Brampton 2040 - Official Plan Review

Starting in late 2016, the City of Brampton is developing a new Official Plan.

What's an Official Plan?
It's the comprehensive plan that helps manage how Brampton grows and develops. It guides the location and type of housing, industrial and commercial areas, as well as infrastructure needed to support a growing city — including streets, parks, transit, schools and new facilities.

Why are we undertaking this project?
Our Official Plan is a legal document that must conform to, and be consistent with, provincial and regional plans. We're required to review and update it every 10 years. The results of this effort will affect the community's needs. This update will provide the policy framework needed to make our Brampton 2040 Vision a reality.

Keep an eye on this page over the coming months to learn more about the review and how you can get involved.

Brampton 2040 Speaker Series

Four meetings: 10 Speakers / Hundreds of Ideas

The Brampton 2040 Speaker Series is a part of a larger project which is developing a new Official Plan for the City of Brampton that will implement the Brampton 2040 Vision. In 2017, the City of Brampton undertook the Brampton 2040 Vision process following a successful public engagement in 2016.

Ken Greenberg

Ken Greenberg is an urban designer, teacher, writer, former Director of Urban Design and Architecture for the City of Toronto and Founding Chair of Greenberg Consultants. For over four decades, he has played a vital role in public and private engagement in urban settings throughout North America and Europe. Focusing on the rejuvenation of downtowns, waterfront neighborhoods and campus master planning, regional growth management and new community planning, Greenberg has extensive knowledge of community engagement and public participation. He will provide an overview of how Brampton can take on the changes that are taking place around the world and how we can learn from the experience.

Our Vision is the long term goal for our city.

GUIDELINE EXAMPLE

Scale: Plan of Subdivision or Site Plan

Theme: Mobility

Indicator: Walkability

Guideline: Ensure neighbourhood permeability by designing block lengths of 150 to 180 metres in length (no more than 250 metres) to promote active transportation and dispersed traffic movements. Street block length is generally shorter closer to neighbourhood centres.
MEASURING SUSTAINABILITY OF NEW DEVELOPMENT

• Program developed in partnership with Vaughan and Richmond Hill
• Quantify sustainability performance of new development
• ~50 sustainability metrics with points attached
• Three performance tiers:
  1. Mandatory Requirements = municipal standards
  2. Recommended Minimum = “doing better”
  3. Aspirational = “best in class”
• Three score thresholds: Bronze, Silver, Gold

Committee Structure/Responsibilities:

Purpose: The Brampton Transit Advisory Committee provides advice and recommendations to Council, from a community perspective, on topics and issues relating to the provision of public transit services and public transit infrastructure in the City of Brampton. The Committee also provides Brampton Transit staff with ongoing insights and advice with respect to enhancing the customer experience onboard Brampton Transit vehicles, at Brampton Transit facilities, and during interactions with frontline transit staff. The Committee would not have the authority to regulate or direct Brampton Transit, nor would it be responsible for matters related to the daily operations of Brampton Transit.

Mandate: The Transit Advisory Committee will provide advice and recommendations to Council on:
- Alignment between Council and staff on high-level City of Brampton plans and studies with respect to the City’s policies and objectives on transit matters
- Plans, studies, or initiatives of other levels of government, surrounding municipalities, and other local authorities, industry organizations, or non-governmental organizations that could affect the provision of public transit in the City of Brampton
- Implementation of Provincial and Federal legislation, policies, or guidelines in relations to the provision of public transit in the City of Brampton
- Priorities on transit matters of local and/or regional significance

The Transit Advisory Committee will:

- Act as a sounding board to Brampton Transit staff
- Serve as a forum that promotes dialogue and information exchange between Brampton Transit staff and the Transit Advisory Committee
- Review and comment on Provincial and Federal policies/planning documents, as well as high-level municipal plans and studies, with respect to the provision of public transit services
- Conduct research and prepare reports on matters within the committee’s mandate
The subject matters that fall under the mandate of the BTAC will include:

- Provincial and Federal policies, plans, and studies
- High-level municipal policies, plans, and studies (e.g. Brampton Transit 5-Year Business Plan)
- Brampton Transit Performance Indicators and Customer Charter commitments
- Transit policies and guidelines
- Ease of use and accessibility
- Customer service
- Customer safety
- Customer communication
- Major transit infrastructure projects
- Advocacy and public awareness of the City’s policy objectives and priorities with respect to transit matters in Brampton

Meetings: Scheduled meetings will be held three times per year (Q1, Q2, Q4), or at the call of the Chair, and scheduled by the City Clerk in consultation with the Chair and the Committee.
