PROCLAMATION

Living Donation Week

WHEREAS: Living organ donation offers a shorter pathway to better health for many waiting for a kidney or liver transplant but not enough Canadians know about this lifesaving option.

The Centre for Living Organ Donation raises awareness, provides support, promotes research and offers hope to thousands of Canadians waiting for a transplant – and everyone who wants to be part of their future.

Living Donation Week raises awareness of living organ donation and pays tribute to the life-saving gifts of living organ donors, and the incredible resilience of transplant recipients.

Living Donation Week will give hope to those who are currently waiting for a transplant and celebrate the strength and resilience of transplant recipients, living donors and caregivers, and the dedicated transplant teams who make it all possible.

THEREFORE: I, Mayor Patrick Brown, on behalf of Brampton City Council, do hereby proclaim September 10-16, 2023 as “Living Donation Week” in the City of Brampton.

Mayor Patrick Brown, City of Brampton
