Official Plan Review Discussion Paper Workshops August 10, 2005

The Official Plan is our Blueprint for the future. It establishes goals, objectives and policies to guide the overall physical development of the City for the next 20 to 30 years.

In accordance with the Planning Act, the City has initiated a strategic review of the Official Plan in 2002 to address a number of policy areas including:

- New Growth Forecasts
- Retail
- Office
- Environment/Open Space
- Urban Design
- Cultural Heritage

Policy reviews for each area are complete. Proposed directions for changes to the Official Plan are presented in a series of Discussion Papers for public consideration and input. These Discussion Papers and relevant information for the Official Plan Review are available on our City website http://www.city.brampton.on.ca/official_plan/home.tml?rnav=97.

Workshop sessions are now scheduled to hear your feedback on the Discussion Papers:
