Norval Quarry Proposal Stakeholder Update #18

Brampton Brick Limited, Application for a Category 2 Licence under the Aggregate Resources Act

Dear Stakeholders,

The City has received Brampton Brick's Notice of Objector Response and has 20 days to respond to the applicant and the Ministry of Natural Resources (MNR). The 20-day period ends on October 1, 2012. The response sets out 10 issues that are intended to demonstrate how Brampton Brick will resolve objections. Staff will be reporting on this matter to the City Council meeting of September 26, 2012.

Brampton Brick is required to complete the Aggregate Resources Act (ARA) Licence process within two years of submitting an application to MNR or the application is deemed to be withdrawn. The two-year period ends on November 4, 2012.

Before the conclusion of the two-year period, Brampton Brick must submit the complete documentation of notices, consultation, attempts to resolve objections, letters from the objectors, and withdrawal letters to the MNR or their licence application will be deemed withdrawn.

If you have received Brampton Brick's Notice of Objector Response, you should be aware of the following:

- Objectors may accept the proposal and accordingly withdraw their objection(s) in writing, or, may reiterate in writing that their concerns have not been addressed and that they wish to continue with their objection(s) as they stand.
- If the recommendations are not delivered in person or by registered mail to Brampton Brick and on or before the 20-day deadline of October 1, 2012 as outlined in the Final 20-Day Notice Letter from Brampton Brick, it will be deemed that the Objector no longer has an objection. Email responses will not be accepted.

Contact information for Brampton Brick and MNR is as follows:

Brampton Brick Limited
225 Wanless Drive
Brampton, ON
L7A 1E9

Ministry of Natural Resources
Aurora District Office
50 Bloomington Road West
Aurora, ON
L4G 3G8

After all of the documentation is submitted to the MNR within the two-year period, the MNR has 30 days to either:

- Recommend that the Minister of Natural Resources issue or refuse to issue an Aggregate Licence; or,
- Refer both the rezoning and licence applications to the Ontario Municipal Board (OMB).
