NOTICE OF STUDY COMPLETION

Municipal Class Environmental Assessment (EA) - Environmental Project Report Denison Avenue Extension from Park Street to Mill Street

The Study

The City of Brampton has completed a Schedule 'B' Municipal Class Environmental Assessment (Class EA) for the extension of Denison Avenue from Park Street to Mill Street (see map). The road extension was identified in the City of Brampton Transportation Master Plan Update, 2015.

The study assessed the need for the road connectivity, traffic operations, cross-sectional elements, alternative road alignments, and the overall impact of such improvements on the social, cultural and natural environments.

The Process

The study was carried out in accordance with the planning and design process for Schedule 'B' projects as outlined in the Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015), which is approved under the *Ontario Environmental Assessment Act*. The study has satisfied Phase 1 (problem or opportunity), Phase 2 (alternative solution, alternative designs and completion of an Environmental Project Report) of the Class EA process for the extension of Denison Avenue.

A key component of the study was consultation with interested stakeholders (public and agencies), including one Public Information Centre (PIC). A Notice of Study Commencement inviting initial input was published on January 24, 2019. A Stakeholder Group Meeting was held on September 10, 2019 followed by a Public Information Centre (PIC) on September 19, 2019. Following these consultations the preferred design alternative was reviewed considering comments received and modified as required. The recommended alternative for Denison Avenue includes:

- Extension of Denison Avenue with two lanes
- Urban cross-section with curb and gutter on both sides.
- On Road shared cycle lane and a 1.8m sidewalk on the north side.:

Environmental Project Report

The Environmental Project Report (EPR) has been prepared to document the Class EA planning and decision-making process undertaken for this study. By this Notice, the EPR is being placed on City of Brampton's web site for a public review period (starting June 4, 2020 and ending July 20, 2020) in accordance with requirements of the Municipal Class EA process. The EPR is available for review at the following link: www.brampton.ca/DenisonEA

If concerns regarding this project cannot be resolved in discussions with the City, a person or party may request that the Minister of Environment, Conservation and Parks make an order for the project to comply with Part II of the *Ontario Environmental Assessment Act* (referred to as a Part II Order). You must use a Part II Order Request Form available at www.ontario.ca/page/class-environmental-assessments-part-ii-order to request a Part II Order. To submit your Part II Order Request, you must complete the form and include your name and address, project name, proponent name, specific reasons why the request is being made, why a higher level of environmental assessment would address your concerns, information about efforts to date to discuss and resolve concerns with the proponent, the outcome you are seeking from the minister and other matters relevant to the request. Unless you state otherwise in your request, any personal information you provide will become part of the public record and will be released, if requested, to any person. Requests for a Part II Order must be received by the Minister, at the addresses below, by July 20, 2020. A copy of the request must also be sent to the Director of Environmental Assessment Branch and the City's Project Engineer at the addresses indicated below. If no request is received, the City of Brampton intends to proceed with detailed design and construction as outlined in the EPR.
