

Carbon Monoxide Alarms

It's The Law

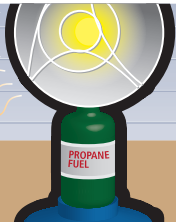

If your CO alarm activates, get out and stay out. Call 9-1-1 right away.

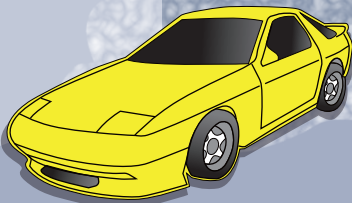

- Have a working carbon monoxide alarm adjacent to every sleeping area

- Never cook with barbecues or propane cookers inside the home or garage

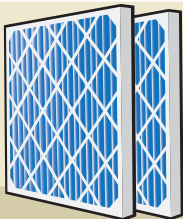

- Never use propane heaters inside the home or garage

- Never warm up a vehicle in the garage

- Have your furnace cleaned yearly by a qualified professional

- Change your furnace filter regularly

- Have a qualified professional clean your chimney yearly
