

PROCLAMATION

International Stuttering Awareness Day

WHEREAS: Stuttering is a common communication difference experienced by people of all ages and backgrounds.

Hundreds of thousands of Canadians stutter, and people who stutter make valuable contributions to families, schools, workplaces, communities, and Canadian society.

People who stutter may experience stigma, misunderstanding, discrimination, and barriers to full participation in society.

International Stuttering Awareness Day provides an opportunity for communities to learn about stuttering, celebrate people who stutter, challenge misconceptions, and promote inclusion and accessibility.

THEREFORE: I, Mayor Patrick Brown, on behalf of Brampton City Council, do hereby proclaim October 22, 2026, as "International Stuttering Awareness Day" in the City of Brampton.

Mayor Patrick Brown, City of Brampton
