

No encampment zones

Includes blocking public rights-of-way to sidewalks, streets, trails, medians, regional or municipal facilities (e.g., accessible entrances and ramps, park restrooms, community centres, parking lots, libraries, fire, paramedic or police stations, or under bridges)

Prominent municipal spaces regularly used for public gatherings

Municipal facilities where events with a permit are scheduled

Sites located within floodplains

Obstructing critical infrastructure sites

Active construction sites

Playgrounds, sports fields, and any fenced-in, off-leash dog area

On any community garden and in any garden shed or greenhouse

On or within any designated fire route, or the entrance to or exit from a designated fire route, or located so as to block any fire hydrant

On or within areas prone to erosion, slope instability, not serviced in winter, or other environmental hazards, due to risks to health and safety

Non-municipal lands

Schoolyards, daycare centres, playgrounds, and sports fields on schoolboard property

Conservation areas

Transit stations and networks such as Metrolinx GO stations and other municipal transit agencies

Note: No temporary shelter or tent will be placed against, under or be attached or tied to any building or permanent structure. All shelters and tents must be freestanding. Areas that are not serviced during the winter are prohibited sites for encampments.

Developed by the Peel Encampments Working Group
