating they are unaware of steps being taken to address the allegations with concerns about transparency and openness;

Whereas the role of the municipal council is to ensure accountability and transparency of municipal operations;

Whereas transparent and open decision-making processes are a part of the foundation of good municipal governance;

Whereas continually going into the closed session may indicate to residents that the transparency, accountability and credibility of the investigative process could potentially be hindered;

Therefore be it resolved that:

Discussions and decisions related to the third-party investigation pertaining to process, timelines, criteria, scope and outcome be discussed and voted on in open public session to ensure transparency, accountability, ethical good governance and fairness to Brampton residents.

Yea (6): Mayor Patrick Brown, Regional Councillor Santos , Regional Councillor Vicente , Regional Councillor Palleschi , Regional Councillor Fortini , and City Councillor Singh

Nay (5): Regional Councillor Medeiros , Regional Councillor Dhillon , City Councillor Whillans , City Councillor Bowman , and City Councillor Williams

Carried (6 to 5)

Following Closed Session, Councillor Dhillon confirmed that he was not standing the motion down, and outlined amendments to the operative clause, and proposed a new operative clause. Councillor Dhillon also accepted a proposed amendment from City Councillor Whillans to add “final” before “outcome” in the first operative clause.

The amended operative clauses were as follows.

Therefore be it resolved that:

Discussions and decisions related to the third-party investigation pertaining to timelines, agreed upon scope, and final outcome be discussed and voted on in open public session to ensure transparency, accountability, ethical good governance and fairness to Brampton residents;

That staff be requested to publicize the means by which the public is able to provide information to the investigation process.

Additional Council discussion took place on the motion, during which Members of Council expressed varying views on their understanding of the investigator’s

position on the motion, and Councillor Dhillon responded to questions about the intent of his motion.

The City Solicitor and City Clerk provided guidance on the motion based on their understanding of the investigator's comments on the motion.

A Point of Order was raised by Councillor Palleschi, for which the Mayor gave leave. Councillor Palleschi asked questions of the City Solicitor and City Clerk relating to dealing with the motion, as amended, in Open Session.

Councillor Palleschi introduced, and later withdrew, a motion to refer the motion to staff for consideration and report back to Council once the minutes have been voted on and made public.

A Point of Privilege was raised by Councillor Dhillon for which the Mayor gave leave. Councillor Dhillon requested that a Member of Council clarify their comments on the motion.

The City Clerk noted that the Point of Privilege raised was not an appropriate Point of Privilege in accordance with the Procedure By-law, rather it was a question.

During Council's consideration of the motion, a procedural motion was introduced by City Councillor Bowman to Call the Question. In accordance with the Procedure By-law, Members who had not spoken on this topic were given the opportunity to do so.

A recorded vote was requested on the motion, as amended, with the results as follows.

A Point of Order was raised by City Councillor Williams, for which the Mayor gave leave. Councillor Williams noted that she was on the Board to speak to the motion, and the Mayor provided the opportunity for her to do so.

Councillor Williams outlined the purpose of the motion, and the need for and importance of the data requested within.

The motion was considered as follows.

C215-2021

Moved by City Councillor Williams

Seconded by Mayor Patrick Brown

Whereas Brampton is the 2nd fastest growing city in Canada, with the 4th largest labour force in Ontario

Whereas Brampton is truly a mosaic with 73.31 percent of its population being culturally diverse

Whereas Brampton is represented by a young, diverse workforce, representing 234 cultures and speaking 115 languages, making Brampton a unique location in comparison to neighbouring cities for talent acquisition and employment

Whereas the City of Brampton completed an equity audit that was adopted by Council in January of 2020

Whereas the CCDI report in Section 2.2 recommends that the Corporation begins conducting employee surveys and full workplace censuses with a Diversity Equity and Inclusion framework in 2021

Whereas according to the Ontario Human Rights Commission (OHRC) the collection and analysis of data that identifies people on the basis of race, ethnicity, disability, gender, sexual orientation and other Ontario Human Rights Code (Code) grounds is allowed and is supported by Canada's human rights legislative framework

Whereas the Ontario Human Rights Commission recommends the collection of data to attract new demographic markets and to promote an inclusive and equitable work culture to effectively thrive in an increasingly globalized, competitive business environment; to meet requirements of federal employment equity legislation and to respond to persistent allegations of systemic barriers and public perceptions of discrimination

Whereas the Corporation has not collected data to provide Council with the demographic make-up of its employees nor has the Corporation leveraged our current MeOnline system to measure and assess whether equity goals and recommendations adopted in the January 2020 CCDI report have been met by the senior leaders in the Corporation

Therefore be it resolved that the Corporation reaffirm its commitment to confronting systemic discrimination and racism specifically Anti-Black and Anti-Indigenous and Anti-Asian racism.

That the Corporation of Brampton reaffirm its commitment to reflect, and adhere to equity principles in its recruitment, hiring and promotion of staff.

That the City of Brampton follow the 2021 timeline and conduct an equity audit through the collection, use and analysis of data that includes but is not limited to race, gender-identity, ethnicity, faith, and other data sets that will allow the Corporation to identify gaps and inequities amongst departments, positions and pay grades.

That this equity audit of the corporation be completed by the 4th quarter of 2021, and reported to Council at its completion.

That upon completion of the equity audit, HR in collaboration with the Equity Office, report to Council on the identified gaps and areas of concern in the audit's findings, and subsequent strategies to address these concerns, including an outline of accountability measures for senior leaders in every operating division of the Corporation where a concern has been identified.

That HR work with its partners to develop the capability for the MeOnline system to capture demographic data (race, gender-identity, ethnicity, family status, disability, according to the OHRC), as well as professional data (professional development opportunities, mobility, qualifications, training, etc.). This data should be readily accessible, with the ability for informational reports to be easily created and analyzed annually.

That HR works with the Communications department to develop an internal communications strategy with incentives to encourage staff at all levels of employment to participate in audits, surveys and censuses, as well as to regularly update their MeOnline profile on a go forward basis as recommended in 2.1.1 of the CCDI report

And further HR to begin, effective immediately, a strategy for new recruits to self identify their race, ethnicity and gender-identity and any other applicable data sets at the time of application for employment with the City of Brampton.

A recorded vote was requested, with the results as follows.

Yea (11): Mayor Patrick Brown, Regional Councillor Santos , Regional Councillor Vicente , Regional Councillor Palleschi , Regional Councillor Medeiros , Regional Councillor Fortini , Regional Councillor Dhillon , City Councillor Whillans , City Councillor Bowman , City Councillor Williams , and City Councillor Singh

"I am requesting a seat at the table to collaborate with both the City and the Region on what is right for both the project and the businesses. I do believe that it is important for those that are leading this project to see the perspectives of all sides, so that there is clarity and transparency. This clarity and transparency is something that all our members are looking for and we are unable to provide answers. Being able to collaborate and work together will allow us to

- 1) provide information as it comes to our members – such as timelines
- 2) Pivot and adjust in a timely manner on events, or even create new events to bring people in
- 3) Create a marketing campaign to support the growth of what is coming and the vision of what it will be
- 4) Support businesses that will have a harder time adjusting to the changes (not currently online etc)"

On behalf of DBBIA Members, Rick Evans, Secretary and Chair of Downtown Development, outlined comments, concerns and questions regarding downtown revitalization and the LRT, and highlighted the need for a coordinated plan between the Region of Peel and City of Brampton.

Mr. Evans also provided comments on the immediate need for a staffed downtown office to provide coordination between all parties and downtown businesses.

8. Government Relations Matters

8.1 Update re: Government Relations Matters

Blaine Lucas, Acting Director, Corporate Projects and Liaison, Office of the CAO, provided a presentation which included information on Region of Peel, Provincial Government, Federal Government and advocacy matters.

Mr. Lucas provided information on meetings being set up with Brampton MPs and MPPs, in coordination with the Mayor's Office, and responded to questions from Council.

At the request of Council, staff agreed to provide an update by e-mail on the Brampton Rapid Transit project and, if required, further information would be provided for consideration at the August 2021 Council meeting.

Council discussion took place with respect to advocacy, in advance of the AMO conference taking place in August 2021, for the LRT stop to be north of Steeles Avenue. In response to questions from Council, staff indicated that a motion in support of the stop location would assist with the City's advocacy efforts.

It was confirmed that staff would develop a motion for consideration by Council at a later point in this meeting, and that this item would be stood down to provide time for this purpose.

Later in the meeting, the motion, moved by Regional Councillor Vicente and subsequently seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Therefore be it resolved, that the Council strongly supports the Hurontario Main LRT stop to be located to the north of Steeles Avenue; and

That a copy of this motion be forwarded to:

- The Premier's Office;
- Ministry of Transportation;
- Brampton Members of Parliament;
- Brampton Members of Provincial Parliament; and
- The CEO of Metrolinx.

Council consideration of the motion included the need for continuing advocacy on relocation of the LRT stop, and a suggestion that Mayor Brown invite the Honourable Prabmeet Sarkaria, MPP, Brampton South, to walk the area so that the City could highlight the need for relocation of the stop for pedestrian safety.

The motion was considered as follows.

Whereas on June 23, 2021 staff presented to the Committee of Council the preferred surface and preferred underground options along Main Street as part of the Hurontario Main LRT Extension EA Study;

Whereas on June 23, 2021 Committee of Council directed that staff move forward with two preferred alignments one surface and one tunnel for the 30% (preliminary) design and draft environmental project report for the Light Rail Transit (LRT) extension from Steeles Avenue to Downtown Brampton;

Whereas on June 23, 2021 Committee of Council unanimously supported the tunnel option as the preferred alignment to advance funding advocacy with the current provincial and federal governments;

Whereas on July 7, 2021 Council ratified the decisions made above;

Whereas the need to have the Brampton Gateway Terminal stop located to the north of Steeles Ave has become even more emergent with the identification of the Hurontario Main LRT Extension preferred alignments along Main Street;

Whereas, the Brampton Gateway Terminal is Brampton's busiest terminal with over 18,000 customers daily on-boarding and off-boarding (pre-COVID-19) with a sizeable transfers by students to access the Brampton Transit routes to Sheridan College and post-secondary institutions in Downtown Brampton

Whereas there continues to be distinct customer experience benefits in having the Hurontario Main LRT stop to the north of Steeles Avenue due to its proximity to the existing Brampton Gateway Terminal for safe and convenient passenger transfers and travel time savings;

Whereas the Hurontario Main LRT stop to the north of Steeles Avenue is more compatible with the future LRT extension along Main Street and building it north of Steeles now will avoid potential sunk costs should the stop be constructed to the south of Steeles Avenue and relocated in future;

Whereas Metrolinx is carrying on enhancements to the Kitchener rail line to support the two-way-all-day-GO service;

Whereas locating the LRT stop in closer proximity to the Brampton Gateway Terminal offers critical leverages for the economic recovery and resilience, and enhanced regional connectivity, and support development to the fullest, such as:

- the City's focus on city-building for future generations and the engagement with the private sector redevelopment proposal to transform the north-west corner of Steeles Avenue West and Main Street based on a comprehensive transit-oriented community approach;
- the seamless connections to various post-secondary institutions in Downtown Brampton such as the future Ryerson University new Brampton School of Medicine, Rogers Cybersecure Catalyst at Ryerson University, Algoma University and the future home of the University of Guelph-Humber;
- the post COVID economic recovery strategy that aims to bring resiliency and competitive advantage to the Brampton economy by fully adopting innovation and technology transformation, seizing opportunities to attract investment, expediting infrastructure projects and shifting the paradigm through which the arts and creative sector serves as the beating heart of Brampton;
- the Council approved \$275M as of 2021 in continued investment and projects for Downtown Brampton on key priorities that matter most to residents and business owners, including transportation, road and building improvements,
