- 16.4 Discussion Item at the Request of City Councillor Williams, re: Fireworks Safety

City Councillor Williams outlined numerous complaints she received about fireworks during the Canada Day weekend (from June 30 to July 5, 2021), which included fireworks being set off after hours and in an unsafe manner, and residual garbage.

At the request of Council, staff outlined the number and types of complaints and charges laid during this time period.

In response to questions from Council, staff provided information on the following:

- challenges in identifying and charging those responsible for illegal fireworks displays

- challenges with successfully getting charges through the court system
- potential methods for increased communications around fireworks restrictions and safety measures
- provincial and federal regulations relating to the storage of fireworks

Staff also provided an advisory that no vendors applied for training to sell fireworks in the City, and therefore no permits to sell them were issued, resulting in residents likely purchasing fireworks from other municipalities or sources that do not have the same restrictions as those in place in Brampton, i.e. short-range fireworks only, etc.

Council consideration included:

- information from Members about complaints they received
- potential ban on fireworks in the City, and acknowledgment of the City's previous efforts toward banning fireworks
- residual impact on parking issues
- current and existing communications and education campaigns issued by the City
- continuous disregard by some residents of the City's rules around fireworks safety
- impact of fireworks on the environment
- need for further conversations on this topic, which could include City-run displays to ensure safety of the public
- issues resulting from improper manufacturing of fireworks

A motion, moved by Regional Councillor Dhillon and seconded by City Councillor Williams, was introduced and considered as follows.

Regional Councillor Palleschi noted a correction to the minutes to reflect the recorded vote on Recommendation PDC107-2021.

Council discussion took place with respect to Recommendation PDC118-2021, specifically regarding construction of a noise wall on the west side of Torbram Road, and included concerns about postponements in construction of the wall, and the need to keep to the City's current commitment to have the wall constructed in 2022.

A motion, moved by Regional Councillor Fortini and seconded by Regional Councillor Medeiros, was introduced to amend Recommendation PDC118-2021 to add the following additional clause:

7. That staff be directed to proceed with the implementation of noise walls along the identified portion of Torbram Road, as previously approved by Council.

be changed to “appropriate screening”. Councillor Fortini, as mover of the motion did not accept the suggestion.

BE IT FURTHER RESOLVED, that the City of Brampton pledges to the following commitments:

1. Publicly endorse the following principles:
 - We recognise the global climate emergency.

C312-2021

Moved by City Councillor Whillans

Seconded by Mayor Patrick Brown

WHEREAS, we are seeing the impact of climate change daily on Canadian cities and towns;

WHEREAS, Canadian cities want to do their share of addressing the climate emergency

WHEREAS, the Intergovernmental Panel on Climate Change's (IPCC) most recent report indicates that global warming and the melting of the arctic ice caps are happening at a faster rate than previously anticipated; and

WHEREAS, the IPCC report also calls upon global nations to reduce greenhouse gas (GHG) emissions in order to limit global warming to 1.5 degrees Celsius, a goal set forth in the Paris Agreement; and

WHEREAS, science-based targets indicate that cities globally need to achieve carbon neutrality by 2050 and halve global emissions by 2030; and

WHEREAS, The Race to Zero is a global campaign - led by the UN High-Level Climate Champions for Climate Action, Nigel Topping and Gonzalo Muñoz - to rally leadership and support from businesses, cities, regions, and investors for a healthy, resilient, zero carbon recovery that prevents future threats, creates decent jobs, and unlocks inclusive, sustainable growth ahead of COP26 in November 2021.

WHEREAS, Cities Race to Zero is a campaign for cities by cities to inspire commitments and action from their peers around the world and channel the best available tools and expertise to help them stay on track with the 1.5°C goal of the Paris Agreement. The objective of Cities Race to Zero is to recruit 1,000 cities to the Race to Zero by COP26.

WHEREAS, cities are facing tremendous financial losses in the billions of dollars due to the increased intensity of storms, flooding, drought, wildfires and coastal flooding, linked to rising global temperatures.

WHEREAS, billions of dollars of commercial real estate and business property are at risk due to current and projected rising sea levels and the intensity of storms, droughts, floods and wildfires.

WHEREAS, the objective of Cities Race to Zero is to build momentum around the shift to a decarbonized economy ahead of COP26, where governments must strengthen their contributions to the Paris Agreement. Showing strong city leadership in reaching net zero emissions by 2050 will send governments a resounding signal that cities are united in meeting the goals of the Paris Agreement and creating a more inclusive and resilient economy.

WHEREAS, on June 6, 2019 Brampton Council officially declared a Climate Emergency for the purpose of aiming, framing, and deepening the City of Brampton's commitment to the protection of our ecosystems and community from climate change;

WHEREAS, the City of Brampton committed staff resources and capital funding towards the immediate development and implementation of the Community Energy and Emissions Reduction Plan's six priority projects, which include:

- Ensuring the City of Brampton policies and programs align with supporting the CEERP Objectives and Targets;
- Establishing a system to deliver standardized retrofits to Brampton homeowners;

- Developing Integrated Energy Master Plans for public facilities and private development; and
- Establishing a community organization to lead the development and implementation of select priority projects.

NOW THEREFORE BE IT RESOLVED, that The City of Brampton declares support for the Cities Race to Zero as part of the United Nation’s Race to Zero campaign by joining hundreds of others cities in fighting climate change through the Cities Race to Zero campaign;

Whereas the creation of temporary art activations was one of the strategies for downtown vibrancy outlined in the June 23, 2021, staff presentation to Committee of Council, titled: Downtown Revitalization – Integrated Downtown Plan (IDP) Meanwhile Strategies - Short-Term Initiatives (CW341-2021).

Whereas staff engaged Sustainable Thinking and Expression on Public Space Initiative (“STEPS”) to support temporary art activations on City-owned buildings and assets in Downtown Brampton in Q4 2021.

Whereas Council deems it to be desirable to encourage public art installation on City-owned properties, buildings and assets, including both temporary and permanent mural installations.

Whereas Section 8(15) of the City’s Sign By-law exempts murals from the requirement for a permit, but requires that approval be obtained from City Council through Committee.

Now therefore, Council resolves:

1. That, subject to Clause 2 below, approval of an exemption for the installation of murals, both temporary and permanent, on all buildings and/or assets owned or leased by the City of Brampton, including urban furniture and assets located on municipal road rights-of-way, be granted pursuant to subsection 8(15) of the Sign By-law 399-2002, as amended; and
2. That authority to approve of the content, design and placement of murals on City owned properties shall be delegated to the Director, Strategic

Communications, Culture and Events and that the Delegation of Authority By-law 216-2017, as amended, be amended accordingly.

CW426-2021

Whereas Brampton has experienced and will continue to experience a significant increase in the number of international students residing in the city due to increased enrolment from public and private post-secondary institutions;

And whereas with an increase in international students and lack of affordable student housing, the City of Brampton has experienced an increase in complaints related to illegal lodging homes and numerous complaints related to inappropriate behaviour in local neighbourhoods;

And whereas given the September 8th and 22nd, 2021 delegations from Punjabi Community Health Services (PCHS), Indus Community Services (Indus), the Davis Centre for Families (representing 18 community partners), and other local stakeholders who have expressed serious concern and experienced an increased demand for support services related to international students;

And whereas a report entitled “Invited and Forgotten: International Students in Crisis”, authored by PCHS and Indus details the significant issues facing Peel’s International Students and include:

- Labour exploitation and financial difficulty
- Access to legal support
- Human trafficking and sexual exploitation
- Lack of housing supports on campus
- Drug trafficking

- Mental health, addiction, and suicide

And whereas during the delegations mentioned above had asked the following as next steps:

- Do educational institutions acknowledge these issues?
- How can we all work together to solve this problem?
- Consider writing a letter to the IRCC and the Ministry of Colleges and Universities
- City of Brampton host a roundtable with community stakeholders and post secondary institutions to begin a collaborative discussion that is solutions oriented
- Indus and PCHS have offered to lead the roundtable discussion as authors of the research report titled “Invited and Forgotten: International Students in Crisis”

And whereas it has been acknowledged by the Mayor, Councillors, Community Organizations, Peel Regional Police, and post secondary institutions that collaboration is key in addressing the many issues related to the growing number of international students residing and studying in Brampton;

And whereas The City of Brampton is working on growing post secondary opportunities for residents in its current negotiations with an University (upcoming Medical School), University of Guelph Humber, and Brampton U proposal and continues to work with Sheridan, Algoma and University regarding cybersecurity;

And whereas private colleges (68 possibly in Peel), with Trios College expanding to 1,300 in Brampton, must also be part of the conversation and solution regarding International Students in Brampton;

And whereas existing public institutions providing programming in Brampton, who have requested and/or received funding from the City of Brampton: Sheridan (6,800 international students), Algoma University, and University partner (Medical School) should play a collaborative role as part of the solution;

And whereas The City of Brampton has re-instated the Town and Gowns Committee that has been currently limited to city representatives and staff, Sheridan College, Algoma University, and University partner (Medical School), and Peel Regional Police,

Therefore be it resolved that:

1. The Mayor, on behalf of the City of Brampton write a letter to existing post secondary partners, including those currently in negotiations, requesting a report to include the following:

- Support services provided to domestic students and international students especially with respect to the issues identified by the delegations on Sept 8th and 22nd;

5. Staff be requested to report on costs incurred by the City potentially related to the student housing crisis with respect to activities such as 311 calls, property standards enforcement, and other costs as may be identified as relating to the student housing crisis, for the timeframe of 2019 to present, such report to be presented to the Budget Committee for consideration; and

16.2 Report from the Investigator, Deloitte LLP, re. Complaint Received April 22, 2021.

Council agreed to vary the order of business and dealt with this matter after Delegation 7.1.

In response to questions from Council, staff provided information on the projected costs for the investigation.

A motion, moved by Regional Councillor Santos, was introduced to receive the subject report. A seconder for the motion was not identified at this time.

An amendment was proposed to the motion to provide that the Closed Session minutes for September 15, 2021 and summary chart provided by Deloitte at that time be publicly released.

During Council's consideration of the motion, a Point of Order was raised by City Councillor Williams, for which the Mayor gave leave.

Councillor Williams confirmed with the Mayor that Members would be given the opportunity to speak on this matter.

Councillor Santos, as mover of the motion, outlined concerns about the release of the Closed Session minutes, but agreed to amend her motion to provide for the release of the summary chart.

The City Solicitor outlined concerns about release of the Closed Session minutes and noted he does not have the same concerns about the release of the summary chart.

Peter Fay, City Clerk, indicated that he is waiting on a response from Deloitte regarding release of the summary chart.

Members of Council outlined concerns about Deloitte's decision to not participate in this meeting and respond to questions of Council, and expressed varying opinions about the report contents, timelines for publication of the report, lack of transparency in the investigation process, need for broader publication of the report on the City's website, release of the Closed Session minutes and summary chart, and the need for further consideration of some of the matters outlined in the report.

A further amendment was proposed to the motion to provide that the report be more broadly published on the City's website under all appropriate sections. Staff confirmed that the report has now been published under the Council-authorized investigation section, and that a media release would be published after the meeting has concluded.

A motion moved by City Councillor Williams and subsequently seconded by Regional Councillor Medeiros, was introduced to refer the report for consideration at the Committee of Council Meeting of October 13, 2021.

17. Public Question Period

Members of the public were given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made at this meeting. Peter Fay, City Clerk, outlined a question from the public as follows:

Question from Chris Drew:

During the discussion on item 7.1 Delegations from William Osler Health System, the Mayor mentioned an Infrastructure Ontario website. The website is here: <https://www.infrastructureontario.ca/June-2021-Market-Update/> and it provides a chart in PDF with procurements listed. On page 2 of the PDF William Osler Health System – New Peel Memorial Inpatient Hospital is listed.

Perhaps staff could consider adding the Infrastructure Ontario link to the City's Fair Deal for Healthcare website or the Government Relations website

so that it's easy for residents to find, or easy to find during future Council meetings?

Mayor Brown made note of Mr. Drew's suggestion and asked staff to update the City's website accordingly.

CW466-2021

Whereas:

The Brampton Transit Route 501 Züm Queen, provides direct service to the Vaughan Metropolitan Centre in York Region and York University in north Toronto;

Since the beginning of the pandemic, the Route 501A/C service that provides direct Brampton Transit service between Brampton and York University has been suspended due to low demand and limited resources;

For over 10 years, in order to support the integration of transit services, all transit agencies in the 905, have allowed customers to transfer to all other 905 transit systems free of charge with a valid transfer;

Current legislation requires transit customers connecting between 905 Transit Agencies and the TTC, to pay another fare when transferring between the systems;

Currently, transit customers travelling between Brampton and Toronto, including through the TTC subway at the Vaughan Metropolitan Centre, must pay two fares to complete their trip;

Over the past decade, the provincial government has invested billions of dollars in improving transit infrastructure in Toronto and York Region including the Bus Rapid Transit Rapidways along Highway 7 and the Toronto-York Spadina Subway Extension, which support connections from Brampton to the Vaughan Metropolitan Centre and York University;

The Route 501A/C service duplicates portions of Rapidway and Subway infrastructure noted above;

The provincial government, through the deputy Ministry of Transportation, has been leading a group comprised of all transit agencies in the GTHA, investigating ways to better integrate transit services and transit fares in the region;

Therefore, be it resolved that:

The City of Brampton request that the Provincial Government, through the Ministry of Transportation, leverage the investment in transit infrastructure noted above and financially support a pilot program that would allow for free transfers between 905 Transit Agencies and the TTC at the Vaughan Metropolitan Centre; and

That the Mayor be requested to provide correspondence to the local MPPs.

16.2 Discussion Item at the Request of Regional Councillor Fortini re. Hallway Medicine

A motion, moved by Regional Councillor Fortini and seconded by Regional Councillor Medeiros, was introduced, with the operative clause as follows:

Therefore, be it resolved:

That staff be directed to bring forward a preliminary report to Council by November 3rd, 2021, on the feasibility of implementing a special levy to help fund the construction of a new full-service Hospital in the City of Brampton, including identifying cost-sharing opportunities with the Province and other stakeholders.

Councillor Fortini outlined the purpose of the motion.

An amendment to the motion was proposed by Mayor Brown to not specify a meeting date, given that the date for the next delegation from William Osler Health System (WOHS) has not been confirmed.

Councillor Fortini did not accept the amendment, as it was his understanding that representatives from WOHS would be delegating on November 3, 2021.

In response to questions from Council, Peter Fay, City Clerk, confirmed that, notwithstanding Council's resolution from September 29, 2021 requesting that staff report on ways the City can support WOHS in future endeavours in Brampton, the proposed motion is not redundant.

Staff responded to questions from Council about efforts to date by the City and William Osler Health System toward determining an amount for the City's contribution.

Councillor Fortini, as mover of the motion, agreed to a request to have all Members of Council second the motion.

The motion was considered as follows.

C353-2021

Moved by Regional Councillor Fortini

And further, that the estimated \$20 million surplus available from the 2012 special health care levy be applied towards the levy to help offset the cost burden to taxpayers;

And further, that staff be directed to bring forward as part of 2022 budget discussions other options for funding the City of Brampton's required 10% contribution including the sale of surplus land as ratified by Council, re-deployment of unused Capital budgets and Reserves, and spreading the new levy over a longer time period;

And further, that Brampton City Council endorse an option in principle to seek a 50% contribution from the Region of Peel in the amount of \$62.5M to

help fund the City of Brampton's 10% share of the construction costs for the proposed new full-service Hospital in Brampton;

And further, that a copy of this motion shall be forwarded to the Region of Peel to be added to the November 11, 2021 Regional Council agenda for discussion; and

That the City of Brampton engage residents in a full public engagement on the matter.

That the City of Brampton commits to a 10% local share in collaboration with the Region of Peel.

The revised motion, as amended, was considered as follows.

C365-2021

Moved by Regional Councillor Fortini

Seconded by All Members of Council

Whereas, Brampton Civic Hospital, which opened in 2007, is home to one of Canada's busiest emergency rooms and serves as the only main full-service facility for the City of Brampton's approximately 650,000 residents;

And Whereas, Brampton Civic Hospital has long been plagued with issues of overcrowding and excessive wait times;

And Whereas, in 2020, Brampton City Council voted to declare a health-care emergency in the community;

And Whereas, there is now a very urgent need for an additional full-service Hospital in Brampton to help serve the City's aging community needs for continuing complex care and rehabilitation in emergency and intensive care units;

And Whereas, the City of Brampton has long been a major stakeholder in advocating for a new full-service Hospital in Brampton on behalf of Brampton's residents;

And Whereas, the Province of Ontario has now recently made a budget commitment to help fund a new full-service Hospital in Brampton along with other stakeholders;

And Whereas, the City of Brampton will be required to pledge and commit to contributing 10% of the total construction costs of the proposed new full-service Hospital in Brampton;

And Whereas, in 2012, the City of Brampton implemented a special health care levy over a six year period to help fund 10% of the construction costs of the current Brampton Civic Hospital and redevelopment of Peel Memorial Hospital as part of the Provincial cost-sharing model;

And Whereas, there is an estimated \$20 million surplus available from the 2012 special health care levy based on lower than anticipated construction costs for the Brampton Civic Hospital and the Peel Memorial Hospital redevelopment project;

And Whereas, a special healthcare levy is the fastest and fairest way to leverage Provincial funding for the construction of the new Brampton Hospital that will serve the health care needs of all Brampton residents, their families and loved ones;

Therefore, be it resolved as follows:

That the City of Brampton commits to a 10% local share in collaboration with the Region of Peel;

And further, that the estimated \$20 million surplus available from the 2012 special health care levy be applied towards the levy to help offset the cost burden to taxpayers;

And further, that staff be directed to bring forward as part of 2022 budget discussions other options for funding the City of Brampton's required 10% contribution including the sale of surplus land as ratified by Council, re-deployment of unused Capital budgets and Reserves, and spreading the new levy over a longer time period;

And further, that Brampton City Council endorse an option in principle to seek a 50% contribution from the Region of Peel in the amount of \$62.5M to help fund the City of Brampton's 10% share of the construction costs for the proposed new full-service Hospital in Brampton;

And further, that a copy of this motion shall be forwarded to the Region of Peel to be added to the November 11, 2021 Regional Council agenda for discussion; and

That the City of Brampton engage residents in a full public engagement on the matter.

Under Item 7.1, Council discussion took place with respect to Recommendation PDC175-2021. For the purpose of the minutes, this discussion is outlined below.

Mr. Fay confirmed that the recommendation that carried at Committee (PDC175-2021) was just to receive the staff report and other related items. He also noted that the motion considered by Committee to implement the Supportive Housing by-laws lost on a tie vote.

A procedural motion, moved by City Councillor Williams and seconded by City Councillor Bowman, was introduced for the purpose of reintroduction of

Recommendation PDC175-2021 to provide for adoption of the recommendations in the staff report considered by Committee.

In response to questions from Council, staff outlined the proposed Type 1 supportive housing policies and related by-laws that were subject to the staff report, provided information on the proposed policies and by-laws, and outlined differences in the regulations and requirements for Type 1 versus Type 2 supportive housing residences.

Council expressed the need to ensure appropriate separation distances for Type 2 supportive housing residences. Staff confirmed that an amendment to the staff recommendations would be required for this purpose.

With the assistance of staff, an amendment was proposed and displayed to add the following to Clause 4 “amended to provide separation distances with regard to Type 2 group homes such as to retain as currently exists (610 m), and subsequently be brought forward for Council consideration,” after “Registration By-Law attached hereto as Appendix 4 be”.

A recorded vote was taken on Recommendation PDC175-2021, as amended, with the results as follows:

That the Presentation from Alex Milojevic, General Manager, Brampton Transit, to the Brampton Transit Advisory Committee meeting of October 25, 2021, re: Transit Advisory Committee Presentation , be received.

BTAC013-2021

Whereas Peel District School Board (PDSB) has a Regional Learning Choice program with specialty schools, that does not offer transportation to students;

Whereas students attending those schools often have to be driven to them, or parents need to spend thousands of dollars a year for private busing;

Whereas often summer school is needed most by marginalized students, and PDSB does not provide transportation to them;

Whereas switching schools often adversely impacts a student's education, yet no transportation is provided for them;

Whereas the lack of transportation support can constitute a significant equity barrier for marginalized students;

Whereas transit passes would empower students with greater freedom and access to things like sports programs, libraries, and community centres, which particularly benefits all students, particularly marginalized students;

Whereas 70 per cent of households in Brampton contain children;

Whereas if students get used to taking transit to school, they are more likely to persist taking transit after graduation;

Therefore it is the opinion of the Transit Advisory Committee that:

1. The City of Brampton investigate the feasibility of a collaboration, including full cost implications, with Peel District School Board, other relevant school boards, and the Region of Peel to provide transit passes to students in relevant categories, especially high school students; and
2. If feasible, a pilot begin for the 2022-2023 year, with pilot schools being Turner Fenton Secondary School and Central Peel Secondary School.

BTAC014-2021

That the Brampton Transit Advisory Committee do now adjourn to meet again on Monday, February 7, 2022 at 7:00 p.m. or at the call of the Chair.

CW511-2021

Whereas as during the Covid-19 pandemic, new innovative practices were established for providing healthcare for residents experiencing homelessness, delivered by Homeless Health Peel with temporary/short term funding;

Whereas Brampton and Peel Region at large are in need for medical stabilization and nursing care for seniors and medically fragile individuals that are experiencing homelessness;

Whereas the lack of access to a primary health provider for individuals experiencing homelessness leads to avoidable hospitalization, costing \$5,067-\$5,604 a day which is significantly higher compared to a cost of occupancy and the medical stabilization for low income seniors and medically fragile individuals at \$250 per day under the Homeless Health Peel model;

Whereas the positive health outcomes for individuals that sought health care and nursing care at the Nelson Street Drop In, Covid Isolation Centres and HHP shelter outreach resulted in but were not limited to:

- fewer loitering complaints from businesses;
- lower frequency of police interactions;
- better access to healthcare and longer term health outcomes;
- lower re-admissions to hospital;
- and cost effective continuity of care;

Therefore be it resolved that the City of Brampton advocate to the Region of Peel and the Provincial Government, that the innovative best practices demonstrated by Homeless Health Peel be maintained as an ongoing solution to help address chronic homelessness faced particularly by seniors and medically fragile individuals; and

That the City of Brampton ask the Region of Peel and the Ministry of Health to financially sustain these innovative best practices and make Homeless Health Peel a recognized Health Service Provider with the Ministry of Health.

That the video delegation from Lisa Stokes, Member, BikeBrampton, to the Committee of Council Meeting of November 17, 2021, re: **Item 9.3.3 - Bike Lanes on Charolais Boulevard**, be received.

CW516-2021

That the delegation from MP Sonia Sidhu, Brampton South, to the Committee of Council Meeting of November 17, 2021, re: **Update on National Child Care Strategy and Implications for Brampton**, be received; and

Whereas, the City of Brampton is one of Canada's youngest and fastest-growing cities;

Whereas, without access to affordable, inclusive, and high-quality child care, too many parents, especially women, face barriers to full participation in the workforce;

Whereas, single parents deserve equal access to employment opportunities without the financial pressures associated with high costs of childcare; single parents are most adversely impacted by the high cost of childcare. According to the Canadian Centre for Policy Alternatives (CCPA) report in March 2020, Brampton is amongst the highest childcare costs in Ontario. The average rates for infants in childcare is \$1,259, toddlers, \$1,025 and preschool \$955.

Compared to Quebec, which is \$179 per month regardless of which childcare subgrouping. Additionally, for single parents, approximately 36% of household income allocation is for childcare compared to 4% in Quebec. For families, especially single parents this is a socioeconomic barrier which adds additional financial stress to the household;

Whereas, studies show that for every dollar invested in early childhood education, the broader economy would receive between \$1.50 and \$2.80 positive financial impacts that benefits all Canadians;

Whereas, the Federal government committed to investing in a gender equity and inclusive recovery and working towards tackling gender inequities and systemic discrimination in the labour market through the establishment of a Canada-wide early learning and child care system and distinctions-based, culturally appropriate child care for Indigenous children;

Whereas, the Federal government reached agreements with the provinces of British Columbia, Nova Scotia, Yukon, Prince Edward Island, Newfoundland and Labrador, Manitoba, Saskatchewan, Alberta and Quebec that will support an average of \$10-a-day child care;

Whereas, the 2021 Federal Budget 2021, outlined new investments of up to \$30 billion over five (5) years to deliver a high-quality, affordable, flexible, and inclusive early learning and child care system across the country; and

Whereas, the 2021 Ontario Budget recognized the challenges associated with high costs of childcare faced by Ontario families, while indicating that the Province looks forward to working with the Federal government to improve child care options for parents and to deliver results for the province's families and to have a positive financial impact on the economy post COVID-19 pandemic;

Therefore, be it resolved:

That the City of Brampton calls on the Provincial and the Federal governments to engage in a meaningful discussion and to reach an agreement that supports an average of \$10-a-day childcare. Such an agreement would provide equitable and quality childcare to all the residents of Brampton regardless of their socioeconomic status;

That Members of City Council demonstrate our support for a Federal-Province agreement to implement a \$10 per day childcare system for the residents of the City of Brampton, and the Province of Ontario;

That a letter is sent from the Members of Brampton City Council in support of a Federal-Provincial agreement to the Federal Minister of Families, Children and

Social Development, and the Ontario Minister of Education, with a request that a finalized agreement be reached at or before December 31, 2021, with an implementation date of January 1, 2022; and

That the letter be copied to local MPs, MPPs, and the Region of Peel.

C391-2021

Moved by Regional Councillor Palleschi

Seconded by City Councillor Whillans

TFP, to facilitate the development of the lands at 10124 and 10244 Mississauga Road located in Block Area 51-3 of the Mount Pleasant Secondary Plan area (Mt. Pleasant Heights), identified on the attached 'Schedule A – Location and Land Use Map' to Correspondence 14.1 for the purpose of accommodating a new Peel Regional Police Division and delivering on significant housing supply, in the context of a complete community; and

WHEREAS the approved Mount Pleasant Secondary Plan provides a planning policy framework for development of these lands; and

WHEREAS the lands are in the vicinity of the Mount Pleasant Mobility Hub and the associated Major Transit Station Area and the Official Plan designates the lands as Special Policy Areas 17 and 18, directing that they be developed in accordance with the principles of a Transit Oriented Development, including potential connections to the Mobility Hub; and

WHEREAS the Peel Regional Police Service and the Region of Peel have been conducting a search for an appropriate location for a Police Division to serve the current and future needs of north and west Brampton; and

WHEREAS the Peel Regional Police Service and the Region of Peel have concluded that Mt. Pleasant Heights is an appropriate location for such a new Police Division to serve their needs at an important Gateway location central to the Mount Pleasant and Heritage Heights communities; and

WHEREAS the Police Division is proposed to be an approximate 50,000 square foot facility with over 350 local jobs, contributing to a mixed-use, neighbourhood-focused and safe community; and

WHEREAS the landowners have been in discussions with the Peel Regional Police Service and the Region of Peel to accommodate such a Police Division within their lands and to assist them in delivering “doors open” within 48 months; and

WHEREAS the Federal Government in CMHC’s 2021-2051 Corporate Plan has declared a goal of accelerating housing affordability so everyone in Canada can participate fully in their communities; and that a healthy housing system with affordable ownership and rental housing options is a cornerstone of a strong and sustainable economy that supports social equity and inclusion across communities; and

WHEREAS Brampton’s projected growth to approximately 1 million residents by 2051 will lead to increasing pressures for housing across income deciles, including for middle income households (who earn approximately \$80,000 -

\$110,394 in 2020) who are met with limited affordable housing options and limited rental supply; and

WHEREAS the City of Brampton is facing a shortage of housing supply targeted to its housing needs, and a lack of suitable and affordable high density housing supply has contributed to the proliferation of unlicensed and unsafe second units within Brampton’s low density, ground-oriented housing stock; and

WHEREAS the Term of Council Priority “A City of Opportunities” prioritizes the creation of complete communities, and increasing the supply of purpose built rental units; and

WHEREAS the City of Brampton’s Housing Action Plan identifies the lack of rental housing and the issue of housing affordability in the City; and

WHEREAS the proposal to accommodate a higher density-built form development will serve as an urban gateway into the Mt. Pleasant and Heritage Heights communities, complemented by a comprehensive open space and trails system; and

WHEREAS the development proposal will also make efficient use of the existing transportation and transit infrastructure, and significant investments by Metrolinx to improve GO service, as well as the City’s ZUM and local bus transit routes along the Bovaird Drive and Mississauga Road corridors, which will encourage a reduction on car dependency; and

THEREFORE BE IT RESOLVED THAT

1. Council supports the request for an MZO which includes the next Peel regional police division in the city of Brampton and asks that the Minister of Municipal Affairs and Housing consider this request.
2. The Commissioner of Planning, Building and Economic Development be directed to prepare a request, including the draft zoning by-law attached as Schedule “B” to Correspondence 14.1, to the Minister of Municipal Affairs and Housing to enact a Minister’s Zoning Order for the subject lands.

C399-2021

Moved by Mayor Brown

Seconded by Regional Councillor Fortini

Whereas Council, at its October 20, 2021 meeting, passed Resolution C349-2021 to receive correspondence from Mustafa Ghassan, Delta Urban Inc., dated October 5, 2021, re. Minister's Zoning Order Resolution Request – Lark Investments; and

Whereas further passed Resolution C350-2021 to support the Minister's Zoning Order (MZO) request and request the Minister to enact a MZO for the subject lands; and

Whereas Council now deems it appropriate to reconsider Resolution C350-2021 to permit further consideration;

Therefore Be It Resolved That Council Resolution C350-2021, as follows, be re-opened and reconsidered:

C350-2021

“WHEREAS City Council has received a request to support a Minister's Zoning Order, referred to as MZO, through a letter dated October 5, 2021 from Mustafa Ghassan of Delta Urban Inc., to facilitate the development of lands known municipally as 10 and 26 Victoria Crescent; 376, 387, and 391 Orenda Road; and 24 Bramalea Road, as well as all of the lands located within the area generally bounded as noted below, and as identified on the attached 'Schedule A – Location and Land Use Map':

- to the north – the southern boundary of Victoria Park, the open space corridor running parallel to the southern lot lines of the residential dwellings fronting onto Avondale Boulevard located west of Bramalea Road and the southern limits of Dearbourne Boulevard;
- to the south – the Canadian Nation Railway;
- to the east – the CNR Rail Spur Line and proposed lineal open space corridor running parallel to the east lot lines of 109 and 110 East Drive, as well as the east lot line of 2021 Steeles Avenue East; and
- to the west - the Spring Creek;

WHEREAS Bill 197 amended Section 47 of the Planning Act to grant the Minister of Municipal Affairs and Housing more order-making powers under Minister’s Zoning Orders (MZOs) to deliver critical priority projects, such as those that alleviate housing supply and address housing affordability; and

WHEREAS the Government of Ontario introduced Bill 197, the COVID-19 Economic Recovery Act, 2020, to streamline regulation in a number of different key areas and support post-pandemic recovery; and

WHEREAS the federal government in CMHC’s 2021-2051 Corporate Plan has declared a goal of accelerating housing affordability so everyone in Canada can participate fully in their communities; and that a healthy housing system with affordable ownership and rental housing options is a cornerstone of a strong and sustainable economy that supports social equity and inclusion across communities; and

WHEREAS Brampton’s projected growth to approximately 1 million residents by 2051 will lead to increasing pressures for housing across income deciles, including for middle income households (who earn approximately \$80,000 - \$110,394 in 2020) who are met with limited affordable housing options and limited rental supply; and

WHEREAS the City of Brampton is facing a shortage of housing supply targeted to its housing needs, and a lack of suitable and affordable high density housing supply has contributed to the proliferation of unlicensed and unsafe second units within Brampton’s low density, ground-oriented housing stock; and

WHEREAS census data indicates that Brampton has one of the highest household sizes (PPUs) in the country and the City’s Housing Needs Assessment has highlighted a shortage of affordable housing for larger households; and

WHEREAS the Term of Council Priority “A City of Opportunities” prioritizes the creation of complete communities, and increasing the supply of purpose built rental units; and

WHEREAS the City of Brampton’s Housing Action Plan identifies the lack of rental housing and the issue of housing affordability in the City; and

WHEREAS the subject lands are generally located in a Major Transit Station Area, Provincially Significant Employment Zone, the Region of Peel’s preliminary Bramalea GO Major Transit Station Area (“MTSA”) boundary, the Bramalea Mobility Hub Secondary Plan area, and designated as an Office Node in the City’s Official Plan; and

WHEREAS the development proposal will facilitate efficient intensified building forms that are advantageous adjacent to the Bramalea GO Station Mobility Hub and 2-way, all-day, 15-minute GO Train Service; and

WHEREAS the development proposal will make efficient use of the existing transportation and transit infrastructure, and significant investments by Metrolinx to improve GO service, as well as existing Bus Rapid Transit along the Steeles Avenue East corridor, which will encourage a reduction on car dependency; and

WHEREAS the proposal to accommodate a higher density-built form development will serve as an urban gateway into the City of Brampton, complemented by a comprehensive open space and trails system; and

WHEREAS the subject lands represent an opportunity to develop a mixed-use community, which will have immediate access to existing and planned community services and facilities as well as superior transportation and transit infrastructure.

NOW THEREFORE BE IT RESOLVED

1. THAT Council supports the request for an MZO and asks that the Minister of Municipal Affairs and Housing consider this request.
2. THAT the Commissioner of Planning, Building and Economic Development be directed to prepare a request to the Minister of Municipal Affairs and Housing to enact a Minister's Zoning Order for the subject lands.
3. THAT the owners satisfy all City requirements regarding the submission of supporting studies, and other matters, in association with the applicable sections of the Planning Act relating to Plans of Subdivision and Site Plan Approval processes, as may be applicable."

Whereas, the City of Brampton opted in to allow retail cannabis shops in the city in January of 2019;

Whereas, the Alcohol and Gaming Commission of Ontario (AGCO) oversees the applications and approvals for all liquor stores and cannabis stores;

Whereas, there are currently 32 licenced cannabis stores in Brampton, and another 15 applications under review;

Whereas, many of these licenced stores are located within walking distance of schools, daycares, and parks;

Whereas, there are only nine Liquor Control Board of Ontario (LCBO) stores in Brampton;

Whereas, the AGCO permits municipalities to submit feedback on potential Liquor Sales Licence Applications, but does not allow the same for Retail Cannabis Store Authorization Applications;

Whereas, the lack of municipal control over the approval of these applications, has resulted in overcrowding of these shops in some parts of the City;

Whereas, Bill 29 – The Cannabis Licence Amendment Act, 2021, which requests that municipalities be given a say in the licencing and approval process of a Retail Cannabis Store, recently passed its first reading at the provincial level;

Therefore be it Resolved that, the City of Brampton endorse and support Bill 29 – the Cannabis Licence Amendment Act; to enable municipalities to make decisions on retail locations within a municipality;

And further that, the Mayor send a letter of support on behalf of all Members of Council, to the Office of the Premier of Ontario, the Attorney General of Ontario, the Board of the Alcohol and Gaming Commission, and all local Members of Provincial Parliament, to the Association of Municipalities of Ontario, and to all municipalities who have opted to licence cannabis retail locations within their municipality.

1. That the report from Merissa Lompart, Assistant Heritage Planner, dated November 4, 2021, to the Brampton Heritage Board Meeting of November 16, 2021, re, Heritage Impact Assessment, 10244 Mississauga Road, Part of Lot 12, Concession 5 West of Center Road, Chinguacousy Township, Now City of Brampton, Regional Municipality of Peel be received; and

2. That the following recommendations as per the Heritage Impact Assessment by Parslow Heritage Consultancy Inc. be followed:

a. Given the historical/associative and contextual value of the residence at 10244 Mississauga Road, every effort should be made to conserve the house. The preferred mitigation option is the relocation of the structure to a prominent location within the proposed development (Section 8.1.3).

The relocation should retain the heritage attributes of the structure (Section 6.3) while providing for the adaptive reuse of the structure in a way that will provide for its inclusion within the community. The exterior of the structure should be restored to its as built configuration, including front veranda, based on available evidence. The interior of the home has been extensively damaged and has been subject to alteration from its as built form. The interior of the home should be subject to adaptive reuse with internal finishes being complementary to the antiquity of the structure.

b. It is recommended that any intervention aim to:

- i. Promote community engagement and enjoyment of the structure
- ii. Where possible maintain the visual connection with Mississauga Road
- iii. Retain the exterior configuration of the original portion of the structure including front veranda
- iv. Ensure alterations and augmentations are sympathetic to and distinguishable from the original fabric of the structure
- v. Reflect the as built setback of the structure
- vi. Interior alterations should be complementary to the antiquity of the structure, but restoration to as built interior configuration and finishes are not recommended

c. It is also recommended that:

- i. Designation under Part IV of the Ontario Heritage Act be considered. Based on Ontario Regulation 9/06, the Subject Property meets the criteria for heritage designation. The residence has historical/associative and contextual value, serving as a touchstone to the historical settlement and agricultural development of Chinguacousy Township
 - ii. A conservation and adaptive reuse plan be developed
3. That when further discussion on relocation occurs between the City of Brampton and the Developer, relocation options facing Mississauga Road be thoroughly explored and prioritized over options facing other arterial roads.

HB060-2021

1. That the **Resignation of Vipul Shah, Member**, to the Brampton Heritage Board Meeting of November 16, be accepted; and

2. That Mr. Shah be thanked for his years of volunteering and contributions to the Board.

2. That recommendation HB058-2021 be **deferred** to the Planning and Development Committee meeting on January 17, 2022 for further consideration.

HB058-2021

1. That the report from Merissa Lompart, Assistant Heritage Planner, dated November 4, 2021, to the Brampton Heritage Board Meeting of November 16, 2021, re: Heritage Impact Assessment, 8940 Creditview Road, Part of Lot 5, Concession 4 West of Center Road, Chinguacousy Township, Now City of Brampton, Regional Municipality of Peel dated November 2, 2021 be received; and

2. That the following recommendations as per the Heritage Impact Assessment by Parslow Heritage Consultancy Inc. be followed:

a. While in situ retention is always preferable it is not always the most viable or practical option to ensure the retention of heritage resources. To facilitate the retention and preservation of the Edwin Trimble House while allowing for the continued development of the area it is recommended that Edwin Trimble House be relocated to proposed lot 59 or 60 of the proposed development plan (Appendix B). Relocation of the house should include:

i. Continued visibility from Creditview Road and George Brown Drive; development should not be permitted that would obstruct the view of Edwin Trimble House. 5

ii. Any alterations to the Edwin Trimble House should be limited to the rear of the structure.

iii. Setbacks should be maintained that preserve the aesthetic of the residence.

iv. New construction adjacent to the Edwin Trimble House should not exceed the current elevation of the extant structure.

v. The establishment of a heritage easement should be discussed with the City of Brampton to ensure the ongoing retention of Edwin Trimble House.

vi. Designation under Part IV of the Ontario Heritage Act should be considered.

vii. Edwin Trimble house shall be subject to structural assessment by a qualified structural engineer familiar with heritage structures

viii. Prior to undertaking any action, a conservation and adaptive reuse plan should be developed. b. In addition to the retention of Edwin Trimble House, development of the Subject Property should attempt to retain the mature pine trees that delineate the northeast limit of the property. These trees contribute to the Creditview Road Corridor CHL. If possible, Edwin Trimble House and the pine trees should be maintained together on a single lot.”

PDC200-2021

That the Planning and Development Committee do now adjourn to meet again on Monday, January 17, 2022, at 7:00 p.m., or at the call of the Chair.

WHEREAS City Council has received a request to support a Minister's Zoning Order, referred to as MZO, through a letter dated October 5, 2021 from Mustafa Ghassan of Delta Urban Inc., to facilitate the development of lands known municipally as 10 and 26 Victoria Crescent; 376, 387, and 391 Orenda Road; and 24 Bramalea Road, as well as all of the lands located within the area generally bounded as noted below, and as identified on the attached 'Schedule A – Location and Land Use Map':

- to the north – the southern boundary of Victoria Park, the open space corridor running parallel to the southern lot lines of the residential dwellings fronting onto Avondale Boulevard located west of Bramalea Road and the southern limits of Dearbourne Boulevard;
- to the south – the Canadian Nation Railway;
- to the east – the CNR Rail Spur Line and proposed lineal open space corridor running parallel to the east lot lines of 109 and 110 East Drive, as well as the east lot line of 2021 Steeles Avenue East; and

- to the west – the Spring Creek;

WHEREAS Bill 197 amended Section 47 of the Planning Act to grant the Minister of Municipal Affairs and Housing more order-making powers under Minister’s Zoning Orders (MZOs) to deliver critical priority projects, such as those that alleviate housing supply and address housing affordability; and

WHEREAS the Government of Ontario introduced Bill 197, the COVID-19 Economic Recovery Act, 2020, to streamline regulation in a number of different key areas and support post-pandemic recovery; and

WHEREAS the federal government in CMHC’s 2021-2051 Corporate Plan has declared a goal of accelerating housing affordability so everyone in Canada can participate fully in their communities; and that a healthy housing system with affordable ownership and rental housing options is a cornerstone of a strong and sustainable economy that supports social equity and inclusion across communities; and

WHEREAS Brampton’s projected growth to approximately 1 million residents by 2051 will lead to increasing pressures for housing across income deciles, including for middle income households (who earn approximately \$80,000 - \$110,394 in 2020) who are met with limited affordable housing options and limited rental supply; and

WHEREAS the City of Brampton is facing a shortage of housing supply targeted to its housing needs, and a lack of suitable and affordable high density housing supply has contributed to the proliferation of unlicensed and unsafe second units within Brampton’s low density, ground-oriented housing stock; and

WHEREAS census data indicates that Brampton has one of the highest household sizes (PPUs) in the country and the City’s Housing Needs Assessment has highlighted a shortage of affordable housing for larger households; and

WHEREAS the Term of Council Priority “A City of Opportunities” prioritizes the creation of complete communities, and increasing the supply of purpose built rental units; and

WHEREAS the City of Brampton’s Housing Action Plan identifies the lack of rental housing and the issue of housing affordability in the City; and

WHEREAS the subject lands are generally located in a Major Transit Station Area, Provincially Significant Employment Zone, the Region of Peel’s preliminary Bramalea GO Major Transit Station Area (“MTSA”) boundary, the Bramalea

Mobility Hub Secondary Plan area, and designated as an Office Node in the City's Official Plan; and

WHEREAS the development proposal will facilitate efficient intensified building forms that are advantageous adjacent to the Bramalea GO Station Mobility Hub and 2-way, all-day, 15-minute GO Train Service; and

WHEREAS the development proposal will make efficient use of the existing transportation and transit infrastructure, and significant investments by Metrolinx to improve GO service, as well as existing Bus Rapid Transit along the Steeles Avenue East corridor, which will encourage a reduction on car dependency; and

WHEREAS the proposal to accommodate a higher density-built form development will serve as an urban gateway into the City of Brampton, complemented by a comprehensive open space and trails system;

WHEREAS the subject lands represent an opportunity to develop a mixed-use community, which will have immediate access to existing and planned community services and facilities as well as superior transportation and transit infrastructure;

WHEREAS correspondence received on behalf of both Canadian Tire Corporation and Choice Properties, addressing existing employment uses and proposed expansion in the immediate area, have been received; and

WHEREAS it is appropriate that the introduction of residential uses as proposed be compatible with existing industry

NOW THEREFORE BE IT RESOLVED

1. **THAT** Council supports the request for an MZO and asks that the Minister of Municipal Affairs and Housing consider this request.
2. **THAT** the Commissioner of Planning, Building and Economic Development be directed to prepare a request to the Minister of Municipal Affairs and Housing to enact a Minister's Zoning Order for the subject lands that will incorporate provisions to ensure compatibility between the residential uses to be introduced through the MZO and existing employment lands, including any proposed expansions, as identified in the correspondence received from Canadian Tire Corporation and Choice Properties.
3. **THAT** the owners satisfy all City requirements regarding the submission of supporting studies, and other matters, in association with the applicable sections of the Planning Act relating to Plans of Subdivision and Site Plan Approval processes, as may be applicable."

4. **THAT** the MZO Boundary be extended to reflect the entirety of the Canadian Tire Corporation Lands.

5. **THAT** the MZO be revised to include recommendations to policies and land uses being proposed by Canadian Tire Corporation and Choice Properties, provided the recommendations are in-keeping with the overall intent and vision of the MZO and are conforming with the Province’s mandate for lands within Major Transit Station Area, while recognizing the property rights of the existing property owners.

6. **THAT** Lark Investments Inc. coordinates with the Municipality and endeavor to engage nearby landowners and those within the proposed MZO Boundary and include recommendations that are in-keeping with the overall intent and vision of the MZO and are conforming with the Province’s mandate for lands within Major Transit Station Area.

Whereas the City of Brampton Enforcement and By-Law Services have seen a marked increase to the amount of calls for property standards of approximately 13,000 complaints and backlog of over 1,000 driveway complaints;

THEREFORE BE IT RESOLVED

Therefore be it resolved the Enforcement and By-law Services increase the number of permanent part-time bylaw officers by four (4) and increase the permanent property standards officers by two (2) and offset the full cost with revenues collected to achieve net zero impact;

BC024-2021

Whereas, the City of Brampton currently has a Financial Assistance Program to help senior citizens and physically challenged homeowners with costs incurred from hiring a service provider to remove snow from their sidewalks and driveways;

Minutes – City Council – Special Meeting – December 8, 2021

Whereas, qualifying applicants under the Financial Assistance Program may receive a grant of up to \$200 for non-corner lot properties or up to \$300 for corner lot properties with sidewalks on two sides of the property and where both sidewalks are not cleared by City forces;

Whereas, applicants must be 65 years of age or more at the date of the application OR be permanently confined to a wheelchair, restricted to the permanent use of crutches or braces, or otherwise be permanently disabled in such a way as to restrict physical mobility;

Whereas, applicants must own and occupy the property on which the application is made, and not have claimed a credit on any other property for the same winter season, and not be living in a condominium dwelling whereby all snow removal is the direct responsibility of the condominium corporation;

Whereas, the grants allowed under the Financial Assistance Program are not sufficient to cover Seniors Snow Removal costs due to rising prices;

Whereas, the cost of any alternative measures such as Windrow would be vastly more expensive to taxpayers on an annual basis; and

Whereas, any proposed enhancement to the current Financial Assistance Program would be less costly than other more expensive alternatives;

Therefore Be It Resolved:

That the City of Brampton increase the grant under the Financial Assistance Program to qualifying applicants for non-corner lot properties from \$200 to \$300;

That the City of Brampton increase the grant under the Financial Assistance Program to qualifying applicants for corner lot properties with sidewalks on two sides of the property and where both sidewalks are not cleared by City forces from \$300 to \$400;

That the increases proposed above be included in the 2022 budget; and

That windrow clearing be a priority in future winter maintenance budget discussions.

BC028-2021

1. That the report titled: **Implementation of Speed Cushions (File I.AC)**, to the Budget Committee Meeting of November 29, 30 and December 1 and 6, 2021, be received; and,

2. Whereas speeding is a high priority issue across the City of Brampton, and a serious concern for public safety;

Whereas speed cushions can be used to reduce speed in our neighborhoods and force drivers to slow down, making our roads safer especially in areas with a higher number of pedestrians;

Whereas many speeding complaints are being addressed through City of Brampton's existing traffic calming devices such as Automated Speed Enforcement cameras, roads diets, and bike lanes, the addition of speed cushions will help reduce speed and increase public safety in neighborhoods of concern where other speed reducing measures cannot be implemented;

Whereas speed cushions are used in other municipalities such as Toronto and Mississauga; and

Whereas City of Brampton staff can utilize the Neighbourhood Traffic Calming Guide (NTCG) to implement where the speed cushions should be placed;

Therefore Be It Resolved that, in consultation with ward councillors, \$200,000 be included in the Traffic Services 2022 budget to implement additional speed cushions, to be distributed evenly per ward across the City of Brampton in the highest priority areas in accordance with the NTCG; and

That staff be requested to develop a draft strategy for the integration of speed cushions in future development areas, and report thereon for Council consideration.

Whereas advancing equity, diversity, inclusion and anti-racism via the newly established Equity Office is a stated priority of City Council;

Whereas a focus on being a well-run city is a stated Council priority under the Term of Council Priorities;

Whereas the Corporate Projects, Policy and Liaison Division aims to co-ordinate and drive priority initiatives forward across the entire organization;

Whereas the staff of the Equity Office has conducted, an operational review to ensure the program meets the Term of Council Priorities established by Mayor Brown and Members of Council. The operational review conducted a forecast on the staffing requirements from short, medium and long-term perspectives to balance the implementation in a fiscally responsible manner. The staffing objectives can be adjusted based on proactive planning, responsive to emerging business and environmental needs in addition to ensuring continued engagement with the community;

Therefore Be It Resolved:

That the Manager, Equity Office adjust the operational review timelines and implement a strategy to include additional staffing for the programs in 2022 inclusive of one (1) Coordinator, one (1) Advisor, in addition to the one (1) Senior Advisor position requested in support of the Indigenous Reconciliation Project;

That the Economic Empowerment & Anti-Black Racism (EE-ABR) initiatives and associated staffing resources are consolidated within the Equity Office;

Whereas the City of Brampton Members of Council recognizes that municipal fiscal responsibility and accountability are integrated with the Term of Council Priority for a well-run City;

Whereas the City of Brampton Members of Council recognizes that citizens have experienced considerable personal, professional, and financial sacrifices in response to the COVID-19 global pandemic, and it's the City's obligation to balance the municipal tax levy, infrastructure, and ensure the resources are available to secure success with recognition of the challenges experienced by individuals and families since 2020;

Whereas the City of Brampton Members of Council recognized that in order to support individuals and families, municipal taxes in Brampton must be consistent with other municipalities in Ontario; and

Whereas the City Council solidifies its commitment to individuals and families with a 2022 Zero per cent (0%) increase in municipality property taxes to help recovery from the COVID-19 pandemic, it is recognized that this would represent the fourth (4) sequential budget year that the collaboration between Members of Council and staff resulted in a Zero per cent (0%) municipal property tax increase for the City of Brampton.

Therefore Be It Resolved that Council approves its 2022 budget with a zero per cent tax levy after assessment by directing staff as follows:

- a) That staff be directed to transfer the capital lease for the West Tower to the 2022 Capital Budget in the amount of **\$8,353,651**, which represents a reduction in the 2022 proposed tax levy impact of 1.7%; and
- b) That staff be directed to adjust the Transit Fuel allocation in the 2022 operating budget by **\$3,681,449** thereby representing a tax levy savings of 0.7%; and
- c) That the 2022 infrastructure contribution be maintained at the record breaking 2021 infrastructure contribution level of **\$117,137,000**.

Whereas Bramptonians value the Charter of Rights and Freedoms; and

Whereas Brampton Council believes we cannot allow the defense of the Charter and the foundational value of religious freedom to be on the backs of racialized communities against the Province of Quebec with unlimited legal resources; and

Whereas, if Canada's Big Cities assist to fund the legal challenge, then we level the playing field since it is not a fair legal fight in the absence of federal government involvement; and

Whereas a Supreme Court decision allowing the infringement of religious freedom would have negative consequences for Bramptonians and all Canadians;

Therefore Be It Resolved:

1. That the City of Brampton support the current legal challenge against the discrimination of freedom of religion in Quebec's Bill 21 – An Act respecting the laicity of the State; and
2. That the Council of The Corporation of the City of Brampton provide a one-time 2021 contribution of up to \$100,000 to the joint legal challenges of Bill 21 by National Council of Canadian Muslims (NCCM), the World Sikh Organization of Canada (WSO) and the Canadian Civil Liberties Association (CCLA), with staff identifying the appropriate funding source; and

C005-2022

Moved by Regional Councillor Santos

Seconded by Mayor Patrick Brown

That the delegation from Rizwan Mohammad, National Council of Canadian Muslims (NCCM), re. **Item 15.2 – Notice of Motion – 2022 Anti-Islamophobia Resolution**, to the Council Meeting of January 26, 2022, be received.

Council consideration included the need for the City to continue its position against anti-Islamophobia and hate of any kind.

At the request of the Mayor, it was agreed that all Members of Council would second the motion.

The motion was considered as follows.

C006-2022

Moved by Regional Councillor Santos

Seconded by All Members of Council

Be it resolved that the City of Brampton endorse the motion below for consideration at the FCM Board; and

That the motion be forwarded to the FCM Board upon its adoption:

Whereas the Federation of Canadian Municipalities (FCM) passed a resolution in June 2021 that hate speech has no place in an inclusive

society and resolved that FCM work with all levels of government in addressing the root causes of hate speech; and

Whereas Canada has seen dramatic increases in hate-motivated incidents and hate crimes against Asian, Black, Indigenous, Jewish, Sikh, and Muslim Canadians; and

Whereas anti-Muslim hate has led to more Muslims being killed in targeted hate attacks in Canada than any other G-7 country in the past 5 years because of Islamophobia, including lethal attacks in Quebec City, Toronto, and London, as well as hate-motivated incidents in municipalities across Canada in 2021; and

Whereas municipal governments such as Brampton and St. Catharines have responded by endorsing the municipal recommendations to address Islamophobia advanced by the National Council of Canadian Muslims (NCCM); and

Whereas FCM has established a standing committee on anti-racism and equity to help guide municipalities with their respective anti-racism and equity work nationally;

Therefore be it resolved:

- 1) that FCM condemns hate and racism in all its forms, including Islamophobia;
- 2) FCM endorses the municipal recommendations to address Islamophobia advanced by the National Council of Canadian Muslims (NCCM);
- 3) FCM recommends that members also endorse the NCCM's recommendations within one calendar year; and
- 4) FCM calls on the federal government to consult municipalities in the process of establishing an Office of the Special Representative to address Islamophobia.

A recorded vote was requested and the motion carried as follows.

7.3 Delegations re. Williams Parkway Noise Wall – Public Art:

Vijai Kumar, Advisory Panel Member, Arts Culture and Creative Industry Development Agency (ACCIDA) provided a video delegation, outlining his comments on the importance of public art, funding for the arts industry in Brampton, and support for public art on the Williams Parkway noise wall.

Lisa Stokes, Brampton resident, provided a video delegation outlining her comments on the need for Brampton to promote and support public art, provided examples of public art in other cities and examples of where it could be displayed in Brampton, offered suggestions for how the City could connect artists with businesses, and noted the importance of public art in helping to beautify roads and calm traffic.

John Cutruzzola, Artist, expressed his view that Brampton needs to change its direction when it comes to public art, outlined the need for more investment in Brampton’s arts and culture community, offered suggestions for incorporating public art to help with beautification of the City, and spoke in support of public art on the Williams Parkway noise wall.

Mr. Cutruzzola responded to questions of clarification from Council.

The following motion was considered.

C007-2022

Moved by Regional Councillor Santos

Seconded by Regional Councillor Vicente

That the following delegations re. **Williams Parkway Noise Wall – Public Art**, to the Council Meeting of January 26, 2022, be received:

- a. Vijai Kumar, Advisory Panel Member, Arts Culture and Creative Industry Development Agency (ACCIDA) (video delegation)
- b. Lisa Stokes, Brampton Resident (video delegation)
- c. John Cutruzzola, Artist

Carried

Item 13.3 was brought forward and dealt with at this time.

In response to questions from Council, staff provided information on the following:

- City’s investment in the arts and culture community

- confirmation that currently there is no annual operating budget for arts and culture
- value of partnering with operating departments on public art projects, for example, the recent mural on Fire Station 211
- information included in the survey of residents regarding public art on the noise wall
- funding allocation and proposed locations for public art on the Williams Parkway noise wall
- other amenities planned for the noise wall, including urban landscaping and active transportation along the noise wall
- approximate life span of noise walls

The following motion, moved by Regional Councillor Santos and subsequently seconded by Regional Councillor Palleschi, was introduced:

That the report titled: Recommendation report – Colour change for Williams Parkway noise wall (East of North Park Drive to West of Harridine Road) – Wards 1, 5 & 7 (eSCRIBE Item number 2021-1143, Capital Works File Nos. 08-3302-211), to the Council Meeting of January 26, 2022, be referred to staff with a request that they report back to Council with a plan for the five kilometre noise wall project that identifies: locations for urban landscape and trees, public art, and potential themes and timelines for implementation, and other options.

Council consideration included review of the results of a recent survey of residents with respect to public art on the noise wall, and an indication that not all residents surveyed chose public art for the noise wall.

An amendment to the proposed motion was introduced by City Councillor Williams, to strike out “five kilometre”, to allocate the \$300,000 budget to other areas of the City, and to request that staff report back on other areas that are appropriate for public art.

Councillor Santos, as mover of the motion, did not accept the amendment as “friendly”, but suggested that additional wording could be added to the motion, as follows: “and that staff bring forward other ideas related to public art installations in Brampton”.

Peter Fay, City Clerk, noted that what is before Council is the specific noise wall on Williams Parkway. He indicated that if Council wanted to have a broader discussion on public art in the City, an item would have to be added to the agenda for this purpose.

Mr. Fay also noted that if the referral motion does not carry, then it would be appropriate for Councillor Williams to introduce her motion for consideration.

Further Council discussion took place on the referral motion and included:

- potential funding for public art from other levels of government
- funding provided to ACCIDA and a suggestion that some of these funds be used to have a third party provide design options for public art and urban landscaping for the noise wall
- varying opinions on what constitutes public art
- suggestion about collaboration on this project between the City and school boards, the Toronto Region Conservation Authority, and Credit Valley Conservation
- suggestions for the urban landscaping element of the project, and the need for “thinking outside the box” to create landscaping that could also be public art
- benefits of urban landscaping in reducing Greenhouse Gas Emissions

An amendment to the referral motion was moved by City Councillor Williams and subsequently seconded by Regional Councillor Fortini, to strike out “public art”.

A recorded vote was taken on the amendment, with the results as follows:

Yea (7): Regional Councillor Dhillon, Regional Councillor Fortini, City Councillor Williams, Regional Councillor Medeiros, City Councillor Bowman, City Councillor Whillans, and Regional Councillor Palleschi

Nay (4): City Councillor Singh, Regional Councillor Vicente, Regional Councillor Santos, and Mayor Brown

2. That the following recommendations as per the Heritage Impact Assessment by Parslow Heritage Consultancy Inc. be followed:

a. While in situ retention is always preferable it is not always the most viable or practical option to ensure the retention of heritage resources. To facilitate the retention and preservation of the Edwin Trimble House while allowing for the continued development of the area it is recommended that Edwin Trimble House be relocated to proposed lot 59 or 60 of the proposed development plan (Appendix B). Relocation of the house should include:

- i. Continued visibility from Creditview Road and George Brown Drive; development should not be permitted that would obstruct the view of Edwin Trimble House.
- ii. Any alterations to the Edwin Trimble House should be limited to the rear of the structure.
- iii. Setbacks should be maintained that preserve the aesthetic of the residence.
- iv. New construction adjacent to the Edwin Trimble House should not exceed the current elevation of the extant structure.
- v. The establishment of a heritage easement should be discussed with the City of Brampton to ensure the ongoing retention of Edwin Trimble House.
- vi. Designation under Part IV of the *Ontario Heritage Act* should be considered.
- vii. Edwin Trimble house shall be subject to structural assessment by a qualified structural engineer familiar with heritage structures
- viii. Prior to undertaking any action, a conservation and adaptive reuse plan should be developed.

b. In addition to the retention of Edwin Trimble House, development of the Subject Property should attempt to retain the mature pine trees that delineate the northeast limit of the property. These trees contribute to the Creditview Road Corridor CHL. If possible, Edwin Trimble House and the pine trees should be maintained together on a single lot.

EAC039-2021

Whereas the Auditor General of Ontario has reported that actions of the Provincial Government indicate a bias prioritizing land development at the expense of environmental protections including species at risk and climate change mitigation,

Whereas the Auditor General has reported, and the Ontario District Court has ruled that the Provincial Government has demonstrated an unlawful disregard for public consultation on environmentally significant decisions,

Whereas a spokesperson for the Minister of Municipal Affairs and Housing has stated, “it is our expectation that municipalities have done their due diligence and have conducted proper consultation in their communities before any request for an MZO comes to the Minister for consideration”,

Whereas City of Brampton Council endorsed the Brampton 2040 Vision document in May of 2018 and in January 2020, approved an extensive community engagement strategy to assist in building the 2040 Plan,

Whereas Brampton City Council has passed motions of support for submissions of seven Ministerial Zoning Orders (MZOs) to the Minister of Municipal Affairs and Housing without first providing the substantive opportunity for public consultation

Whereas it is the understanding of the Brampton Environment Advisory Committee (BEAC) that, if these MZOs are approved by the Minister, it effectively removes environmental protections related to the affected land, some of which

contain substantial natural capital, environmentally sensitive areas, habitat for endangered species, and flood management issues,

Whereas In 2018 City of Brampton Council created the Brampton Environment Advisory Committee with the purpose to, “engage the community to advance the goals and actions of the City’s Grow Green Environmental Master Plan as well as to advise City Council on environmental planning policy and sustainability matters to promote the protection, enhancement, and management of the City’s natural and built environment”,

Therefore, be it resolved that, it is the position of the Environment Advisory Committee that:

- City Council discontinues supporting the use of Ministerial Zoning Orders as a planning tool until the impact of these orders is better understood in relation to environmental protection and the ability of the City to fulfill the 2040 Vision and meet its carbon reduction targets or;
- In the event City Council decides to continue using MZO as a planning option then BEAC recommends the City create a procedural bylaw for MZO mandating the preparation of a staff report accompanying each MZO request, including an analysis of servicing costs, an environment impact assessment of the proposal, as well as two public meetings, all to be completed before Council votes on whether to send the MZO to the Province or not.

Staff noted that a report is tracking for a future meeting regarding the partnership agreement with the Friends of Historic Bovaird House, and additional information could be included in this report.

During Council's consideration of this matter, a procedural motion to Call the Question was introduced by Regional Councillor Palleschi. Peter Fay, City Clerk confirmed that no motion had been placed for which the question could be called.

Regional Councillor Santos proposed a motion, which was subsequently seconded by Regional Councillor Vicente, to request that staff report back to Council within the next month providing information on the Bovaird House Property in response to Council's discussion and questions at this meeting.

A number of Council Members voiced disagreement with the proposed motion and the need for a staff report.

In lieu of a motion, Councillor Santos requested that staff accept her request as direction.

Peter Fay, City Clerk, clarified the provisions of the Procedure By-law whereby any direction to staff must be in the form of a motion, and confirmed that what is currently on the floor is a Member information request.

4. Business Matters

4.1 Discussion regarding Rules of Procedure for the conduct of meetings

Mayor Brown introduced this item and invited Regional Councillor Medeiros to speak.

Councillor Medeiros referenced an opinion letter that he received from Cunningham Swan Lawyers, which his office forwarded by e-mail to Members of Council and staff. Councillor Medeiros indicated that he sought this opinion due to ongoing confusion in terms of rules of procedure and interpretation of the rules.

Council consideration included:

- questions about and responses from Councillor Medeiros regarding the opinion letter
- concerns that rules of procedure are not being accurately interpreted or applied, particularly relating to requirements for two-thirds majority votes, reopening decisions, Points of Order, and dealing with matters in Closed Session
- importance of Members of Council conducting meetings in accordance with the Procedure By-law
- questions and comments relating to individual Members seeking legal advice/opinions
- suggestion that a workshop on the Procedure By-law be provided for Members of Council

During Council's consideration of this matter, a Point of Order was raised by City Councillor Singh.

In response to a request for a ruling on the Point of Order, Mayor Brown concluded that it was not a legitimate Point of Order in accordance with the Procedure By-law.

In response to questions from Council, staff provided information on the following:

- role of the City Clerk to provide advice on meeting procedures in accordance with the Procedure By-law, the Municipal Act and other legislation/policies
- role of the meeting Chair as it relates to making procedural decisions, and confirmation that the City Clerk does not have the mandate or statutory authority to override a decision by the meeting Chair
- provisions of the Procedure By-law as they relate to Points of Order, challenges of a decision by the Chair, staff attendance in Closed Sessions, two-thirds majority votes, reopening and reconsideration of previous decisions

Minutes – City Council – Special Meeting – February 8, 2022

- process for amendments to the Procedure By-law
- impact on privileged information as a result of the opinion letter being shared in a public forum, and confirmation that the opinion letter obtained by Councillor Medeiros does not constitute legal advice for the City and is not binding on the City
- information in the Council Handbook about the process for individual Members of Council obtaining legal advice and the procedure for obtaining legal advice on behalf of the City of Brampton

Council discussion took place with respect to potential amendments to the Procedure By-law and timelines for consideration of such amendments.

The following motion, moved by Regional Councillor Medeiros and subsequently seconded by City Councillor Williams, was introduced:

That a review be undertaken of the Procedure By-law, and a Notice of Motion be listed for consideration at a Special Meeting of Council, to be convened on February 22, 2022, following the provision of public notice on the matter, such motion to include the following proposed changes:

That the Procedure By-law be amended to remove requirement:

- 1) For a two-thirds threshold vote on any matters within the Procedure By-law; and
- 2) For a Member to have been required to have voted on the prevailing side of a resolution, in order to move a reconsideration motion with respect to such resolution.

A motion, moved by Regional Councillor Palleschi, was introduced to refer the motion to the Procedure By-law (PBL) Review Sub-committee. As the motion was procedural in nature, a seconder was not required.

Council discussion took place on the referral motion, during which time staff responded to questions regarding the current review of the Procedure By-law and provided advice as it relates to ad-hoc changes to the By-law.

- 4.2 Motion to request disclosure of closed meeting minutes and the recording of the Council meeting held on Wednesday, January 26, 2022, to all Members of Council for purposes of seeking legal advice related to the meeting

The following motion, moved by Regional Councillor Medeiros and seconded by Regional Councillor Dhillon, was introduced:

That the video of the full Open Session of the meeting held on January 26, 2022 be provided to all Members of Council (via Brampton.ca); and

That the audio recording of the Closed Session of the meeting held on January 26, 2022 be provided to each Member of Council.

Councillor Medeiros outlined the purpose of the motion.

Staff outlined concerns about distribution of the Closed Session audio recording for the purpose of Members seeking legal advice, given that such disclosure could result in potential confidentiality issues and waiving of privilege.

Staff also provided details on the protocol for Members to access Closed Session audio recordings, which provides that Members make arrangements to attend the City Clerk's Office for this purpose. Staff also confirmed that the video recording from the Open Session portion of the January 26, 2022 Council meeting is available on the City's website.

Council consideration included:

- indication from specific Members that they do not want a copy of the Closed Session audio recording
- concerns about the varying the process for release of the audio recordings of Closed Sessions
- concerns about releasing the recording for the entire Closed Session, rather than just a part thereof

Minutes – City Council – Special Meeting – February 8, 2022

- clarification from Councillor Medeiros that the intent of his motion is for the release of audio from the entire Closed Session portion of the meeting so that Members could seek legal advice if they so choose, given concerns by some Members that quorum was not being present when the Confirming By-law was passed and the meeting was not properly adjourned

Peter Fay, City Clerk, outlined his position about quorum at the meeting when the Confirming By-law was passed, and responded to questions from Council in this regard. He also noted that because quorum was not present to adjourn the meeting, this did not negate decisions made up to that point.

Following Council discussion and in response to comments, concerns and suggested amendments from Members and staff, the motion was amended to read as follows:

That the video of the full Open Session of the meeting held on January 26, 2022 be provided to all Members of Council (via Brampton.ca); and

That the City Solicitor be requested to report to the February 16, 2022 Committee of Council meeting on the appropriateness to disclose a closed session audio record, as proposed below;

That the audio recording of the Closed Session of the meeting held on January 26, 2022 be provided to those Members of Council who request it and that the City Clerk be directed to keep a confidential list thereof.

That the audio recording be provided to those Members who request it, via USB stick or by way of an appointment to listen to the content at the Office of the Clerk and,

That the City Solicitor be requested to report to the February 16, 2022 Committee of Council on the scope of a potential external opinion with regard to the legal considerations with respect to conduct of the meeting (quorum, confirming by-law, proper adjournment).

During Council's consideration of this matter, a procedural motion to Call the Question was introduced by City Councillor Whillans.

The Mayor noted there were not other speakers, therefore, the motion could be put to a vote.

That the following proposed AMO Motion regarding Joint and Several Liability be **referred** to the March 2, 2022 City Council meeting for consideration:

Whereas municipal governments provide essential services to the residents and businesses in their communities; and

Whereas the ability to provide those services is negatively impacted by exponentially rising insurance costs; and

Whereas one driver of rising insurance costs is the legal principle of 'joint and several liability,' which assigns disproportionate liability to municipalities for an incident relative to their responsibility for it; and

Whereas, the Government of Ontario has the authority and responsibility for the legal framework of 'joint and several liability;' and

Whereas the Premier of Ontario committed to review the issue in 2018 with a view to helping municipal governments manage their risks and costs; and

Whereas the Association of Municipalities of Ontario (AMO) on behalf of municipal governments has provided recommendations in 2019 through its submission to the Attorney General of Ontario titled: Towards a Reasonable Balance – Addressing Growing Municipal Liability and Insurance Costs to align municipal liability with the proportionate responsibility for incidents and capping awards;

Therefore Be It Resolved:

1. That the City of Brampton does hereby support and endorse AMO's recommendations to the Provincial Government, as follows:

1. The provincial government adopt a model of full proportionate liability to replace joint and several liability.

2. Implement enhancements to the existing limitations period including the continued applicability of the existing 10-day rule on slip and fall cases given recent judicial interpretations, and whether a 1-year limitation period may be beneficial.
3. Implement a cap for economic loss awards.
4. Increase the catastrophic impairment default benefit limit to \$2 million and increase the third-party liability coverage to \$2 million in government regulated automobile insurance plans.
5. Assess and implement additional measures which would support lower premiums or alternatives to the provision of insurance services by other entities such as non-profit insurance reciprocals.
6. Compel the insurance industry to supply all necessary financial evidence including premiums, claims, and deductible limit changes which support its, and municipal arguments as to the fiscal impact of joint and several liability.
7. Establish a provincial and municipal working group to consider the above and put forward recommendations to the Attorney General.”;
and

2. That the City of Brampton does hereby call on the Attorney General of Ontario to work with municipal governments to put forward a plan of action to address “joint and several liability” before the end of the government’s current term so that municipalities can continue to offer high quality services to their communities; and

Whereas Section 242 of the *Municipal Act, 2001*, sets out the preconditions and powers for a Member of Council to act in place of the Mayor with respect to presiding at meetings:

Absence of head

242 A municipality may, by by-law or resolution, appoint a member of the council to act in the place of the head of council or other member of council designated to preside at meetings in the municipality's procedure by-law when the head of council or designated member is absent or refuses to act or the office is vacant, and while so acting such member has all the powers and duties of the head of council or designated member, as the case may be, with respect to the role of presiding at meetings;

Whereas many municipalities include a position of Deputy Mayor(s) to fulfil such a role as contemplated in the legislation;

Whereas the City of Brampton Procedure By-law 160-2004 identifies an Acting Mayor position, fulfilled through a pre-defined rotating monthly roster including all Councillors, to act in the event the Mayor is unavailable and who shall have all the powers and duties of the Mayor, with respect to the role of presiding at meetings;

Whereas a Civic Events Protocol (GOV-160) exists to set out the role of the Mayor for certain ceremonial and civic event responsibilities, and provisions for employing an Acting Mayor or such other Councillors when the Mayor is unavailable;

Whereas it may also be appropriate for Council to also appoint a Deputy Mayor, when required, for chairing meetings and assuming other ceremonial and civic event duties when the Mayor is not available, before relying on the Acting Mayor roster for such responsibilities;

Therefore Be It Resolved:

1. That the position of Deputy Mayor be established to act in the absence of the Mayor, with respect to the role of presiding at Council and other Committee meetings where the Mayor is the Chair;

2. That the position be divided into two, reflecting the East and West portions of the City;
3. That Regional Councillor Pat Fortini, for the East, and Regional Councillor Martin Medeiros, for the West, each be appointed as Deputy Mayor for the remainder of the current term of Council;
4. That an appropriate amendment be made to Procedure By-law 160-2004, as amended, including appropriate public notice, to establish the position of Deputy Mayor to preside at meeting when the Mayor is unavailable, and should either Deputy Mayor not be available, the Acting Mayor shall preside at meetings; and,
5. That an appropriate amendment be made to the Civic Events Protocol (GOV-160) to insert the role of Deputy Mayor before Acting Mayor in the event the Mayor is unavailable to attend an event on behalf of the City.

A recorded vote was requested and the motion carried as follows.

13.1 Joint and Several Liability

The following motion was considered.

C053-2022

Moved by City Councillor Singh

Seconded by Regional Councillor Vicente

Whereas municipal governments provide essential services to the residents and businesses in their communities; and

Whereas the ability to provide those services is negatively impacted by exponentially rising insurance costs; and

Whereas one driver of rising insurance costs is the legal principle of ‘joint and several liability,’ which assigns disproportionate liability to municipalities for an incident relative to their responsibility for it; and

Whereas, the Government of Ontario has the authority and responsibility for the legal framework of ‘joint and several liability; and

Whereas the Premier of Ontario committed to review the issue in 2018 with a view to helping municipal governments manage their risks and costs; and

Whereas the Association of Municipalities of Ontario (AMO) on behalf of municipal governments has provided recommendations in 2019 through its submission to the Attorney General of Ontario titled: Towards a Reasonable Balance – Addressing Growing Municipal Liability and Insurance Costs to align municipal liability with the proportionate responsibility for incidents and capping awards;

Therefore Be It Resolved:

1. That the City of Brampton does hereby support and endorse AMO’s recommendations to the Provincial Government, as follows:

1. The provincial government adopt a model of full proportionate liability to replace joint and several liability.
2. Implement enhancements to the existing limitations period including the continued applicability of the existing 10-day rule on slip and fall cases given recent judicial interpretations, and whether a 1-year limitation period may be beneficial.
3. Implement a cap for economic loss awards.

4. Increase the catastrophic impairment default benefit limit to \$2 million and increase the third-party liability coverage to \$2 million in government regulated automobile insurance plans.
 5. Assess and implement additional measures which would support lower premiums or alternatives to the provision of insurance services by other entities such as non-profit insurance reciprocals.
 6. Compel the insurance industry to supply all necessary financial evidence including premiums, claims, and deductible limit changes which support its, and municipal arguments as to the fiscal impact of joint and several liability.
 7. Establish a provincial and municipal working group to consider the above and put forward recommendations to the Attorney General.”; and
2. That the City of Brampton does hereby call on the Attorney General of Ontario to work with municipal governments to put forward a plan of action to address “joint and several liability” before the end of the government’s current term so that municipalities can continue to offer high quality services to their communities; and
 3. That a copy of this Resolution be forwarded to all Brampton MPPs for their awareness and support, as well as the Region of Peel, City of Mississauga and Town of Caledon, seeking similar resolutions of support and endorsement.

16.3 Discussion Item from Councillor Palleschi re. Churchville Flood

Members of Council commended staff from Brampton Fire and Emergency Services and Public Works and Engineering for their efforts in responding to the recent Churchville flood event and providing assistance to residents.

The following motion, moved by Regional Councillor Palleschi and seconded by City Councillor Whillans, was introduced:

Whereas the municipality of the City of Brampton recently experienced a flooding event on February 17, 2022 and has experienced incremental operating and capital costs, the Council of the City of Brampton hereby requests the Minister of Municipal Affairs and Housing to activate the Municipal Disaster Recovery Assistance program; and

Further that Nash Damer, Treasurer, is given delegated authority to verify and attest to the accuracy of the associated claim.

Council consideration included existing or announced Provincial programs to provide financial assistance to help cover the costs for the City's response to this event, and programs available to help residents deal with the impact of the flood on their properties.

Staff responded to questions from Council regarding approximate costs for staff's response, potential use of City reserves to cover the costs, and review of the infrastructure in Churchville with a view to providing recommendations for improvements and mitigation measures.

Councillor Palleschi outlined an amendment to the motion to add the following additional clause:

That staff be directed to report back to Council by the end of the summer with a post-mortem of the event, an assessment, and a potential strategy for the improvement of the infrastructure in Churchville.

17. Public Question Period

Members of the public were given the opportunity to submit questions via e-mail to the City Clerk's Office regarding any decisions made at this meeting.

Peter Fay, City Clerk, outlined a question from the public, as follows:

Sylvia Menezes Roberts, Brampton resident, asked: "Why isn't the federal pre-budget submission compliant with basic accessibility requirements that have been around for years? Text is required to be actually in the format of text, but this doesn't seem to be the case at all for the federal pre-budget submission. It not being formatted as text can make it unreadable for screen readers, and consequently inaccessible for those who are blind or visually impaired."

Mr. Fay responded that he would review this matter with staff and ensure that the document is accessible for all users.

18. By-laws

In response to questions from Council, Peter Fay, City Clerk, indicated that the by-law listed on the agenda as 28-2022 would be removed, since Council did not provide the authority for this by-law.

Mr. Fay noted that two by-laws were added pursuant to Council Resolution C043-2022 (Item 7.2).

The following motion was considered.

19. Closed Session

Note: Items 19.1, 19.2, 19.3, 19.4, 19.5, 19.6 and 19.12 were dealt with pursuant to Consent Resolution C041-2022.

Earlier in the meeting during consideration of the Consent motion, Council Members expressed their intention to begin discussions on Item 19.9, specifically as it relates to Brampton U, in Open Session,

Sameer Akhtar, City Solicitor, and Peter Fay, City Clerk, suggested that Council begin its discussions in Closed Session where it can be determined if they are warranted in Closed and, if not, Council could continue its discussions in Open Session.

Council discussion on Brampton U began in Open Session, and included:

- details about information that was provided anonymously to some Members of Council, which included invoices for consulting and other services and a draft report
- concerns about the amounts and frequency of the invoices from the consultants
- suggestion that the consultants be invited to delegate to Council to explain their charges and provide details on their deliverables
- potential conflict of interest for a Member of Council and a suggestion that this matter be referred to the Integrity Commissioner
- need for information on the total budget, travel expenses by the consultants, identity of stakeholders who were engaged, outreach to the Province and outcomes, if/when a decision was made to discontinue moving forward with this project, and how the City ended its contract with the consultants
- concerns about public statements by Members of Council regarding a university in the downtown

In response to questions from Council, staff provided the following:

- information on the amount of money spent on the two consultants between 2019 and 2021 and confirmation that all invoices have been paid
- details on work undertaken by the consultants, including a telephone survey, town hall meetings, information session to engage developers, confidential information shared with Council in Closed Session, business community engagement, and a report on the business sessions
- indication that a report titled: “A Case for Brampton University Draft” is with the CAO’s Office, and that the extent to which the report has been shared needs to be confirmed
- confirmation that the Brampton U initiative remains a Council priority and that no direction has been given to staff to discontinue work on the project.

During Council discussion on this matter, a Point of Order was raised by Regional Councillor Santos, for which the Mayor gave leave.

Councillor Santos noted confusion with the name of one of the consulting firms and confirmed that the company is Stakeholder Research Associates.

The following motion, moved by Regional Councillor Medeiros and subsequently seconded by Regional Councillor Fortini, was introduced.

1. That the Integrity Commissioner be requested to investigate the following:
 - a) The relationship between Councillor Santos and the consultant(s) utilized;
2. That the consultant report prepared by the consultants on this matter be released publically;
3. That the CAO be requested to provide a detailed itemized report (including any travel undertaken and stakeholders consulted), on the spending undertaken by the City with respect to the Brampton University file; and
4. That no further work be undertaken by staff in respect to advancing the Brampton U file.

Following introduction of the motion, a Point of Personal Privilege was raised by Regional Councillor Santos since she was named. Mayor Brown gave permission for the Point of Personal Privilege.

Councillor Santos provided an advisory that in August 2019 she sought advice from the Integrity Commissioner with respect to a potential conflict of interest she might have as a result of one of the selected consultants, and outlined details of a letter she received from the Integrity Commissioner in this regard.

Council discussion took place on the motion, during which time Members of Council expressed varying opinions in support of or opposition to the motion, and Mayor Brown provided background information on the Brampton U file and other potential post secondary opportunities.

In response to questions from Council, staff provided information on the funding available in reserves for post secondary education, money spent on the City's post secondary education strategy, details on the procurement process for the Brampton U consultants. Staff agreed to provide information to Council Members regarding any FOI requests on Brampton U.

A motion was introduced by Regional Councillor Vicente to provide that the CAO also report on when Members of Council received email communications from staff regarding the Brampton U file. The motion was subsequently withdrawn.

During Council consideration of the motion, Points of Order were raised by Councillors Medeiros, Fortini and Palleschi, for which the Mayor gave leave.

Councillor Medeiros clarified that the report from the consultants that he referenced is the final draft report and not a “white paper” as noted by a Member of Council.

Councillor Fortini expressed his view that Council discussion was off-topic and should be focussed on Brampton U only.

Councillor Palleschi responded to a Member of Council’s suggestion that the report back include additional information, and expressed his view that this could present an “impossible task” for staff.

Councillor Medeiros, as mover of the motion, agreed to some amendments proposed by Members of Council but did not accept other proposed amendments, such that the operative clauses read as follows:

1. That the Integrity Commissioner be requested to investigate the following:
 - a) The relationship between Councillor Santos and the consultant(s) utilized;
2. That the consultant report prepared by the consultants on this matter be released publically, subject to review by the CAO and City Solicitor and determination of confidentiality, and indication of previous dissemination thereof;
3. That the CAO be requested to provide a detailed itemized report (including any travel undertaken and stakeholders consulted, and copies of all press releases issued to update the public on Brampton University, and memoranda of understandings signed with other academic institutions) on the spending undertaken by the City with respect to the Brampton University file; and
4. That no further work be undertaken by staff in respect to advancing the Brampton U file, pending report on the matter by the CAO.

A separate recorded vote was taken on Clause 1 a) of the motion, with the results as follows:

Yea (7): Regional Councillor Dhillon, City Councillor Singh, Regional Councillor Fortini, City Councillor Williams, Regional Councillor Medeiros, City Councillor Bowman, and City Councillor Whillans

To facilitate the retention and preservation of the Edwin Trimble House while allowing for the continued development of the area it is recommended that Edwin Trimble House be relocated to proposed lot 59 or 60 of the proposed development plan (Appendix B). Relocation of the house should include:

1. Continued visibility from Creditview Road and George Brown Drive; development should not be permitted that would obstruct the view of Edwin Trimble House.

2. Any alterations to the Edwin Trimble House should be limited to the rear of the structure.

3. Setbacks should be maintained that preserve the aesthetic of the residence.

4. New construction adjacent to the Edwin Trimble House should not exceed the current elevation of the extant structure.

5. The establishment of a heritage easement should be discussed with the City of Brampton to ensure the ongoing retention of Edwin Trimble House.

6. Designation under Part IV of the *Ontario Heritage Act* should be considered.

7. Edwin Trimble house shall be subject to structural assessment by a qualified structural engineer familiar with heritage structures

8. Prior to undertaking any action, a conservation and adaptive reuse plan should be developed.

2. In addition to the retention of Edwin Trimble House, development of the Subject Property should attempt to retain the mature pine trees that delineate the northeast limit of the property. These trees contribute to the Creditview Road Corridor CHL. If possible, Edwin Trimble House and the pine trees should be maintained together on a single lot.

12.4 Summary of Recommendations – Committee of Council – March 30, 2022

Note: The following Members of Council declared conflicts of interest with respect to Recommendation CW123-2022 – Considerations for Incentives to Non-Profit Affordable Housing and Long Term Care Projects in Brampton (RM 4/2022), as they sit on the Advisory Board of the Golden Age Village for the

Elderly (GAVE), and did not participate in Council's consideration of the recommendation:

- City Councillor Bowman
- Mayor Brown
- Regional Councillor Medeiros

Deputy Mayor Medeiros introduced the recommendations, and the meeting Section Chairs led the discussion on matters within their respective sections.

Deputy Mayor Fortini took the chair as a result of Councillor Medeiros' declared conflict of interest.

A separate vote was taken on Recommendation CW122-2022 to accommodate the declared conflicts of interest. The recommendation was voted on and carried.

During consideration of the recommendations under the Corporate Services Section, Council discussion took place with respect to Recommendation CW156-2022.

A motion, moved by Mayor Brown and seconded by Regional Councillor Vicente, was introduced to refer Recommendations CW156-2022 and CW157-2022 to the Committee of Council Meeting of April 13, 2022.

Members of Council expressed varying comments, concerns and opinions in support of and opposition to the referral.

Mayor Brown suggested an amendment to Recommendation CW156-2022 to apply the surplus funds identified in the staff briefing note (Item 14.3) toward the 2022 levy.

City Councillor Singh, leading the discussion as Section Chair for Corporate Services, noted the amendment did not relate to the referral motion.

The referral motion was subsequently withdrawn.

Further Council consideration of Recommendation CW156-2022 included:

- varying comments in support of and opposition to the proposed health care levy
- concerns about applying a levy at this point in the year, given that Council had already approved the 2022 budget with a zero tax increase
- impact of the levy on residents and business owners

Minutes – City Council – April 6, 202

- details about concerns from residents and business owners about the levy, the planning process for the hospital, and the need for residents to be informed of exactly what hospital services are to be provided
- concerns about the City’s inability to use development charges to help fund health care
- proposed amendment to the recommendation to provide that the City advocate to the Province to request enabling legislation for development charges to be eligible for local share hospital funding

During Council’s consideration of this matter, staff responded to questions regarding procedural and financial matters.

An amendment, moved by Regional Councillor Santos and seconded by City Councillor Whillans, was introduced to add the following as the final clause of Recommendation CW156-2022:

“And further that the City advocate to the Province to request enabling legislation for development charges to be eligible for local share hospital funding.”

During Council’s consideration of this matter, a procedural motion to Call the Question was introduced by Regional Councillor Dhillon. As the motion was procedural in nature, a seconder was not required.

2. That Recommendations CW113-2022 to CW121-2022 and CW123-2022 to CW155-2022 and CW156-2022 to CW161-2022 be approved as outlined in the subject summary; and,

3. That Recommendation CW156-2022 be approved, as amended, to read as follows:

CW156-2022

Whereas, Brampton Civic Hospital has one of the busiest emergency rooms in Canada, and serves as the only main full-service facility for the City of Brampton’s approximately 650,000 residents since 2007, and has long been plagued with issues of overcrowding and excessive wait times;

And Whereas, an additional full-service Hospital is urgently needed in Brampton to serve the City's aging community needs for continuing complex care and rehabilitation in emergency and intensive care units;

And Whereas, as a result, the Province of Ontario made a commitment in the March 2021 budget to help fund a new full-service Hospital in Brampton, and the City of Brampton will be required to commit to a 10% local share under the Provincial cost-sharing funding model;

And Whereas, Brampton City Council voted on November 3, 2021 to commit to a 10% local share estimated at \$125M for the new full-service Hospital in Brampton including an option to seek a 50% contribution from the Region of Peel;

And Whereas, Brampton City Council voted during 2022 budget deliberations to allocate \$62.5M towards the local share comprising of a \$22M surplus from the 2012 special health care levy and \$40.5M from unused capital budgets;

And Whereas, there is a remaining balance of \$62.5M still to be funded to fulfil the City’s commitment to the local share; And Whereas, the Region of Peel voted on March 10, 2022 to refer a contribution of \$12.5M for the cancer care portion of the new Brampton hospital for budget consideration;

And Whereas, staff report titled “William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation” has been tabled for the March 30, 2022 Committee of Council for consideration and includes two options for funding the balance of the local share;

Therefore, be it resolved:

That Internal and External Borrowing and the Sale of Surplus Land be approved as possible funding sources for the balance of the City's local share commitment; And further, that a 1% City Tax Levy combined with External Borrowing included as option 2 of the staff report titled "William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation" tabled in the March 30, 2022 Committee agenda, be approved;

And further, that the City's 2022 Budget including relevant by-laws be amended, if necessary, to reflect implementation of the 1% City Tax Levy combined with External Borrowing included as option 2 of the staff report titled "William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation";

And further that the City advocate to the Province to request enabling legislation for development charges to be eligible for local share hospital funding.

Carried

The recommendations were approved, as amended, as follows.

2. Whereas members of the Ontario Dump Truck Association (ODTA) are advocating for respect for their labour rights, fair wages and compensation, to ensure their members and the public are provided the highest level of safety possible when on Ontario roads and highways;

Whereas the ODTA has created a basic general agreement that can be used universally and enshrines via contract basics labour rights, fair wages and compensation and other standards are that are required to ensure a viable and safe workplace for their members;

Whereas the City of Brampton looks to uphold the strongest protections possible for both workers and the public to ensure the highest level of safety is in place when jobs are occurring within the City;

Whereas basic labour rights such as access to restrooms on job sites and denial of 30- minute breaks are being refused.

Whereas workers of the ODTA are being forced to contravene highway traffic act rules as well as maximum load allowances on their vehicles thus making their workspace and our roads unsafe for all road users.

Therefore be it resolved that Council requests City of Brampton CAO, in conjunction with staff in the Legal, Building, Enforcement Division, Planning, and Procurement, to review the ODTA basic agreement, and ensure that it is something that is considered prior to allowing companies to bid on City infrastructure projects to ensure that basic labour rights and fair wages are considered for all dump truck operators are being followed by contractors that work on city projects; and

Be it further resolved that the CAO return to Council with a report on how the ODTA basic agreement can be inserted into the City's processes to enshrine the rights of dump truck operators are taken into consideration prior to issuance of bids by the City on City projects so that it ensures our streets are the safest in Ontario for both dump truck operators as well as everyday road users.

Whereas the City of Brampton continues to experience injury related and fatal collisions amongst road users.

Whereas Vision Zero can be summarized in one sentence: No loss of life is acceptable.

Whereas in June 2019 the City of Brampton Council adopted the Vision Zero framework as the foundation to ensuring that our roads are safe for all that use them through a data-driven effort by prioritizing emphasis areas, coordinating with partners and stakeholders to improve road safety and implementing new or expanded safety countermeasures.

Whereas in September 2020 the City of Brampton Council implemented the use of Automated Speed Enforcement (ASE) cameras to decrease speeding in all community safety zones.

Whereas on December 10, 2020 the City of Brampton Community Safety Advisory Committee established a Road Safety Advisory Sub-Committee to address traffic related fatalities and speeding.

Whereas despite efforts to reduce speeding and traffic related collisions the Region of Peel is still reporting a substantial number of traffic related collisions on our Brampton roads.

Whereas the City of Mississauga currently has a Council appointed committee to address road safety issues and the City of Brampton does not.

Whereas a Brampton Road Safety Committee will align core goals and mission with the Vision Zero Task Force and the Regional Community Safety and Well-Being framework.

“Moved by: Councillor Fortini

Whereas, Brampton Civic Hospital has one of the busiest emergency rooms in Canada, and serves as the only main full-service facility for the City of Brampton’s approximately 650,000 residents since 2007, and has long been plagued with issues of overcrowding and excessive wait times;

And Whereas, an additional full-service Hospital is urgently needed in Brampton to serve the City’s aging community needs for continuing complex care and rehabilitation in emergency and intensive care units;

And Whereas, as a result, the Province of Ontario made a commitment in the March 2021 budget to help fund a new full-service Hospital in Brampton, and the

City of Brampton will be required to commit to a 10% local share under the Provincial cost-sharing funding model;

And Whereas, Brampton City Council voted on November 3, 2021 to commit to a 10% local share estimated at \$125M for the new full-service Hospital in Brampton including an option to seek a 50% contribution from the Region of Peel;

And Whereas, Brampton City Council voted during 2022 budget deliberations to allocate \$62.5M towards the local share comprising of a \$22M surplus from the 2012 special health care levy and \$40.5M from unused capital budgets;

And Whereas, there is a remaining balance of \$62.5M still to be funded to fulfil the City's commitment to the local share;

And Whereas, the Region of Peel voted on March 10, 2022 to refer a contribution of \$12.5M for the cancer care portion of the new Brampton hospital for budget consideration;

And Whereas, staff report titled "William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation" has been tabled for the March 30, 2022 Committee of Council for consideration and includes two options for funding the balance of the local share;

Therefore, be it resolved:

That Internal and External Borrowing and the Sale of Surplus Land be approved as possible funding sources for the balance of the City's local share commitment;

And further, that a 1% City Tax Levy combined with External Borrowing included as option 2 of the staff report titled "William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation" tabled in the March 30, 2022 Committee agenda, be approved;

And further, that the City's 2022 Budget including relevant by-laws be amended, if necessary, to reflect implementation of the 1% City Tax Levy combined with External Borrowing included as option 2 of the staff report titled "William Osler Health System Request - Additional Funding Options & Reserve Balance Confirmation".

To delete Recommendation BCS005-2022 and replace with the following:

Whereas the City of Brampton continues to experience injury related and fatal collisions amongst road users.

Whereas Vision Zero can be summarized in one sentence: No loss of life is acceptable.

Whereas in June 2019 the City of Brampton Council adopted the Vision Zero framework as the foundation to ensuring that our roads are safe for all that use them through a data-driven effort by prioritizing emphasis areas, coordinating with partners and stakeholders to improve road safety and implementing new or expanded safety countermeasures.

Whereas in September 2020 the City of Brampton Council implemented the use of Automated Speed Enforcement (ASE) cameras to decrease speeding in all community safety zones.

Whereas on December 10, 2020 the City of Brampton Community Safety Advisory Committee established a Road Safety Advisory Sub-Committee to address traffic related fatalities and speeding.

a. Pursue the recommendation of Ruinification and symbolic conservation of the Snelgrove Baptist Church heritage building. This allows retention of the building in-situ, that the subject building is under-utilized, and that the exterior condition is degrading.

- iii. Disconnecting services, e.g. water;
- iv. Removing the front vestibule, salvaging the bricks for on-site reuse and salvaging the primary door;
- v. Removing the window frames and glazing;
- vi. A blind window approach where openings can potentially be infilled;
- vii. Initially retaining the roof but eventually removing or replacing it: the basement could potentially be filled, and alternate drainage provided if it was removed.

c. To complete this approach, the following is recommended:

- i. A conservation plan related to the reunification approach to address issues such as stabilization and adjacent landscaping;
- ii. Heritage permit and documentation as required by the City of Brampton;
- iii. Thorough documentation of the existing condition prior to any work;

WHEREAS the Stage 2 Environmental Assessment (design and route of Highway 413) undertaken by the previous provincial government was shelved because of strong objections by an Expert Advisory Panel in the fields of rural development, renewable cities, agriculture, environment, and efficient transportation who sounded alarms over predicted irreversible ecological harm caused by the uncontrolled, low density urban sprawl enabled by Highway 413 and identified several other solutions that should be reviewed; and

WHEREAS the current Provincial government revived the Highway 413 proposal in 2018, saying it could relieve congestion issues in the fast-growing Toronto suburbs and boost Ontario's economy in the absence of addressing any of the concerns set out in the Expert Advisory Panel Report; and

WHEREAS the Federal Government designated the GTA West Corridor/Highway 413 as a project that has the potential to have adverse negative impacts on critical endangered species habits under federal jurisdiction on May 3, 2021 and is still awaiting for the initial project description from the Province of Ontario's Ministry of Transportation; and

WHEREAS even if built Highway 413 will not provide any congestion relief for at least ten years and Highway 407 offers a solution to immediately provide congestion relief; and

WHEREAS the current toll rates provide a disincentive to increase usage of the Highway 407 ETR and this results in increased usage and congestion on surrounding local and regional roads; and,

WHEREAS the 407ETR was created as a truck by-pass in order to relieve congestion on Highway 401, but the 407ETR was tolled, thereby limiting the amount of relief provided by the 407ETR; and

WHEREAS several reasonable road improvement alternatives to Highway 413 exist and were recommended by the Expert Panel, including congestion pricing on other highways, shifting truck traffic to the under-utilized 407ETR including the reduction or elimination of tariffs, and transportation system management on other highways (ramp metering, speed harmonization. (freight, rail improvements, underpasses); and

WHEREAS on February 22, 2022 the provincial government announced removing tolls on highway 412 and 418; and

WHEREAS maximizing use of existing infrastructure, transit investments and good land use planning decisions are vital to creating complete communities which are economically vibrant, where people and goods are moved effortlessly, and where multiple modes of transportation support the community including a focus on active transportation; and

WHEREAS the City of Brampton spends approximately \$1,000,000 a year on 407 toll charges to support Brampton Transit routes; and

WHEREAS analysis has shown (<https://ontario.transportation.ca>) that investment in various unfunded rapid transit projects, including GO Transit and LRT/BRT projects, can move 4 times the number of people as Highway 413, for the same invested dollars; and

WHEREAS 407 International Inc. was granted relief by the Province from traffic volume penalties in 2020 and could be amenable to negotiation to provide tariff relief on its highway in lieu of penalties for 2021; and

WHEREAS the Canadian Pension Plan Investment Board (CPPIB) is a 50.01% shareholder of 407 International Inc.; and

WHEREAS CPPIB believes it is their responsibility to take Climate Change into account to ensure sound investments as we transition to a low carbon economy; and

WHEREAS CPPIB seeks to work with high emitting investors to and discuss strategies to help manage and improve GHG emissions; and

WHEREAS supporting increased usage of Highway 407 ETR would be consistent with CPPIB approach to Climate Change and assist all levels of government achieving progress on GHG emission reductions and provide immediate congestion relief; and,

NOW THEREFORE, BE IT RESOLVED:

THAT the Council of the City of Brampton strongly supports initiatives that will promote better utilization of the existing Highway 407 ETR; and

THAT the City of Brampton advocate to have the provincial government pay for the toll charges associated with transport trucks and Brampton Transit routes; and

THAT the Council of the City of Brampton continues to support an integrated GTHA rail transit network which includes new GO Train service to Bolton (Caledon); and

THAT the Council of the City of Brampton fully supports a complete Federal Environmental Impact Study pursuant to s.9(1) of the Impact Assessment Act (I.A.A.), prior to any advancement of Highway 413; and

THAT the Council of the City of Brampton requests that the Government of Canada, the Province of Ontario work with the CPPIB and 407 International Inc., and the CPPIB to discuss strategies to increase Highway 407 ETR usage to provide immediate congestion relief on surrounding roads consistent with the recommendations of the Expert Advisory Panel Report; and

THAT if Highway 413 does not proceed, that capital costs of funding the proposed GTA West Corridor should be redirected to provide for rapid transit for the Regions of York, Peel and Halton such as investment in improved GO service on the Kitchener and Milton lines, a new GO transit line to Bolton, 407 Transitway and BRT on Queen Street; and

THAT the Council of the City of Brampton recommends that the province undertake a comprehensive economic benefits analysis of the potential for transit orientated communities along the GO Rail Transit Network and any new LRT/BRT lines for the Greater Golden Horseshoe as well the GTA regional transportation plan / sustainable communities strategy to provide holistic comprehensive policies for achieving affordable housing near transit-oriented communities stations; and

THAT a copy of this resolution be provided to the Region of York, Peel and Halton, the cities of Richmond Hill, Vaughan, Markham, Mississauga, Toronto and the Towns of Milton, Orangeville and Halton Hills; and

CW211-2022

Whereas violence against women is a Canadian public health crisis that demands urgent action; and

Whereas one in four women experience domestic violence in their lifetime. One woman or girl is killed every other day, on average, somewhere in our country; and

Whereas the most dangerous time for a victim of abuse is when she separates from her Partner; and

Whereas, the current Canadian court system is not equipped to protect women. According to the National Judicial Institute, there is no mandatory education for Judges on domestic violence. Judges need education on what constitutes domestic violence or coercive control. A formal education program would ensure another line of defense for victims, as well as preventing violence and abuse before it happens; and

Whereas, the COVID-19 pandemic has only exacerbated the domestic violence crisis. Women's shelters and crisis centres have reported a marked increase in requests for services this year. The concerns for children are significant. According to recent research from The Children's Hospital of Eastern Ontario, doctors have seen more than double the number of babies with serious injuries as this time last year. These include head injuries, broken bones or in some cases death. Institutions across the country are reporting a similar trend; and

Whereas, in 2020, Peel Police responded to more than 18,000 incidents of family and intimate partner violence. On average, that's 50 disputes every day or 2 every hour. That's just what gets reported. Most incidents are not reported. Family and intimate partner violence is any type of controlling or threatening behaviour, physical or sexual violence, or abuse between intimate partners or family members. In Peel, over 85% of those that report this type of violence are women, with the highest reported rate in the ages 25 to 34. This includes women of any race, sexual orientation, religion or economic background.

Whereas, abuse is the attempt by one person to control another using fear, violence or intimidation. Abuse is not just physical but emotional, sexual, financial and psychological; and

Whereas, according to Article 19 of the UN Convention on the Rights of the Child, children must be protected from “all forms of physical or mental violence, injury or abuse, neglect or negligent treatment, maltreatment or exploitation, including sexual abuse, while in the care of parent(s), legal guardian(s) or any other person who has care of the child.” Our current family justice system often fails our children in this regard; and

Whereas, in worst case scenarios, children are killed by a violent parent. As reported by the Canadian Domestic Homicide Prevention Initiative, recent separation and domestic violence are the two biggest risk factors for domestic violence related child homicides; and

Whereas, custody disputes are an additional risk factor. Each year in Canada, about 30 children are killed by a parent. Mothers are responsible about 40 per cent of the time, often due to postpartum depression or mental illness. In the 60 per cent of cases where fathers are the murderers, anger, jealousy or post-separation retaliatory revenge are the usual motivations; and

Whereas, Keira’s Law is named after four-year-old Keira Kagan, who was killed while in the custody of her father, in 2020; and

Whereas many cases of domestic violence are inappropriately labelled as “high conflict” in the family court system. According to research by Rachel Birnbaum, a Social Work Professor at the University of Western Ontario who specializes in child custody, approximately one third of cases called “high conflict” by the court had substantiated evidence of valid concerns about domestic violence. These cases must be recognized and treated differently by judges; and

Whereas, voting in favour of “Keira’s Law”, contained in Private Member’s Bill C-233, will not only protect victims of violence and children, it will save lives by amending the Judges Act to establish seminars for judges on intimate partner violence and coercive control, and

Now therefore be it resolved that, Brampton City Council calls upon the House of Commons to support Member of Parliament Anju Dhillon's Private Member’s Bill C-233, that will raise the level of education on domestic violence and coercive control for federally appointed Judges; and

Further that a copy of this resolution be sent to:

- The Right Honourable Justin Trudeau, Prime Minister of Canada
- The Honourable Karina Gould, MP, Minister of Families, Children and Social Development

- The Honourable Candice Bergen, Interim Leader of the Conservative Party of Canada
- Yves-Francois Blanchet, MP, Leader of the Bloc Quebecois
- Jagmeet Singh, MP, Leader of the New Democratic Party
- Brampton MPs

5.2 Potential Councillor replacement due to provincial election

The following motion, moved by Regional Councillor Fortini and seconded by City Councillor Bowman, was introduced:

Whereas Brampton taxpayers elect a city and a regional councillor in their Wards;

Whereas representative continuity is important and expected to ensure responsible oversight and stewardship from the beginning to the end of the elected term of office;

Whereas there exists the potential for a city councillor seat vacancy prior to the end of the 2018-2022 term of office for Wards 7&8;

Therefore be it resolved that, in the event the Wards 7&8 City Councillor position becomes vacant, that former City and Regional Councillor Elaine Moore be appointed to fill the position until the end of the term of office.

Councillor Fortini outlined amendments to the operative clause of the motion, such that the clause read as follows:

Therefore be it resolved that, in the event the Wards 7&8 City Councillor position becomes vacant, that former City and Regional Councillor Elaine Moore be appointed to fill the position until the end of the term of office, and that such appointment be effective upon the declaration of vacancy of the said seat.

Council consideration of the motion included concerns about potential violations of the Municipal Act and the Municipal Elections Act by appointing a Councillor in advance of a seat being declared vacant.

In response to questions from Council, Peter Fay, City Clerk outlined the provisions of the Municipal Act and Municipal Elections Act as they relate to filling a vacant seat on Council.

In response to a request from Council, Sameer Akhtar, City Solicitor, indicated his preference to provide advice on this matter in Closed Session, and noted that should Council choose to hear his advice in Open Session it could prejudice the privilege of the advice. Mr. Akhtar responded to questions from Council.

The following motion was introduced by City Councillor Singh. As the motion was procedural in nature, a seconder was not required.

C166-2022

In response to a request for clarification from staff, Councillor Singh clarified that the staff referral would be to both the City Solicitor and City Clerk for acquisition of a third-party legal opinion. Staff requested that the referral be directed to just one party and Councillor Singh amended his motion to direct the referral to the City Clerk.

The motion, as amended, read as follows.

That the item be referred to staff for the acquisition of a third-party legal opinion, to be obtained by the Office of the City Clerk, and a report back thereon to Council.

At the request of Mayor Brown, the City Clerk provided advice on and outlined the provisions of the Procedure By-law as they relate introducing a motion to defer after speaking to the main motion.

A motion to Call the Question was introduced by Regional Councillor Dhillon. As there were no objections, the motion was deemed to have carried. In accordance with the Procedure By-law, Members who had not spoken on this matter were given the opportunity to do so.

During Council's consideration of this matter, a number of Points of Order and Points of Personal Privilege were raised. Mayor Brown gave leave for some of the Points of Order and Points of Personal Privilege, and not for others.

Members who raised the Points of Order and Points of Personal Privilege for which the Mayor gave leave, outlined comments and concerns relating to topics and opinions expressed during Council's consideration.
