

Term of Council Priorities (TOCP): Mid-term Evaluation & Refresh

Successes & Achievements in 2020:

Refocused priorities in 2021 provide meaningful outcomes for residents while maintaining our commitments

Our 2018-2022 Term of Council Priorities (TOCP)

Our TOCP inform our activities, decisions and budgets. The priorities have corresponding initiatives, designed to make living, working and playing in Brampton pretty awesome... now, and in the future.

As Council reached its mid-point, it was important to reassess the TOCP initiatives to ensure the City continues to invest in projects and initiatives that move Brampton forward while honouring our commitments to residents. In November 2020, the priorities were refreshed, with 16 initiatives for Council focus that will continue our long-term City and community-building efforts.

Brampton is a
City of Opportunities

Intergovernmental Priority

River Walk/Etobicoke Creek Flood Control Project**

Design and construction of flood mitigation works to eliminate flooding in Downtown Brampton from Etobicoke Creek during extreme storm events. Project consists of widening and deepening existing Etobicoke Creek, replacing existing bridges with larger structures to allow passage of floodwaters, and providing increased valley storage for floodwaters by relocating an existing roadway (Ken Whillans Drive).

Intergovernmental Priority

Brampton University*

Brampton is one of Canada’s fastest-growing and youngest cities and home to world-renowned businesses, looking for skilled workers to fill jobs today, and anticipating needs for the jobs of tomorrow. With a priority to bring a full university to Brampton, the City will work closely with the Province, and local and international partners, to lay out the social and economic benefits of this investment and ensure we can develop and retain homegrown talent.

Brampton is a
Mosaic

City Mandated Priority

Brampton Equity Office*

The City of Brampton is excited to introduce a foundational Equity Office to serve its employees and citizens. Brampton is proud to be home to a very diverse, multicultural population and is committed to creating an environment of equity within the government and community. The Equity Office will work to ensure fair and equitable treatment of all individuals and promote a harmonious environment both inside the City and for its residents.

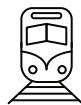

Brampton is a
Green City

Intergovernmental Priority

Queen Brampton Rapid Transit (BRT) Project**

Queen Street is the busiest transit corridor in Brampton. Rapid transit is essential to supporting population and employment growth, improving connectivity and providing a competitive travel choice for Brampton residents. The Queen Street BRT study recommends upgrading the existing Züm services on Queen Street to full bus rapid transit with dedicated lanes along the Viva BRT Rapidway from York Region.

Intergovernmental Priority

Seven Day All-Day/Two-Way GO Train Service**

Seven Day All-Day/Two-Way GO Train Service is a Metrolinx led project that will see bidirectional and more frequent GO Train Service operating seven days a week along the Kitchener Rail Line. The City of Brampton will support Metrolinx’s efforts to further enhance GO Train service between downtown Toronto and Waterloo Region, ultimately leading to full two way, all day GO Train Service along the complete corridor.

Intergovernmental Priority

3rd Transit Facility + Electrification**

Brampton Transit needs to meet rapidly growing ridership demands and maintenance needs of a growing fleet. The proposed new Transit facility will account for parking, operating and maintenance requirements and will consider the needs for a sustainable, electric powered bus fleet.

Hurontario-Main Street LRT Extension Study*

The LRT Extension Study is examining and recommending a preferred Main Street alternative to extend light rail transit from Brampton Gateway Terminal to Brampton GO station in Downtown Brampton. Brampton City Council has approved staff recommendations to update the Hurontario-Main LRT environmental assessment study to include three options — the Hurontario-Main LRT approved route, a Main-George one-way loop, and a tunnel — to extend light rail transit from Brampton Gateway Terminal to Brampton GO station in Downtown Brampton.

Active Transportation Action Plan*

Implement the Active Transportation Master Plan (ATMP) with the aim to develop an integrated, attractive, and accessible system of sidewalks, cycling facilities and trails. The ATMP aims to establish a broad and well-connected active transportation network that will make travel by bike and on foot a safe and desirable option for school, work, recreation and other trips while supporting a cycling and walking culture.

Brampton is a
Healthy and Safe City

2nd Full Service Hospital*

The City of Brampton is focused on providing quality healthcare to Brampton residents and is committed to the development and growth of its health network. The City will continue its Provincial advocacy efforts to secure commitment and funding for another full service hospital (with emergency room).

Brampton Community Safety Action Plan*

Develop a Community Safety Action Plan aligned with the Province’s Community Safety and Well-Being Planning Framework, and the Region’s Community Safety and Well-Being Plan to leverage intergovernmental support.

Accelerated Recreation Centre Revitalization Program**

Balmoral

Demolish the existing 53-year old building with the exception of the lap pool. Construct a new ‘green’ building that offers a flexible gymnasium, and focuses on multi-generational, accessible, and multi-seasonal spaces.

Chris Gibson

Expand the community centre to include another arena ice pad and a multi-sport gymnasium that will double the current facility size and will allow for increased programming opportunities.

Community Safety Office*

Design and implement a Community Safety Office to support the safety and well-being of residents through a community-based approach to address root causes of complex social issues.

** work underway, completion date beyond term

Economic Recovery Strategy/Action Plan*

The Economic Recovery Strategy aims to bring resiliency and competitive advantage to Brampton's economy as it moves forward both during, and after, the COVID-19 pandemic. These goals will be achieved by advancing immediate and longer-term actions in line with the Strategy's four cornerstones: 1. Innovation, Technology and Entrepreneurship 2. Investment 3. Infrastructure 4. Arts, Culture and Tourism.

City Mandated Priority

Fiscal Responsibility/Competitive Taxes**

Incrementally, moving toward the 'middle of the pack' for the Residential Tax Rate (in the GTA).

City Mandated Priority

Customer Service Engagement/Tracking Model*

Provide a Customer Relationship Management System that will ensure timely and effective response to questions/processes/applications from the public, and will ensure seamless transition between various employees and departments on multi-party processes to provide the best service to the public.

City Mandated Priority

Centre of Excellence and Capital Compliance - Project Management Office (PMO)*

Implement a Centre of Excellence and Capital Compliance - Project Management Office to ensure that the City's projects are managed consistently and predictably — delivered on time, on budget and in alignment with corporate priorities. A successful PMO will improve project tracking, reporting, communication and knowledge sharing amongst all stakeholders.
