I know how to do simple bike repair
Satisfaction with the program

4.47 out of 5
“Basically, I just love everything about the Bike Hub! How well organized it is with all the relevant information promptly communicated through e-mails and posts on the Website. Besides Pedalwise/BikeWrx schedules, the Bike Hub Website so up-to-date and has a very useful content, links and maps concerning growing active transportation in the community and road safety.

I love learning about bike maintenance and repairs - it is very empowering knowing that I can probably manage OK by myself and not get completely stranded somewhere on the road.

I love the rides guided by our mentors, from whom I learn how to plan the routes that combine less busy or paved-shoulder roads with trails and multiuse pathways, how to safely make left-hand turns, where to wait on red lights to not obstruct the right turning cars, the riding skills and techniques, etc.

I love the venue where we can bring our bikes right inside and get a helping hand and guidance from the (so patient and knowledgeable) certified bike mechanics on the drop-in evenings. And I love the social aspect of these meetings where we can exchange tips and advice and then also go out together to various local destinations and events.”
Stories

- In addition to statistics, many human interest stories about how the bike hub has affected people’s lives positively
- Impacted both protégés and mentors
- See final report for details
Accomplished within a social and fun atmosphere
