

NOTICE OF CONSTRUCTION

June 11, 2018

To the Residents of Pantages Court

The City of Brampton's road resurfacing contractor will be repairing your street in the near future. These repairs will include: **road asphalt, curbs (as marked), sidewalks (as marked), catchbasins and sewer access covers.** Work will take place Monday to Friday from 7:00 am to 6:00 pm, and occasionally on Saturdays. Here is some additional project information you will need to know:

1. **Driveway Access and Repairs**

Driveway access may be interrupted due to curb and/or sidewalk replacement, but this inconvenience will be kept to a minimum. If you are unable to enter your driveway due to construction, please park your vehicle on an adjacent side street or elsewhere in order to accommodate construction activities. If your driveway is damaged by construction, repairs will be done following the curb and sidewalk repairs. **Residents are advised that entering into a contract with contractors working on the City's project for additional work on private property shall be done at the homeowner's discretion. The City cannot be involved with any private contracts.** For more information, please contact 311.

2. **Parking**

All parking signs and regulations must be obeyed when parking on adjacent streets. The *Parking 2:00 am to 6:00 am Prohibited By-law* and the *Parking in Excess of 3 hours By-law* will be waived for residents unable to access their driveway. Vehicles impeding the construction will be tagged and towed by the City's Parking Enforcement. **Please contact 311 about the waiving of the above by-laws to ensure that your vehicle is not tagged.**

3. **Encroachment**

Construction may affect private lawn features within the city boulevard. Homeowners are responsible for removing items such as **gardens, lawn sprinklers, hedges, driveway timber/concrete edges, etc.** to avoid unintentional damage due to the construction. **Sprinkler systems and lawn features mentioned above that are damaged by the construction work will not be repaired.** For further clarification on property limits, please contact 311.

4. **Network Outages**

Due to the nature of the work, it is common for network outages to occur on telephone, cable and/or internet services. Please note that any outages that are discovered Monday to Friday between 7:00 am and 3:30 pm can be reported to the City of Brampton at the number below. Outages discovered outside of these times should be reported to your service provider.

5. **Sod**

Grass boulevards damaged by construction will be repaired following the curb and sidewalk repairs. Please note, only the boulevard area impacted by the construction will be repaired as the City does not provide full boulevard replacement. In an effort to keep the City "Clean and Green", we appreciate your efforts to water and maintain the new sod.

6. **Contact**

We look forward to working with you in having our contractor complete this project in a professional and timely manner. If you have questions about this project, please call **311**, or visit **www.brampton.ca/roadworks** for up-to-date construction information. You can also follow **@BramptonRoads** on **Twitter** or like **BramptonRoads** on **Facebook**.

Thank you in advance for your co-operation and patience.
