

NOTICE OF FIRST PUBLIC INFORMATION CENTRE

Torbram Road Improvements From Queen Street East to Bovaird Drive Class Environmental Assessment Study

The Study

The City of Brampton is carrying out a Municipal Class Environmental Assessment (EA) study to identify transportation improvements to Torbram Road from Queen Street East to Bovaird Drive (see map). In order to best address operational deficiencies and need for additional north-south capacity in the area, a number of alternatives are being examined as part of the study. Alternatives include the potential widening of Torbram Road to six lanes, intersection improvements, active transportation, transit improvements and the impact of such improvements on the social, cultural and natural environments.

The Process

The study is being carried out in accordance with the planning and design process for Schedule 'C' projects as outlined in the *Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011, 2015), which is approved under the Ontario Environmental Assessment Act. The first PIC is scheduled for:

Date: Thursday November 16, 2017
Time: 6:30 PM to 8:30 PM (Drop-in-Centre)
Location: Professor's Lake Recreation Centre
1660 North Park Drive Brampton, ON L6S 5S8

Anyone with an interest in the study is invited to attend and participate. If you cannot attend and would like to provide comments, please forward them by November 30, 2017 to the City of Brampton or the consultant Project Manager at the addresses below. Following the PIC, the preliminary preferred solution will be reviewed in light of comments received and the preferred solution will be determined. A second PIC is tentatively scheduled for Spring 2018.

Comments Invited
