Dear Resident and/or Property Owner

NOTICE TO INDUSTRIES, BUSINESSES AND PROPERTY OWNERS

Re: Noise Attenuation Wall Construction along Williams Parkway From West of Harridine Road to East of North Park Drive

City of Brampton Contract: T2018-045

As a follow up to City of Brampton's Notice of Construction dated October 3, 2018, we are providing a second update on the construction schedule.

The removal of existing rear wooden fence and the installation of proposed wall from West of Harridine Road to Main Street will commence Thursday, April 11, 2019. The estimated construction completion of the section from West of Harridine to Main Street is scheduled to be completed by end of June, 2019.

Brennan Paving is the General Contractor on this project and IBI Group will provide Contract Administration and Inspection services on behalf of the City of Brampton.

As requested earlier, please ensure that the backyards are clear of any obstructions at this time. Construction may affect resident's lawn-ornaments or utilities, i.e. gardens, lawn sprinklers, hedges, etc., that may be encroaching on City property. It is the owner's responsibility to remove such items to avoid any damage, and you are requested to do so as soon as possible. Please notify us of any concerns with such items. Existing rear fence will be removed and initially be replaced by temporary fence which will remain for four to six weeks until the permanent proposed noise wall is installed.

Every effort will be made to complete this essential work as quickly as possible and with the least inconvenience to the community. We look forward to working with you, having our Contractor complete this project in a professional and timely manner. You may visit our website <http://www.brampton.ca/roadworks> for up-to-date construction information, or call 311 for more information.

Thank you for your co-operation.
