Minutes City Council

The following amendment, moved by Regional Councillor Santos and seconded by Regional Councillor Vicente, was introduced to add new clauses to the recommendations in the staff report:

Whereas Brampton is the second fastest growing municipality with one of the youngest populations in the country and is the only large municipality over a population of 200,000 without a university;

Whereas residents and businesses of Brampton have called for a university in the city for decades;

Whereas Brampton lags behind competing municipalities like Toronto, Waterloo, and Hamilton in innovation and economic development;

Whereas economic development and innovation have been noted as key priorities in Brampton's Vision 2040;

Whereas every dollar spent on postsecondary education creates \$1.36 for the Canadian economy and surrounding communities benefit from off-campus student spending which can generate as much as \$17.5 billion in economic activity, (Ref: Council of Ontario Universities Social & Economic Impact study);

Whereas Brampton is situated in the centre of the innovation super corridor and has been noted to have tremendous economic development potential as an innovation hub between Toronto and Waterloo;

Whereas significant demand exists in the country and around the world for skills in cyber security;

Whereas the Federal government has prioritized innovation through its Strategic Innovation Fund;

Whereas the City of Brampton, its residents together with Ryerson and Sheridan College and other stakeholders have spent countless hours in successfully proposing a university in Brampton;

Whereas in April 2018, an announcement was made by the provincial government for \$90 million in capital funding to help build the approved Ryerson university expansion in Brampton;

Whereas the City of Brampton has allocated \$150 million in funding to support plans to build an innovation centre and National Centre for Cyber Security to further compliment and support post-secondary learning and economic development in Brampton;

Minutes City Council

Whereas the City has access to space and has already purchased property to support the proposed innovation centre and National Centre for Cyber Security; Whereas an unanticipated announcement to cut the original \$90 million capital support for the university was made by the provincial government on October 23rd;

Whereas the traditional model of post-secondary education and learning is changing and with a cut to capital funding, Brampton must find creative solutions to move forward with this important project (Innovation Centre, National Centre for Cyber Security, and University);

Whereas the \$90 million cut has no immediate impact on Ryerson's plans to move forward with the Innovation Centre and National Centre for Cyber Security;

Whereas Ryerson's Chang School of Continuing Education will commence courses in Brampton in January 2019 regardless of the cut to capital funding;

Whereas residents, the business community, Ryerson and Sheridan have expressed to the City that they would like to move forward with plans for the university, innovation centre and National Centre for Cyber Security, and look for creative ways to solve the challenge of cut funding from the Provincial government;

Therefore Be It Resolved:

That City staff be requested to report back at the first meeting of Council in January 2019, on proposed terms of reference for establishing a cross-sector and citizen-based "Action Committee on Innovation and Post-Secondary Education", to advance Council's priority to establish an Innovation Centre, National Centre for Cyber Security and post-secondary education in Brampton.

- Whereas, the City of Brampton is the second fastest growing city in Canada and is projected to increase to over 900,000 by 2041;
- Whereas, the roles and responsibilities of Councillors have increased due to population growth;
- Whereas, each Ward is unique and continue to change in characteristics, culture/diversity of population, resident needs,

Minutes City Council

geography, development phases, socio-economic factors, type of dwellings, modes of transport and neighborhood intensity;

Whereas, the City's standing and reputation compared across various measurable large municipalities in terms of activity rate, livability, mobility, quality of life, et cetera, have not met the public's expectations;

Whereas, Councillors must be adequately equipped to handle the challenges related to rapid growth and its complexities, and ensure well informed decisions are made and communicated effectively for the future of the City of Brampton;

Whereas, Councillors must be adequately informed and prepared to make decisions at Council, and respond to unpredictable circumstances, and decisions made by other jurisdictions and/or other levels of governments;

Whereas, support for constituent issues through Councillors' offices has remained stagnant and has not adjusted to changing nature of each ward and increased demands of a growing city;

Whereas, other comparable growing municipalities have adjusted their Councillors' offices customer service models to a more customized approach; and

Whereas, the Councillors have a critical, important and forward facing role in the Corporation and need to be equipped to best serve the constituents to whom they are accountable;

Therefore be it resolved that staff be requested to report back to the January 16, 2019 Committee of Council meeting on the option of:

- the City of Brampton adopting a political office model similar to the City of Mississauga whereby each Councillor is assigned an Executive Assistant, Administrative Assistant, and an appropriate discretionary expense account;
- an associated budget being provided for each Councillor's staffing resources, including salary costs, full benefits, full OMERS contributions, and other office administration expenses;
- each Councillor having the sole discretion to manage their staff and individual office budgets, including staff hiring, establishing staff pay levels, and other office expenses; and
- on the associated costs for the potential new political model, which includes finding offsets within the Corporation to address budget impact.

CW330-2018
Lost

1. *That the motion placed by Regional Councillor G. Dhillon titled "Building a Comprehensive Transit Network for all of Brampton" be **referred** to a transit committee of Council, creation of which is planned to be considered by City Council by way of a staff report to be listed on the December 12, 2018, City Council meeting agenda; and*
2. *That staff be requested to report back on the matter in January 2019.*

CW331-2018

Whereas the primary goal of transit is to move people efficiently and to provide frequent service to a large number of people, and transit should be considered as a public service which has many benefits;

Whereas Brampton Transit ridership increased by 18% in 2017, continues to increase in 2018 (15.6% year-over-year as of October), and people need rapid transit to be built as quickly as possible and public transit is first and foremost a public service for people;

Whereas Brampton needs a comprehensive Transit Network Plan and investment in many transit routes that will serve as many people as possible across Brampton;

Whereas the Transit and Transportation Master Plan (TTMP) was approved by Council (Item P&1S156-2015) on July 8, 2015 and recommended LRT on Main Street; Zum BRT on Kennedy, Queen and Steeles; as well as other routes;

Whereas the Brampton Official Plan calls for higher-order transit on Main Street and aligns with the TTMP;

Whereas Brampton's Official Plan calls for higher-order transit on Main Street as part of a network;

Whereas 69% of mobility trips are inside Peel Region and large numbers of people commute to and from Mississauga/Brampton;

Whereas, the Hurontario Main Light Rail Transit (HMLRT) Environmental Assessment (EA) was completed in 2014 and Brampton staff reviewed all of the options and recommended the Main Street route for LRT in 2015;

Minutes City Council

Whereas specifically, staff wrote in their June 22, 2018 report (File HA.a (EA 10-3130-101)):

- LRT is required to meet transit ridership demands of 35 million people annually along the Hurontario-Main corridor, which will exceed the capacity of Zum services.
- A third party peer review confirmed that the findings of the alternative alignments assessment report are appropriate and defensible.
- LRT for Main Street supports the Council approved land use policy for the corridor and Downtown Brampton, protects for a future extension to the Brampton-Caledon boundary, and allows events in Downtown Brampton including the Farmers Market, parades, etc. to still occur.

Whereas staff wrote about LRT for Main Street in their February 22, 2016 report (File IA.A (16-3130101)):

- Higher order transit connects communities within an integrated regional transit network. Key transit networks within Brampton include the Kitchener GO Rail line and higher order transit service on Queen Street and Hurontario/Main Street. These are important east/west and north/south lines that connect to destinations inside and outside of Brampton. These networks are designed to converge on the Downtown Brampton GO station/mobility hub, where riders connect to other transportation modes and destinations such as Kitchener and Toronto, along the “innovation corridor”. The LRT alignment must connect to the Brampton GO station, consistent with the Regional Transportation Plan and the City’s Transportation Master Plan and Strategic Plan, as recognized by Council’s resolution.
- The other key policy driver in considering the best alignment is the need to achieve transit supportive land uses and densities along the transit route. Brampton’s Official Plan defines a City Structure that reflects the close relationship between higher order transit and intensification and allows the City to grow sustainably as directed in the Provincial Policy Statement, The Growth Plan, the Transportation Master Plan, the Regional Official Plan and the City’s Official Plan.
- Further, this alignment does not have significant technical issues including impacts on the regulatory floodplain, Orangeville Brampton Railway (OBRY) train operations, and major property impacts.

Whereas the EA was peer-reviewed by third-party professional consultants who found the EA was conducted in an acceptable fashion;

Minutes City Council

Whereas Brampton can draw on best practices and examples of construction mitigation, community benefits, support for local and small business, and mitigation strategies for any form or location of rapid transit expansion;

Whereas Brampton's economy will benefit from a comprehensive transit network plan that includes LRT on Main St and other rapid transit routes, as workers and businesses of all sizes depend on efficient mobility, and studies have shown that investing in transit creates short-term and longer-term jobs;

Whereas building transit can grow the tax base as it encourages companies to expand and hire more workers;

Whereas in 2015 the Province was willing to provide 100% capital funding for the HMLRT along Main Street, including paying for the replacement (like-for-like) of any necessary infrastructure, and staff told Council in 2015 that the LRT on Main Street would save Brampton Transit \$300,000 per year by 2031 in operating costs;

Whereas in July and Oct 27, 2015 many people spoke in favour of the Main St. route;

Whereas, the HMLRT Main Street route is the closest rapid transit route in Brampton to being shovel ready, and the Provincial and Federal governments provide opportunities for requesting funding for projects from infrastructure and other programs;

Whereas, usually requesting funding requires having shovel-ready projects;

Whereas, other municipalities and the Province are in discussions about other rapid transit projects such as further expansion of the Scarborough Subway, and Brampton needs to present a comprehensive Rapid Transit Network Plan as soon as possible in order to secure funding;

Whereas the HMLRT track plan had switchbacks between Steeles Avenue and the terminal station that would allow the Farmer's Market and the Santa Claus Parade to continue as they currently operate;

Whereas LRT technology exists around the world and in many urban settings and adjacent to historic buildings;

Minutes City Council

Whereas in three years the people of Brampton still have not been given the capital costs for a Kennedy and McLaughlin LRT, an assessment of traffic impacts on Steeles Avenue and the goods movement implications, an assessment on expropriation of properties required, the impact on employment lands on Kennedy Road, or turn restrictions for small businesses on Kennedy Road;

Whereas stopping the Hurontario LRT (HuLRT) at Steeles Avenue will create a negative experience for people using transit, may subject them to hazards, will slow down movement for all, and reversing LRV's at this busy intersection will slow commute times for users; Steeles-Main-Hurontario intersection is a key location in Brampton and stopping LRT at this location is problematic for people who use transit and drive through this intersection;

Whereas interlining Kennedy Road BRT with Queen Street BRT would work more efficiently as the two systems can easily run together and be an effective use of capital and operating dollars;

Whereas Brampton has missed opportunities to take advantage of funding in the past because we did not have qualifying shovel-ready projects;

Whereas Ryerson University is committed to building a University presence in the downtown core and in close proximity to the terminus of the HMLRT, Queen Street Bus Rapid Transit (Queen Street BRT), and the Brampton GO Station;

Whereas this motion will enhance Brampton Transit's existing and future network and connect to many existing transit routes;

Whereas Brampton can look to examples in Toronto and Hamilton for Community Benefit Agreements when implementing rapid transit and to Hamilton for examples how Hamilton Council communicated with the local transit union;

Whereas this motion is not about only supporting Main Street over other routes, rather, it is about building a network to serve more people in Brampton;

Whereas this motion also communicates Council's support for GO Transit train enhancements for the Kitchener Line, as part of a comprehensive transit plan for Brampton;

Whereas Larry Beasley said Brampton should accept transit funding when it is offered regardless of the route;

Minutes City Council

Whereas the Provincial government and the Minister of Transportation have communicated their desire for efficient transit capital projects, including LRT for Main Street and providing rapid transit for additional routes meets this test;

Therefore be it resolved:

That LRT route for Main Street as originally recommended be prioritized by Brampton staff, and be immediately restored as part of the Brampton Transit Network Plan;

That LRT no longer be considered for Kennedy Road or McLaughlin Road;

That staff be directed to revise the Brampton LRT Extension Study to (a) make any updates to the HMLRT EA, including study and consideration of an underground tunneling option (b) use Bus Rapid Transit (BRT) as the technology for Kennedy Road and McLaughlin Road and consider extending those alignments further north and/or south, (c) study rapid transit options from the Brampton GO Station to Mayfield Road on Main Street as contemplated in the TTMP, and (d) report back on an implementation strategy for a downtown Mobility Hub;

That staff also be directed to report back in expediting the Queen Street Transit Master Plan study and timeline to commence an EA in order to get the BRT project to shovel ready status in order to secure Provincial and Federal funding;

That staff also be directed to consider electric buses for any BRT project;

That Council communicate to Metrolinx its support for (a) more all-day, two-way peak and off-peak GO train service on the Kitchener Line, (b) electrification proceeding west of the Bramalea GO Station, (c) encourage the rail optimization strategy that is currently underway be expedited including the start the EA for the freight bypass and the EAs for the “Kitchener additional track”, “Heritage Road Layover”, and “Georgetown to Kitchener GO” as noted on page 144 of the November 2018 GO Expansion Full Business Case, and (d) encourage more GO bus service and capacity while the above-noted EAs are conducted; and

That staff be directed to immediately communicate the position of Council to the Premier's Office, the Minister of Transportation, all

**Minutes

Brampton MPs and MPPs; and Council be directed to meet with Brampton's MPs and MPPs immediately to discuss how to collaboratively work together for a Brampton transit network.

Whereas the City of Brampton's 2040 Vision defines Brampton as a mosaic of vibrant centres with quality jobs, a rich range of activities, and integrated living;

Whereas the City of Brampton Official Plan has policies and designations to support Economic Development and job creation;

Whereas the City of Brampton Economic Development Master Plan, approved in 2018, sets forth a mission to create a business community and business climate in Brampton that supports the creation of more than 140,000 net new local jobs over the next 20 years, with at least 60% of residents working within the community;

Whereas Community Improvement Plans are important tools for marketing the City of Brampton, driving investment, and providing the City with a competitive advantage;

Council consideration of the motion included:

- benefits of incentives toward the retention and attraction of jobs
- value of a city-wide program to address the unique demographics and geography in the various areas of the City

Whereas former City Alderman John Shadrach, the City's first black council member, served on City Council from 1985-1988, and was a lifelong educator and community leader before his passing in 2015; and

CW083-2019

Whereas the provincial government announced a funding cut of \$90 million on October 23, 2018 allocated to fund the originally proposed expansion of Ryerson University into downtown Brampton in partnership with Sheridan College;

Whereas Ryerson University has reaffirmed their commitment to three pillars of the original proposal including the Cybersecure

Catalyst, Innovation Hub and the Chang School of Continuing Education;

Whereas unfilled cybersecurity jobs will reach 1.5 million by 2019 and a need for professional training and research exists in Canada;

Whereas through continued partnership, Brampton has an opportunity to leverage the expertise, strengths, and networks of Ryerson University, a global leader in innovation;

Whereas the Terms of Reference for the recently approved “Action Committee on Innovation and Post-Secondary Education”, to advance Council’s priority to establish an Innovation Centre, Cybersecure Catalyst and post-secondary education in Brampton;

- CW087-2019 Whereas National Pink Shirt Day is being celebrated on Wednesday February 27, 2019;
- Whereas Pink Shirt Day came about in response to a male student being bullied for wearing a pink shirt to high school;
- Whereas dozens of fellow students decided to wear pink shirts in solidarity with the bullied student;

**Minutes
City Council**

Whereas bullying is a form of aggression where there is a power imbalance; the person doing the bullying has power over the person being victimized. In addition to any physical trauma incurred, bullying can result in serious emotional problems, including anxiety, low self-esteem, or depression;

Whereas cyberbullying is bullying through electronic means. There are many forms, including harassment, impersonation, outing, cyberstalking, and denigration, but all exist – at least in part – in the digital world. Cyberbullying can often feel even more overwhelming than traditional bullying, because access to a target is 24/7; and

Whereas Pink Shirt Day has become a national day of awareness of bullying in schools and society;

Whereas the theme for 2019 is cyberbullying; and

Whereas individuals and organizations are encouraged to participate by wearing a pink shirt on February 27, 2019.

City Council**

nation that no longer exists and, therefore, is not recognized by the Federal Government of Canada;

Whereas the City's community flag raising criteria specify flag raising requests are to represent a nation, country or ethnic group recognized by the Federal Government of Canada;

Whereas both the City of Toronto and the Legislative Assembly of Ontario have, in the past, displayed the flag of South Vietnam at flag raising ceremonies on or about the 30th of April, also known as "Journey to Freedom Day";

Whereas Vietnam is listed in the top 10 of selected places of birth of the immigrant population in Brampton (number of immigrants 4,975; source: 2016 Census Profile, Statistics Canada); and

Whereas the City's current community flag raising criteria permit the Mayor and Council the discretion to approve a flag raising request for the City's community flag pole;

Moved by: Councillor Williams
Seconded by: Councillor Bowman

Whereas the residents of Brampton are deeply concerned with the increase in gun violence over the past four years, and

Whereas, gun violence is not just gang violence, and

Whereas the RCMP have reported that 80 percent of gun deaths in Canada are suicides, and

Whereas the City of Brampton wishes to act in solidarity with the victims, and families of victims of the Danforth Avenue shooting, which occurred in the City of Toronto on the night of July 22, 2018, - two people were killed and eight wounded, and

Whereas the victims of Danforth shooting recently wrote an open letter to the Prime Minister of Canada calling for the swift passage of Bill C71 and action on handgun ownership, and

Whereas the City of Brampton wishes to act in solidarity with the victims and families of victims of the Quebec Mosque shooting, which occurred at Islamic Cultural Centre of Quebec City on the night of January 29, 2017, - six worshipers were killed and 19 were wounded, and

Whereas Canadian Doctors for Protection from Guns says gun violence should be treated as a public health issue in much the same way as road safety and smoking, and

Minutes City Council

Whereas the increase in gun violence in Brampton and the GTA has had a profoundly negative impact on residents' sense of security, quality of life and reputation of our city, and

Whereas it is the intent of the City of Brampton to show solidarity with all Brampton victims of gun violence and their families and victims everywhere in Canada, and

Whereas Bill C71 is currently before the senate of Canada for consideration

Therefore, be it resolved that;

1. City Council urge the Federal Government to ban the sale of handguns in the City of Brampton.
2. City Council request the Government of Canada to strengthen its proposed gun control legislation in Bill C-71, An Act to amend certain Acts and Regulations in relation to firearms, by:
 - a. restoring the 1977 controls on the sale of unrestricted firearms requiring firearms dealers to record the license number, make, model and serial number of all firearms sold and subject these records to annual inspection so that police services can inspect records as needed to trace firearms used in crimes;
 - b. creating more stringent transport provisions for restricted firearms to limit transport outside of direct transfers between their place of storage and approved destination; and
 - c. prohibiting the availability, sale, possession and use of handguns, assault rifles and semi-automatic firearms in Canada, with the exception of the Canadian Armed Forces, police services or other entity that is authorized to possess firearms with legal obligations imposed by the municipal, provincial and federal governments.

- varying opinions in support of and opposition to the actions proposed in the motion
- potential referral of the motion to staff for review and a report back to Council
- suggestion that the motion be referred to Committee of Council or deferred to the Council Meeting of March 27, 2019

During consideration of the proposed motion, a Point of Order was raised by Regional Councillor Medeiros. Regional Councillor Vicente, Acting Chair, Community Services Section, gave leave for the Point of Order.

Councillor Medeiros noted comments that indicated the seconder was not in full support of the motion, and asked if this negated a seconder for the entire motion.

**Minutes

CW112-2019

Whereas affordability has become a major challenge for many senior residents in Brampton, through increased insurance rates, property taxes, cost of living and gas prices;

Whereas more than half of Peel Region residents are now low income earners;

Whereas Peel's senior population (65+) is increasing at almost three times the rate of Canada's senior population and by 2018 Peel's senior population will top 200k and by 2031 1.64 million;

Whereas many of our seniors are currently dependent on OAS or their CPP, making it difficult to spend on full fare transit passes;

Whereas due to health concerns many seniors are not able to drive, and are reliant on transit to visit hospitals and doctors;

Whereas the need for active living in Peel has become necessary with diabetes affecting 1 in 7 Peel residents;

Whereas research has shown the positive impact when seniors socialize, and strategies should be in place to reduce isolation to encourage positive mental and emotional wellbeing;

Whereas only 100-140 seniors are eligible for the Region of Peel's transit subsidy to the City of Brampton; and

Whereas The City of Brampton has been a leader in meeting seniors' transit needs,

Therefore Be It Resolved That:

1. Staff be directed to determine the financial, operating and administrative impact of offering a monthly Brampton Transit pass for seniors who are residents of Brampton at:
 - a) a cost of \$15 per month; and
 - b) a zero cost; and
2. Staff report back to Committee of Council on March 20, 2019; and

Whereas policies related to the licensing and enforcement of firearms and gun control are within the jurisdiction of the federal and provincial governments, and police services;

Whereas although not in the city's jurisdiction to legislate or enforce firearms, the safety of our residents is a priority and therefore the City of

Minutes City Council

Brampton does not condone gun violence and will act based on research and evidence within our jurisdiction and in partnership with all other levels of government, to address root causes of gun violence in the City in order to have a substantive impact and improve the safety of our community;

Whereas the Peel Regional Police and the Region of Peel are our immediate partners in addressing gun violence in Brampton and are currently collecting data and completing a Community Safety and Well Being plan that all municipalities are required to have in place by 2021, which will in part identify risk factors and strategies to prevent violence;

Whereas Peel Regional Police have been conducting extensive work to effectively seize illegal firearms in continuing operations such as “Project Baron”, which most recently as of March 26, 2019 resulted in the largest seizure of illegal firearms in the history of Brampton and Peel Region;

Whereas the federal government report titled: Strategies for Reducing Gun and Gang violence in Canada claims that “before any policies aimed at reducing gun violence are implemented, it is extremely important to conduct basic research into the nature of local gun and gang violence. One must first understand who is involved, and why they are involved in violence, before one can design and implement an effective gun violence strategy.” <https://www.publicsafety.gc.ca/cnt/rsracs/pblctns/rdcng-gn-vlnc/index-en.aspx#s28>;

Whereas the same report mentioned above suggests that “attempts to explain unacceptably high levels of gun violence in the United States, Canada, and the rest of the world, are firmly centred on the issues of gangs, drugs, and gun availability,”;

Whereas associate professor of sociology at the University of Toronto, Jooyoung Lee (PhD), who specialises in the roots of gun violence states that gun control is “one piece of a much larger, systemic series of changes that have to happen if we really want to curb or completely eliminate gun violence,” <https://www.bbc.com/news/world-us-canada-44959010>;

Whereas in a July 25, 2018 article Louis March, founder of Zero Gun Violence states that “local programmes that are working to address gun violence in communities most affected by the problem need to be amplified, and they need funding. The underlying causes that contribute to the violence - poverty, oppression, social exclusion and neglect - also need to be at the forefront of any strategy,” <https://www.aljazeera.com/news/2018/07/toronto-gun-violence-product-didn-180725143835701.html>;

Minutes City Council

Whereas Louis March further suggests that many of the youth involved in gun violence want a way out, but in many cases, there's no way out for them - because the government is not addressing this problem in a meaningful way;

Whereas the City of Brampton has a number of youth programs, organizations, and support networks and is currently reviewing the terms of reference for a Youth Council, all of which aim to provide more opportunities and support for youth to stay active, engaged, and make positive contributions in the community and for their future;

Whereas studies and evaluations of efforts to reduce gun (gang) violence in the United States, a general consensus emerged with respect to the need for collaboration, which is consistent with the conclusion reached in an evaluation of Canada's National Crime Prevention Strategy <Leonard et al, 2005> and that suppression offers a short-term solution but that it can do little to influence levels of gun/gang violence in the long-run.

Whereas the same studies suggest “efforts that have demonstrated success in reducing gang violence in such places as Boston, Chicago, Los Angeles, Philadelphia, and many other cities all relied heavily upon the successful collaboration of local, state, and federal criminal justice agencies working in tandem with social service providers, community stakeholders, and in some instances, street gang intervention specialists”;

Whereas Bill C-71 is currently at Senate Committee, and focuses primarily on enhancing background checks, licence verification, record-keeping, transportation and gun classification and while the legislation is one piece of the puzzle, it does not get address root causes of gun violence;

Whereas on March 12th, the Federal Government announced over \$11M / 2 years to support Ontario's Guns, Gangs and Violence Reduction Strategy (GGVRS) that focuses on prevention, intervention, enforcement and prosecution; and deliver prevention and intervention initiatives for women, youth and young adults and on March 26th the Provincial Government announced “Preventative programs are critical to providing meaningful alternatives to participating in criminal activity for communities and youth at high-risk of involvement in gangs and gun violence and victimization.”

Whereas 2019 is a federal election year and all parties, or any current or future government should be addressing the issue in the long-term;

Minutes City Council

Whereas studies and evidence to include those referenced above, conclude that a comprehensive, collaborative, and evidence based approach is required to meaningfully address gun violence at the local level;

Therefore be it resolved that:

1.
 - a. the delegation from Interim Chief McCord, Peel Regional Police Service, to the City Council meeting of March 27, 2019, be received;
 - b. the staff report item 8.1 re: Capacity of the City of Brampton to Support Peel Regional Police's Gun Amnesty Program, be received;
 - c. the unfinished business item 11.2 re: Motion – Gun Violence in Brampton and Peel, be received and no further action be taken on that motion, and;

6.4. Delegation from Bruce McIntosh, Past President, Ontario Autism Coalition, re: **Item 16.3 – Services for Autism Spectrum Disorder.**

Council agreed to vary the order of business and dealt with this delegation after announcements.

Item 16.3 was brought forward and dealt with at this time.

Minutes City Council

Bruce McIntosh, Past President, Ontario Autism Coalition, provided information on Autism Spectrum Disorder (ASD), outlined changes to provincial services and funding for ASD, and expressed concern about the impact of these changes on children with ASD, parents, families, school boards and municipalities.

Mr. McIntosh urged Council to request that the Ontario Government not proceed with the proposed changes and instead ensure services and funding are based on the specific needs of each child with ASD, and responded to questions of clarification.

The following motion was considered.

C083-2019 Moved by Regional Councillor Palleschi
Seconded by Regional Councillor Dhillon

That the delegation from Bruce McIntosh, Past President, Ontario Autism Coalition, to the Council Meeting of March 27, 2019, re: **Services for Autism Spectrum Disorder**, be received.

Carried

A motion, moved by Regional Councillor Palleschi and seconded by Regional Councillor Dhillon, was introduced, with the operative clauses as follows:

That the Council of The Corporation of the City of Brampton formally requests the Minister of Children, Community and Social Services suspend implementation of its proposed plan and continue to identify and advocate for a sustainable funding plan for families with individuals with ASD to ensure adequate resources for Applied Behavioural Analysis and needed therapies and further;

That the Minister of Children, Community and Social Services work collaboratively with families, community partners and stakeholders to develop a funding plan which will guarantee every person with ASD has access to funding, specialized programming and service providers and further;

That children currently enrolled in Autism programming continue to receive services and further;

That the Clinical Expert Committee be reassembled to provide advice and feedback and further;

That a copy of this resolution be forwarded to Premier Ford, Minister Fedeli, local Members of Provincial Parliament, and the Association of Municipalities of Ontario.

Minutes City Council

Council consideration of this matter included a proposed amendment to the last clause to provide that a copy of the resolution also be forwarded to the Region of Peel and local school boards. The amendment was accepted by the mover.

The motion, as amended, was considered as follows.

C084-2019 Moved by Regional Councillor Palleschi
Seconded by Regional Councillor Dhillon

Whereas according to the National ASD Surveillance System (NASS), Autism Spectrum Disorder (ASD) is one of the most common developmental disabilities, in Canada, 1 in 66 children is diagnosed with ASD;

Whereas according to the Canadian Medical Association Journal, approximately 1% of the Canadian population is affected by ASD, which means there are approximately 100,000 Ontarians on the autism spectrum;

Whereas ASD changes over time – in its expression, challenges and delights; Ontario must be prepared to support children, youth and adults within the context of development, learning, family and community. Supportive, understanding and inclusive communities ensure that each person with ASD is provided the means to achieve quality of life as a respected member of society;

Whereas Ontario must support the individual needs of a person with ASD throughout their lifespan using evidence-based treatment and intervention, while remembering that developmental trajectories are constantly changing;

Whereas the supports and services for adults on the spectrum are inadequate and fragmented, and fail to address needs across entire lifespans;

Whereas school boards are expecting an influx of about 1,000 students with autism as families lose funding; leaving educators unequipped with the resources required to provide specialized care and a higher level of assistance for children with special needs;

Whereas funding will not address the critical need for assistance for families not only in their younger years, but after the age of 18;

Whereas the changes which will come into effect April 1 will mean the thousands of families currently receiving services could see drastic cutbacks;

**Minutes
City Council**

Therefore, be it resolved:

That the Council of The Corporation of the City of Brampton formally requests the Minister of Children, Community and Social Services suspend implementation of its proposed plan and continue to identify and advocate for a sustainable funding plan for families with individuals with ASD to ensure adequate resources for Applied Behavioural Analysis and needed therapies and further;

That the Minister of Children, Community and Social Services work collaboratively with families, community partners and stakeholders to develop a funding plan which will guarantee every person with ASD has access to funding, specialized programming and service providers and further;

That children currently enrolled in Autism programming continue to receive services and further;

That the Clinical Expert Committee be reassembled to provide advice and feedback and further;

That a copy of this resolution be forwarded to Premier Ford, Minister Fedeli, local Members of Provincial Parliament, Region of Peel Council, Chairs of the respective school boards in Peel Region and the Association of Municipalities of Ontario.

Whereas the City of Brampton is a leader in nurturing youth empowerment and encouraging our young people to fill leadership roles; and

Whereas we want to give our high school and university students opportunities for possible employment avenues through the City of Brampton and gain real-life employment experiences; and

Whereas this opportunity supports the City's strategic plan through public engagement of the City's 2040 Vision: Living the Mosaic, which encourages citizens to be involved in Brampton in a systematic and inclusive way at all times, on all matters;

Therefore be it resolved that:

- a) The City of Brampton explore options to institute a co-op or internship program through all applicable departments;

- c) City Staff report back with recommendations and an implementation plan.

16.5. Discussion Item at the request of Mayor Brown, re: **Release of Convicted Pedophile into the City of Brampton.**

Consideration of this matter took place during the delegation from Interim Police Chief Chris McCord, Peel Regional Police (PRP) (Item 6.1).

Chief McCord responded to questions from Council and provided information on PRP's efforts to address this matter with Corrections Canada.

A motion, moved by Mayor Brown and seconded by Regional Councillor Dhillon, was introduced, with the operative clauses as follows:

Therefore Be It Resolved That:

The City of Brampton file a formal complaint with Correctional Service Canada to demand Madilyn Harks be reincarcerated or relocated from the City of Brampton to another community;

Minutes City Council

That a copy of this resolution be forwarded to:

- a) Interim Chief McCord, Peel Regional Police
- b) Ralph Goodale, Minister of Public Safety
- c) Brampton Members of Parliament

Council Members expressed safety concerns as a result of the release of this individual into the Brampton community, without any familial connections, with four hours per day of unsupervised time, and in a location with a large population of children.

The motion was considered as follows.

C094-2019 Moved by Mayor Brown
Seconded by Regional Councillor Dhillon

Whereas recent media reports indicate that Madilyn Harks (formerly Matthew Harks), a convicted pedophile with an elevated risk to re-offend, now resides in the City of Brampton, having been released back into the community through a halfway house in downtown Brampton and represents a real and present danger to our City's safety;

Whereas Madilyn Harks is a three-time convicted pedophile for sexual assaults against young girls under the age of eight;

Whereas Brampton residents are extremely upset and concerned regarding the federal government's decision to release this pedophile into our community;

Whereas the City has been advised that Harks is being monitored by Peel Regional Police and Correctional Service Canada, and is subject to a Long Term Supervision Order with numerous conditions, including not to attend public swimming areas, daycares, school grounds, playgrounds or community centres, and is prohibited from being in the presence of children under the age of 14, unless accompanied by a responsible adult who has been approved by her parole supervisor;

Whereas the immediate downtown neighbourhood including Gage Park, the Rose Theatre, Ken Whillans Square, Peel Art Gallery, Museum and Archives, Brampton Library (Four Corners Branch), Rosalea Park, the YMCA, Central Public School, and McHugh Public School have a high number of children at these locations within easy access to Harks;

Whereas Peel Regional Police issued a community safety advisory on Friday, March 22, about Madilyn Harks, alerting residents that she now resides in the Brampton area, and is at an elevated risk to re-offend;

**Minutes
City Council**

Whereas Madilyn Harks is a high risk offender from western Canada with no ties to our City, and has no business being dumped into the City of Brampton despite conditions and prohibitions;

Whereas the people of Brampton deserve an explanation for the actions of the Parole Board of Canada and federal Ministry of Public Safety in releasing Harks into our City;

Whereas Brampton is one of the youngest communities in Canada with a lower than average population age comprised of young families, and should not be susceptible to heinous pedophiles like Harks;

Whereas Harks has demonstrated a history of breaching terms and conditions of release, and should be in jail and not a halfway house posing a threat to our community;

Therefore Be It Resolved That:

The City of Brampton file a formal complaint with Correctional Service Canada to demand Madilyn Harks be reincarcerated or relocated from the City of Brampton to another community;

That a copy of this resolution be forwarded to:

- d) Interim Chief McCord, Peel Regional Police
- e) Ralph Goodale, Minister of Public Safety
- f) Brampton Members of Parliament

That the following items, to the Committee of Council Meeting of April 3, 2019, be **deferred** to the May 15, 2019 Committee of Council Meeting:

- 8.2.1. Report from C. Duyvestyn, Director, Transportation Special Projects, Public Works and Engineering, dated

**Minutes
City Council**

December 18, 2018, re: **Budget Amendment –
Hurontario-Main Street Light Rail Transit Extension
Study and Related Transportation Initiatives – Wards
1-5, 7 and 8 – RM 44/2018** (File IA.A).

- 8.4.1. Correspondence from Todd Letts, CEO, and Manpreet Mann, 2019 Chair, Brampton Board of Trade, dated April 3, 2019, re: **Hurontario-Main Street Light Rail Transit Extension Study**.

Proposed Motion:

Whereas the City of Brampton must consider the needs of transit riders in Brampton - present and future as a priority;

Whereas we need to act now and build **now**. Brampton needs to prioritize its projects to give confidence to its funding partners at the Government of Canada and the Province of Ontario;

Whereas the Brampton Board of Trade, a key partner for the City on economic development, is recommending that the City act forthwith;

Whereas the federal and provincial governments are waiting for a decision from Brampton on a preferred LRT route north of Steeles Avenue;

Whereas other municipalities such as Waterloo Region, Montreal, Edmonton, Calgary, Surrey, British Columbia, and the City of Ottawa are excellent examples of places that have received federal LRT funding and in the case of the City of Ottawa, a second stage of funding to continue with multiple phases of transit expansion;

Whereas the City of Brampton has advocated to the Province of Ontario to open the intake for the Public Transit Stream (PTS) for projects within the Greater Toronto and Hamilton Area;

Whereas a public release from Metrolinx said that the contract to build the Hurontario LRT could be written in a way to allow a further extension into Brampton, specifically, "There are provisions in the contract language to adapt to future changes or additions to the LRT, including the completion of

Minutes City Council

Mississauga's City Centre loop and/or a potential extension into Brampton.”;

Whereas Metrolinx has stated that any new changes or additions would follow the main build of the first “phase” and would be done according to a new schedule that will have to be agreed to with the winner of the Hurontario LRT contract (Project Co);

Whereas the staff report did not include information on the timing of the Hurontario LRT Financial Close or outline who is funding the Hurontario LRT and who has not yet provided funding;

Whereas stopping the Hurontario LRT at a terminal on the south-side of Steeles Avenue is unacceptable as it creates a safety risk for transit riders who need to transfer to/from the Gateway Transit Terminal and make additional intersection crossings compared to if the station was on the north side. Steeles Avenue is a major corridor for trucks and trucks are banned from turning north onto Main Street from Steeles Avenue or continuing north from Hurontario Street to Main Street across Steeles Avenue (see www.brampton.ca/EN/City-Hall/Bylaws/Traffic%20ByLaws/Traffic%20Maps/Map-Heavy-Trucks.pdf);

Whereas on December 12, 2018, the Downtown Reimagined project was paused pending further work to reduce the uncertainty associated with project costs and the development of an implementation plan for the various projects in the downtown core;

Whereas Downtown Reimagined is primarily about upgrading the underground utilities and coordinating with the Flood Protection EA and this work would have to be delayed (or the work potentially redone) if a tunnel option was chosen;

Whereas the streetscaping for Downtown Reimagined could be incorporated into the surface Main Street LRT if funding is received before the Financial Close given there would still be time to plan for it before construction commences;

Whereas it should be noted that a one-directional George Street LRT loop option would require an additional \$50 million compared to the original Main Street LRT surface option and

Minutes City Council

notably a new grade separation under the CN Halton Subdivision;

Whereas the original Main Street LRT surface option uses the existing underpass on Main Street and does not require a new overpass/grade separation;

Whereas the staff report states that the Ministry of the Environment has confirmed to Brampton staff that the original 2015 HMLRT (including the Main Street portion) EA/TPAP is still valid;

Whereas starting a new EA for the tunnel or loop options will cause continued delays to Downtown Reimagined and the other various projects in the downtown core; and

Whereas moving forward on the surface Main Street LRT option provides certainty, will assist with the planning of the Queen BRT, supports the City's Official Plan, Strategic Plan, the goals of Vision 2040, and the Transit and Transportation Master Plan;

Therefore be it resolved that:

1. The staff report from Chris Duyvestyn, Director, Transportation Special Projects, Public Works & Engineering, dated December 18, 2018, to the Committee of Council Meeting of April 3, 2019, re: Budget Amendment and Recommendation Report: Hurontario-Main Street Light Rail Transit Extension Study and Related Transportation Initiatives - Wards 1, 2, 3, 4, 5, 7 & 8 (File IA.A (16-3130-101)), be received;
2. Recommendations 1, 4 and 5 of the staff report be approved;
3. A Hurontario LRT stop at the Gateway Transit Terminal be constructed on the north side of Steeles Avenue as part of the Gateway Transit Terminal, and that the planned LRT Terminal on the southwest corner of Steeles Avenue and Main Street be relocated to the Downtown Brampton Terminal;
4. The original Hurontario-Main LRT TPAP approved surface (at grade) route on Main Street from Steeles Avenue to the

**Minutes
City Council**

Brampton GO Station, listed as Option 1 in the staff report, be selected as a preferred option;

5. Staff and Council immediately work to seek funding from the federal and provincial governments for the extension of the original Hurontario-Main LRT TPAP approved surface (at grade) route on Main Street from Steeles Avenue to the Brampton GO Station so that it can be secured to allow for discussions with Metrolinx and would be done according to a new schedule that will have to be agreed to with the winner of the Hurontario LRT contract (Project Co.) which would be faster than waiting until a post 2021 procurement process for the tunnel or loop options; and
6. If the federal and provincial governments do not commit to funding the original Hurontario-Main LRT TPAP approved surface (at grade) route on Main Street from Steeles to the Brampton GO Station by Fall 2019, that staff be directed to follow through with Recommendations 2 and 3 of the staff report.

Whereas according to Brampton's 2040 vision the City of Brampton is striving to be a hub for innovation and technology;

**Minutes
City Council**

Whereas Brampton has aspirations and ambitions to be a smart city as seen through 2018's federal Smart Cities Challenge;

Whereas Brampton's economic development master plan highlights innovation and technology as a key component;

Whereas the Brampton's Smart City Team is in the process of developing a Smart City Program strategy;

Whereas connectivity is a core requirement for a Smart City;

Whereas 5G is an up and coming technology that can have major technological and economic benefits to Brampton;

Whereas most cities are not 5G enabled and Brampton can potentially be positioned as a leader;

Whereas a city that is 5G enabled can leverage this as a business attraction tool to start-ups and mature businesses alike;

Whereas finding new and innovative ways of engaging the private sector and all other stakeholders, where investments, risks and benefits are shared, would be the future model for implementing and utilizing technology;

Therefore Be It Resolved that:

1. Staff be directed to explore collaboration and partnership opportunities to implement 5G technology throughout the City and report back to a future Council meeting.

The motion was considered as follows.

C137-2019 Moved by Mayor Brown
Seconded by Regional Councillor Medeiros

Whereas, the Government of Quebec has once again proposed legislation (Bill 21) that would prohibit public employees from wearing visible religious symbols in the workplace;

Whereas Bill 21 could ban such items as turbans, kippahs, hijabs and visible crucifixes;

Whereas, given the City of Brampton's diversity and spirit of religious and cultural inclusion and equity, it is important for City Council to assure residents and visitors to Brampton that our City will always welcome people of all faiths, and protect their freedom of religion and expression;

Whereas Brampton City Council joins our colleagues on Montreal City Council who unanimously approved this week a declaration against the Quebec Government's secularism bill, with such declaration stating that Quebec is already a secular society, and there is no need to legislate what employees wear;

Whereas other cities, such as the City of Toronto, have passed Resolutions opposed to Bill 21 and in favour of freedom of religion and expression;

Therefore be it resolved that:

1. Brampton City Council reaffirm its continuing support for freedom of religion and expression, and opposition to any legislative action restricting or prohibiting such freedoms, in keeping with the City's commitment to diversity, equity and inclusion; and
2. A copy of this Resolution be forwarded to the Premier of Quebec, Montreal City Council and Brampton Members of Parliament (MPs) and Members of Provincial Parliament (MPPs).

WHEREAS, the passage of time and the fact that few survivors remain who serve as reminders of indescribable brutality and torment, compel a sense of urgency in efforts to solidify recognition and reaffirmation of historical truth; and

WHEREAS, Canada has become home to one of the largest population of Tamils from Sri Lanka, and those citizens have enriched our country through leadership in the fields of academia, medicine, business, agriculture, government, and the arts and are proud and patriotic practitioners of Canadian citizenship;

April 3, 2019

CAC010-2019 That the agenda for the Citizen Appointments Committee Meeting of April 3, 2019, be approved, as printed and circulated.

CAC011-2019 Whereas the *Citizen-Based Advisory Committee Guideline and Appointment Procedure* requires Committee members who participate shall be required to be present for all interviews for a specific committee; and

Whereas given the high number of scheduled citizen interviews (with more than 400 applicants) combined with the need to interview for eight (8) different citizen-based advisory committees, creates a practical inability to schedule all interviews for a particular committee during a single interview session;

Whereas all Committee members wish to participate in all interviews, as much as practically possible, but there will be times when a member cannot attend every interview for a particular committee;

Therefore Be It Resolved That the *Citizen-Based Advisory Committee Guideline and Appointment Procedure* requirement for Committee members to be present for all interviews for a specific committee be waived during this particular group of scheduled interviews for the following citizen-based committees to allow members to continue to participate in interviews while maintaining Committee quorum:

- Accessibility Advisory Committee
- Cycling Advisory Committee

CW219-2019

Whereas the Brampton Official Plan calls for higher-order transit on Main Street;

Whereas on December 5, 2018, at Committee of Council, Members of Council unanimously endorsed that an LRT extension route as originally recommended be prioritized by Brampton staff, and be immediately restored as part of the Brampton Transit Network Plan;

Whereas staff were directed to revise the Brampton LRT Extension Study to make any updates to the Hurontario-Main Street Light Rail Transit (LRT) Environmental Assessment (EA), including study and consideration of an underground tunneling option;

Whereas staff have identified three Main Street route options, HMLRT TPAP approved, Main-George one-way loop, and tunneling as means to provide a northerly LRT extension on Main Street to the Brampton GO Station;

Whereas the three identified options are dependent on securing funding from federal and provincial governments, or other sources;

Whereas a public release from Metrolinx said that the contract to build the Hurontario LRT could be written in a way to allow a further extension into Brampton, specifically, that there are provisions in

Minutes City Council

the contract language to adapt to future changes or additions to the LRT, including a potential extension into Brampton;

Whereas Metrolinx has stated that any new changes or additions would follow the main build of the first phase and would be done according to a new schedule that will have to be agreed to with the winner of the Hurontario LRT contract (Project Co);

Whereas stopping the Hurontario LRT at a terminal on the south-side of Steeles Avenue, a major corridor for trucks, is less than ideal for transit riders from a safety perspective, as transit riders who need to transfer to/from the Brampton Gateway Terminal must make additional intersection crossings compared to a station on the north side.

Whereas on December 12, 2018, the Downtown Reimagined project was paused pending further work to reduce the uncertainty associated with project costs and the development of an implementation plan for the various projects in the downtown core;

Whereas the EA study will enable staff the opportunity to combine the objectives for an extended LRT route and elements of the enhanced streetscaping for Downtown Reimagined where possible;

Therefore Be It Resolved That:

1. The report from Chris Duyvestyn, Director, Transportation Special Projects, Public Works & Engineering, dated December 18, 2018, to the Committee of Council Meeting of April 3, 2019, re: Budget Amendment and Recommendation Report: Hurontario-Main Street Light Rail Transit Extension Study and Related Transportation Initiatives - Wards 1, 2, 3, 4, 5, 7 & 8 (File IA.A (16-3130-101)), be received;
2. Recommendations 2, 3, 4 and 5 of the staff report be approved;
 - “2. That staff be directed to update the Hurontario-Main Light Rail Transit Environmental Assessment study to include consideration for a Main-George One-Way Loop in addition to underground tunneling options and the original Hurontario-Main Light Rail Transit approved route, and incorporate elements of the enhanced streetscaping for Downtown Reimagined where possible; and

**Minutes
City Council**

3. That a budget amendment be approved in the amount of \$1,000,000 to top-up Project #174115-001 – Light Rail Transit Extension study with funding of \$1,000,000 from General Rate Stabilization Reserve; and
 4. That staff be directed to examine rapid transit on Kennedy Road, McLaughlin Road and Hurontario-Main Street north of Brampton GO to Mayfield Road/Highway 410 as part of the next update to the Brampton Transportation Master Plan; and
 5. That staff report back to Committee of Council once further discussions with Metrolinx have progressed to define the scope of work for the Downtown Mobility Hub, and additional information is obtained about Metrolinx's transit oriented development strategy for possible ways to build partnerships in Downtown Brampton."
3. Staff be directed to report back to Council on relocating the proposed Hurontario LRT stop at Steeles Avenue from the south side to a location on the north side that provides the best possible integration with the Brampton Gateway Terminal in order to provide a safe, convenient and comfortable loading/unloading transit user experience while accommodating a northerly LRT extension to the Brampton GO Station;
 4. The Mayor and Council immediately work to seek funding from the federal and provincial governments for the extension of the Hurontario LRT from Steeles Avenue to the Brampton GO Station, and proceed with the fully funded option.

CW220-2019

CW221-2019

That following motion be **referred** to staff for consideration and identification of a specific appropriate property and report back thereon to the May 22, 2019 meeting of City Council:

City Council**

Whereas recognizing our City's diversity through possible naming opportunities for City assets such as streets, facilities and parks is an appropriate way to celebrate our collective cultural heritage from all over the world; and

Whereas City Council has approved an Asset Naming Policy to facilitate commemorative recognition to honour events and individuals' outstanding achievements, distinctive service, or significant community contributions, including recognition of the City's rich cultural heritage; and

Whereas the Brampton Philippines' community is a strong and vibrant community that contributes significantly to the diversity and richness of our City; and

Whereas Dr. José Protasio Rizal, was a Filipino nationalist who advocated for political reforms during the Spanish colonial period of the Philippines, and was executed by the Spanish colonial government for his views and writings which ultimately led to Philippine independence; and

Whereas the City of Brampton prioritises and celebrates business investment, builds an environment where economic development is a priority and hosts some of the world's most important corporate industries in the areas of advanced manufacturing, pharmaceuticals and technology;

Whereas Dynacare is one of Canada's largest providers of laboratory services, is a top employer headquartered in Brampton and operates health and wellness solutions facilities across Ontario, Quebec, Manitoba, Saskatchewan, Alberta and British Columbia;

Whereas Naseem Somani was the CEO of Dynacare between 2005 and 2018 and had a powerful impact on the company's success and contributed to the economic vitality of the City of Brampton;

Whereas Dynacare has requested that the City of Brampton honours the memory of Naseem Somani by permitting a ceremonial street name that honours the memory of Naseem Somani, and that signage be placed at Midair Court, where Dynacare's Brampton headquarters is located,

Whereas other municipalities have established policies that permit ceremonial naming of streets which refers to assigning a ceremonial name, which is a secondary name and does not replace the official name, to a street in honour of an individual, event or an organization that has made a significant and exceptional positive contribution to the municipality, the Province of Ontario or Canada;

17.3. Discussion Item at the Request of Regional Councillor Palleschi, re: **GTA West Transportation Corridor**.

Council agreed to vary the order of business and considered this matter after Item 6.1.

A motion, moved by Regional Councillor Palleschi and seconded by Regional Councillor Medeiros, was introduced, with the operative clauses as follows:

Minutes City Council

Therefore, Be It Resolved:

That City of Brampton staff share the findings of the OPA 245, Halton-Peel Boundary Area Transportation Study (HPBATS) and the Heritage Heights Transportation Master Plan (HHTMP) with the Ontario Ministry of Transportation.

That the Mayor of Brampton send a letter to the Premier of Ontario expressing the City's support for MPP Amarjot Sandhu's motion asking the Government to resume and complete the Environmental Assessment for the GTA West Transportation Corridor; and

That a copy of this motion be forwarded to MPP Amarjot Sandhu, the Minister of Transportation Jeff Yurek, the Councils for: the Region of Peel, the Town of Caledon, the Town of Halton Hills.

Council consideration of the motion included:

- details from the mover on the intent of the motion
- benefits of a GTA West Corridor to the City
- proposed amendment to the motion to include Brampton area MPPs and Halton Region in the final operative clause, and acceptance by the mover

The motion, as amended, as considered as follows.

C211-2019 Moved by Regional Councillor Palleschi
Seconded by Regional Councillor Medeiros

Whereas; in December 2006, the OMB approved an amendment to the Region of Peel Official Plan (ROPA 15) and the City of Brampton Official Plan (OPA 245) to expand the Brampton Urban Boundary to include the Mount Pleasant and Heritage Heights Secondary Plan areas, which are also referred to as the North West Brampton area.

Whereas; OPA 245 included a policy requiring that a North-South Transportation Corridor be planned, designed and constructed in accordance with the recommendation of an Environmental Assessment Study prior to the full development of North West Brampton area.

Whereas; in 2007, the Halton-Peel Boundary Area Transportation Study (HPBATS) was initiated. This was a joint study undertaken by the Region of Peel, Region of Halton, the City of Brampton, the Town of Caledon and the Town of Halton Hills to examine the transportation needs within the Halton-Peel boundary area.

Minutes City Council

Whereas; in March 2008, the then Ontario Minister of the Environment approved the Terms of Reference for the GTA West Corridor EA Study and the EA was initiated in accordance with the Ontario Environmental Assessment Act (EA Act).

Whereas; in December 2009, Brampton Council directed staff to initiate the secondary plan for the Heritage Heights area, which included the preparation of the Heritage Heights Transportation Master Plan (HHTMP).

Whereas; in 2010, Phases 1 and 2 of the HPBATS EA study were completed and confirmed the need for a north-south transportation corridor to be constructed as a Halton-Peel Freeway with connections to Highways 401 and 407 in Halton Region. The HPBATS area largely coincides with a portion of the Preliminary Route Planning Study Area that was identified in the GTA West Corridor EA Study.

Whereas; in 2015, the Phases 1 and 2 of the HHTMP completed by Cole Engineering identified and recommended a preferred route in the Heritage Heights Secondary Plan area, which is also one of the highway routes identified in the GTA West Corridor EA Study.

Whereas; the GTA West Corridor is a vital piece of transportation infrastructure that will help Brampton meet the projected growth in both employment and population, identified in the Provincial Places to Grow Plan for the Greater Golden Horseshoe and will deliver multiple benefits including greater connectivity between urban growth centres and enhanced people and goods movement.

Whereas; on February 9, 2018, the Ministry of Transportation (MTO) announced that Ontario has accepted an expert advisory panel's recommendation that a proposed highway in the GTA West Corridor is not the best way to address changing transportation needs and further, that the Province would not be moving forward with a highway for the GTA West Corridor.

Whereas; the impacts of the MTO announcement exacerbated existing challenges to advance the planning for Heritage Heights; delayed job creation in the North West Brampton area; and ignored ongoing concerns with traffic congestion, high car insurance rates, safety for the residents of Brampton and two-way all-day GO service.

Whereas; MPP Amarjot Sandhu of Brampton West, recognizing the immediate need for an enhanced transportation network, reduced travel times and the urgency to alleviate congestion across the GTA, has tabled a motion calling on the government to resume the Environmental Assessment for the GTA West Corridor.

- 9.3. Report from A. Meneses, Commissioner of Community Services, and A. Milojevic, General Manager, Transit, Office of the Chief Administrative Officer, dated May 27, 2019, re: **Budget Amendment and Request to Begin Procurement – Initial Design Services and Construction Services for a new Transit Facility located at 10192 Highway 50, Brampton.**

Council consideration of this matter included concerns about committing to a major project, absent of the results of the Province's Regional Government review, and a suggestion that the project be delayed until the results of this review are announced.

Members of Council expressed varying opinions about a potential delay in the project.

In response to a potential delay to the project, Al Meneses, Commissioner of Community Services, cautioned that, if staff cannot proceed with the EA and initial design work, the project cannot be delivered in time to meet Transit's needs, and there is also the potential loss of one construction season.

Mr. Meneses noted that not all monies will be used at this time, as the project is to be built in phases; detailed the approximate dollars to be expended before the results of the Regional Government review expected in November

Minutes City Council

2019; and that the staff recommendations for proceeding with the project would allow for a pivot, if need be, pending on governance and funding.

In response to questions from Council, staff provided information on the following:

- potential impacts on the project should provincial and federal funding not be granted, including exposure to increased costs for materials
- current storage facilities for the City's buses
- need for indoor storage given the impact of Canadian winters and resulting maintenance costs
- total estimated working budget for the project, and confirmation that \$50 million has already been approved, with the balance of the budget to be considered during the 2020 budget deliberations
- opportunities for value-engineering during the design phase

An amendment was introduced by Mayor Brown to add the following additional clauses to the staff recommendations:

5. That staff report or present to Council at its meeting to be held on July 10, 2019, on the necessity of an indoor facility; and
6. That costs be limited to only those necessary, in advance of the Regional Government Review outcomes.

An amendment to the referral motion, moved by City Councillor Singh and seconded by Regional Councillor Dhillon, was introduced to include Sandalwood and Torbram and Riverstone as locations for staff's review and the requested report back.

They also provided a reminder of Council's vision for additional youth hubs City-wide.

During consideration of this matter, a Point of Order was raised by Regional Councillor Dhillon. The Mayor gave leave for the Point of Order.

Councillor Dhillon referenced comments by a Council colleague with respect to the origins of the report, and provided details of the Region of Peel's consideration of community youth hubs in Malton and Mississauga.

Councillor Santos outlined the reasons she did not accept the amendment to her referral motion.

During consideration of this matter, a procedural motion to Call the Question was introduced by Regional Councillor Palleschi. The motion was voted on and carried.

Whereas Friday, June 21 is recognized as National Aboriginal Peoples Day in Canada; and

Whereas for generations, many Indigenous peoples and communities have celebrated their culture and heritage on or near this day due to the significance of the summer solstice as the longest day of the year; and

Whereas the City of Brampton in partnership with The Indigenous Network hosts a celebration annually in Garden Square on Friday, June 21 to celebrate this important date; and

Whereas in 2015 the Truth and Reconciliation Commission of Canada issued its final report, including numerous Calls to Action for governments and others, including municipal governments, to advance the process of Canadian reconciliation to redress the legacy of treatment of Indigenous peoples;

Whereas on June 3, 2019, The Final Report of the National Inquiry into Missing and Murdered Indigenous Women and Girls was released making recommendations to government, the police and the Canadian public to help address violence directed at Indigenous women and girls and 2SLGBTQQIA people; and

Whereas it is essential that we acknowledge the contributions of First Nations, Metis and Inuit residents to Brampton and foster a future based on relationship building, awareness and understanding of indigenous histories, traditions and cultures; and

Whereas the City of Brampton currently reads a territorial land acknowledgement at regular City Council meetings, and often includes an Elder or cultural educator at significant ceremonial City events; and

Whereas the Culture Master Plan's goal of Presentation and Production includes the strategy/action to strengthen the relationship with the Indigenous community and work together toward better inclusion and meaningful collaboration;

Therefore, be it resolved that the City of Brampton write a letter to the Minister of Children, Community and Social Services expressing its concern over the new funding model and the staffing situation especially in light of the government's promise to not eliminate front-line employees.

The Mayor and Councillor Singh outlined the rationale and purpose of the motion.

C249-2019 Moved by City Councillor Singh

Whereas ErinoakKids Centre for Treatment and Development is Ontario's largest Children's Treatment Centre (CTC) – serving nearly 17,000 children with disabilities and their families each year.

**Minutes

Whereas the mission of ErinoakKids is to help children and youth with physical, development and communication disabilities achieve optimal levels of independence, learning, health and well-being.

Whereas their clients have a wide range of physical and/or developmental and communication disorders, autism, and some of the children it cares for are blind and/or deaf.

Whereas ErinoakKids has approximately 750 staff members and four sites from which it provides a comprehensive array of medical, therapy and support services that help children and their families.

Whereas ErinoaksKids works from a family-centred philosophy, and its focus is on the strengths and resilience of its clients and their families.

Whereas the Ontario government funds its mandatory services through its Ministry of Children, Community and Social Services.

Whereas on Feb. 6, 2019 the Ministry of Children, Community and Social Services announced changes to the Ontario Autism Program.

Whereas agencies like ErinoakKids are no longer funded to administer and deliver these services through the public sector, as they have done since inception of the original program in 2000, for successive governments.

Whereas due to a lack of funding 291 positions would be eliminated over the next 12 weeks. The move affects frontline therapists, supervisors and applied behavior analysts.

Therefore, be it resolved that the City of Brampton write a letter to the Minister of Children, Community and Social Services expressing its concern over the new funding model and the staffing situation especially in light of the government's promise to not eliminate front-line employees.

A motion, moved by Mayor Brown and seconded by Regional Councillor Santos, was introduced, with the operative clauses as follows:

Therefore Be It Resolved:

1. That the City of Brampton invite all affected individuals, either pursuing or training for a career in firefighting in Quebec, to apply for a career with Brampton Fire and Emergency Services; and
2. That Brampton Fire and Emergency Services place select advertising within Quebec promoting a career with Brampton Fire and Emergency Services.

The Mayor outlined the rationale and purpose of the motion, and noted amendments made to the motion, since its publication on the agenda for this meeting.

The Mayor provided clarification that the motion is not intended to provide special consideration to applicants from Quebec, but to let them know the City of Brampton believes in the values of diversity and inclusion, including the accommodation of religious symbols.

Members of Council expressed their views with respect to the proposed motion.

An amendment to the motion was introduced by Regional Councillor Dhillon to add an additional "Whereas" clause, and revise the wording in Clause 2, and to add an additional Clause 3, as follows:

Whereas The City of Brampton must become a leader in diversity, equity, and inclusion;

Therefore be it resolved:

Minutes City Council

1. That the City of Brampton invite affected individuals, either pursuing or training for a career in different municipal services including Fire and Emergency to consider a career with The City of Brampton.
2. That the City of Brampton produce and place select local advertising within ethnic, and diversity-based, media outlets located within Brampton and targeted social media advertisements in Quebec promoting career opportunities in The City of Brampton that highlight diversity as our strength in our City; and
3. That:
 - a) Staff immediately initiate a review and/or equity audit of City of Brampton hiring practices, race relations, promotional practices, anti-discrimination policies, equity employment, diversity, gender issues and employee misconduct procedures and policies to determine the sufficiency of actions to be taken and for any areas for improvement.
 - b) That a neutral third-party facilitator or consultant should be retained to conduct the review and/or equity audit and to provide options and recommendations to this audit.
 - c) That the terms of reference be determined at a later date.

Councillor Dhillon outlined the rationale and purpose of his proposed amendments.

Peter Fay, City Clerk, provided advice on the proposed Clause 3, indicating that the matter subject to this clause is not within the purpose for which this Special Council was called. He suggested that a Notice of Motion could be provided for consideration on this topic at the Council Meeting of July 10, 2019.

The Mayor, as mover of the motion, accepted the revised wording to Clause 2 as a “friendly” amendment.

The Mayor indicated that the measures outlined in Clause 3 are already underway at the City, to address inclusion and equity in the workplace (in consultation with CCDI (Canadian Centre for Diversity and Inclusion); and proposed enhancements to multilingual and cultural Corporate communications, including job postings (report expected for consideration at the Council Meeting of July 10, 2019).

At the request of Council, Joe Pittari, Acting Chief Administrative Officer, provided additional information about the work being undertaken by the Canadian Centre for Diversity and Inclusion.

**Minutes
City Council**

During consideration of this matter, a Point of Order was raised by Regional Councillor Palleschi. The Mayor gave leave for the Point of Order.

Councillor Palleschi requested a ruling from the Mayor about whether the topics outlined in Clause 3 of the proposed amendment are before Council for consideration at this time.

The Mayor indicated his acceptance of the advice of the City Clerk that Clause 3 is not within the subject for which this meeting was called.

In response to comments from Councillor Dhillon, the City Clerk advised that a Member could challenge, but not debate, the Mayor's ruling.

Members of Council expressed varying opinions on the main motion and Councillor Dhillon's proposed amendments.

The main motion, as amended, was considered.

A separate vote was taken on Clause 1, as follows:

1. That the City of Brampton invite affected individuals, either pursuing or training for a career in different municipal services, including Fire and Emergency Services, to consider a career with the City of Brampton; and

2. That the delegation from Scott Snider, Turkstra Mazza, to the Planning and Development Committee Meeting of September 9, 2019, re: **City-initiated Official Plan Amendment to Remove Shale Protection Policies from North-West Brampton – Heritage Heights – Ward 6**, be received.

PDC126-2019

Whereas the Region of Peel passed a Regional Official Plan Amendment which removes all the shale protection policies, excluding the portion outside of the Regional Urban Boundary and within the Provincial Greenbelt Plan Area while continuing to recognize existing shale extraction designations within North West Brampton;

Whereas the Region of Peel's Official Plan Amendment was adopted on July 11th, 2019 and was appealed by the Minister of Municipal Affairs and Housing on August 1st, 2019;

Whereas the City-Initiated Official Plan Amendment to remove Shale Protection policies from North West Brampton recommendation report states we will not proceed until the appeal between the Province and Region is resolved;

Therefore be it resolved that staff be directed to report back on the OPA to the November Planning Committee so that we, the City of Brampton can protect our position and fate at the LPAT Hearing with the Region of Peel.

1. That the report from D. Watchorn, Development Planner, Planning and Development Services, dated August 16, 2019, to the Planning and Development Committee Meeting of September 9, 2019 re: **Request for Exemption from Section 22(2.1.1) of the Planning Act to Facilitate Making an Application to Amend Secondary Plan Area 6, Brampton Flowertown, and the Zoning By-law (to permit the development of a four-storey self-storage building in an existing District Retail plaza) – 7724934 Canada Inc. – 7724934 Canada Inc. – 370 Main St N. – Ward 1**, be received;

frustrate the intent of the recently approved Brampton Flowertown Secondary Plan (SPA6).

3. That the delegation from Peter Smith, Bousfields Inc., to the Planning and Development Committee Meeting of September 9, 2019, re: **Request for Exemption from Section 22(2.1.1) of the Planning Act to Facilitate Making an Application to Amend Secondary Plan Area 6, Brampton Flowertown, and the Zoning By-law. – 7724934 Canada Inc. – 7724934 Canada Inc. – 370 Main St N. – Ward 1** (File PRE19.004) be received.

PDC130-2019

That the Planning and Development Committee proceed into Closed Session to discuss matters pertaining to the following:

- 16.1 Litigation or potential litigation, including matters before administrative tribunals, affecting the municipality or local board.

PDC131-2019

Whereas in July 2016, the City received complete development applications for Official Plan and Zoning By-law amendments, and draft plan of subdivision approval, with respect to properties in the Queen Street West and Mississauga Road area for residential development, which were subsequently appealed as a result of the City's non-decisions to the Ontario Municipal Board, now Local Planning Appeal Tribunal (LPAT); and

Whereas in February 2018, the appellant land owners and another land owner in the Queen Street West and Mississauga Road area submitted a draft Queen Street West Tertiary Plan (the "Tertiary Plan") to demonstrate how five (5) properties at the corner of Queen Street West and Mississauga Road can be developed in a coordinated manner; and

Whereas the proposed Tertiary Plan has been supported by technical studies, and subsequently revised through discussions between City Planning staff and the applicants, advancing to the point that staff are ready to recommend that Council support the Tertiary Plan; and

Whereas a Tertiary Plan is a non-statutory planning document required in specific areas identified by the City to show how multiple parcels can be developed in a holistic and co-ordinated manner, are illustrative, and are not binding on land owners and are often amended as formal development applications proceed; and

**Minutes
City Council**

Whereas another land owner within the above-referenced Tertiary Plan area submitted another concept Tertiary Plan in July 2019, which is not supported by technical studies at this time; and

Whereas the scheduled LPAT hearing is to be held on January 13, 2020, therefore it is desirable for some form of agreement between the affected land owners and other interests to facilitate and possibly resolve the LPAT hearing matters and enable planned development to proceed in this area; and

Whereas it is in the best interest of all parties involved to discuss, negotiate and resolve their respective interests, including cost-sharing agreements, to ensure an orderly and planned development of the subject area at Queen Street West and Mississauga Road;

Therefore Be It Resolved That the following be **deferred** to the September 23, 2019 Planning and Development Committee meeting, in order to provide more time for the various land owners to discuss and resolve outstanding issues before the Tertiary Plan is considered by Council:

- a. Item 7.8 – a staff report from K. Walkey, Manager, Planning and Development Services, re: **Queen Street West Tertiary Plan – Ward 4**, and
- b. Item 5.3 – delegations from the following regarding the **Queen Street West Tertiary Plan**:

 3. Mary Flynn-Guglietti, Weston Consulting
 4. Ryan Guetter, Weston Consulting

PDC132-2019

WHEREAS Council passed a resolution dated April 8, 2019 that read as follows:

1. That the delegation from Neil Davis, Davis Webb LLP, to the Planning and Development Committee Meeting of April 8, 2019, re: Extension of Brampton Auto Mall be received;
2. That, in principle, Committee express support for development of the subject lands as part of the surrounding auto mall;
3. That the matter be referred to staff for consideration and a report thereon be brought forward to Planning and Development Committee by the end of July 2019; provided the require application(s) are submitted and deemed complete by Planning and Development Services by May 1, 2019.

**Minutes
City Council**

AND WHEREAS the applicant submitted the required applications to amend the City of Brampton Official Plan and Zoning By-law together with all required studies and reports requested by City staff.

AND WHEREAS the application was deemed complete on July 8, 2019.

AND WHEREAS City staff provided a comfort letter dated July 10, 2019 which indicated that Council would be provided the opportunity to, if it so chooses, adopt an Official Plan amendment and implementing Zoning By-law amendment at the Council meeting of September 11, 2019, yet neither were attached to the Recommendation Report.

AND WHEREAS the Planning and Development Committee (“Committee”) has had an opportunity to consider the staff recommendation report dated August 16, 2019, including the comments from Regional staff on behalf of the Region of Peel dated August 1, 2019.

AND WHEREAS Committee has had an opportunity to review the response from Gagnon Walker Domes (GWD) to the staff report and have listened to the submissions of Mr. Neil Davis to the Committee.

AND WHEREAS staff have raised concern in the recommendation report regarding the availability of industrial lands, however, the subject lands are not zoned to permit these types of uses.

AND WHEREAS there have been six (6) applications before the Committee of Adjustment supported by City of Brampton and Region of Peel staff to permit automotive uses that were zoned for industrial or employment uses.

AND WHEREAS in those six (6) applications which lands were designated and zoned to permit industrial or employment uses no issue or concern was raised by staff of either the City or the Region of conversion or failure to meet Provincial Policy, Region of Peel Official Plan Policy, or City of Brampton Official Plan Policy.

AND WHEREAS Committee respectfully disagrees with staff as to its concerns raised in its recommendation report and prefers the opinion of GWD regarding conformity to the Provincial Plans and

**Minutes
City Council**

Policies and the Regional Official Plan and specifically on their opinion on the issue of conversion.

AND WHEREAS the lands have remained vacant for the last eight (8) years since being designated and zoned without any of the permitted commercial uses having been taken up.

AND WHEREAS to add automotive uses as a specific permission to the already permitted commercial uses on subject lands by amendment to the City Official Plan and Zoning By-law will offer the potential to further expand the auto mall type uses to meet demand and is the logical extension of the automotive permissions granted with staff support in the area including the immediately adjacent lands to the north and west.

AND WHEREAS the applicant has also agreed to add retail space that up to now has not materialized.

AND WHEREAS the addition of automotive uses further offers the potential to create upwards of 50,000 million dollars of new construction with 300 new jobs, many of which are well-paid skilled jobs.

AND WHEREAS Committee has confidence that the automotive dealerships can be designed and built as an attractive gateway to the area, the expanded auto mall will provide appropriate interface with development including residential development east of Dixie Road.

AND WHEREAS the Committee is of the view that approval of the application represents good planning and conforms to Provincial Policy and Provincial interests and conforms to the Regional Official Plan and that the proposed amendments to the Brampton Official Plan and Zoning By-law represent appropriate adjustments to the policy framework as established in 2011 given approvals granted in proximity and adjoining for the same use and to provide the opportunity to meet the need for automotive uses on the subject lands.

Whereas Council Procedure By-law 160-2004, as amended, requires at the mid-term point of each Council term for the City Clerk to canvass Members for their appointment preferences for Chairs and Vice-Chairs of Standing Committees and Sections, as well as for other Functional and Ad hoc committees including Audit Committee and Governance and Council Operations Committee, as follows:

Section 2.5 (4):

“At the start and mid-term point of the Council term, the City Clerk shall canvass, for Council approval, Members of Council for their appointment preferences for:

- a) Chairs and Vice-Chairs of Standing Committees and sections, and
- b) Membership and Chairs of other functional and ad hoc committees, sub-committees, consultative committees and other bodies.”

Whereas it is more effective to allow the Standing Committees and Functional and Ad Hoc Committees to decide amongst their membership whether or not they would like to rotate or appoint Chairs and Vice-Chairs; and

Whereas there are often benefits for Chairs and Vice-Chairs to remain in place to ensure stability in file and issue management;

Therefore Be It Resolved That:

C364-2019 Moved by Regional Councillor Fortini
Seconded by Regional Councillor Santos

Whereas the City's Official Plan recognizes the need to support and promote the provision of specialized housing for a diverse population, including persons with disabilities and those having special housing needs.

And Whereas special housing is to be strategically located and integrated in the community to provide access to all public amenities, including transportation, parks and open space.

And Whereas the Brampton Official Plan (Section 4.2.6.6) supports the principle of integrating Group Homes into existing and new residential communities as approved by the City and the appropriate government regulatory agency, subject to zoning and registration requirements.

And Whereas, due to changes to: provincial legislation (i.e. Ontario Building Code and Fire Code); regulatory authorities (i.e. Retirement Home Regulatory Authority); zoning definitions; and the City's recent changes to Secondary Plan Areas, it has become evident that an update to the Group Homes Official Plan and Zoning policies is required to provide clarity to the City's Group Home registration process and legislative requirements.

Whereas the use of hockey nets is prohibited under the Boulevard Maintenance and Highway Obstruction By-law 163-2013, and

Whereas active play is a recommended method to improve the health and well being of youth and children, and

Whereas active and healthy lifestyle choices have personal and community benefits and

Whereas ParticipACTION held a Community Better Challenge across Canada for most active community in 2019 and awarded prize money of \$150,000 to the winning community, and

Whereas ParticipACTION also awarded \$20,000 second prizes to five other communities, and

Whereas the children of this generation are less physically active due to wide-spread use of technology and an increase in screen time and

Whereas it has been said that the increase in screen time has led to stronger thumbs but not stronger bodies, and

Whereas less physically active children are at a higher risk of developing chronic health issues such as type 2 diabetes, mental health issues and are unable to maintain a healthy weight - less physically active children are also more likely to develop multiple health issues as adults;

Whereas promoting physical activity in young children helps them to develop healthy habits which can help minimize the occurrence of developing chronic health issues, and put less strain on our severely underfunded healthcare system;

Whereas activities like street hockey are aligned with the principles of the Healthy Community Initiatives (HCI); and

Whereas street hockey can be one of the many outdoor activities in which residents can participate and be counted towards "active minutes" in the ParticipACTION Community Better Challenge;

Therefore Be It Resolved:

That Brampton City Council express its commitment to encouraging safe active play, and further

**Minutes

- CW424-2019 Whereas the City of Brampton, as Canada's second fastest growing municipality has and will see a growing number of infrastructure projects to support its growth;
- Whereas Brampton's Vision 2040 and strategic priorities commits to creating a city of opportunities - improving livability and prosperity by focusing on local education and employment opportunities, neighbourhood services and programs, and job investment strategies;

Minutes City Council

Whereas Council resolution C080-2019 unanimously passed by Council on March 27, 2019 includes direction for The City of Brampton, in partnership with the Region of Peel and school boards, conduct gap analysis research and provide recommendations that enhance youth programs and provide opportunities for youth to make a positive contribution in the community;

Whereas The Institute of Fiscal Studies and Democracy (IFSD) / U of Ottawa study in 2017: “Community Benefits Agreements, Empowering Communities To Maximize Returns on Public Infrastructure Investments” reports that we have “a historic opportunity for guiding public spending to do double and triple duty, with each dollar purchasing not just economic value, but also social and environmental value in neighbourhoods across Ontario and Canada. It <Community Benefits> also offers a way to amplify policy commitments to reduce poverty”;

Whereas the above mentioned study defines Community Benefits as: Infrastructure investment—and, in fact, any public procurement process—that can involve three distinct types of community benefits:

- Jobs and/or training opportunities, including apprenticeships, for members of traditionally disadvantaged communities, for whom the experience can facilitate gaining and maintaining employment;
- Purchase of goods and services from local businesses or social enterprises to maximize the economic, social, or environmental impact of public procurement; and
- Supplementary benefits which are identified as priorities by the community to improve public space (e.g. request to develop a park on unused land, or reducing pollution).

Whereas Ontario took the lead in 2016, by passing the Infrastructure for Jobs and Prosperity Act in 2016 and at the federal level, legislation like Bill C-344—and its predecessor, Bill C-277—can align several government objectives, reducing poverty by ensuring that infrastructure investments build up communities while building community infrastructure;

Whereas other municipalities such as Toronto and Hamilton are in the process of implementing Community Benefits that include Fair Wage policy and training/apprenticeship opportunities;

Therefore Be It Resolved That:

**Minutes
City Council**

- 1) Staff conduct an environmental scan and study the advantages and disadvantages of a Community Benefits framework to include training/apprenticeship opportunities within RFPs for infrastructure projects;
- 2) Staff conduct an environmental scan and study the advantages and disadvantages of a Fair Wage policy;
- 3) Based on the above analysis, staff provide Brampton-focused recommendations for Community Benefits and Fair Wage Policy based on best practices and learning from other jurisdictions, and report back to Committee of Council.

CW425-2019

Whereas the *Municipal Act, 2001*, defines a “payday loan establishment” to mean any premises in respect of which a licensee within the meaning of the *Payday Loans Act, 2008* may operate a business pursuant to a licence issued under that Act; and

Whereas amendments to the *Municipal Act, 2001* and the *Pay Day Loans Act, 2008*, enacted in 2018 permit municipalities to also license payday loan establishments, including defining the area of the municipality in which an establishment may or may not operate and limit the number of establishments in any defined area in which they are permitted, but shall not prohibit the operation of all establishments in a municipality; and

Whereas recent provincial regulatory reforms for payday loan establishments are intended to protect consumers through education and reduced costs of borrowing, while recognizing their still exists some consumer demand for such services; and

Whereas there appear to be a proliferation of payday loan establishments across the City and in certain areas of the City, with 50 payday lenders or loan brokers currently licensed under the *Payday Loans Act, 2008*; and

Whereas the issue of payday loan terms, locations and concentrations within certain parts of the City can have a detrimental impact on vulnerable consumers by providing convenient, yet predatory and expensive loan practices resulting in a very costly way to borrow money; and

Whereas many Municipalities are implementing or considering implementing licensing regimes to regulate payday loan

**Minutes
City Council**

establishments to protect consumers who utilize these businesses from financial hardship through exceptionally high lending rates and charges, and cyclical patterns of borrowing and debt problems;

Therefore Be It Resolved:

1. That City staff be directed to investigate and report back to Council on recommendations to establish a municipal regime for regulating payday loan establishments within the City, including zoning and/or licensing regulations, with such investigative work to include:
 - a. An analysis of the number and location of payday loan establishments within the City;
 - b. A cross-jurisdictional review of municipal regulation of payday loan businesses, including zoning and licensing regulations;
 - c. Recommendations regarding limits on the number of payday loan businesses within the various areas of the City;
 - d. Recommendations regarding the establishment of appropriate separation distances between payday loan establishments; and
 - e. Recommendations regarding other methods of promoting responsible borrowing and protecting the City's citizens from predatory lending.

**Minutes

SC094-2019 That the Brampton School Traffic Safety Council meeting do now adjourn to meeting again on November 7, 2019.

CW428-2019 Whereas:

The 2040 Vision envisions Brampton as a place where safe, sustainable and integrated alternative travel choices to the private vehicle are available and states that a rethink of street design is at the top of the list for improving Brampton; and

The transportation priorities outlined in the 2040 Vision are: first walking, then cycling, transit, goods movement, and then shared vehicles and private vehicles; and

The sections of Williams Parkway – an east-west minor arterial road with a right-of-way width of 36 meters – between McLaughlin Road and Humberwest Parkway were identified for widening to 6 lanes in the City’s 2004 and subsequent Transportation Master Plans, to provide additional vehicular capacity in response to projected population and employment growth; and

The proposed widening to six lanes was revisited in 2018 using updated demographic and traffic forecasts and applying a multimodal analysis approach, and recommended six lane widening with dedicated High-occupancy Vehicle (HOV)/transit lanes plus continuous dedicated active transportation facilities on both sides; and

A noise wall is currently being installed along Williams Parkway as is City practice prior to widening the road to 6 lanes; and

Current research and evidence from other jurisdictions around the world demonstrate that investing in road expansions for vehicles does not solve congestion, and instead exacerbates the condition by attracting more traffic; and

The Active Transportation Master Plan was endorsed by this Council and is supported by examples of best practises around the world, where active, non-vehicular travel modes are part of a comprehensive mobility network that facilitates the efficient and effective movement of people in cities; and

The largest source of greenhouse gas emissions from human activities is from transportation and this Council unanimously passed a motion related to declaring a climate emergency and to

Minutes City Council

achieving a climate change target of an 80 per cent Green House Gas reduction by 2050; and

Council has voted in favour of adopting the Region of Peel's "Vision Zero" framework; and

Residents across the city have been very vocal in regard to traffic calming needs;

Therefore, be it resolved that:

1. Staff review the recommendations to widen sections of Williams Parkway from 4 to 6 lanes, and report back to Council in Q2 2020;
2. Staff review include a council workshop to solicit comments on options and opportunities for managing traffic congestion due to growth and for increasing and maximizing people-moving capacity in the Williams Parkway corridor, through travel demand management opportunities, improvements to active transportation (walking, cycling) and transit infrastructure and services, and operational interventions and improvements, in particular at intersections. The review should consider:
 - Impacts on the use of Development Charge funding
 - Consideration of current strategic documents (Growth Plan, Official Plan, Transportation Master Plan, impact on existing Environmental Assessments...)
 - Impacts on surrounding local streets for traffic
 - Impact on the Regional road network and goods movement
 - Green House Gas considerations
 - Work that is done in partnership with the Region, utilities...
 - A review of the current 6 lane road widening projects that are underway and 'meantime' strategies (current EA's, land protection, utility relocation, design progression)
 - Strategy for a robust communication plan

CW429-2019

 2. That it is the opinion of the Cycling Advisory Committee that Committee of Council endorse the following motion:

Minutes City Council

Whereas the 2040 Vision envisions Brampton as a place where safe, sustainable and integrated alternative travel choices to the private vehicle are available and states that a rethink of street design is at the top of the list for improving Brampton; and,

The transportation priorities outlined in the 2040 Vision are: first walking, then cycling, transit, goods movement, and then shared vehicles and private vehicles; and,

The sections of Williams Parkway – an east-west minor arterial road with a right-of-way width of 36 meters – between McLaughlin Road and Humberwest Parkway were identified for widening to 6 lanes in the City's 2004 and subsequent Transportation Master Plans, to provide additional vehicular capacity in response to projected population and employment growth; and,

The proposed widening to six lanes was revisited in 2018 using updated demographic and traffic forecasts and applying a multimodal analysis approach, and recommended six lane widening with dedicated HOV/transit lanes plus continuous dedicated active transportation facilities on both sides; and,

A noise wall is currently being installed along Williams Parkway as is City practice prior to widening the road to 6 lanes; and,

Current research and evidence from other jurisdictions around the world demonstrates that investing in road expansions for vehicles does not solve congestion, and instead exacerbates the condition by attracting more traffic; and,

The Active Transportation Master Plan was endorsed by this Council and is supported by examples of best practises around the world, where active, non-vehicular travel modes are part of a comprehensive mobility network that facilitates the efficient and effective movement of people in cities; and,

The largest source of greenhouse gas emissions from human activities is from transportation and this Council unanimously passed a motion related to declaring a climate emergency and to achieving a climate change target of an 80 per cent Green House Gas reduction by 2050; and,

Minutes City Council

Council has voted in favour of adopting the Region of Peel's "Vision Zero" framework; and,

Residents across the city have been very vocal in regard to traffic calming needs;

Therefore, be it resolved that:

1. Staff review the recommendations to widen sections of Williams Parkway from 4 to 6 lanes, and report back to Council in Q2 2020; and,
2. Staff review include a council workshop to solicit comments on options and opportunities for managing traffic congestion due to growth and for increasing and maximizing people-moving capacity in the Williams Parkway corridor, through travel demand management opportunities, improvements to active transportation (walking, cycling) and transit infrastructure and services, and operational interventions and improvements, in particular at intersections. The review should consider:
 - Impacts on the use of DC funding
 - Consideration of current strategic documents (Growth plan, OP, TMP, impact on existing EA's...)
 - Impacts on surrounding local streets for traffic
 - Impact on the Regional road network and goods movement
 - GHG considerations
 - Work that is done in partnership with the Region, utilities...
 - A review of the current 6 lane road widening projects that are underway and 'meantime' strategies (current EA's, land protection, utility relocation, design progression)
 - Strategy for a robust communication plan
3. The results of the staff review of Williams Parkway road widening be used to inform planning for similar contemplated 6 lane road widenings in the City of Brampton.

- CYC021-2019
1. That the Verbal Update by Regional Councillor Santos, to the Cycling Advisory Committee Meeting of October 15, 2019, re: **Williams Parkway Expansion** be received; and,
 2. That it is the opinion of the Cycling Advisory Committee that Committee of Council endorse the following motion:

Whereas:

The 2040 Vision envisions Brampton as a place where safe, sustainable and integrated alternative travel choices to the private vehicle are available and states that a rethink of

Minutes City Council

street design is at the top of the list for improving Brampton; and,

The transportation priorities outlined in the 2040 Vision are: first walking, then cycling, transit, goods movement, and then shared vehicles and private vehicles; and,

The sections of Williams Parkway – an east-west minor arterial road with a right-of-way width of 36 meters – between McLaughlin Road and Humberwest Parkway were identified for widening to 6 lanes in the City’s 2004 and subsequent Transportation Master Plans, to provide additional vehicular capacity in response to projected population and employment growth; and,

The proposed widening to six lanes was revisited in 2018 using updated demographic and traffic forecasts and applying a multimodal analysis approach, and recommended six lane widening with dedicated HOV/transit lanes plus continuous dedicated active transportation facilities on both sides; and,

A noise wall is currently being installed along Williams Parkway as is City practice prior to widening the road to 6 lanes; and,

Current research and evidence from other jurisdictions around the world demonstrates that investing in road expansions for vehicles does not solve congestion, and instead exacerbates the condition by attracting more traffic; and,

The Active Transportation Master Plan was endorsed by this Council and is supported by examples of best practises around the world, where active, non-vehicular travel modes are part of a comprehensive mobility network that facilitates the efficient and effective movement of people in cities; and,

The largest source of greenhouse gas emissions from human activities is from transportation and this Council unanimously passed a motion related to declaring a climate emergency and to achieving a climate change target of an 80 per cent Green House Gas reduction by 2050; and,

Council has voted in favour of adopting the Region of Peel’s “Vision Zero” framework; and,

Minutes City Council

Residents across the city have been very vocal in regard to traffic calming needs;

Therefore, be it resolved that:

1. Staff review the recommendations to widen sections of Williams Parkway from 4 to 6 lanes, and report back to Council in Q2 2020; and,
2. Staff review include a council workshop to solicit comments on options and opportunities for managing traffic congestion due to growth and for increasing and maximizing people-moving capacity in the Williams Parkway corridor, through travel demand management opportunities, improvements to active transportation (walking, cycling) and transit infrastructure and services, and operational interventions and improvements, in particular at intersections. The review should consider:
 - Impacts on the use of DC funding
 - Consideration of current strategic documents (Growth plan, OP, TMP, impact on existing EA's...)
 - Impacts on surrounding local streets for traffic
 - Impact on the Regional road network and goods movement
 - GHG considerations
 - Work that is done in partnership with the Region, utilities...
 - A review of the current 6 lane road widening projects that are underway and 'meantime' strategies (current EA's, land protection, utility relocation, design progression)
 - Strategy for a robust communication plan
3. The results of the staff review of Williams Parkway road widening be used to inform planning for similar contemplated 6 lane road widenings in the City of Brampton.

CW486-2019

Whereas residents in the City of Brampton are growing more and more concerned about the number of speeding vehicles on their neighbourhood streets, compromising their sense of safety;

And Whereas Ontario's Ministry of Transportation has confirmed (as of Friday, November 29, 2019), they will be filing enabling regulations under the 'Safer School Zones Act' that will provide municipalities the ability to adopt new and enhanced tools to promote safety in school and community safety zones;

And Whereas Council needs to act now to curb the increasing number of motor vehicle infractions on our roads and reduce the potential for traffic accidents and fatalities in the City of Brampton;

And Whereas the Attorney General of Ontario is required to approve the Certificate of Offence forms required to introduce photo radar, provide the appropriate signs to municipalities, and requires a 90-day warning period to install photo radar cameras, detectors and equipment;

And Whereas the Ministry of Transportation will allow the decision to employ photo radar to be made by each municipality;

**Minutes
City Council**

And Whereas photo radar cameras will register drivers' speed and license plate, and trigger the issuance of a speeding ticket, by mail, under the Highway Traffic Act with an initial period where speeders get only a warning;

And Whereas implemented photo radar has had a significant effect on motor vehicle speeds and is an effective method to encourage drivers to slow down and be aware of their surroundings, vulnerable pedestrians and consider other safety issues;

Therefore, Be It Resolved;

- a) Mayor Brown and Members of Council agree to send a request to the Attorney General of Ontario, strongly suggesting to waive the 90-day posting period of warning signs prior to the induction of photo radar equipment and begin implementation within 45 days;
- b) Associated costs of implementation are to be included in the 2020 budget requests by the appropriate department(s);
- c) City staff report back with recommendations and an implementation plan by Q1 2020.

Whereas, many private sector businesses use gift cards as means to improve sales and customer retention; and

Whereas, gift cards offer an opportunity for friends and relatives to prepay for goods and services on behalf of others; and

Whereas, Brampton aspires to be a more customer-friendly organization that serves as many residents as possible in a seamless manner; and

Whereas many residents have expressed a desire to be able to purchase city services, like recreation classes, for friends and relatives in a way that is easily transferable and secure.

Therefore be it resolved that:

The Chief Administrative Officer and appropriate city staff be directed to prepare a report which outlines possible opportunities for the City to create a City of Brampton branded gift card option for residents to purchase. The report should offer various options which include, but not be exclusive to, developing the gift card program in-house, contracting an external developer, or utilizing a white label program that already exists.

Carried

Item 9.1 was brought forward and dealt with at this time.

The following motion, moved by City Councillor Singh and seconded by City Councillor Whillans, was introduced:

That the staff report 9.1 be referred to staff for further consideration; and

That the implementation of the Driveway Permit By-law 105-2019 and related amendments to the Business Licensing By-law 332-2013 be deferred until the end of February 2021, and the appropriate amending by-law be enacted

Council consideration of this matter included:

- varying opinions in support of and opposition to the proposed referral
- accountability for homeowners and contractors
- need to resume enforcement of outstanding complaints
- benefits of a further review of the driveway permit system and additional consultation with the industry

In response to questions from Council, staff provided information regarding requirements for driveway widening with and without a permit system, online permit process for registered contractors, outstanding driveway widening complaints, and provisions of the Zoning By-law as they relate to driveways.

Minutes City Council

During consideration of this matter, the following Points of Order were raised, for which the Mayor gave leave.

Regional Councillor Palleschi raised a Point of Order and indicated that Members should only be speaking to the referral.

The Mayor ruled that procedurally Members should be speaking to the referral.

Regional Councillor Medeiros raised a Point of Order and indicated his position that Members were speaking to the referral and that their comments were relevant thereto.

Councillor Palleschi raised another Point of Order and spoke of accusations that all other municipalities have a driveway permit system, which he believed is inaccurate, and suggested that Council vote on the referral, and if the vote fails then discussion could be opened up to other items.

Regional Councillor Vicente raised a Point of Order that his questions to staff regarding the City's readiness to implement the permit system and how the system is supposed to work were not answered.

At this time, the City Clerk reminded Members of procedural rules as they relate to Points of Order and rulings by the Chair. The City Clerk noted that the Mayor ruled that Members should be speaking to the referral, and that no challenges were made to the Mayor's ruling.

With advice from the City Clerk, the Mayor reiterated his ruling that Members should only be speaking to the referral.

Following a recess, Council continued its consideration of this matter.

City Councillor Whillans introduced amendments to the referral motion to replace "February 2021" with "November 2020" and to add the following new clause: "That a permitting/registration system will be put in place, with consultation with affected businesses."

The amendments were accepted by the mover.

Council consideration of the amendments included a concern that not all registered contractors received notification of the driveway permit requirements, and the need to ensure all registered contractors are consulted on the requirements.

In response to an inquiry from Council, the City Clerk outlined Council's decisions regarding suspension of enforcement of the outstanding

**Minutes
City Council**

complaints, and noted that the current suspension is set to end in Spring 2020 (March 21, 2020). The Commissioner of Corporate Services confirmed that enforcement would commence following the end of the current suspension period.
